Ruftuf® End Brushes

- Rugged, knot-type brushing tools
- Excellent for cleaning pipe ID, and removing rust, weld scale and spatter from external surfaces

Applications:

- Rubber and plastic mold cleaning
- Removing rust and paint
- Weld cleaning
- Cleaning castings
- Burr removal
- Removing rubber flash
- ID pipe cleaning
- Cleaning and finishing recessed areas
- Carbon removal
- Spot facing

†The 1-1/4" arbor hole brushes have two 1/4" x 1/8" keyways

Weiler Dually Stringer Bead Wheels - "Flip 'N Fast" Dual-Hex Nut Design

- Simplifies periodic flipping of the wheels for maximum cutting, long life, and safer use
- Featuring a knot twist with the most aggressive cutting action, the new dual-hex nut makes it easier for the user to regularly switch mounting position and keep the brush running at peak performance
- Highest quality heat-treated steel wire and construction that delivers smooth operation and long life
- Hex nut design provides adequate tool clearance
- No need to remove the guard from the right-angle grinder

Composite Hub Nylon Abrasive Wheels

- Composite hub radial wheels offer a safe, durable alternative to wire and non-woven abrasive wheels
- Their construction and flexibility provide a long lasting wheel, less filament breakage and superior performance
- Maximum recommended RPM 3600

Hex-Drive Abrasive Disc Brushes

- Designed for use in semi and fully automatic machinery, including NC, CNC and robotic machine tools
- Unique Hex-Drive™ system allows the tools to be turned in both directions for 360 finishing
- Applications include deburring, edge radiusing and general surface finishing

WEILER Nylox® Abrasive Nylon Filament Brushes

Wheel Brushes

- Nylon filament is uniformly impregnated with silicon carbide thoughout
- As filament wears, new, sharp abrasive grain is constantly exposed to the work surface, providing a consistent brushing action and longer brush life
- Deburr edges on aluminum extrusions, machined and powdered metal components
- Edge blending of ferrous and non-ferrous parts
- Decorative finishing on stainless steel, aluminum and brass
- Use off-hand or in automated deburring processes
- †1/2" x 1/4" Double Keyway

WEILER Composite Metal Hub Wheels

- 50% Higher filament density than traditional metal hub brushes - the highest in the marketplace
- Constructed with a steel shell,
- Brushes provide increased accuracy and dimensional stability to ensure consistent, efficient performance with minimal vibration during use.
- Produced with a 2" arbor hole, which allows for direct mounting on various equipment without any need for adapters

Loctite® Clover® Silicon Carbide Abrasive Compounds

- Clover lapping and grinding compounds are perfectly suited for the cutting, smoothing and finishing of metal surfaces and for the precision mating of metal parts

Applications Include:

- Cleaning corroded threads
- Tool & die machining
- Lapping for surface finish & flatness
- Cleaning mold cavities
- Valve rebuilding
- Die hole lapping
- Smoothing gears fro correct tooth profile
- Removing tool marks

Grease Mix Carrier - Retains its texture and lubrication properties during extended use

Water Soluble Gel Carrier - Cleans up with water, is biodegradable.

Hazard Code: 57

Diamond Polishing and Lapping Compounds

All Compounds are Uniformly and Permanently Blended

- For heavy stock removal and precision finishing
- **Compounds are oil soluble**
- **Disposable plastic syringe to protect against impurities and for convenience**

Applications Include:

- Striking dies, heading dies
- Carbide drawing dies, injection molds
- Ceramic, steel and carbide tools

NORTON Diamond Polishing and Lapping Compounds

- Performs on all materials - hard and soft
- Excellent for mold, die and tool polishing, polishing to final tolerance of ceramic parts, initial charging of lapping plates and discs, and other processes that require mirror finish and close tolerance performance
- Use oil soluble when solvent is used for clean-up and water soluble when soap/water is used for clean-up
- Diamond powders uniformly distributed in a liquid vehicle
- Easy to use plastic syring

Felt Polishing Flap Discs

Type 27 (Flat)

- Flap discs of 100% wool felt affixed to a fiberglass backing plate to create a thick polishing pad
- The individual flaps are flexible, and allow a cool air flow
- Felt discs are used with polishing compounds or pastes to provide up to a mirror finish. Ideal for work on irregular or contoured surfaces
- Felt products should always be run at lower speeds than coated abrasives this will extend disc life and improve the finish
- Minimum ordering quantities would apply

Available in other densities:

- D=Flap Thickness, H=Felt Density
- Custom products also available in less dense (H18) and more dense (H52) grades of felt

Mitutoyo Digimatic Micrometers

SERIES 293 MDC- Lite

- Carbide tipped measuring faces
- Uses (1) SR44 battery (included)
- Large LCD screen
- Resolution .00005” / 0.001mm
- No data output
- Supplied in fitted case
- Replacement battery order number is KA56357BP3

Measuring Range	Thimble Type	Order No.	Price
0 - 1 / 0 - 25.4mm	Friction Thimble	**MT80293-832-30**	Price
0 - 1 / 0 - 25.4mm	Ratchet Stop	**MT80293-831-30**	Price

Mitutoyo Quickmike

with Absolute Encoder

- Quick non-rotating spindle
- Absolute Encoder
- IP-54 protection resists water splash & shop floor contaminants
- SPC data output

Starrett 0 - 1" Electronic Micrometer

Model No. 3732XFL-1

New!

- Extra large digital display
- Automatic off after 30 minutes of non-use
- Smooth friction thimble for uniform pressure
- Micro-lapped carbide faced spindle and anvil
- Balanced frame for comfortable and accurate measuring
- Ring-type knurled lock nut for quick and sure locking
- Uses a single CR2032 3V battery
- Fitted plastic case

Fowler 9 Pc. Micrometer Calibration Set

- Grade Ø steel gage blocks
- Assists in meeting both Federal specification GGG-C-105c and ISO 9000 requirements
- Contains one block of each of the following sizes: .0625, .100, .125, .200, .250, .300, .500, 1.000, & 2.000″
- Two optical flats that vary in size by .0125″
- Certification to NIST on each block and supplied with fitted wooden case
- Meets grade Ø specifications.

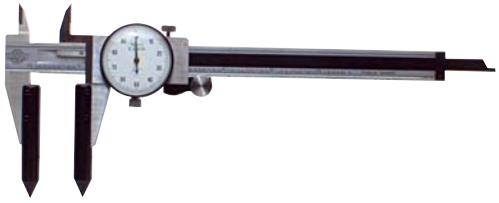
PROCHECK Centerline Gages

- Measures hole to hole centers quickly and easily
- Attaches to most 4-6-8” calipers
- 60° Conical points, hardened steel, black oxide plated
- Comes with all mounting hardware and instructions
- **Caliper NOT included**



Order No.	Price
NB75Z9009	Price

PROCHECK Universal Caliper Accessory Kit

- Outfits any 4-6-8” caliper, and measures places otherwise impossible to reach
- Thousands of applications, installs in seconds
- Kit contains 2 caliper bodies, 1 pair contact points each in flat, conical, stem and ball end styles, set screws, wrench, and complete instructions
- Caliper NOT included

Order No.	Price
NB75Z9020	Price

PROCHECK Groove Measurement Caliper Jaws

- Complete set of accessory jaws that fit on any 6” caliper
- Many applications, including undercuts, and grooves of all types
- Works with dial, vernier, and electronic calipers
- Measuring capacity from .200” to 6” in diameter
- Manufactured in the USA of cold rolled steel
- Black oxide finished for protection
- Sets come in fitted case
- Priced and sold per pair

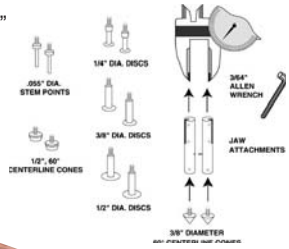
Centerline Plus Accessory Kit

Fits all Brown & Sharpe and competitive 6” dial, digital, and vernier calipers — jaw attachment slots are manufactured to .140”.



Features:

- Exclusive interchangeable centerline cones
- Measure places otherwise impossible to reach with a regular caliper — undercuts, grooves, webs, and shoulders
- Exclusive 4-48 threaded holes in accessory jaws allow the use of any AGD Standard point equipped with 4-48 threads — has virtually unlimited uses
- Long life — corrosion protection
- Permanent alignment

Mitutoyo Series 2 One Revolution Dial Gage

- One-revolution dial indicators are nearly fool-proof in their operation, since the indicator needle travels around the dial face only once per the full stroke of the spindle
- Strengthened against shop contaminants with a stronger seal, and more robust gear mechanisms make this tool more resistant to rapid spindle motions and shock

Available in full metric and bore gage type

Mitutoyo IDS Digimatic Indicators
With Absolute Encoder

- Absolute Encoder Technology maintaineds all settings for the life of the battery
- Conforms generally to Group 2 dial indicator dimensions
- Measuring range: 0-5"/0-12.7mm
- Functions: origin, on/off, in/mm +/–
- Data output: SPC digimatic output
- Stem diameter: .375" -.0012"
- Contact point .16" (dia.) steel ball (4-48 UNF)
- For SPC output order connecting cable MT80905338 (1m) or MT80905409 (2m)
- "B" Indicates flat back

Fowler Two Dimensional Co-Axial Indicator Set

The 2D Coaxial Set for accurate component centering and positioning in most machining applications. The 2D Coaxial Indicator can be used at any angle and the dial remains stationary during the rotation of the machine spindle.

Features:
- Indicator assembly with 1.6”/42.5mm diameter dial
- Graduations and revolution counter .0005”/0.01mm
- 3 Internal and external feelers
- Center point feeler
- Restraining arm
- Complete in a fitted case

Specifications:
- Length: 6.875”
- Shank: 3/8” dia. x 7/8”
- Feeler ball: 1/8” dia.
- Dial readings: 0-50
- Measuring range: .250” axis offset
- Speed — recommended not to exceed approx. 800 RPM
- Locating accuracy to within .0002:/0.005mm of true center
- Capacity depends on feelers installed, but overall range is 5/32-12” internal diameter; 0-12” external diameter

Co-Axial Centering Indicators

MADE IN THE USA

For Quick Centering on Milling and Boring Set-UP

Using the Table X and Y Controls, move the workpiece until the indicator needle is stationary. Use in vertical or horizontal milling operations. Quickly changes from internal to external.

Features:
- Operates at any angle
- Dial remains stationary while spindle rotates
- Internal or external diameters
- Set includes internal feeler, external feeler, retaining arm and case
- Capacity: ID 5/32 to 4-1/4” Dia.; OD - 0 to 4-1/4” Dia.

Fowler Universal 3-D Sensors

- 3-D sensors are easily clamped into the milling spindle for exact positioning of the spindle axis on the edges of the workpiece or jig
- Versatile and precise measuring instrument for milling and spark erosion machines (EDM)
- You may approach it in any direction (X-, Y- or Z-axis)
- Large digital display is easily read even from a distance
- Includes a 3/4” clamping shaft, has a resolution of .00005”/0.001mm and an accuracy of .0002”/0.005mm using short sensor
- True inch/metric conversion

BesTest® Dial Test Indicators

BesTest -3 and -13 Series:

- BesTest -3 and -13 sets are furnished with .080” carbide contact points, a rectangular bar, swivel clamp, point wrench and a certificate of accuracy and traceability in a fitted wooden case.
- The -3 sets with end mounted dials are furnished with a universal dovetail mounting attachment (7054) in place of the rectangular bar and swivel clamp

BesTest -5 Series (Black Face):

- BesTest -5 sets are furnished with an .080” carbide contact point, a .250” diameter extension with dovetail, point wrench and a certificate of accuracy and traceability in a durable molded case

BesTest -6 & -14 Series (White Face):

- BesTest -6 & -14 sets are furnished with 3 carbide contact points. .040”, .080”, and .120”, 2 extensions with dovetail, point wrench and a certificate of accuracy and traceability in a durable molded case

BesTest Indicator Features:

- All Bestest® indicators meet or exceed federal or DIN specifications
- Furnished with a certificate of accuracy and traceability
- Bestest® indicators provide high quality features to ensure fast, accurate and continuously reliable measurement
- Constant clockwise rotation
- Automatic reversal
- Swiveling point
- Carbide tip point
- Universal mounting
- Monoblock (precision watch) body design
- Anti-magnetic & corrosion resistant

Fowler Chrome Flex Anyform Magnetic Bases

Flex Arm Anyform Mag Base Features:
- Corrosion resistant chrome plated flex arm
- Holds rigidly in most any position
- 40 Lb. pull magnet
- Versatile - 70 steel segments work like a contour gage to fit the mag base securely to practically any shape or form

X-Proof IP54 Indicator Features
- Shockproof design
- Travel: 1”
- Reading: .001”
- Continuous reading 0-100
- Tolerance markers
- Group 2 AGD 2-1/4” diameter
- Lugback
- Carbide point

Mitutoyo DP-1VR Digimatic Mini-Processor

Mitutoyo's new DP-1VR is so compact, it fits right on your palm. But with this powerful little device you can print data from a digimatic caliper, micrometer and more using the Data Output function, and can even calculate statistics. Printing speed is excellent, and with the built-in thermal line printer there's virtually no noise. What's more, the thermosensitive paper has outstanding durability and chemical resistance for long-term storage. The DP-1VR even lets you transmit the data to a computer using an RS232C connecting cable.

- Printing method: Thermal line printer
- Printing dot: 384 dot (8 dot/mm)
- Printing speed: 6.5mm/s (using AC adapter)
- Printing paper: 48m
- Printing line: Approx. 6500 lines for large characters Approx. 12000 lines for normal characters
- Processing capacity: Mode: 1/2/3: 9999 data Mode 0: 100000 data
- Printing data: Measurement data, GO/±NG judgement, number of data, maximum/minimum value, range, average, standard deviation, number of defective, fraction defective, process capability index, histogram, D-chart, control chart generation for Xd-bar and control limit data, date and time
- Output function: Output the measuring data (RS232C) or GO/±NG judgment
- Input timer: 0.25s, 1s, 5s, 30s, 1min, 30min, 60min
- Voltage: 120V
- Power: AC adapter 6V (not interchangeable to DP-1HS) Electric battery: LR6 (alkaline), Ni-Mh (AA size)

Shown with optional micrometer

CDI CHICAGO Electronic Measuring System (EMS)

- Allows for the simultaneous connection of up to four devices and supports nearly any digimatic gage regardless of the manufacturer
- Custom made tablet stand
- Quality color 7" tablet with remote display Android App
- USB and RS232 PC connection
- Data logging/collection, can be saved as CSV file on Micro SD card, e-mail or transfer to PC
- Programmable auto request
- Max, min and freeze hold in Quadrature
- Travel reverse
- View one, two, or four channels

TESA | brown & sharpe TLC-TWIN Wireless Solution

Bi-Directional communication between a measuring tool and a computer is easy with these accessories for your TWIN-CAL (Calipers sold separately)

TLC-Twin Emitter-Receiver (MV4547430)
- Bi-directional communication between computer workstation and measuring tools equipped with a TLC component
- Range up to 39 feet (12 meters) depending on surroundings
- Swiss made

TWIN Station Receiver (MV4547431)
- Connect up to 48 instruments equipped with TLC-TWIN emitter receivers to a single TWIN Station equipped computer
- Connect to a computer through a standard USB port
- Aluminum housing provides optimum protection and durabililty
- Swiss made

Data-Direct (MV4531440) and StatExpress (MV4531451) Software
- Use Data-Direct collection and reporting software to transfer measuring data to any interface; data can be customized with date and/or hour and saved in .csv format
- Use StatExpress software to analyze measured results for more advanced quality assurance requirements

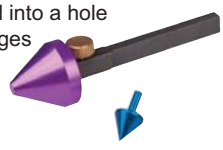
Fowler Height Gage Accessories

Centering Cone Set:

- Locates the hole center as the cone is inserted into a hole
- Can be adapted for use with various height gages
- Measures holes from 1/16 to 1-1/16" ID
- Bar dimensions 5/16 x 3/16"
- Includes 1 holding bar and 2 centering cones



Probe Set:

- Lets you use any M2 threaded CMM probe in your height gage
- Holders comes with 3 ruby ball CMM probes - 2mm ruby ball x 20mm length
- Bar dimensions 1/2 x 1/4"
- Can be adapted for use with various height gages

Fowler Trimos Electronic Height Gages

V3, V4 & V5

- Electronically adjsutable measuring force 0.75/1.5 (N)
- Lithium-ion rechargeable batteries
- Cast iron base for optimal stability
- RS232 and USB interfaces
- Measures heights, diameters, perpendicularity, centerlines Min/Max/Delta
- Resolution .00005”/0.001mm
- Repeatability (2s): .00008”/0.002mm (Ø .00016”/0.004mm)
- Includes charging unit, measuring insert with ruby ball Ø4mm, probe holder elbow Ø8mm, setting gage, user’s manual, test certificate

TESA | brown & sharpe Magna 400/700 Height Gages

Made to withstand severe workshop conditions.

- Shop proof technology
- Long measuring span and rugged design
- Fully protected against: water, dust & oil

Features:

- 16” (400 mm) and 28” (700 mm) measuring range
- Electronics completely protected against liquids or dust penetration
- Automatic diameter measurement using TESA’s patented system which determines the culmination point
- Parallelism and perpendicularity measurements
- TESA opto-electronic measuring system (patented)
- Compatible with TESA MICRO-HITE accessories, including measuring inserts and holder
- SCS calibration certificate delivered with each instrument
- .00001/.0001/0.01mm Resolution
- 6 V, Rechargeable battery pack
- RS-232 Digital output

Starrett® Altissimo 24" Digital Height Gage

- Dynamic bi-directional probing with point and scan modes
- Five measurement modes: (ID/OD Diameters, center, TIR, max/min., continuous display)
- Automatic calculation of eight measurement routines
- Speed wheel also has fine adjust
- Locking mechanism for scribing
- Rechargeable NiMH batteries with 100 hours of continuous life
- Auto power off after two hours with retention of probe calibration
- Output data to Starrett SPC Plus® hardware and software and to PCs
- Instant inch/millimeter conversion
- Two selectable Datums and Preset
- Measuring Range: 24"/600mm (Extendable to 30"/750mm by rotating probe holder 180°)
- Resolution: .0001"/.0005"/.001" (0.001mm/0.01mm/0.02mm)
- Accuracy: ±.0006" (0.015mm) Band width at 68°F (20°C)
- Repeatability: ±.0001" (±0.002mm)
- Power Source: NiMH rechargeable batteries (120V AC/60Hz charger/ adapter furnished) Operation time: 80 hr. recharging time: 10 Hours
- Standard Accessories: .1875"/4.8mm dia. Carbide probe, probe holder, AC charger/adapter, probe calibration block
- Dimensions: 11" L × 7-3/4"W × 36-1/2" H
- Weight: 40 lbs (18Kg)
- Perpendicularity: .0004" (0.010mm)

Suburban Height Gages

- State of the art readout with soft touch keyboard and user friendly graphics
- Both USB and RS232 ports for data output
- Swivel adjustment on readout for easy viewing
- Motorized and manual movements with rapid jog (speed 35mm/second)
- Air bearing cushion with built in air pump
- Can be used as a go / no go gauge
- Quick manual squareness measurement
- CE approved
- Measuring functions: contact above / below - shaft - bore - groove/ ledge -flatness / paralleslism deviation - angle - 2D - chain measurements - Squareness* - multiple reference points
- Measuring force: 1 N ± .2
- Inch/metric conversion
- Order numbers ending in M= magnetic scale and U= glass scale

Starrett® Electronic Height Gages

- Large, easy-to-read display, an intuitive control panel, clear bar graduations, resolution of .0005", RS232 output, and a full range of user functions
- Clear bar graduations in .100" and 5mm increments
- Large .380" (9.65mm), easy-to-read LCD display reads to .0005" and 0.01mm
- Inch-millimeter conversion
- Carrier and scriber designed to read from zero
- Hold control retains a reading at any position
- Plus or minus indication ensures reading in proper direction
- Vertical bar is closer to the center of base than competing products for superior stability
- Resolution: .0005" (0.01mm)
- Overall Accuracy: ± .0015" (.04mm) 0-18" (0-450mm), ± .002" (0.05mm) 18-24 (450-600mm)
- Set ZERO at any position
- Manual on/off with auto off after 30 minutes non use
- Large positive action keypad
- Ability to retain and return to the true zero reading
- PRESET button to install any reading at any position
- Ability to assign minimum and maximum limits
- RS232 output for data collection, analysis, and hard copy documentation, supports: – Starrett 772 Advanced Data Collection Systems – Starrett 761 Series Data Multiplexers – Other RS232 devices
- 1-1/2+ Years battery life. Two 3-volt batteries furnished (CR2450).

Fowler Electronic Bore Gage

Industry’s two most popular bore gage ranges combined in one easy-to-use ELECTRONIC set!

All the benefits included in the X-Tender¨ Dial Bore Gage are now available with an electronic indicator providing inch/metric reading capability.

Bore Gage Features:

- Range: 1.4”-6”/35mm-150mm
- Carbide anvils
- Easily adjustable
- Self-centering
- Includes extension holder
- Shop hardened case

Indicator Features:

- Dual reading inch/metric electronic indicator
- Bar graph and numeric digital display
- Resolution: .00005”/0.001” mm
- Preset with recall
- ABS/INC measurement
- Min/Max/TIR

Starrett Dial Bore Gages

No. 82 Series

MADE IN THE USA

- Measures the diameter of any hole within range of its interchangeable probes
- With the indicator set to the nominal dimension and its dial adjusted to zero, the probe is inserted in the hole with variations to .0001” read on the indicator
- Measurements are taken by comparison, therefore a set master such as gage blocks or bench type micrometer should be used as a reference standard

Mitutoyo Bore Gages

Type 511 & 526

- All Mitutoyo dial bore gages are supplied with AGD 2 dial indicator and fitted carrying case
- A reference chart is furnished which indicates the spacer and rod sizes to be selected for the specific range
- 10” extension rod to increase measuring depth from the edge is available for 511-185, 186, 188 and 189 (Part No. 101421)
- To increase the length of interchangeable measuring rods, a 2” extension collar is available for use with 511-162 and 511-753 (Part No. 101421)

Graduation - .0001

Fowler Bowers Electronic Bore Gages

Pistol Grip

- Larger easier to read swivel display
- USB connectivity
- Four preset memories
- Fixed anvils
- Resolution: .00005” / 0.001mm
- Trigger is adjustable for minimum over travel
- Tungsten carbide measuring faces on all 3 point heads .500” & up.
- Sizes over .500” (12.5mm) feature blind bore capability
- Setting rings included in all sets
- Includes UKAS certificates for all pistol grips, heads and rings

Fowler Snap Gages - Flat Anvils

Indicator Features:

- Dual reading inch/metric electronic indicator
- Resolution: .00005" / 0.001mm
- Preset with recall
- ABS/INC measurement
- Min/Max/TIR

This versatile electronic snap gages provides all the features of standard snap gages.

Special Features:

- Ranges available: 0-8"/0-200mm
- Adjustable anvil through 1"/25mm range
- Adjustable gaging pressure
- Lightweight, metalurgically stabilized aluminum frame
- .66" Square tungsten carbide anvils
- Within the 1/2" central square surface, anvils are parallel within: .00015" on sizes up to 4"/100mm, .0002" on sizes 4"/100mm to 8"/200mm

Starrett® Internal and External Chamfer Gages

- These gages directly measure the diameter of chamfered holes
- No setting master is necessary
- When the three-blade plunger is pressed against a flat surface, the gage should read the set number stamped on the back of the indicator
- In case of wear, the gage may be adjusted to read the proper number

Starrett® Hole Gages

- Fast, accurate, easy to read and have a balanced design for easy one hand operation
- The gage can be pressed down on a flat surface and checked so the size should read the same as the set number stamped on the back of the indicator
- Can also be checked and set with an optional "setting master"
- Includes case

Starrett® Check Gage Stand

For Chamfer, Countersink and Hole Gages

- Holds chamfer, countersink and hole gages
- Balanced design for easy one-hand operation

Order No.	Price
MV7063875	Price

BARCOR Mechanical Chamfer Gages

- A precision instrument designed specifically to measure the top (major) diameter of a chamfer, countersink, center drill, or tapered hole.
- Merely press the spring loaded, conically ground, precision 3-blade gaging plunger into the chamfer or countersink and instantly read the dial in .001" or 0.01mm/0.02mm diameter increments
- Also a direct reading gage -no setting master (standard) or look-up chart is required
- To "Zero" the gage or check the setting, press the base of the gage against any flat ground surface and adjust the dial to read the "Set To" number stamped on the back
- Guaranteed accuracy: within ± .001" in 0°–90° models / within ± .002" in 90°–127° models

BARCOR Electronic Chamfer Gages

- Like BARCOR's well-known mechanical counterpart, the electronic CHAMFER GAGE requires no setting master (standard) or look up chart
- To "Zero" or "Set" the gage, just press the base against any flat ground surface and rotate the bezel to the "Set To" number stamped on the back
- Equipped with rechargeable long life batteries, the gage may also be powered continuously through its 110 VAC adapter/ battery charger or directly from a printer, PC, data collector, etc

BARCOR Countersink Gages

- A precision instrument designed specifically to measure the top (major) countersink diameter
- Merely press the spring loaded, exact angle gaging plunger into the countersink and read the dial directly in .002" or 0.05mm diameter increments on the dial face
- Also a direct reading gage - it reads the dimension as called out on your print
- This gage gives you fact, accurate, and repeatable readings on the shop floor or in the gage room
- Virtually foolproof, even the inexperienced can use the countersink gage with reliable results
- Guaranteed accuracy: ± .0005" or ± .015mm

Starrett® MTH-550 Manual Tester

- The MTH has a load measurement capacity of 550lbf (2500N, 250kgf)
- Force measurement is performed using a Starrett digital force gage
- The MTH-550 is an ideal, affordable solution for spring testing; Fit the MTH-550 with a digital force gage and optional digital scale to determine spring rates, intital tension and more

Features:

- Tension or Compression Testing
- Excellent for Cost-Effective Spring Testing
- Effortless Crosshead Movement
- Precision Worm Gear Design
- Excellent Position Resoluton: Single Rotation for 0.03" (0.75mm)
- 30" (762mm) Column Height, 15" (380mm) Working Area
- Adjustable Gage Mounting

MTH-550	-	Accessories, Force	Adapter Kit	**MV7073453**	Price

Starrett® MTL-110 Manual Tester

- The MTL-110 can measure force up to 110lbf (500N, 50kgf)
- Ideal for component testing
- Options include a digital scale for measuring deflection distance
- The base adapter adjusts to accommodate different gage models

Features:

- Compact design is ideal for Lean Manufacturing Environments
- Lever-type, Quick-action Crosshead Movement
- Precision Rack and Pinion
- Excellent Position Resolution: Single Rotation for 3" (76mm)
- Adjustable Gage Mounting

Model No.	Force Capacity (Resolution/Newtons)	Force Capacity (Resolution/Kilograms)	Force Capacity (Resolution/Pounds)	Thread Style	Style	Type	Order No.	Price

Starrett® MTL-330 Manual Tester

- The MTL-330 can measure force up to 330lbf (1500N, 150kgf)
- Ideal for tensile and compression testing applications and spring testing
- Optional digital scale can determine spring rates, initial tension and more
- Easily mounted to your workbench for secure testing
- Optional gage adapter kits are available for use with Non-Starrett force gages

Features:

- Compact design is ideal for Lean Manufacturing Environments
- Lever-type, Quick-action Crosshead Movement
- Precision Rack and Pinion
- Excellent Position Resolution: Single Rotation for 3" (76mm)
- Adjustable Gage Mounting

Digital Force Gage with Outputs - Series DS2 Series DS2

DS2 Ranges (Resolution)

- Accuracy: ±0.2% F.S. ±1 LSD
- Ergonomic, durable, heavy-duty metal construction
- Push-button selectable lbf, kgf, and Newton units
- RS-232C, Digimatic and analog outputs
- Programmable high/low setpoints with LCD indicators
- Overload capacity 200% F.S.
- Overload alarm, display flashes at overload limit
- Low battery icon
- Runs on internal NI-MH batteries or AC adapter
- Selectable real time or peak mode operation
- Push-button tare function
- Reversible display
- Set of 6 attachments, AC charger/adapter and carrying case

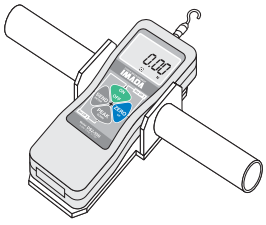
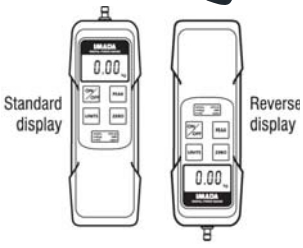
Note: Use an "R" suffix for reverse display units (for use on vertical test stands)

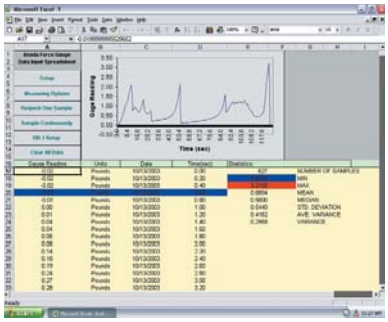


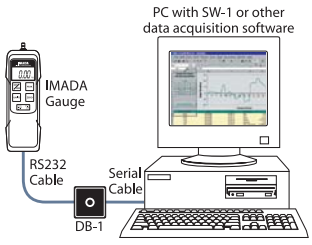


Data Acquisition Software

Use SW-1 to capture and display the current value and calculate max/min, average, and standard deviation. Use buttons on the spreadsheet to operate the gauge from your computer.
The optional DB-1 data button works with SW-1 software to further automate data acquisition. Enter peak measurements into the spreadsheet and 'zero' the gauge with just a touch of the button. Save unnecessary time at the computer and gauge for more efficient testing.

- Full SPC and graphing capabilities
- Designed for Imada Gauges
- Automates your data collection
- PC with SW-1 or other data acquistion software





Description	Order No.	Price
SW-1 Data Acquisition Software	**NA43SW1**	Price

Horizontal Lever Stand

- Both tension and compression testing
- Optional distance meter
- Stroke 4"
- Maximum load 220 lbs
- Lever action allows rapid testing
- Large work area accommodates a wide variety of samples

PROCHECK Rockwell Type Hardness Tester
with Automatic Weight Selection

Standard Accessories:
- 5-3/4″ Testing table
- 2-3/16″ Testing table
- 2-3/16″ Testing table with “V” groove
- 120° Diamond penetrator
- 1/16″ Steel ball penetrator
- Rockwell A test block (1 pc.)
- Rockwell B test blocks (2 pcs.)
- Rockwell C test blocks (3 pcs.)
- Screwdrivers (2 pcs.)
- Complete instruction manual
- Dustproof plastic cover
- Maximum load (kgf): 150
- Load range (kgf): 60, 100, 150
- Initial range load: 10
- Maximum test height: 4-1/4″
- Depth of throat: 5-1/4″
- Below base: 2″
- Size of base: 7″ × 18″
- Machine height: 24-1/2″
- Approximate net weight: 150 lbs

Order No.	Price
NR50900330	Price

PROCHECK 3-R Hardness Tester
Equal in Quality to Finest Testers Made

Complete list of accessories included:
- Diamond penetrator
- 1/16″ Ball penetrator 10 replacement balls for same
- 3 Anvils; 1 large V-block anvil, 1 small V-block anvil, 1 flat anvil
- 2 Hardness test pieces. 1 each scale “B” and “C”
- 3 Weights (60-50-40kg)
- Dust cover
- Storage case for accessories
- Test height: 8″
- Depth from center to column: 5-11/16″
- Overall height: 24″
- Length: 17-1/2″
- Width: 8″
- Weight: 240 lbs

Order No.	Price

Hardness Coversion Charts

Hardness Tester Information

Hardness Tester Set Up

Make sure all surfaces are free of dust and oil. Wipe penetrator, spindle mount, anvil surface, anvil base and mount, test piece and items to be tested with clean lint free cloth to insure good contact on all surfaces.

Selecting the type of test to perform, penetrator and weight setting used

A scale: Used for testing hardness of metals such as tungsten carbide alloy, etc. over 70 Rockwell hardness on the C scale. Also to be used when testing hard sheet materials and surface quenched (case hardened) materials. Use diamond penetrator and set weight selector to 60kg.

B scale: Used for testing hardness of softer or mild hardened metals and unquenched steel part. : Use 1/16” steel ball penetrator and set weight selector to 100kg.

C scale: Used for testing hardness of heat-treated steel parts. Use diamond penetrator and set weight selector to 150kg.

Seating the penetrator to eliminate clearance between the penetrator and the mounting spindle.
- Seating procedure: Place the penetrator in the spindle and turn mounting screw slightly to hold penetrator in place. DO NOT TIGHTEN AT THIS TIME
- Place on flat anvil and appropriate test block to correspond with penetrator and the scale test to be preformed (A, B or C)
- Pull front load lever forward to apply test weight (Load)
- In the load position tighten the screw to hold penetrator firmly
- Swing back lever to lock position (unload) to release test weight

Checking Hardness Tester Calibration

Price	The repeatability of the testblock readings shall be not greater than:
Rockwell C Scale:	
Price	0.5
Below 60	1.0
Rockwell B Scale:	
Price	1.0
Below 45 to 1.5, inclusive	1.5
Rockwell A Scale:	
Price	0.5
Below 80 to 60.5, inclusive	1.0
Rockwell 30 N Scale:	
Price	0.7
Below 77.5 to 41.5, inclusive	1.0
Rockwell 30 T C Scale:	
Price	1.0
Below 46.2 to 15.0, inclusive	1.5

If a tester is in constant use, checking the tester with test blocks should done daily to see if tester is out of calibration or if the penetrator is damaged.

If used throughout a given scale, the recommended practice is to check it at the high, low and middle range of this scale. For example C scale: the tester should be checked at C63, C45 and C25.

If only one or two ranges are used, test blocks should be chosen which fall within ±5 hardness numbers on any scale using the diamond penetrator and ±10 numbers on any scale using the ball penetrator.

Running a minimum of 5 tests, the average must fall within the tolerances indicated on the block for the tester to be considered in calibration. In addition, the difference between the highest and lowest reading on the 5 tests must not be greater than the value specified in table shown for the hardness range of the test block. If the average of the five readings is outside of test block limits, the recommended practice is to clean and examine the tester according to the instruction manual. Before assuming that the tester is the prime cause of readings outside of test block limits, replace the ball in the ball penetrator or examine the diamond point of the diamond penetrator. Replace the penetrator if it is damaged.

Spacing of indentations on the test block is also important. The same rule applies as when testing any material: the distance from center to center of indentations must be at least three diameters. The readings, usually higher, from any indentations spaced too closely together should be disregarded.

INSIZE Manual Rockwell Hardness Tester

- Hardness scale: HRA, HRB, HRC, HRD, HRF, HRG
- Preliminary test force 98N/10kgf
- Test force: 588N/60kgf, 980N/100kgf, 1471N/150kgf
- Display analogue
- Stage elevation manual
- Load control manual
- Min. reading 0.5HR
- Results Dipslay: HLD
- Size: 25.59” L x 17.13” W x 35.63” H
- Weight: 231 lbs

Starrett Twin Analog Bench Hardness Tester

Model 3815

- Direct analog dial reading
- Advanced design provides Rockwll and Rockwell Superficial testing
- Engineered to provide sensitive and accurate readings
- Conforms to ASTM E-18
- Tests Rockwell scales A, B, C, D E, F G H, K, L, M
- Tests Superficial Rockwell Scales: HR15N, HR15T, HR30N, HR30T, HR45N, HR45T
- Includes a diamond conical indentor, 1/16” ball indentor, HRC, HRB, HR15N, HR30N, and HR45T test blocks, 5.87” (150mm) test table, 2.5: (63mm) flat anvil, standard vee anvil, accessory case and dust cover

Starrett 3814 Analog Hardness Tester

Analog Features:
- Ability to handle Rockwell Scales A through H and K
- Stable cast iron construction
- Ideal basic hardness testing for many typical applications
- Test force control - hydraulic dashpot system
- Results display - analog - dial gage
- 30”H x 8.5”W x 20”D
- Economically priced

Digital Features:
- Automated routines reduce operator involvement and speed measurement
- LED panel displays proper load setting
- Programmable scale conversions, dwell times and tester counter
- Sample averaging is automatically calculated
- RS-232C output
- Test force control - motoized
- Results display - digital readout
- 28”H x 8.9”W x 19.6” D
- Convenient mini printer for outputting readings

Technical Specifications:
- Minor load - 10Kgf
- Major load - A:60Kgf, B:100Kgf, C:150Kgf
- Test force application - (Dead weight applies test force)
- Throat depth - 6.6” (168mm)
- Maximum test height - 6.69” (169.9mm)
- Unit weight - 187 lbs (85kg)

Results Display	Order No.	Price

GENERAL Hardness Meter

- Measure the surface and coating hardness of installed machines and components, die molding surfaces and bearings
- Console stores up to 1250 tests
- Measurement accuracy: +/- 0.5%
- Display size and type: 112 x 64 pixel LCD
- Auto power off after 3 minutes of inactivity
- Power source: 2 AAA batteries (not included)
- Includes: console, D type impact device, standard hardness test block with a nominal hardness value of 797 HLD, cleaning brush and support ring, hard plastic carrying case
- Limited 2 year warranty

Order No.	Price
NB49UTEMHT20	Price

INSIZE Portable LEEB Hardness Tester

- Min. reading: 1HLD, 1HV, 1HB, 0.1HRC, 0.1HRB, 1HS, 1MPa
- Accuracy ±6HLD (when HLD=800)
- Display: Leeb(HLD), converted hardness, material, impact direction, test times, average value, date
- Output bluetooth
- Supplied with impact device D
- Set measurement times (1~9) to have average value
- Based on Leeb(HLD), converted to Vickers(HV), Brinell(HB), Rockwell(HRC and HRB), Shore(HS) and tensile strength(MPA)
- Memory of 99 measurement values for browsing
- Connected with printer via bluetooth
- Automatic power off. According to ASTM A 956
- Results Display: HRA, B, C, D, F, G
- Size: 12.99" L x 11.42" W x 3.74" H

Order No.	Price
SZ20ISHPHB	Price

FLEXBAR Portable Quick-Check Rockwell Hardness Tester

A quick & easy checking gage for flat workpieces. Ideal for spot or production checking

- Pocket size — length is 9-1/4″, weight is 4 oz
- Minimum size of workpiece: 1" square x 1/2 thick
- Precise reading in Rockwell C scale — pretested for positive release and dependable accuracy
- 20 Rc to 65 Rc hardness of the Rockwell C scale
- Will not mar the surface of heat treated parts
- Includes carrying case

MADE IN THE USA

Order No.	Price
GG4517295	Price

GENERAL Hardness Tester ASTM Rated - Pen Style

Check hardness on most metals - True hand held compact model.

Features and Specifications:

- Quick and reliable check on most metals
- Wide measuring range: direct display of converted hardness values in Rockwell HRB, HRC, Vickers HV, Brinell HB and Shore HS (Min/Max/Avg)
- Impact device provides testing at any angle, even upside down
- 1250 readings memory with data output USB
- High accuracy ±0.5%
- Hardness parameter HL, HRC, HRB, HV, HB, HS
- Battery life: 16 hours continuous (Auto Power Off)
- Display functions: Hardness scale, hardness value, average indicator and average value, impact direction, type of impact device connected, memory reference
- Overall dimensions: 6.2"L x 1.6"W x 1"D (158 x 41 x 26mm) Weight: 4.2 oz (120g)
- Conforming to ASTM A 956

Includes: Main unit with impact device, cleaning brush, software & cable, certificate, manual and carrying case

Order No.	Price
NB49EMHT40	Price

Hardness Testing Files

Consists of 6 different special files, color coded for hardness assessment.
A unique set of six specially shaped files, each with a nonslip grip, color-coded handle. The Rockwell value is printed on each handle and the files range from HRc 40 through HRc 65.
Testing files have specially curved tips which can reach into internal slots, grooves and bores. Large surface-hardened gears, large printing cylinders or weld zones of heat affected pipe lines which cannot be moved to a stationary tester.

Fowler Portable Durometers

Applications:
35° blunt taper Durometers are suitable for testing soft and natural rubber products, neoprene, polyesters, soft P.V.C., leather, thiokol, nitrile rubbers, wax, felt.
Sharp 30°: testing hard rubber, hard synthetic materials, e.g. acrylics, glass, polystyrol, thermoplastics, printing rolls, vinyl sheets, cellulose acetates, densified wood, etc.

- Manufactured in accordance with DIN, ASTM, ISO and JIS specifications
- Test pieces should have a thickness of at least .20″ (5mm) to provide accurate readings that conform to Shore A hardness scales and .12″ (3mm) for Shore D hardness scales
- The test piece size should extend .47″ (12mm) from each side
- Includes reference test block, operating instructions and fitted case

Shore Scale	Penetrator	Order No.	Price
A	Blunt Taper 35°	**NA5553762101**	Price
D	Sharp Point 30°	**NA5553762102**	Price

Fowler Portable Shore Durometers

Fowler’s Portable Shore Durometers are just the right gage for testing the hardness of flexible materials such as rubber and plastics

Applications:
Durometers with the 35° blunt taper are suitable for testing soft and natural rubber products, neoprene, polyesters, soft P.V.C., leather, thiokol, nitrile rubbers, wax, felt and more
Durometers with the sharp 30° point are ideal for testing hard rubber, hard synthetic materials, e.g. acrylics, glass, polystyrol, thermoplastics, printing rolls, vinyl sheets, cellulose acetates, densified wood, etc.

Made in ENGLAND

- Manufactured in accordance with DIN, ASTM, ISO & JIS specifications, two styles available in analog and digital readout
- Both Shore A and B scale units are available to fit a wide variety of applications
- Price includes reference test block, operating instructions & wooden box

Mitutoyo Hardmatic Durometers

Applications:
- Suitable for testing of natural rubber, neoprene, polyesters, P.V.C., leather, nitrite rubber, wax, vinyl, cellulose acetates and glass polystyrene
- Designed in accordance with the ASTM D 2240, ISO868, ISO 7619, DIN 53 505, JIS K 6253, and JIS K 7215 specifications
- Units are available in both Shore A and Shore D scales, and will test a wide variety of applications
- Provided with data hold function, permitting the operator to make an error-free reading on the LCD screen
- Provided with a peak retaining hand for error-free reading
- Tip Angle: 30°±0.5°
- Digital: Data hold, Zero-setting, SPC output, Power ON/OFF (Power supply: SR44 x 1pc.) Analog Durometer: Peak retaining hand
- Dimensions: 2.3 x 1.3 x 5.7in 56 x 33.5 x 144mm

Starrett Electronic Durometer

Model 3805B

- Compact, easy to use and accurate
- Measures Shore A values for a wide variety of soft materials including rubber, soft vulcanized (i.e. tire), natural nitrile, elastomeretric materials (rubber and rubber-like); GR-S, GR-1, neoprene, thiokol, flexible polyacrylic esters, other soft materials including wax, felt, leather, etc. (materials that would normally yield under fingernail pressure)

Features & Specifications:

- Extra large LED display
- Simple 3-button control
- Auto hold feature
- Measuring range: 0-100 HSA
- Deviation: <1% H
- Resolution : 0.5 H
- Accurate and repetitive deviation = 20~90HSA
- HSA <+/-1 grade
- Custom carrying case

Mitutoyo Portable Surftest SJ-210P

This Surftest is designed to be hand carried for portable use anywhere. Power is supplied by either AC or the unit’s own rechargeable batteries. Data is presented in micro-inches on a large LCD screen. An upper control limit may be set for GO/NO-GO inspection. For hard copy printout the Surftest may be connected to Mitutoyo’s Surftest printer. SPC processing is also possible by connection to any of the Mitutoyo data processors.

Easy to use: 2.4-inch color graphic LCD with backlight
The color LCD provides excellent readability and an intuitive display that’s easy to negotiate. The LCD also includes a backlight for improved visibility in dark environments.

Simple key layout
The surfest SJ-210 can be operated easily using the keys on the front of the unit and under the sliding cover.

Highly functional:
Advanced data storage capabilities
Up to 10 measurement conditions and one measured profile can be stored in the internal memory.

Optional memory card
An optional memory card can be used as an extended memory to store large quantities of measured profiles and conditions.

Password protection
Access to each feature can be password-protected, which prevents unintended operations and allows you to protect your settings.

Multilingual support
The display interface supports 16 languages, which can be freely switched.

Stylus alarm (patent pending in Japan)
An alarm warns you when the cumulative measurement distance exceeds a preset limit.

Features:
Compact and easy-to-use surface roughness testers for high-accuracy measurement on the shop floor.

- Auto-calibration for simple gain adjustment
- The detector/drive unit can be detached from the display unit to tacillate measurement
- Largest measuring range in its class 300um (1200uin)
- Digimatic and RS-232 data output is avalable for SPC operation
- 2-Way power system (AC adapter and rechargeable built-in battery)
- Portable for easy measurement anywhere
- 39 Analysis parameters are provided
- Compatible with JIS 82, JIS 94, JIS 01, ISO, ANSI, and VDA standards
- Larage color LCD can be dislayed horizontally or vertically
- 10 Sets of measurement conditions and 1 set of measurement results can be stored in display unit.

Parameters:
- Ra, Rq, Rz, Ry, Rp, Rv, R1, R3z, Rsk, Rku, Rc, RPc, RSm, Rmax, Rz1maxS, HSC, RzJIS, Rppl, Rir, Rmr, Rmr(c), Rx, Rpk, Mr1, Mr2, A1, A2, Vo, Rpm, tp, Htp, R, Rx

GAR Conventional Machining Microfinish Comparator

MADE IN THE USA

- Twenty-two surface finish specimens from six different machining processes: lapped, ground, blanchard ground, shape-turned, milled and profiled — ranging from 2 to 500 microinches

Order No.	Price
NB61S22	Price

GAR Conventional Machining Microfinish Comparator

MADE IN THE USA

- Twelve surface finish specimens from five different machining processes: lapped, ground profiled, shape-turned and milled — ranging from 4 to 125 microinches

Order No.	Price
NB61G60	Price

GAR Conventional Machining Microfinish Comparator

MADE IN THE USA

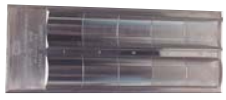
- Twelve surface finish specimens from four different machining processes: shape-turned, ground, profiled, milled — ranging from 250 to 2,000 microinches

Order No.	Price
NB61G61	Price

GAR Cylindrical Ground Microfinish Comparator

MADE IN THE USA

- Ten surface finish specimens, 5-ID and 5-OD with a range of 4 to 63 microinches



Order No.	Price
NB61G62	Price

GAR Cylindrical Turned Microfinish Comparator

MADE IN THE USA

- Ten surface finish specimens, 5-ID and 5-OD with a range of 16 to 250 microinches

Order No.	Price
NB61G63	Price

GAR Cast Microfinish Comparator

MADE IN THE USA

- Nine surface finish specimens ranging from 20 to 900 microinches

Order No.	Price
NB61C9	Price

GAR Grit Blast Microfinish Comparator

MADE IN THE USA

- Six surface finish specimens ranging from 32 to 1000 microinches

Order No.	Price
NB61G6	Price

GAR Shot Blast Microfinish Comparator

MADE IN THE USA

- Six surface finish specimens ranging from 32 to 1000 microinches

Order No.	Price
NB61SH6	Price

GAR EDM Microfinish Comparator

MADE IN THE USA

- Nine surface finish specimens ranging from 16 to 250 microinches

Order No.	Price
NB61E9	Price

GAR Master Visual Tactual Set

MADE IN THE USA

- Eight individual blocks with fifteen replicated machined surface finish specimens ranging from 2 to 125 microinches

Order No.	Price
NB61M15	Price

GAR Pak Kit

MADE IN THE USA

- Contains order no. S-22, G-6, SH-6 and E-9 surface finish comparators

Order No.	Price
NB61G4	Price

GAR Precision Reference Standard

MADE IN THE USA

For Surface Analyzing Equipment

- An economical calibration standard for surface analyzing equipment
- Ra values 119.5 and 16.1; includes certification traceable to NIST

Order No.	Price
NB61PRS2	Price

FLEXBAR Economy Surface Roughness Comparator

Features:

- 16 to 500 micro finish
- 18 Exact reproductions of milled, turned, shaped ground surfaces and flame cutting
- Black unbreakable plastic
- 3-1/2 × 5″ pocket size
- Scratch resistant and has a hang-up hole
- Complete with plastic case

Order No.	Price
NB6216007	Price

Surface Roughness Comparator

WORLD CLASS QUALITY

- Helps avoid costly under or over-finishing
- Pocket-size gage has 22 precision surfaces from 2 to 500 micro-inches
- Lapped, ground, blanched, turned, milled and profiled surfaces
- Complete with leather case

Order No.	Price
NB62RG1	Price

FLEXBAR Master Surface Roughness Comparator

30 specimens from 2 to 500 micro finish with graph which correlates CLA, AA and RA values plus ISO “N” scale

- (3) spec. flat lapping
- (3) spec. reaming
- (6) spec. grinding
- (6) spec. horizontal milling
- (6) spec. vertical milling
- (6) spec. turning
- Wallet Style Case.

This scale conforms to SAE and Military Specifications for visual and tactile inspections

Order No.	Price
NB6216008	Price

Reversible Gage Handles

MADE IN THE USA

Double End

All reversible pin gage handles are made to the American Gage design standards. These handles are made from aluminum, with collets anodized red for the "No Go" gaging member, green for the "Go" gaging member, and with a polished hexagon center, bushings NOT included.

- Bushings not included
- Handles – Go/No Go Gages

Double-end handle with collet shown
Gage pins not included.

Class "ZZ" (+/-.0002" Tol.) and "X" (.00004" up to .8250 and .00006" from .8251 to 1"

To order Individual Gage Pins Specify Series, Size and Tolerance (Plus, Minus for Class ZZ and Go, No-Go for Class X) when ordering:

Ordering Example Sizes:
Class ZZ Steel Pin Gage .125" Plus Tolerance: JR50125P or JR501255P if ordering in .0005 increments.
Class ZZ Black Guard Pin Gage .125" Plus Tolerance: JR52125P or JR521255P if ordering in .0005 increments.
Class X Steel .125" Go Tolerance: JR53125GO or JR531251GO if ordering in .0001 increments.

Metric Gage Pins also Available in Class ZZ Steel (JR50) and Steel Black Guard (JR52). Specify Series (JR50 or JR52) Size (Example 3.17mm) and Tolerance (Plus or Minus). Order as: JR50317MMP - Call for Price

Fowler 240 Pc. X-Tended Range Pin Gage Sets

Ideal for checking hole size, location, gage slots, distance between holes, go/no-go gaging and setting other gages and micrometers.

- Class ZZ
- Black oxide finish offers extra protection against corrosion and rust, promoting longer life, also highlights wear trends that enables calibration to be performed more effectively
- Range: .011" - .250" in .001" increments
- Set includes: 2 handles in case and our X-Glide all purpose teflon lubricant
- Certificate of accuracy traceable to NIST and registered ISO 9001

Fit	Tolerance	Order No.	Price
Minus	+.0000"/-.0002"	**NA5553880833**	Price
Plus	+.0002"/-.0000"	**NA5553880823**	Price

LANO-LUBE by Flexbar

Multi-Purpose Pure Lanolin AAA

- 2 oz. Size
- Good for inspection
- Gaging
- Drilling centers
- Tapping
- Turning
- Moisture free
- Stops rust
- No odor
- Anti-seize properties
- Hazard Code: 58

PROCHECK Rectangular Steel Gage Blocks - Grade 0, Certified

- Meets or exceeds the latest Federal Spec ASME B89.1.9-2002
- All blocks are supplied with certificate of calibration traceable to NIST
- All blocks are also supplied with long form ISO certificate showing deviation of each block, signed by an inspector from a US 17025 Lab
- Metric sizes available- call for quote

PROCHECK Certified Rectangular Block Sets

All gage block sets are assigned serial numbers and certificate of grades and tolerances

- **Premium certified sets** come with Long form certifications from an ISO 17025 certified U.S. Laboratory and will meet all of your ISO requirements
- **Economy set** comes with non-traceable certificate only

36 Pc. Sets Include:

- 2 Blocks – .1000″ and .1005″
- 9 Blocks – .1001″ thru .1009” step of .0001″
- 9 Blocks – .101″ thru .109″ step of .001″
- 9 Blocks – .110″ thru .190″ step of .01″
- 3 Blocks – .200″ thru .300″ and .500″
- 3 Blocks – 1.000″, 2.000″ and 4.000″
- 1 Block – .10005″
- 1 Fitted wooden case

81 Pc. Sets Include:

- 9 Blocks – .1001″ thru .1009″ step of .0001″
- 49 Blocks – .101″ thru .149″ step of .001″
- 19 Blocks – .150″ thru .950″ step of .050″
- 4 Blocks – 1.000″ thru 4.000″ step of 1.000″
- 1 Fitted wooden case

Fowler CERTIFIED SPACE-BLOX

- Tolerances to .00005″
- Certificate of inspection included
- Inspected according to meet NIST Federal Specification ASME B89. 1.9 - 2002 tolerances on length for inch gage blocks
- 36 blocks
- Ground hardened and tapped
- 4 Connection screws included
- Includes shop hardened fitted case

Fowler Bore Gage Setting Master Kits

Use Fowler’s Bore Gage Setting Master Kit for accurately setting any bore gage up to 6” in diameter to an accuracy of .0001”

Each Set Includes Setting Device

- Base anvil: 2.750” x .80”
- Adjustable anvil 2.375” x .375” (two each)
- Internal capacity: 6”
- Depth capacity: 1”
- Centralizer capacity width: 2.625”
- Quick release holder for fast adjustment

36 Pc. Economy Gage Block Set Included

- Tolerances to .00005”
- Certificate of Calibration to NIST
- High quality aluminum case!

+ No Optical Flat

Fowler Micrometer Calibration Set

- 9 Pc. rectangular sets including two optical flats
- Assists in meeting both Federal specification GGG-C-105c and ISO 9000 requirements
- Contains one block of each of the following sizes: .0625, .100, .125, .200, .250, .300, .500, 1.000, & 2.000″
- Two optical flats that vary in size by .0125″ which allows checking anvil faces at half rotations of spindle for measuring flatness
- Supplied with fitted wooden case and certification to NIST on each block
- Meets specifications for grades shown in chart

Fowler Rectangular Gage Blocks

Each block is rectangular steel, hardened to 65 RC, stress relieved, tapped to accurate size, parallelism and flatness, then carefully inspected and marked for size

- All blocks are individually serialized and calibrated, with individual certification traceable to the National Institute of Standards and Technology.
- Grade 2 tolerance = +4, -2 millionths for sizes up to 1″
- Grade 3 tolerance = +8, -4 millionths for sizes up to 1″
- Economy / Shop Grade tolerance = ±50 mil

Block sizes included in 36 Pc. sets:
- 9 Blocks .1001″ thru .1009″ steps of .001″
- 9 Blocks .101″ thru .109″ steps of .001″
- 9 Blocks .110″ thru .190″ steps of .010″
- 5 Blocks .100″ thru .500″ steps of .100″
- 3 Blocks 1″, 2″ 4″1 Block .050″

Block sizes included in 81 Pc. sets:
- 9 Blocks .1001″ thru .1009″ steps of .0001″
- 49 Blocks .101″ thru .149″ steps of .001″
- 19 Blocks .050″ thru .950″ steps of .05″
- 4 Blocks 1.000″ thru 4.000″ steps of 1.000″

Starrett Gage Block Sets

MADE IN THE USA

Rectangular Croblox Carbide Gage Block Set in Case

- The world's most complete gage block selection
- Rectangle, square & heavy duty styles from .010″ thru 20.000″
- All sets available with certificate of inspection & etched serial number
- Greatest range — .100″ to 12.000″ in .001″ steps
- Greater efficiency — allows two men to work from the set at the same time
- Greater accuracy on build-ups — allows using a minimum number of blocks

Starrett Crystal Pink Granite Surface Plates

Grade AA - Laboratory Grade
This is typically specified for precision operations in constant temperature gaging rooms and metrology departments.

Grade A - Inspection Grade
This is typically specified for general work in quality control.

Grade B - Toolroom Grade
This is typically specified for production checking work throughout the shop.

Unilateral Flatness Tolerance
Overall flatness tolerance is based on unilateral measurement. All points on the work surface shall be contained between two parallel planes separated at a distance no greater than the amount specified for each particular grade and size as shown in our listings.

Repeat Reading Tolerance
In addition to the overall flatness tolerance referred to above, Starrett provides repeat reading tolerances as specified in U.S. Federal Specification GGG-P-463C.

MADE IN THE USA

- Meets or exceeds U.S. Federal Specification GGG-P-463C for flatness
- Great surface hardness and wear resistance — the highest percentage of quartz crystals of any granite plate
- Smooth, jewel-like quartz bearing points protect accuracy and finish of both the surface and the tools used on it
- Quality and economy combined
- Comparable to black granite plates while outwearing them as much as 5 to 1
- Meets or exceeds 50 lbs per square foot (24kg per 1,000 sq. cm) load bearing specifications. Available in 100 lb (45 kg) test series

Grade - A - Inspection Ledge - No Ledge

PRO-CHECK Precision Toolroom Black Granite Surface Plates

- Granite surface plates meet or exceed Federal Specification GGG-P-463c
- Does not rust or corrode
- Does not nick or burr tools
- Harder than steel
- Retains accuracy for years
- Guaranteed repeat reading
- Autocollimator checked for overall accuracy
- Certificate of accuracy not included
- All plates are 0-ledge with grade B accuracy.

CHALLENGE Three Point Steel Surface Plates

- **Applications:** three point surface plates provide a precise reference surface for toolmaking, layout or checking the accuracy of other surfaces. The three point bearing pads and rigid ribbed construction permit support by less accurate surfaces without disturbing the surface accuracy. Wooden cover supplied with each plate.
- **Tolerances:** available precision ground flat within .0005” (0.0125mm) or hand scraped flat within .0002” (0.005mm)
- **Options:** wheeled and stationary stands are available to provide a working height of approximately 36” for plates 18” x 24” and larger
- **Optional steel handles available**

facsimile® QUICK-SETTING COMPOUND

MADE IN THE USA

Quick Setting Compound Kits

"Facsimile" is a special plastic compound kit which is used for duplicating surface flats, roughness and for dimensional transfer of inaccessible locations. Many other applications are listed below and many more in our free 20 page applications booklet

- Make duplicates for measuring, such as gages, etc
- Test surface geometry, flatness, microfinish, etc
- Make permanent records of surface geometry, etc
- Make custom holding and nesting fixtures
- Make quick jigs
- Make excellent stylus patterns
- Make instant molds and patterns
- Cast small run parts and prototypes
- Mask, fill in and seal
- Fretting depth of blade dovetails in jet engines
- Makes potting, bonding and repairing easy
- Closer inspection can be performed by allowing the casting to cure in a pressure vessel (15 psi)
- FACSIMILE - will not affect the surface of ferrous or non-ferrous materials to which it is applied
- When casting in a "Confined" area, it is better to cast 1/2 of the internal shape
- Remember - when casting without releasing agent, an ACETONE soak removes FACSIMILE
- Hazard Code: 04
- Class 3 UN#1247

Introductory Kit
One lb Kit order No. GG4516000
Complete Kit Contains:
FACSIMILE Powder, 1 lb Troy
1 — 120 cc FACSIMILE liquid
1 — 60cc Flexbar Release Agent
1 — Powder scoop
1 — Molding clay
10 — Wooden spatulas
1 — 1 oz Polypropylene measuring cup

facsimile® QUICK-SETTING COMPOUND Refills for Kits

TECHNICAL DATA
A test submitted by E. I. Dupont DeNemour & Company to an independent test lab showed the following properties of "Facsimile."
TEST PIECE: Approximately 1" round by 1/4" thickness
COMPRESSION TEST: Maximum load 6,800 lbs
Compression strength 9,650 PSI
MECHANICAL PROPERTIES: Ultimate tensile 3,415 PSI
WATER ABSORPTION: (24 hours at 73°) 0.31 by weight
The kit contains all material and instructions. The "Facsimile" can be diluted from putty consistency to a watery to best suit your job needs. If larger quantities of "Facsimile" are desired, they can be ordered 3 lb, 25 lb, 50 lb and 100 lb kits at proportionate lower prices per pound

reprorubber Thin Pour Metrology

Casting Material

MADE IN THE USA

THIN POUR (No. 16135)
Final Color — LIGHT GREEN
For internal-shape applications where a thin pour will completely fill the cavity without voids. Hazard Code: 58
A complete replica casting is quickly formed
- Manipulation time is 2 minutes and cure time is 12 minutes
- Start to finish: 14 minutes

You Can Take Impressions Of:
- All metals non-metals paper or cardboard items
- All plastics, rubber,ceramic, glass items,wood, marble, etc

Other Uses Include:
- Fixturing where semi-rigid structure is desired
- Making joints where flexibility is required
- Prototypes of rubber type components such as gaskets, washers, etc
- As a mask for high temperature plasma spray of metallic coatings

Physical Advantages Over the Hard-Copy Replicas:
- Replica is easy to remove — even if there are under cuts or grooves
- Cross-sectioning of replica is easily accomplished with a knife or razor
- It can then be checked on an optical comparator or microscope
- Surface finish replication is exact with excellent optical properties
- Reprorubber copies can be recopied (copy from a "female mould" yields a male-shaped replica)
- Replicas are permanent — will not leach or ooze out nor out gas
- No more 16 hour cure times as with RTV SILICONES
- More accurate than all other RTV COMPOUNDS
- REPRORUBBER putty will withstand up to 300° F (or more)

Order No.	Price
GG4516135	Price

reprorubber Quicksetting Putty Metrology

Casting Material

MADE IN THE USA

QUICK SETTING PUTTY (No. 16130)
Final Color — LIGHT BLUE
Roll two equal-sized balls of catalyst putty and base putty and simply knead them together like dough. Excellent for external shapes. Simply spread over master pushing down with fingers and wait for cure 8-10 minutes. You have 2-3 minutes of manipulation time. Therefore 13 minutes start to finish. You can also cast internal shapes and cavities but some pressure should be applied such as a weighted object on top
Exotic Metrology-Grade Rubber — Self-Curing in Minutes Virtually Perfect Replica Castings of Internal and External Forms Non-Toxic — Easy to Use — 100 Times Faster Than RTV Silicones - No Release Agent is Ever Needed
Hazard Code: 58

PHYSICAL PROPERTIES and APPLICATIONS

	REPRORUBBER THIN POUR	REPRORUBBER QUICK SETTING PUTTY

Machineable Wax

You can easily machine Flexbar Machinable Wax without the need for costly and messy coolants or lubricants, because MACHINABLE WAX is “self-lubricating”, “non-abrasive” and it will not fuse when machined at high-end spindle rpm’s and feed rates. Unlike wood or plastic, MACHINABLE WAX will not “gum up” on tool bits. As illustrated by the machined and assembled prototype on the front of this bulletin, sharp edges can be maintained, accurate threads can be cut and thin wall sections maintained with the quality of surface finish capable of being produced by your cutting tools and machine. MACHINABLE WAX is not cellular, grainy, or abrasive so “voids” in machined surfaces (common with plastics and wood) and “tool wear” are negligible. Flexbar Machinable Wax will also machine “within designated tolerances” to provide you with a dimensionally accurate prototype that can be assembled for checking.

- Hardness: 50-55 (Shore “D” scale)
- Specific gravity: 92
- Flash point: 575°F
- Softening point: 226°F
- Volumetric shrinkage @ room temperature: 7%
- Coloring: permanent, oil base, blue dye

Fine Proofing Alloy

Uses of NO. 16117
PROOFING VIA REPLICATION OF:
Dies • Moulding • Internal and External Thread Forms • Texture Check • Groove Slots • O-Ring Grooves • Gear Teeth • Splines • Surface Finish Replication • Extra-Fine Fixturing • Checking Undercuts

OTHER USES:
1. Precision holding of irregular work pieces during machining.
2. Dental-type model making.
3. Drill bushings for drill jigs.
4. Checks for lens buffing—gem cutting.
5. Transfer templates in contour jigs.
6. Cores for electroforming.
7. Compound wax patterns—lost wax patterns.
8. Duplicating plastic. Facsimile or Plaster patterns.

Flexbar No. 16117 Fine Proofing Alloy can be used in conjunction with our facsimile Measure-Image Replicating Material. Accordingly—you can clone or reproduce original parts for prototypes, small production runs, etc.

Fixturing Alloy

Uses of No. 15158
CHUCKS, JIGS AND FIXTURES:
1. Spinning metal into re-entrant or bottle neck shapes.
2. Holding irregular shaped work pieces during machining.
3. Bushings anchored in drill jigs.
4. Cast ref. surfaces in assembly, checking, die spotting, drilling, inspection fixtures.
5. Transfer templates in contour jigs.

MODELS AND PATTERNS:
1. Duplicate patterns for foundry match plates, ceramics, plastics and pottery
2. Patterns compensated for shrinkages

- Reusable low-temperature melting alloy (158°F) for supporting thin-walled sections which require machining. Does not shrink upon solidification. After machining you simply melt it out in hot water.
- Melts at 54° F below boiling point of water. Simply put it in a cast iron, stainless steel or porcelain lined pot and into hot water bath to melt it.
- Reusable many times.
- No drosses created owing to low heat required prior to pouring it.

Group 1

- **Kit Contains:** 4 - #1071 Cleaner; 2 - #1072 Penetrant; 2 - #1073 Developer
  Advantages: portability, accuracy, versatility, simplicity, availability
- Group 1 is Certified
- Kit contains no chlorine or sulfur-bearing solvents
- Because of its carrier solvents, Group 1 is our least flammable system
- Hazard Code: 3

Starrett® HE400 Horizontal Benchtop Optical Comparator

- HE400 horizontal benchtop optical comparator offers a 16” screen, 10” fast traverse X-axis travel, 4” Y-axis travel, quick change bayonet fitting lenses, Q-axis digital protractor with angular measurements to 1” resolution and MetLogix software control systems
- Simple to use, yet have great capacity and performance to satisfy an exceptionally wide range of dimensional inspection applications and complex measuring requirements
- Precision optics, superb lighting and a highly accurate workstage which combine to ensure bright, sharp images and exceptional accuracy

Suburban MASTER-VIEW™ Line of Optical Comparators Complete and Ready to Use Complete and Ready to Use

On all Master-View™ Optical Comparators

- Surface illumination through duplex fiber optics
- High capacity 4”x8” travel stage with 4.5”x19” work surface
- 10X Lens system
- Overlay chart clips
- Vernier reading to 5 minutes of arc
- Ball way construction handles loads to 100 lbs
- 3-Position rotary switch selects profile, surface, or combination surface and profile illuminations modes
- Rotary frosted glass screen with 90° crossline and 360° protractor rim
- Heavy-duty monorail type welded steel frame

Suburban Master-View Plus™ 14" Optical Comparator

Model MV-14-P-FAGOR Readout

Master-View Plus™ includes all the standard features of our standard Master-View™

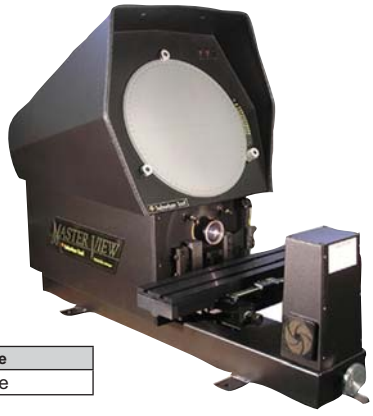
Plus:
FAGOR NV-20

- 2-Axis digital readout
- Linear comp
- Inch/mm conversion
- Absolute/incremental swtich
- 5 Micron glass scales
- .0002″ Resolution

Order No.	Price
MS55MV14P	Price

Suburban Master-View™ Basic MV-14

- All the standard features of the Master-View™ line plus LCD digital scales on the X and Y axis providing .0005” reading.



Order No.	Price

Mitutoyo PH-A14 Horizontal Profile Projectors

- Mitutoyo's lens technology and workmanship combine to provide a bright, crisp image for error-free inspection
- 8" x 4" floating-type workstage incorporates linear scales for fast, accurate measurement
- The workstage provides high accuracy and can handle a workload of up to 100 lbs
- 10X objective lens and fiber illuminator are standard accessories

Model No.	Description	Order No.	Price
64PKA087	PH-A14 Profile Projector w/QM Data (Arm Mount)	**MT8064PKA087**	Price

Mitutoyo PV-5110 Profile Projector

Model No. 304-919A

- Large 500mm screen
- Floor model uses a downward illumination system
- Digital readout protractor screen (including zero-setting, ABS/INC coordinate switching functions) for easy and error-free angle measurement
- Angled screen allows projected images to be easily traced or compared with a template
- Oblique surface illumination system provided clear and bright images, allowing easy inspection of non-reflective workpieces such as plastic parts or printed materials
- **Includes**: 8"x4" stage, 10X projection lens set, surface illumination unit, counter stand for KA counter, power cord, halogen bulb, fuse, grounding wire, allen wrench, vinyl cover

Order No.	Price
MT80304-919A	Price

Mitutoyo ABSOLUTE Vertical Digimatic Scale Units

- The ORIGIN key allows setting of an absolute zero point to be used as reference in subsequent measurements. Once set, the ABS Digimatic Scale Unit is ready to show its true position whenever turned on rather than 0.00" as with standard models
- The ZERO/ABS key allows the display to be zero-set at any slider position along the beam for incremental comparison measurements. This key will also allow return to the absolute coordinate with a display of the true position from the origin point
- No rack, no pinion, no glass scale
- Safely embedded in the hardened stainless steel blade
- Horizontal or vertical face according to the scale mounting direction
- Special type that is provided with diameter displaying function is available for lathes
- All units come with two mounting brackets, each located at either end of the scale
- With SPC data output

Fowler 12" Basic Bench Top Optical Comparator

with Digital Indicators

12” Basic Bench Top Optical Comparator Standard with Profile and Surface illumination. A must for all tool room applications this bench top comparator is lightweight, portable and economical.

- Featuring the basics for comparative/absolute measurements.
- 1 quadrant protractor screen graduated to 10X, 20X & 40X
- 2 each, AGD Group 2,0 - 1″/25mm electronic digital indicators with .0005″/.01mm resolution
- 10X lens is included with the unit and other lenses are available
- T-slot stage with a travel of 6″ horizontally and 2-1/2″ vertically make the unit universal for many different types of set-ups
- Uses a standard 110 power source so no expensive special electrical supply is needed

Hawkeye® Precision Borescopes

See the Places You Always Needed to See… But Couldn't

- See inside of pipes, tubes, valves, meters, bores, cross-holes, castings and injection molds
- Magnification of up to 25 times or more
- Portable and ready to use
- Built-in light source
- Bright clear images, straight-on or 90° view

Hawkeye Precision Borescope Kit Includes:

- Hawkeye Precision Borescope
- Hawkeye SideWays 90° adapter
- Mini-Maglite® flashlight with batteries
- Keyed aluminum & ABS carrying case

Specifications:

- Working length: 7" & 12" & 17"
- Tube diameter: Super Slim.109", Slim .188", Hardy .313"
- Tube material: type 304 stainless steel
- Field of view: 40º
- Direction of view: 0º from primary axis of borescope
- Actual view: 6.5mm @ 7mm distance, 41mm @ 50mm distance
- Range of focus: .04" (1mm)
- Resolution: 45 line pairs per mm @ 5mm subject distance

†The Hawkeye Nova is a portable, rechargeable Xenon light source 10 times as bright as our standard light. Great for use in large cavities and bores, such as pipes and engine cylinders.

Hawkeye® Flexible Borescopes

The Hawkeye Flexible Borescope fits into places with restricted access, can be flexed into places with tight access, and has "memory" to retain its working set. The Hawkeye Flexible Borescope brings illumination from a powerful, portable Nova Light, through glass fibers to the subject. A clear, bright image is returned to the eyepiece through 18,000 optical glass fibers, revealing burrs, contaminants, or flaws in weld joints.

- Outside diameter Borescope: .310″, mirror tip: .375″
- Working length: 39.4″
- Direction of view: 0° & 90° (with included mirror tip)
- Field of view: 40°
- Focal distance: .500″ to infinity
- Light source: Nova light with Xenon lamp and NiCd battery (charger included)
- Includes lockable metal case with die-cut foam

DCS1600 High Preformance Data Logging Video Borescope System

Portable hand held complete borescope system with monitor, camera and video

Features:

- Compact, palm-sized unit includes LED light source, 3.5” (89mm) extra wide TFT (Thin Film Transistor) display, camera and recorder
- Takes still photos and video (Multiple video formats compatible with most software including Windows media player, no special software required
- Internal SD memory allows user to save a whole video and output later
- TV monitor output, computer USB output, data logging function
- Multiple mirrored viewing tips and extra wide view angle
- Comes with a 3.3 ft (1m) long flexible probe with 0.2” (5.5mm) diameter camera tip
- Insert tube is resistant to water, oil, dust, gasoline, and scratches

Specifications:

- Light source: white LED
- Field of view: horizontal field angle: 46º, vertical field angle: 34º, diagonal field angle: 56º
- Depth of field (DOF): 1cm ~ 6cm
- Working temperature: 0º to 55ºC
- Power: rechargeable Li-Polymer battery 3.7V, AC 100-240V 50-60Hz power consumption DC5.5 1.8A (up to 4 hours record time)
- Recording medium: 1G SD CARD (up to 2G)
- Video out format: NTSC & PAL

Complete kit includes : Charger, lens module cable 3.3ft (1m), SD 512M memory card, 30°, 45° and 60° mirrors, USB to 5-pin mini-B cable, cleaning cloth, cotton swab, instructions, hard blowmolded case

NB49UTEGEMTT2	Price

Vibration Meter

- Selectable units of in/s or mm/s for Velocity and ft/s squared or m/s squared for acceleration
- Remote vibration sensor on 39" (1m) cable
- Wide frequency range of 10Hz to 1kHz
- Max/min record values for later recall
- Data hold
- Auto power off
- RMS or peak value measurement
- Includes: Instructions, magnetic mount, hard case

Order No.	Price
NB49VB8201HA	Price

Carbon Monoxide Detector

- Adjustable CO warning level
- LCD dual digital display
- Bright backlight
- Self test
- Low battery indication
- Fahrenheit/Celsius selectable
- Auto power off
- Auto zero
- CO range: 0~999ppm
- Resolution: 1ppm
- 3AAA alkaline batteries, operation manual, wrist strap & carrying pouch

Order No.	Price
NB49DCO1001	Price

Portable Gas Leak Detector

- Highly sensitive wide range gas detector
- Detect methane, natural gases, coal gases, hexane, propane, ethane, butane, pentane, isopropyl alcohol, halogenation hydrocarbon, (methanol, ethanol, butanol) aether, ketone (butone, protone), hydrogen, toluene, and other compounds, (gasoline, industrial solvent, lacquer, refrigerant, sulfur dioxide, ammonia, sulfured hydrogen, acetic acid, etc)
- Quick response
- 3-Color leak indication
- LED & audio indication
- Gas concentration alarm
- Adjustable sensitivity
- Includes batteries

Order No.	Price
NB49NGD268	Price

Digital Moisture Meter

- Measures moisture content over the range 8% to 30%
- Built-in low battery indicator
- Decay condition direct
- Resolution: 0.1% moisture content
- Accuracy: ±2%
- Operating Temperature: 32 to 122°F (0 to 50°C)
- Operating Humidity: Less than 90% R.H.
- LCD with display
- Display will show the moisture content directly in "% moisture Content"
- Protective cover

Order No.	Price
NB49MMD4E	Price

Water Alarm

- Detects water leaks from plumbing & appliances
- Alarm sounds when water is detected
- Helps reduce water damage
- Low battery indicator
- Size: 4.3" x 4.3" x 1"
- Power: (1) 9V battery

Order No.	Price
NB49WA500	Price

GENERAL Three-Range Light Meter

- Has the range and accuaracy needed to make meaningful measurementsof indoor and outdoor light levels
- Measurement range: 0 to 200/2000/20,000 lux (0 to 20/200/2000 foot-candles)
- Measurement accuracy: +/- 3% of reading in two narrowest ranges; +/- 5% in reading of widest range
- Measurement resolution (max): 1ft-cd (10 lux)
- Probe cord length: 5 feet (1.5m)
- Power source: 9V battery (included)
- Includes: light probe with protective cover, battery, hard plastic carrying case
- Limited 1 year warranty

Order No.	Price
NB49DLM2000	Price

GENERAL Industrial Heat Index Monitor

- Displays heat index, temperature, humidity & dew point
- Outdoor monitoring
- Danger icon with audible beep
- Min/max memory with reset
- Data hold
- °F/°C
- Large digital display
- Auto off with low battery indicator
- Battery included

Order No.	Price
NB49SAM800IND	Price

GENERAL Contact/Non Contact Tachometer

- Measurement types: Rotation speed (RPM); Total revolutions (REV); Surface speed (I/M, M/M, Y/M, F/M) and Length (M, YD, FT)
- Non-contact RPM measurements up to 100cm from target
- Laser diode detection
- Laser sighting
- LCD display
- Auto power off
- 40 point memory: 10 selectable MAX, 10 selectable MIN, 10 selectable AVG, and 10 selectable DATA measurements
- Ultra low power consumption in shutdown mode 9V Battery, Cone adapter, Funnel adapter, Contact adapter, Master wheel (10cm)
- Reflective tape 0.59"x20.67" (15x525mm)
- Hard carrying case

Order No.	Price
NB49PCT900	Price

GENERAL Mini Digital Contact and Non-Contact Tachometer

- Auto range function
- Two operating buttons for easy use, low battery icon
- Auto power off
- Hold function
- Displays ft./min., meter/min., and yards/min
- Range: 10.0 to 99,999 RPM
- Power supply: AA battery (included)
- Sampling time: 1 second

Order No.	Price
NB49PCT2236	Price

GENERAL Temperature Humidity Pen

- Humidity range: 5 to 95RH
- Temperature: 14° to 122°F
- Fast response
- High accuracy
- Auto power OFF (20 minutes)
- Memory (Min./Max.)
- °F/°C Switch
- On/Off switch
- Belt or pocket clip
- Reset switch
- Battery included

Order No.	Price
NB49PHT8708	Price

Starrett Digital Tachometer

- Powerful 30-function tachometer allows up to 20,000 contact optical RPM or up to 100,000 RPM non-contact measurement
- Can measure in revs, inches, feet, yards, centimeters and meters
- Allows viewing of target and display simultaneously
- Totalizer acts as optical counter, accumulates input, operates as stopwatch, and can be used in either automatic or manual mode
- Ergonomic design makes measurement of speed and RPM safe and simple

Order No.	Price
MV7068930	Price

Tempil® Tempilstik® Temperature Indicating Sticks

- Stick instantly melts at desired temperature for easy and immediate inspection
- Calibration free with 100% reliability at +/- 1% of desired temperature
- Easy to use aluminum holder, imprinted part number and temperature on each stick

Temperature Range	Order No.	Price

GENERAL Digital Stem Thermometer

- °F/°C switch
- Data hold
- Stainless steel piercing probe
- Pocket clip
- Drop resistant
- Measurement range: -58° to 302°F (-50° to 150°C)
- Measurement accuracy: ±1.8°F (±1°C) from -22° to 302°F (-30° to 150°C); ±4°F (±2°C) elsewhere
- Response time: 0.5 seconds
- Probe length: 3.8”
- Auto power off after 1 hour of inactivity
- Power source 1 LR44 battery (included)

Order No.	Price
NB49HDT304K	Price

Tempil Non-Contact Infrared Measurement Device

Model IRT-16

- Engineered to provide instant, superior accuracy and consistency in surface temperature measurement for a wide range of applications
- Lightweight and compact design
- Laser pointer with 16:1 distance to spot ratio
- 4 Digit blacklit dual display
- °C or °F selectable readout
- Min/Max/Ave and differential temperature mode available
- Built-in jack for K-type thermocouple probe to allow direct contact measurement

Description	Measurement Range	Order No.	Price
IRT16 Infrared Thermometer	-76°F(-60°C)-1157°F(-625°C)	**LH5224200**	Price
IRT16 Infrared Thermometer-NIST Certified	-76°F(-60°C)-1157°F(-625°C)	**LH5224202**	Price
K-Probe Thermocouple	-76°F(-60°C)-1157°F(-625°C)	**LH5224201**	Price

GENERAL Heat Seeker™ 8:1 Mid-Range Infrared Thermometer

Features & Benefits:

- Rugged and ergonomic design
- Backlit LCD display
- Sighting laser can be turned off
- °F/°C selectable
- CE, RoHS, WEEE approved

Specifications:

- Distance to spot (D:S) Ratio: 8:1
- Measurement range: -4° to 604°F (-20° to 317°C)
- Measurement accuracy: ±4°F or 2% of reading, whichever is greater
- Emissivity: fixed at 0.95
- Resolution: 0.5°F / 0.5°C
- Operating temperature: 32° to 122°F (0° to 50°C) @ 10 to 90% RH
- Storage temperature: 14° to 140°F (-10° to 60°C)
- Dimensions: 6.14 x 3.95 x 1.26 in (156 x 100 x 32 mm)
- Weight: 6 oz (135g)
- Power source: (1) 9V battery (included)

Order No.	Price
NB49IRT206	Price

Tempil ESTIK® Electronic Surface Thermometer

MADE IN THE USA

- Incorporated with the latest micro-thermocouple technology
- Advanced accuracy of +/- 2%
- Improves accuracy by eliminating errors due to reflection and other surface conditions
- Ergonomic hand grip with one-button operation
- Instant measurement read-out
- 3 Digit bright LED display
- Durable heat-resistant housing with rubberized grip
- °C or °F selectable readout

Description	Measurement Range	Order No.	Price
Estik Tempilstik Kit	32°F (0°C) to 999°F (537°C)	**LH5224290**	Price

GENERAL 12:1 Wide-Range Infrared Thermometer

Features & Benefits:

- Sighting laser can be turned off
- Large 4-digit backlit LCD
- Selectable temperature unit
- Fast response time
- Auto power off
- CE, RoHS, WEEE approved

Specifications:

- Distance to spot (D:S) Ratio: 12:1
- Measurement range: -25° to 999°F (-32° to 535°C)
- Measurement accuracy: ±5°F (±3°C) from -25° to -4°F (-32° to -20°C); ±3°F (±2°C) from -4° to 212°F (-20° to 100°C); ±2°F from 212° to 999°F (100° to 535°C)
- Resolution: 0.1°F (0.1°C)
- Emissivity: fixed at 0.95
- Response time: 0.5 seconds
- Operating temperature: 32° to 122°F (0° to 50°C) @ 10 to 90% RH

- Auto power off after 6 seconds of inactivity
- Battery life: 16 hours
- Dimensions: 6.69 x 5.23 x 1.77 in (170 x 133 x 45 mm)
- Weight: 5.8 oz (163g)
- Power source: (1) 9V battery (included)
- Soft carrying case

Order No.	Price
NB49IRT650	Price

GENERAL Analog Multi-Meter

- Fuse & diode protected
- AC/DC volts to 500V
- 0-250mA Resistance
- 0-100 Ohms, 18 ranges
- Self-storing leads
- Dimensions: 4″ × 2.5″ × .75″
- Single knob function
- Battery included

Order No.	Price
NB49AM35UL	Price

GENERAL Digital Multimeter

True RMS

- With NCV detection and Lo-Z mode
- 19 Functions
- 48 Ranges
- Measures AC/DC voltage, AC/DC current, resistance, capacitance, frequency, duty cycle, continuity, diode integrity
- Maximum voltage resolution 10µV
- Overvoltage protection level 1000V
- Backlit dual readout LCD
- Auto power off after 30 minutes of non-use

Order No.	Price
NB49DMM570	Price

GENERAL Digital Multimeter

Auto Ranging

- CAT III 600V
- 8 Functions
- 25 Ranges
- Measures AC/DC voltage, AC/DC current, resistance, diode integrity
- Maximum voltage resolution 0.5mV
- Backlit LCD

Order No.	Price
NB49DMM45	Price

LANG TOOLS CAT III Digital Multimeter Kit

- 600V AC/DC, 10A AC/DC
- 32MΩ resistance
- Frequency to 32kHz
- Continuity and diode test
- Temperature to 1400° F
- RPM for 1-8 cylinders
- Digital display and analog bargraph
- Protective rubber boot
- Tilt stand for hands-free operation
- Dual fuse protection
- Kit includes meter, temperature adapter, thermocoupler, inductive pickup, test leads, fabric pouch

Order No.	Price
KL4013803	108.11

LANG TOOLS Digital Multimeter Kit

- Designed to withstand a 10' drop
- Measures 1000V DC 10A DC
- RPM, temperature, resistance, continuity, diode test
- Millisecond pulse width
- Frequency to 200kHz
- 10MΩ input impedence
- 250µs min/max recording
- Kit includes meter, inductive pickup, temperature probe, test leads, alligator clips, and fabric pouch

Order No.	Price
KL4013804	270.36

Santronics Voltage Testers

Ultimate AC Sensor

- Sense voltage without metallic contact
- Audible and visual
- 50-1000V AC

Order No.	Price
RX313000	Price

AC Sensor

- Sense voltage without metallic contact
- 50-1000V AC
- Visual only alert

Order No.	Price
RX313115	Price

Low AC Sensor

- Sense voltage without metallic contact
- 24-90V AC
- Visual only alert

Order No.	Price

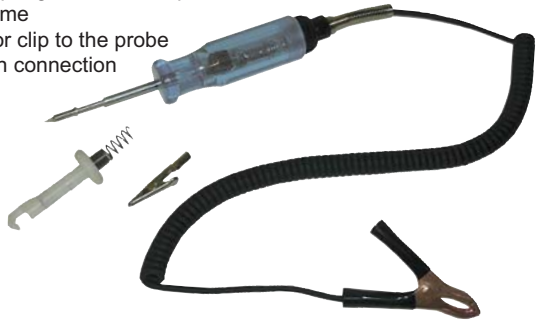
DC Detector

- 6-50V DC

Order No.	Price
RX313315	Price

Lisle Circuit Tester Kit

- Heavy duty tester signals with a light & buzzer
- Test low voltage up to 28 volts
- Finds electrical shorts, checks polarity, detects battery drain & checks circuits from a distance
- Heavy duty coil cord extends over 8 ft
- Detachable, spring-loaded hook pulls the center of the wire into the probe every time
- Attach alligator clip to the probe when a clip-on connection is needed



Order No.	Price
KN6528640	47.30

Lisle Low Circuit Tester

- Quick check both AC & DC current up to 28 volts with power on
- Helps locate shorts or breaks in wiring
- Complete with insulated grounding clip

Order No.	Price
KN6526250	7.65

STEELMAN PRO Thermal Leak Detector

- Infrared thermometer with 2-inch multicolor LDS screen that changes color to show fluctuations and help identify leaks
- Measures temperatures ranging from -40° F to 986° F (-40° C to 530° C)
- High accuracy thermal sensor measures temperature with less than 2% error range
- Distance spot ratio means you can get accurate measurements while remaining at a safe distance
- Automatic shutoff feature saves battery life when not in use
- Built-in laser so you know exactly where you're measuring
- Powered by a single 9-volt battery (included)

Order No.	Price
KE5379186	55.30

LANG Retractable Test Lead

- 2 x 10 Retractable
- Easily wind up into plastic housing

Order No.	Price
KL401140	16.61

General Screwdriver Tester

- Bright red LED
- Self-test
- AC voltage test 70 to 250VAC
- Continuity test
- Polarity check
- Checks fuses
- When tip is in contact with live (HOT) part of AC voltage, red LED lights
- Battery included

Order No.	Price
NB49ST600LED	Price

Lisle Circuit Tester Pliers

- Fits 16 gauge and smaller wire
- Safe for use on 12 volt automotive computer circuits
- Operating range of 6-28 volts, draws less than 19 mA. at 12 volts DC
- Dual probes and polarity indicator
- The 1st probe flips out enabling you to check hard-to reach connections and can be flipped back when not in use
- The 2nd probe with centering V design allows you to penetrate the center of the wire every time

Order No.	Price
KN6528850	27.35

VERSA-HOOK™

MADE IN THE USA

- Versatile hook on a heavy duty 2-1/2″ dia. magnet
- Great for blo-guns, hand tools, work lights and more
- Assembles up or down
- Patent pending

Order No.	Price
NL8020301	Price

Digital Stop Watch

- Normal time shows: hour, minute, second, AM/PM indicator, month, date, day
- 12/24 Hour user selectable
- 1/100 Second chronograph
- 8 Recallable lap memories
- Count-down timer with one second ews

Order No.	Price
NB49SW269	Price

100 Minute Count-up & Count-down Timer

- Timer and stopwatch
- Count-down from 99:59
- Count-up to 99:59
- Displays min. and sec.
- Automatic memory
- Loud alarm
- Large display
- Includes: battery, magnet, stand & clip on back

Order No.	Price
NB49TI170	Price

Count-up & Count-down Timer/Stopwatch

- Timer and stopwatch
- Displays hours, minutes and seconds
- Split & lap function
- Automatically counts-up after reaching zero
- Memory function
- Extra loud alarm
- Large display
- Power source: 1 “LR44” battery

Order No.	Price
NB49TI150	Price

Temperature-Humidity Monitor With Clock

- Displays the ambient temperature above the relative humidity (RH) above the current or alarm time on a triple readout LCD
- 12/24 hour alarm clock with 8 minute snooze option
- °F/°C switch
- Flip-up stand for table or desk placement plus hanger hole for wall mounting
- Power source: AAA battery (included)
- Limited 1 year warranty

Order No.	Price
NB49DTH800	Price

Digital 45° Read pH Pen

- Total push button operation
- Automatic calibration at the touch of a button
- Simultaneous displays pH and temperature
- °F or °C Temperature
- Replaceable pH electrode module
- Data hold, durable waterproof housing
- Auto power off & low battery indicator, handy pocket clip
- pH range: 0.00 to 14.00 pH
- 4 Digit LCD at an easy-to-read 45° angle
- Includes: carrying case & batteries

Order No.	Price
NB49DPH8690	Price

Jumbo Display Wide Range Digital Light Meter

- 3-1/2″ digit LCD displays LUX, FC, low battery, MAX & HOLD indication
- Accurately displays light level in foot candles (FC) or LUX over a wide range
- Max hold and data hold
- Auto power off
- Range: 200, 2000, 20,000, 50,000 FC/LUX
- Accuracy: ±5% rdg ±10dgts (<10,000 FC/LUX)
- Accuracy: ±10% rdg ±10dgts (>10,000 FC/LUX)
- Resolution: 0.1 FC/LUX
- Power source: 1 “12-volt” battery included
- Weight: 5.6 oz.

Order No.	
NB49DLM1337	Price

Additional square heads, center heads and protractor heads available. 36" and 48" blade available. Call with your requirements.

Starrett® Die Makers' Squares

- Larger knurled thumb screw locks sliding blades at any position, and smaller one tilts blades at angle; to set blades, release blade clamp screw, and tilt blade to desired angle by turning small knurled screw
- Blade held in position by tightening clamping screw
- Head and blades are hardened and ground
- Offset blade, used where it would be impossible to sight straight blade, protrudes from square about 1-1/2" and is 1/8" wide
- Both sides of each edge are beveled to give line contact

TESA TECHNOLOGY | brown & sharpe Combination Square Sets

Combination squares are commonly used for layout, set-up, checking heights and depths and setting angles. They are also often used as try squares, center gages, bevel protractors and rules.
Square Heads and Protractors are supplied with levels. Square Heads also include a hardened steel scriber.
Square Heads and Center Heads are available in hardened and non-hardened models.
Inch, metric, or inch/metric reading Combination Squares are available in complete sets or components may be purchased separately.

Type of Head Listing:

1-Square Head (Not Hardened)
2-Square Head (Hardened)
3-Center Head (Not Hardened)
4-Center Head (Hardened)
5-Protractor (Non-Reversible)
6-Protractor (Reversible)

Fowler Combination Square Sets with Hardened Heads

Combination sets are used as height gages, depth gages, levels, marking gages, scribers, center gages, bevel protractors, steel rules and plumb.

- Blades are chrome plated, fully hardened and tempered, 4R (graduated in 8ths, 16ths, 32nds and 64ths)
- Square head has level and scriber
- Finished in baked blue enamel
- Fitted case included
- Meet Fed. Specs. Type VI, Class B

Metal Etching Pen

- Use any place metals, hardened as well as thin walled, have to be marked or identified
- Effective on heavy metals, stainless steel, iron, copper, brass, nickel, tin, lead
- Special acid solution flows like ink in a felt-tip pen and a permanent etch is produced on the metal
- Leaves distinctive, smudge-proof, black markings
- Ideal for toolroom use and marking in the machine shop
- Apply on clean surface - after application wipe dry with oily cloth

Fowler Digi-Pro Electronic Protractor

The Digi-Pro electronic protractor includes embedded magnets for unique measurement areas. On/Off, Zero, Hold and Reverse features to invert the display for easier reading in certain situations.

- Embedded 25 lb pull magnets
- Full, 360° measuring range
- Accuracy: ±.2°
- Repeatability: ±.05°
- Resolution: .05°
- Invertible display feature
- Voltage: Standard 3V lithium battery

Use the Digi-Pro to make fast and accurate angular measurements. Ideal for fabrication applications.

Fowler 9" Electronic Level

XTRA-VALUE

Fowler's 9" Laser Level provides instant 4 x 90° digital inclination display. With embedded magnets on its measuring surface, a beamsplitter projects a 90° laser cross hair for leveling at a distance. It also includes a 1/4-20 mount for tripod use.

- Measuring range: 4 x 90°
- Resolution: .05°
- Accuracy: ±.2°
- Repeatability: ±.05°
- Standard 9 volt battery (250 hours life)
- Dimensions: 9"L x 1"W x 2-1/4"H
- Includes two way level and plumb vials
- Reversible reading for inverted use
- Bar not included

Fowler Clinotronic Plus

WYLER

- Resolution of 0.01° (selectable)
- Adjustable base depth
- Display: use any units common to inclination measurements
- Desired units selected by push button
- Automatic setting of zero by push button command.
- Absolute or relative measuring mode selectable by push button
- Built-in calibration program
- Seal-tec technology for excellent performance in difficult environmental conditions
- Interface connection RS-232 is integrated. Special purpose cables available.
- Low battery indication
- No loss of calibration data by power failure
- Price includes calibration cable and case

Technical Specifications

- Measuring range/capacity: ±45°/0-360°
- Response time: Value available within 5 seconds
- Sensitivity: Depending on units set -.01°
- Repeatability: <.01°
- Linearity: Within 3 min. of arc
- Temp. coefficient: Less than 0.01°/°C
- Data output: Serial
- Battery: Standard AA 1.5V alkaline/130hrs or AA 3.0V Mn02-lithium (for longer operation - 300 hrs.)
- Housing: Aluminum hard anodized
- Dimensions: 4 x 3 x 1" (100 x 75 x 30mm)

BAUSCH + LOMB Hastings Triplet Magnifiers

- Highly corrected magnifiers-Bausch & Lomb's finest
- Three separate lenses, bonded together to form a compound lens, provide sharp, very distinct images
- No color distortion even under 14-20X power
- A swingaway, nickel-plated case protects lens and serves as a handle

Power	Focal Distance (in.)	Lens Size	Order No.	Price
7X	1-1/2	19.8mm	**KA40816168**	Price
10X	1	15.8mm	**KA40816171**	Price

20X	1/2	8.3mm	**KA40816181**	Price

BAUSCH + LOMB Folding Pocket Magnifiers

- Wide range of powers: 3 - 20X
- By combining lenses, three powers are available with 2-lens models, seven different powers with the 3-lens model
- Swing-away case of durable plastic serves both as handle and as protective case

Power	Focal Distance (in.)	Lens Size	Order No.	Price
4X	2-1/2	36mm	**KA40812354**	Price
4X to 9X	2.5 to 1.1	23mm	**KA40812364**	Price
5X to 20X	2 to .5	20.3mm	**KA40812367**	Price

BAUSCH + LOMB Compact Lighted Magnifier

- Ideal for inspecting or reading in low light conditions
- Convenient size, perfect for tool box or pocket
- Rugged, take it anywhere
- Stores in its own protective case
- Push buttons first to release large (2″) 2X lens; again to light the lamp
- Batteries included (2AAA)

Order No.	Price
KA40819008	Price

BAUSCH + LOMB Bar Magnifiers

These bar magnifiers lie flat on the page, doubling the height of letters, while magnifying two lines of type at a time without any need to focus.

- **Magna-Bar™:** The 5-1/4″ Magna-Bar easily covers the full-page width of most books
- **Magna-Rule®:** The 10″ overall length Magna-Rule offers an 8″ scale in both inches and centimeters, making it very useful with tabulated data. It also serves as a linear guide
- **Both have 2X magnification.**

Fisher Machine V-Blocks & Clamps

MADE IN THE USA

- 1-1/4″ x 1-1/4″ x 1-5/8″ long
- Capacity: Large vee 1″ dia. Small vee 1/2″
- Hardened and match ground
- Square and parallel within .0002″
- Two serial numbered vee block with clamps

Order No.	Price
NG49VB2	Price

Starrett® V-Blocks and Clamps

MADE IN THE USA

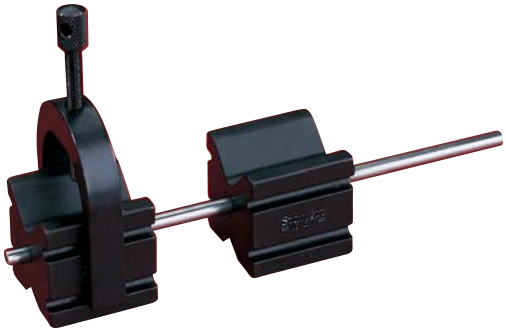
- Can be used on base, end, and either side
- Clamp is provided with an adjustable side screw/caps to support block
- Groove at stepped end at right angle to base and is handy for holding shouldered studs, round pins, etc
- Hole clearance for drilling and remove dowel pins provided
- Block has four 3/8-16 tapped holes, two in base and one on each side to attach angle iron for face plate or magnetic chuck mounting
- Block made of hardened steel
- Sides are ground parallel and the groove central and parallel to sides and base
- Size is 1-7/8” square, base length about 3-1/2”

Starrett No.	Description	Order No.	Price
567	Set Complete, with One V Block and One Clamp	**MV7052588**	Price
567B	Clamp, Only	**MV7070885**	Price

Starrett® Small V-Blocks

MADE IN THE USA

- Case hardened and may be used singly or in pairs
- A removable 6” steel rod keeps blocks in alignment and under work
- Blocks are furnished in pairs each 1-1/4” square
- Large V about 13/16” and small V about 13/32” across the mouth



Starrett No.	Description	Order No.	Price
271A	Two V Blocks (one pair)	**MV7051293**	Price

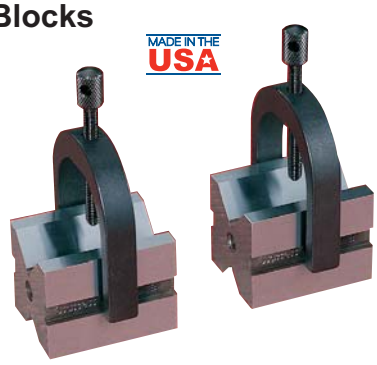
Starrett® Small V-Blocks

MADE IN THE USA

- V’s are ground central, parallel and square with ends and sides
- Made of tool steel and hardened
- Manufactured and numbered in pairs, so that V’s in each blocks are always in alignment
- Tapped hole 1/4-20 through sides
- Angle iron and blocks can then be attached to lathe face-plate or held by magnetic chuck
- Each block about 1-1/4” square and 1-5/8” long



Starrett No.	Description	Order No.	Price
278	Set Complete, Two V Blocks (one pair) and Two Clamps	**MV7051312**	Price

Many more levels are available from the STARRETT line from cross test to bench levels. Call us with your requirements.

Starrett® V-Blocks and Clamps

MADE IN THE USA

- Handles round work up to a diameter of 4″
- Can be used on its side or on its end with no interference from the clamp
- A reversible swing-away style clamp
- Clamp can be positioned at either end or at the center of the V-block
- Two tapped holes in one end of the V-block provide for mounting it perpendicular to a face plate.
- Clearance holes in the bottom provide for mounting the V-block to angle plates or other fixturing
- 5-1/4″ wide, 3″, high and 3-3/8″ long and is precision ground
- V-Block and clamp are also made from hardened steel and each V-block is furnished with two clamp screws

Ultra Wee-Vee Set & Mini-Vee Combo Set

Unique universal holding tool for small, miniature, or intricate parts. Ideal holding fixture for grinding/indexing punches and pins, drilling, milling, EDM, inspection on optical comparators.

Features:
- Capacity .030″ to 9/32”
- Furnished with bridges to straddle long workpieces, allowing top hold-down screw of V-Block clamp to be utilized
- Hardened and high precision ground Wee Blocks, squareness and parallelism within .0002″
- Set contains 2 Ultra Wee-Vee Blocks, size A .030″ - 5/32″ cap, and size B .050″ - 9/32″ cap., Bridge A and B, plus 5 Upper Prisms, 1/8″, 5/32″, and 3/16″ cap., all in a fitted case

V-Block Specifications:
- Size: 1-5/8″W x 1-3/4″H x 2-3/4″T
- Capacity: 1-1/2″

Item	Brand Name	Order No.	Price
TESA / brown & sharpe	Brown & Sharpe	**MV4526913**	Price

Fowler V-Block Set

2 Each @:
- Dimensions: 1-1/2″L x 1-1/4″W x 1-1/4″H
- Work capacity: approximately 1″
- 2 Clamps

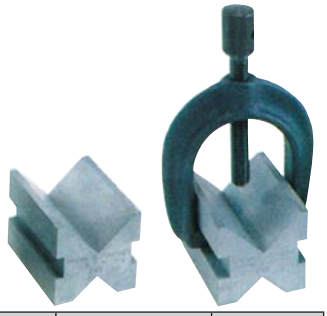
2 Each @:
- Dimensions: 2″L x 1-1/2″W x 1-1/2″H
- Work capacity: 1-1/2″
- 2 Clamps

All Feature:
- Surfaces are square and parallel within .0005″
- V-grooves are square and parallel with all surfaces within .0005″
- Corresponding dimensions for each pair are alike within .0005″
- All enclosed in shop-hardened case

Order No.	Price
NA5552475500	Price

TESA / brown & sharpe No. 749 V-Blocks & Clamps

Made in numbered pairs from mild steel. Surfaces (except V) are square and parallel with each other within .002″. V grooves square and parallel with all surfaces within .0035″.



Dimensions:
- Size: 1-1/2″ square x 2″ long
- Capacity: approx. 1-1/2″ (40 mm) diameter

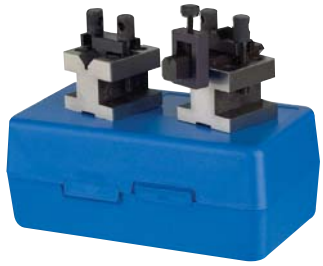
Fowler X-BLOX Jr. V-Block Set

- Mini Vee: Use this universal holding tool for small, miniature or intricate parts.
  Dimensions: 1-3/8″ x 1-3/8″ x 1-3/16″
- Reversible swing-away clamps
- Versatile clamp, plus unique offset hole pattern in top of blocks, offers a large variety of clamping possibilities
- All blox are hardened and ground, squareness and parallelism within .0003″
- Set capacity: .030″- 1.285″
- Includes shop hardened case



Order No.	Price
NA5552475025	Price

TESA / brown & sharpe No. 749-1 V-Blocks & Clamps

For larger and heavier work. Made in numbered pairs from mild steel. Set consists of two blocks and one clamp. Blocks feature two clamping grooves. Lower grooves permit blocks to be clamped to table.

Accuracy:
Sides are square with each other within .003″. Ends are square with sides within .003″. V groove is parallel and central with sides within .002″. V groove is 90° ±1/2°. V's of pairs are central and parallel to each other within .004″.

Dimensions:
- Size: 2-1/2″ square x 3″ long
- Capacity: approx. 1/2″ to 2-1/2″ diameter

Micro-Rise V-Blocks

Features:
- Hardened and ground anvils support up to 1,000 lbs
- Wide angle “V” accepts 3/16″ to 5″ diameters
- Insures solid support without deflection

Dimensions:
- Base - 1-3/4 x 4”
- ‘V Section’ - 13/16” wide
- Height closed - 3”
- Height open - 3-1/2”
- Standard ‘V’ angle - 120°
- Special ‘V’ angle - 90°

Micro-Rise V-Block with Clamps	**GG4516507**	Price

Fowler V-Block Set

Universal Type

- Two clamps with screw hole at 90° included
- 2" Clamping capacity
- Constructed with stepped grooves allowing the clamps to be inserted without protrusion, thus allowing the V-block to be used on base, ends or sides
- Hardened steel
- Measures 2-3/4 x 2 x 2"
- Matched pair of V-blocks are perfectly aligned with 90° V-grooves ground central and parallel to the sides and base within .0004" accuracy

Fowler No.	Order No.	Price
52-475-555-0	**NA5552475555**	Price

PROCHECK Quadruple V-Blocks

- Made from seasoned closed grained cast iron
- Universal V-block consisting of four different sized grooves
- Supplied in pairs

PROCHECK All Angle V-Blocks & Clamp

- Can be used on base, on end, also flat on either side
- Clamp provided with adjustable side screw to prevent tilting when drilling, grinding, or milling
- Holding capacity: 1-5/16"
- Measures 1-7/8 x 1-7/8 x 3-1/2"

Order No.	Price
NG52NVB567	Price

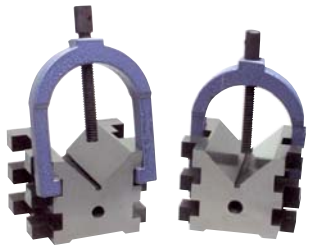
Fowler All Angle V-Blocks & Clamp

- For grinding, milling or drilling
- Made of hardened and precision ground tool steel
- Sides are parallel and vee is central and ground
- Central hole is provided for drilling and removing pins
- V-block has four 3/8-16 tapped holes, two on the bottom and one on each side
- Can be used on base, on end, also flat on either side
- Holding capacity: 1-5/16"
- Measures 1-7/8 x 1-7/8 x 3-5/8"

Order No.	Price
NA5552475050	Price

PROCHECK Multi-Use V-Block and Clamp Set

- Stepped groove construction permits low or high clamping
- Holds square or round work
- Hardened steel
- All sides precision ground parallel and square
- Size: 2-1/2" x 2-3/4" x 2"
- Capacity: 2" round - 1-7/16" square



Order No.	Price
NG52NVB7502	Price

PROCHECK Precision V-Block

- All sides are ground square and parallel to each other
- Matched accuracy .0002" 90° vee's are ground central, parallel, and square with the ends precision ground
- Hardened and ground chrome steel
- Sold in precision matched pairs only

- **NG5352475015** and **NG5352475020** (shown) are designed so the clamps do not protrude over the sides; thus the tool can be used on its sides

PROCHECK Planer & Shaper Gage

With Level

- All working surfaces are precision ground and held to close tolerances
- Well balanced base helps avoid tipping
- Has 3” extension with knurled grip
- A level is provided in the base for machine setups and gage work
- Range: 1/4 to 9-1/4”
- Base size: 5-1/4” long x 3/4” wide

Order No.	Price
NC52NPG599	Price

CHALLENGE Slotted V-Blocks with Clamp

- Easily machinable for adding mounting, workholding or measuring features
- Guaranteed accurate to the tolerances shown
- Made of meehanite or equivalent- it’s qualities include strength, toughness and wear resistance
- V-blocks slotted with clamp

Size (in.)	Approx. Shipping Weight	Order No.	Price
3 x 3-1/2 x 6	32 lbs	NL30VC0303E06	Price

Suburban Planer Gage

- Body and slide are hardened and ground alloy steel castings
- Wide body for stable operation
- Beveled construction eliminates side play and provides accurate alignment and parallelism
- Multiple tapped holes in the slide allow for attachment of extension rib or other accessories
- 3” Extension nib and fitted wooden case included
- Base dimensions: 6-3/16” x 1-1/8” x 3-1/2”
- Range: 7/16” to 10”
- Weight: 6 lbs

Order No.	Price
NJ50PG613	Price

CHALLENGE V-Blocks

- For supporting and holding cylindrical work for layout, machining, inspection or as fixture components
- A relief is provided in the center of the V for drill clearance
- Furnished in matched pairs
- Base, sides and V are precision ground-the V is central, square with the sides and parallel to the base within .0005” (.013mm)
- Ends are machine finished (ends can be special ordered precision ground-call for price and availability)

Size (in.)	Approx. Shipping Weight	Order No.	Price

5" Sine Bar Set

Set Includes:
(1) 5" Sine bar hardened and ground and parallel top to bottom of rolls within .0002"
(18) Blocks with a range of 1/2° to 15° resulting angle, including two blocks providing "Taper-per-foot" of 1/4° and 1/2°

- Exact constant within .0001"

Comments - Sine Bar Only

Ultra Precision 12 Pc. Angle Block Set

Ideal for Production and Inspection Applications

Features:

- Made from hardened steel, precision ground
- Angular accuracy .0001" per inch ±30 arc seconds
- 3" long × 1/4" thick
- Simple, quick angle set-ups
- Includes a shop hardened molded case
- Avoid errors by eliminating calculations
- Complete set of 12 blocks: 1/4°, 1/2°, 1°, 2°, 3°, 4°, 5°, 10°, 15°, 20°, 25°, 30°

Item	Brand Name	Order No.	Price

TESA TECHNOLOGY / brown & sharpe 17 Pc. Precision Angle Block Set

Get quick set-ups for grinding various angles from 1/4° to 45°. Just load on vise and rest the workpiece at any angle you choose. Eliminates time wasted dressing an angle in a grinding wheel - then dressing it flat again later! Made from hardened steel and supplied in a fitted wooden case.

- **Accuracy: .0003"**
- Complete Set of 17 Blocks: 1/4°, 1/2°, 1°, 2°, 3°, 4°, 5°, 10°, 15°, 20°, 25°, 30°, 35°, 40°, 45° and 2 riser blocks

Fowler Machinist Set Up Kit

1-2-3 Block Set
- Tolerance: .0001″ (squareness per inch)
- Dimensions: 1″ x 2″ x 3″
- Hardened to 58-60 Rockwell C
- Matched accuracy within .0002″ per inch

Angle Block Set
- Precision ground
- Accuracy ±30 seconds
- All blocks 3″ long and 1/4″ thick
- Each set includes 1° thru 5° blocks in 1° increments and 5° thru 30° blocks in 5° increments as well as 1/4″ and 1/2″ blocks

Spacer Blocks
- 3/4″ diameter, 1/4-28 ID thread
- Ground hardened and tapped
- 4 connection screws included
- Accuracy ±.0001″

Jack Stand Set
- Up to 1000 lbs
- Range: 2-1/4″ to 3-3/8″
- Jack base diameter: 1-1/4″
- 1″ and 2″ extension bases
- Extensions may be combined

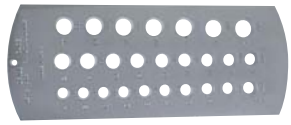
NB405075	Price

1-60 Twist Drill & Machine Screw Tap Gage

MADE IN THE USA

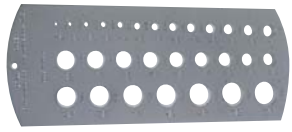


- Tells at a glance the correct size tap drill for machine screw tap in "NF" National Fine or "NC" National Coarse thread series
- Shows the correct body size drill to use
- 60 Sizes shown with number and decimal equivalent of drill at each hole

Order No.	Price
NB405051	Price

61-80 Twist Drill & Drill Rod Gage

MADE IN THE USA

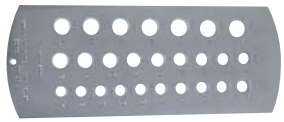


- Used to gage and select the correct twist drill and steel drill rod in the small size range from 61 through 80
- Each hole shows the size number and the corresponding decimal equivalent

Order No.	Price
NB405054	Price

A to Z Alphabet Drill Gage

MADE IN THE USA



- Used to select or check drill sizes from "A" to "Z"
- Each gage hole is marked by letter and its decimal equivalent from .234 inch diameter through .413 inch diameter

Order No.	Price
NB405053	Price

Starrett Tap and Drill Gage

- Show correct size tap drill for any National Coarse or National Fine tap from #2-56NC to 1/4-28NF to produce 75% full thread
- Gage also shows correct body size drill and provides 60 holes marked with number, size and decimal equivalent of drills from No.1 through No. 60
- Hardened, ground, polished and tested for accuracy
- Gage is 5/64" thick by 2-5/16" wide by 6-1/4" long

Model No.	Range of Tap Drill	Range of Body Drill	Order No.	Price
185	50 to 3	44 to 1/4	MV7050675	Price

GENERAL Reference Table

- Essential tap drill and decimal equivalents reference table for toolmakers, machinists and mechanics
- Front has machine screw size tap drill chart for recommended 75 depth thread
- Back has decimal equivalents table in 64ths from 1/64″ to 63/64″
- For National Fine and National Special series of machine screws
- Convenient 6″ rule is graduated in 64ths

Order No.	Price
NE50715	Price

GENERAL Sheet Metal Gage

- For gaging uncoated sheet metal, plate iron and steel
- Gage numbers are U.S. Standard 0 to 36, based on weights in ounces per square in.
- Decimal equivalents are on reverse side
- Chrome finished is hardened & tempered
- 3-1/4″ Diameter, 3/32″ thick

Order No.	Price
NE5021	Price

American Standard Wire Gage for Non-Ferrous Metals

- Gage sheets, plates and wire made of non-ferrous metals such as copper, brass, aluminum, etc.
- Sizes range from 0 to 36
- Decimal equivalents shown on reverse side

MADE IN THE USA

Order No.	Price

PROCHECK Angle Gage Set

- 18 Individual gages for easy use
- 8 Gaging surfaces per gage
- Each gage checks primary, 1/2 primary and complementary angles
- Quick and accurate inspection of angles and ID or OD chamfers
- Inspect angles on ground form tools and cutters

Order No.	Price
NB67L300AG	Price

Starrett Radius Gage Sets

- Made of stainless steel with no-glare satin finish
- Individual gages permit each gage to be used separately for greatest accuracy and convenience
- Each gage is marked with its radius and has five different gaging surfaces for both convex and concave radii
- Available with handy gageholder for checking radii in hard-to-reach locations.
- All sets furnished in attractive, protective case

MADE IN THE USA

Individual gages with or without holder are available - price on application

Fowler Screw Pitch Gages

Features #52-470 Series

- Pressure angle 14.5°
- Involute Gear Tooth Gages easily determine pitch diameter of involute gears from 6-80 and 2-5 in inch and .5-5 and 6-12 in metric

Features #52-485-015, 020, & 051

- Narrow designed blades permit use for internal and external screw threads
- Locking device at each end to secure all blades for storage or position
- Correct pitch is determined by matching blade teeth with threads
- Precisely ground and finished
- Blades marked with thread size

Features #52-485-030

- Acme Screw Pitch Gages (29° angle) made of fine stainless steel. Each blade is 3″/90mm long and .03″/.8mm thick.

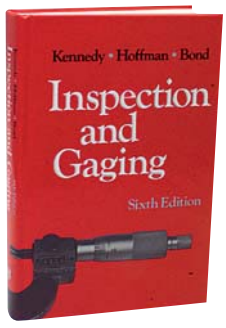
Inspection and Gaging

Sixth Edition

By **Clifford W. Kennedy, Edward G. Hoffman, & Steven D. Bond**
1987, 654pp., illus
Concise yet comprehensive, training manual and reference provides the many phases of inspection work and their application.

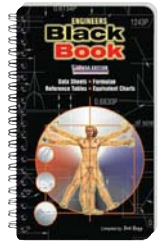


Features:

- Discusses a range of manual and automatic measuring devices along with their specific functions and the specialized functions involved with their use
- Analyzes the methods and duties of inspectors

Order No.	Price
MY5011496	Price

Engineers Black Book



- Matt-laminated and greaseproof pages ensure glare-free reading and long life
- Wire-bound so book lies flat
- Drill point sharpening guide included
- Color coded for easy reading and reference
- Engineering drawing standards, formulae, spur gear calculations, equivalent charts
- Tapping drill sizes, sheet metal and wire gages, keys and keyways
- Weights of materials, lubricants-coolants, hardening and tempering surface coatings
- Speeds and feeds, keys and keyways

Order No.	Price

Fastener Black Books

Technical fastener resource consolidating the abundance of fastener information into an easy-to-read user friendly format. Pages are durable, tear resistant and glare-free. Pages can be easily wiped clean, so this reference book is perfect for shop environments. Great tool for engineers, apprentices, trainees, tradesmen, machinists, machine shops, tool rooms, technical colleges, fabricators, sheet metal workers, etc.

Electrical Black Book

with Digital Multimeter

Technical electrical resource book consolidating the most commonly used electrical information into an easy-to-read user friendly format. Included is a handy pocket digital multimeter. Pages are durable, tear resistant and glare-free. Pages can be easily wiped clean, so this reference book is perfect for shop environment. Great tool for engineers, apprentices, electricians, trainees, tradesmen, machinists, machine shops, tool rooms, technical colleges, fabricators, sheet metal workers, etc.

Blueprint Reading Basics

By Warren Hammer

- Includes many new worksheets designed to facilitate the reader's ability to form a mental picture from a drawing
- Each chapter contains an introduction, a detailed review, illustrations, review questions, and worksheets
- Industry standards (including ASME Y 14.5, Geometric Dimensioning and Tolerancing), practices, and copies of industrial blueprints are included throughout
- Written in a easy-to-understand manner that is appropriate for machinists, mechanics, technicians, and inspectors, as well as students taking blueprint reading, machine shop or tool and die courses

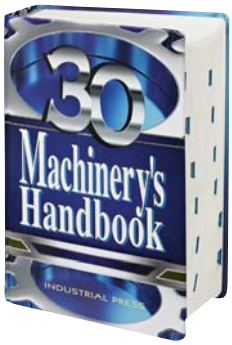
Machinery's Handbook and Machinery's Handbook Guide

30th Edition



Contains useful, practical, and hard-to-find information, and provides a wealth of engineering and shop standards, illustrations, formulas, and readable tables and graphs.
Authors: Oberg, Jones, Horton & Ryffel, 2,896 Pages

Features:

- Provides extensive coverage of mathematics, cutting tools, speeds and feed, screw thread systems, metallurgy, metrology, and other critical topics
- Metric and inch dimensions of: bolts, nuts, and screws; rivets; pins and dowels; tapers; steels and non-ferrous metals; and more
- Cross-references important subjects for greater convenience

Description	Order No.	Price

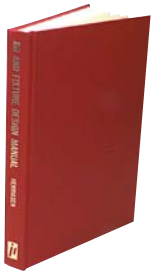
Jig and Fixture Design Manual

By **Eric K. Henriksen**
1973, 312pp., illus.



Features:

- Describes fixture components in full
- Presents the fundamental principles for efficiently combining the components into successful fixtures
- Applies basic engineering principles to the mechanical and economical analysis of the complete design
- Includes metric conversion tables and appendices on transfer of tolerances, measuring of angles in radians, and the dimensioning of fixture by stress analysis

Machine Shop Practice Second Edition

Volume I: 1981, 496pp., illus. Volume II: 1981, 517pp., illus.
Karl H. Moltrecht

Features:

- Now offers sections on numerical control, grinding wheels, single point cutting tools and tool wear, basic drilling machine setups, and formulas
- Gives greater attention to methods of setting up the workpiece on milling machines, horizontal boring machines, planners and shapers
- Includes more than 760 illustrations on 70 tables.

Ingenious Mechanisms for Designers and Inventors

By **Franklin D. Jones; Volume I & II**
By **Holbrook L. Horton; Volume III**
By **John A. Newell & Holbrook L. Horton; Volume IV**

Gives inventors and designers concise, illustrated descriptions of many of the most ingenious mechanical movements ever designed. Fully describes and illustrates with working diagrams cam applications, special cam designes, interlocking devices, valve diagrams, tripping or stop mechanisms, feeding and ejecting mechanisms for power presses, and more.

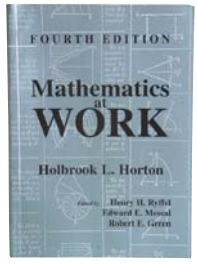
Math At Work

Fourth Edition

By Holbrook L. Horton, Henry H. Ryffel, Edward Messal and Bob Green



- Helps its readers solve a wide array of mathematical problems specifically related to mechanical work
- Entire text has been carefully reviewd and edited where necessary for greater clarity and accuracy
- Now includes trigonometric and common logarithm tables
- This book is renowned for its ability to duplicate, as far as possible, personal instruction

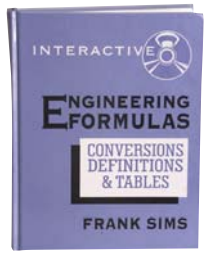
Engineering Formulas Interactive

By Frank Sims

With Intellisim™, a powerful interactive math engine developed by Intellipro, Inc., you can use the CD-ROM to quickly perform dynamic calculations and analysis on over 100 of the most popular equations in this book.



- Change parameters at will
- Calculate results easily; Graphically plot results
- Evaluate formulas for a range of values
- Copy formulas and results to clipboard
- Supports algebraic, differential and mixed equation systems
- Customize formulas and modify and combine each formula on the CD-ROM
- Contains over 450 units conversions, 180 term definitions plus every significant engineering subject with applicable formulas
- Properties of materials, formulas for geometric figures and formulas for structural sections are all included
- System requirements: Windosw 3.1/95/98/NT; CD-ROM drive, 16MN available RAM; 10MB available HD space, VGA compatible monitor

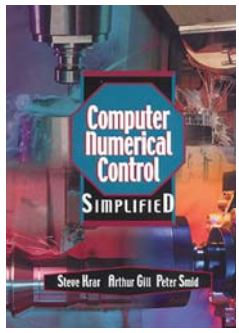
CNC Simplified

Includes CD-ROM



This textbook covers everything from programming basics to bench-top teaching machines to industrial machines to milling and turning programming to an introduction to CAD/CAM. What's more, a CAD/CAM SOFTWARE PROGRAM, included in each book, makes it possible to design a part on the computer, generate machining codes, and simulate the tool path (cutting action) to check for programming errors.

CD is not compatible with Windows Vista or higher

STEINEL HB1750 Profesional Heat Blower

The Steinel® HB 1750 Heat Gun has easily interchangeable color coded variable temperature keys for the right temperature every time . Each key is designed to give specific temperature outputs from 200° and 1200° F.

- Easily interchangeable color coded variable temperature keys.
  Blue: 200°F to 300°F
  Gray: 300°F to 500°F
  Yellow: 500°F to 750°F
  Orange: 750°F to 1000°F
  Red: 1000°F to 1200°F
- Fully adjustable, quick lock stand for hands-free operation and stores temperature keys for convenience
- Powerful turbine blower with air delivery rate up to 23 CFM
- Gun cylinder will not get hot while in operation
- Lightweight and quiet, with a soft ergonomic grip
- Plug-in heating element takes only seconds to change
- Convenient slide switch (Off / Cool / Hot) and baffle to adjust air and temperature within key ranges

Use for a variety of applications including shrink wrapping, desoldering, paint drying, paint stripping, welding plastics, softening adhesives, and thawing frozen pipes

Milwaukee Heavy Duty Heat Gun

- Impact resistant heating element
- Efficient soft air velocity: increases surface temperature to the required working temperature faster than conventional hot air heat guns
- Cool air inlet design allows air movement at peak efficiency
- Support stand enables gun to be stationary for workbench or assembly work
- Dual temperature 570°F and 1000°F
- 3 position rocker switch — off / high / low
- Volts: 120 AC
- Amps: 11.6
- Air temperature: 570°F / 1000°F
- Net weight: 1.6 lbs

XRP™ Batteries have extended run time vs standard batteries

DEWALT Hammer Drills

- 7.8 Amp motor provides high performance and overload protection
- High/low gear for high speed drilling or high toque applications
- Dual mode: hammerdrill/drill for wood, steel or masonry applications
- Lightweight design for easy use and handling in a variety of orientations
- Two-finger trigger for increased comfort
- 360° side handle with depth rod offers greater control, versatility, and increased depth accuracy
- Variable speed allows for precise hole placement on work surface

DEWALT Flexvolt™ Hammer Drill & Impact Kit

DCD996 1/2" HAMMER DRILL:

- 3-Speed, high performance 0-2000 RPM, all-metal transmission optimizes tool-to-task for fast application speeds and improved run time
- 1/2" compact size (8.4" length) and lightweight design
- 0-38250 Blows per minute for fast drilling in masonry materials
- 3-Mode LED providing lighting in dark or confined spaces

DCF887 1/4" IMPACT DRIVER:

- Provides 1825 lbs of max torque at fast 0-3250 RPM speed and 0-3600 impacts per minute
- Compact size (5.3 length) and lightweight in design

INCLUDES:

- DCB203 20V MAX XR 2.0Ah Lithium Ion Battery
- DCB606 20V/60V MAX Flexvolt 6.0AH/2.0AH Lithium Ion Battery
- DCB118 20V/60V MAX Fan-Cooled Rapid Charger
- (2) Belt Hooks
- 360 Degree Side Handle
- Contractor Bag

GENERAL Precision Drill Guide

- General's drill guide with your portable electric drill brings drill press accuracy and versatility to handheld drilling jobs
- Drills accurate right angled or variable angled holes with built-in protractor scale
- Adjusts to 45° angle in either direction of vertical drill position
- Portable and lightweight; folds flat for toolbox storage
- Built in depth stop
- Slide lock for sanding and buffing applications
- Anchoring pins hold the guide securely in place on flat surfaces, narrow edges, or large tubing
- V-groove for positioning round stock, pipe or tubing
- Use with 3/8" and 1/2" portable electric drills (not included) with 3/8-24 threaded shaft
- Complete set No. 36/37 includes chuck, key and adapter No. 37

Order No.	Price
NE503637	Price

GENERAL "Original" Drill Grinding Attachment

- Fractional drills 1/8" to 3/4"
  Number size drills 30 to 1
  Letter size drills A to Z
  Millimeter size drills 3.0 to 19.0
- Permits sharpening of drill bits to factory accuracy
- Lock in
- Automatically adjusts to correct clearance angle
- For use with ANSI, OSHA & UL approved standard electric bench grinders or surface grinders
- Instructions included

Order No.	Price
NE50825	Price

DEWALT 7.2 Volt Cordless Screwdriver

- Type: 1/4" hex heavy-duty variable speed with reversing
- Battery: rechargeable 7.2 volt
- No load speed: 0-500 RPM
- Recharge: 1-hour charger
- Includes: battery pack with charger, two 7.2 volt compact batteries, 2 screwdriver bits, heavy-duty carrying case
- Features: adjustable two-position handle allows for operation as both in-line and pistol-grip, 80 in/lbs of maximum torque

Order No.	Price

'The Original' Dynafile® Abrasive Belt Machine

Model 14000

- Belt housing has larger opening for belt tracking and operation
- Composite belt guard
- Lightweight, thermal-insulated composite motor housing reduces vibration and cold air transmission to operator
- Adjustable speed to 5,800 surface feet per minute
- Replaces tedious hand filing and sanding
- Work in areas as small as 3/8" diameter
- They Dynafile accepts over 30 interchangeable contact arms

Order No.	Price
PF3014000	Price

Dynafile® Versatility Kit

Model 14010

- 14000 Dynafile with five contact arms and abrasive belts in a durable case

Specifications:

- Weight: 3.0 lbs, 84 dBA
- .5 HP @ 20,000 RPM
- Maximum SFPM: 5,800
- Hose size: 3/8"
- 11218 Contact arm included for 1/2" × 24" belts

Order No.	Price
PF3014010	Price

Dynafile II Abrasive Belt Tool

Model 15420

- Grinds corner welds with no undercutting
- Tool accepts belts 24" long in widths of 1/4 or 1/2", deburr, blend and polish

Specifications:

- Weight 2.84 lbs
- .7 HP @ 20,000 RPM
- 7° Offset
- Front Exhaust
- For 1/4, 1/2" W x 24" L Belts
- Grinding head pivots 180°

Surf Pro® Aluminum Oxde & Zirconia Abrasive Belts

Aluminum Oxide File Belts:

- Aluminum oxide resin cloth abrasive belts for bench and standing grinders
- Butt splice bi-directional for stronger belt life
- Closed coat for metals working
- Full resin bond coating on "X" weight - heavy duty cloth backing

Zirconia Portable Files:

- Alumina Zirconia grain provides added life over aluminum oxide cloth belts
- Premium material for superior performance in severe grinding aplications on stainless steel, alloys and aluminum
- Full resin bond coating on "Y" weight - Extra heavy duty cloth backing

metabo® WPF 18 LTX 125 Cordless Flat Head Angle Grinder

- Extremely flat gear head permits working at acute angles down to 43°
- Compact design for quick removal of welding slag, rust or paint in tight places e.g. frame constructions
- Low-fatigue working even at weld seams during out-of-position welding thanks to slim handle
- Robust motor for long service life
- Paddle switch with dead-man function: safe to operate due to an ergonomically integrated non-slip switch
- Tool-free adjustable guard; twist-proof
- Battery pack can be swivelled for better working in hard to reach places
- Detachable dust filter protects motor from coarse particles
- Overload protection: protects the motor from overheating
- Electronic soft start for smooth start-up
- Restart protection: prevents unintentional start-up after power supply interruption
- Ultra-M technology for highest performance, gentle efficient charging, optimum energy utilization and long service life
- Battery packs with capacity display for checking the charge status
- 3-year warranty on battery packs

DEWALT Flexvolt® 60V MAX Grinder 1 Battery Kit

- Kickback Brake engages when a pinch, stall, or bind-up event is sensed and the electronic brake engages with maximum force to quickly stop the wheel, reduce the movement of the grinder, and shut the grinder off
- Brake engages when trigger is released, stopping speeds of 1.5 seconds with standard grinding wheel
- E-Clutch activates in less than a tenth of a second when a pinch/stall is detected, shutting down the motor
- Lithium Ion Battery
- HAZ05

Kit Includes:

- DCG414 Grinder
- (1) DCB606 Flexvolt™ Lithium Ion Battery
- Fast Charger
- Side Handle
- 4-1/2” Type 27 Wheel
- 4-1/2” Type 27 Guard
- 6” Type 27 Guard
- Wrench
- Flanges

FOREDOM® #30 Hand Piece

MADE IN THE USA

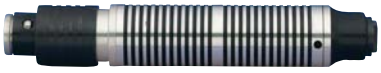
- Geared chuck - 5/32" capacity
- Prelubricated ball bearings - no maintenance
- For all motors except "H"

Order No.	Price
RM3030	Price

FOREDOM® #25H Hand Piece

- Heavy-duty handpiece features one piece spindle and permanently lubricated shielded ball bearings for cool running continuous use
- Precision collets available in sizes from 1/16" to 1/4" and millimeter sizes
- Furnished with 1/4" collet (unless otherwise specified), pin and wrench for changing collets
- Size: 1-1/32"D x 6-1/2"L
- Weight: 10 oz.
- For "H" motors only

MADE IN THE USA



Order No.	Price
RM3025H	Price

FOREDOM® Electronic Foot Control Metal Housing

- Motor controls for all motors except "H" and "R"

MADE IN THE USA

Order No.	Price
RM30SCT1	Price

FOREDOM® #44H Hand Piece

MADE IN THE USA

- Collet Handpiece is similar to the No. 30H but is a collet-type handpiece
- Furnished with 1/4" collet (unless otherwise specified), pin and wrench for changing collets
- Other collet sizes 1/16" to 1/4" in 1/32" increments, 3mm and 6mm. 1" Diameter, 6-1/4" long
- Weight 9-1/2 oz
- For "H" motors only

Order No.	Price
RM3044HT	Price

FOREDOM® #30H Hand Piece

MADE IN THE USA

- Chuck type handpiece features permanently lubricated shielded ball bearings and geared chuck
- Accommodates accessory shank sizes up to 5/32"
- Comes complete with chuck key
- 1" Diameter, 5-3/4" long
- Weight 8 oz
- For "H" motors only

Order No.	Price
RM3030H	Price

FOREDOM® Electronic Foot Control Heavy Duty Plastic Housing

†Motor controls for all motors except "H" and "R"

MADE IN THE USA

Order No.	Price
RM30FCT1	Price

FOREDOM® #25 Hand Piece

MADE IN THE USA

- Precision handpiece for continuous work
- Collet chuck - 1/16" to 1/4" collets available
- Furnished with 1/8" collet
- Lifetime - lubricated double-shielded bearings
- For all motors except "H"

Order No.	Price
RM3025	Price

FOREDOM® Electronic Manual Control

Motor controls for all motors except "H" and "R"

MADE IN THE USA

Order No.	Price
RM30EM1	Price

FOREDOM® #44 Hand Piece

MADE IN THE USA

- Similar to No. 30 for larger shanks
- Collet chuck - 1/16" to 1/4" collets
- Furnished with 1/4" collet
- Prelubricated ball bearings - no maintentance
- For all motors except "H"

Order No.	Price
RM3044	Price

FOREDOM® Slim Hand Piece for Fine Detailed Work

MADE IN THE USA

- Chuck guard protects fingers
- Collet chuck: 1/32" - 1/8"
- Comes with 3/32" collet and wrench
- Pre-lubricated ball bearing—no maintenance
- For all motors except "H"

Order No.	Price
RM308	Price

Dual Action Rotary Tool Set

- Use to sand, polish, clean and do detail work
- Two speeds: 1650 / 1800 RPM. Model number: DT2000.
- Two motions: Circular Back and forth Double insulated
- Includes: Nylon straight brush, Nylon wheel brush Nylon twisted wire brush Conical felt tip Sanding wheel adhesive sanding discs Storage/carrying case.

FREE Bonus accessory tools:

- Brush material includes, nylon, non-ferrous, and Tampico fiber
- Brush Styles: Round, Rectangular, and tubular (10 Pc.)
- File Styles: Bastard/Coarse, 2nd cut/med, Smooth/fine (13Pc.)

air turbine tools® Model 200SV

MADE IN THE USA

- Oil-free operation — Only clean, dry air required
- No oil mist — No fogging or contamination of parts
- Constant high speed under variable load — Controlled by patented governor — Save up to 30% on compressed air
- Improved cutting tool action — High torque and high constant speed means less operator pressure plus extended tool life
- Turbine drive — Less vibration, fewer moving parts, no maintenance, fewer repairs
- Quiet, under 67 dBa — rear exhaust prevents interference with workpiece
- Ergonomic function — for operator comfort. Puts less strain on wrist and hand, reducing the possibility of Carpal Tunnel Syndrome

air turbine tools® High Flow Filter/ Regulator

- Filter provides a high performance, space saving combination unit
- Ideal for use in high flow applications that require regulated, high quality air

Order No.	Price
PF5330003	Price

air turbine tools® High Flow Regulator & Filter

- Air Turbine tools require dry, clean air filtered at 5+ micron extraction - Contaminated air supply damages your tool's mechanism - For long tool life, tap into the compressed air line before oil is added
- High Flow Filters Port Size NPT: 3/8"
- Filter Element Rating: 5+ Micron
- Flow: 65 scfm

Order No.	Price
PF5330004	Price

100,000 RPM Pencil Grinder

- High speed, turbine-driven air motor has no wearable gears, vanes or blades, assuring longer tool life.
- Oil-free operation minimizes maintenance time and repair costs
- Enhanced cut rate is ideal for use on titanium and other metals, plus alloys, graphite, wood, glass, and resin with high glass content
- Ceramic bearings provide optimum performance and reliability
- Tool speed is adjustable with simple twist of on/off switch
- Stainless steel tool housing offers stability and durability
- Ergonomic pencil-type shaft provides greater operator control
- Tactile cues on shaft end alert operator to rotating collet area
- Changing of attachment is achieved with easy, one-wrench maneuver

Precision Air Grinders with 1/8" Collet

- Designed for high speed hand grinding, deburring, drilling, polishing, burring and sanding
- An in-line filter and oiler should be used to provide adequate lubrication to the air motor
- Air Pressure must be kept below 85 lb/in - High air pressure increases speed which causes damage to the wheels and grinder

DEWALT 14" Abrasive Chop Saw with Quick Change™ Blade Change System

- Powerful 15 Amp/5.5 HP (maximum motor HP)
- QUIK-CHANGE™ blade change system providing the ability to change wheels without a wrench
- Exclusive QUIK-FENCE™ tool-free, 45° adjustable fence allows for fast and accurate angle cuts without using a wrench
- Quick-lock vise allows for fast clamping on different size materials
- Soft start extends gear and motor life by reducing start up torque
- Ergonomically designed "D" handle provides a more comfortable hand position, reducing fatigue
- Extra wide solid steel base provides increased stability when cutting longer material. Four pre-drilled holes in the base allow easy bolt down to any work bench
- Heavy-duty lock down pin allows head of the saw to be locked in the carrying position
- Large cutting capacity (5" round / 4-1/2" x 6-1/2" rectangle) provides the ability to cut a wide variety of materials

DEWALT 14" Multi-Cutter™ Saw

- Cuts a wide variety of materials including ferrous and non-ferrous metals
- Utilizing a carbide tipped blade allows the depth of cut to remain constant throughout blade life
- Multi-cutter cuts 4 times faster than chop saws and 8 times faster than portable band saws in 2" x 2" x 1/4" angle iron
- 14" 70-tooth carbide tipped blade with specially designed carbide teeth deliver fast, precise, virtually burr-free cuts
- Largest capacity in its class: 5-3/16" round & 4-1/2" x 6-1/2" rectangular
- Ergonomically designed horizontal handle helps reduce user fatigue
- 15 Amp / 4 HP motor provides more overload capacity for increase performance
- Patented QUIK-FENCE™ tool-free, 45° adjustable fence allows for fast and accurate angle cuts without using a wrench
- Quick-lock vise allows for fast clamping on different size materials
- Extra wide solid steel base with four pre-drilled holes in the base allow easy bolt down to any work bench
- On-board wheel change wrench allows for convenient storage and greatly reduces the risk of lost wrenches

DEWALT Flexvolt® 12" 120V MAX Double Bevel Compound Miter Saw Kit

- Corded or coredless power delivers ultimate flexibility
- CUTLINE Blade Positioning System
- Runtime up to 289 cross cuts in baseboard along with best in class vertical capacity against sliding force
- 2 x 8" 45° Bevel Cut Capacity
- 4 x 6" 45° Miter Cut Capacity
- 10" with back fence 90° Cross-Cut Capacity
- 6-1/2" Vertical Capacity (Baseboard Against Fence)
- 6-5/8" Vertical Capacity (Crown Molding Vertically Nested)
- 3800 RPM No Load Speed
- 5/8" Arbor
- Includes: Blade, Blade Change Wrench, Dust Bag, (2) 60V MAX Lithium Ion Batteries, Dual Port Fast Charger, 120V AC Adapter

Morse Portable Bandsaw Blades

Size 44-7/8" x 1/2"

MADE IN THE USA

Bi-Metal HSS Applications:

- Fit all standard portable band saw machines
- For pipe, tubing and solids
- Cut any machinable metal, including conduit, angle iron, structurals, rebar, stainless steel tubing, etc.

Advantages & Benefits:

- Longer lasting than carbon blades
- High resistance to heat and wear for long life
- High shock resistance reduces breakage
- Variable pitch reduces vibration for faster cutting and longer life

Advantages & Benefits:

- Low cost cutting in mild steels

3-Pack sleeve provides better efficiencies, saves time, improves productivity (priced per pack)

Morse Metal Cutting Circular Saw Blades

Applications

- Steel plate / tread plate
- Angle iron / channel iron
- Steel studs
- Galvanized pipe, rebar, threaded rod

Metal Devil

Advantages & Benefits:

- Fast cuts: Cut through 6" x 1/4" steel plate in approximately 12 seconds
- Less heat generated so parts can be handled immediatelya

Air Powered Ratchets

PF54803RW

PF50CP9426

PJ80505313

PF52UT80101

Item	Drive	Features	Free Speed RPM	Average Air Consumption	Air Inlet Size	Order No.	Price
AIRCAT	1/4	Reversible, Signle Pawl Mechanism	320	4	1/4 NPT	**PF54800**	Price
	3/8	Reversible	300	3	1/4 NPT	**PF54807**	Price
	3/8	Internal impact mechanism eliminates torque reaction and risk of finger trapping, 80 ft-lb Maximum torque, 600 RPM run-down speed with built-in regulator for control, Very quiet compared to conventional air ratchets-only 79 dba, Composite handle grip increases operating comfort, Needle bearing construction increases reliability, Push and lock reverse switch	600	4 CFM	1/4 NPT	**PF54803RW**	Price
	1/2	Reversible, Twin Pawl Mechanism	280	4	1/4 NPT	**PF548025**	Price
Chicago Pneumatic	1/4	Small lightweight with soft grip handle, Under 6" in length, torque up to 35 Nm (27 ft lb), speed 275 RPM	275	12.5 CFM	1/4 NPT	**PF50CP9426**	Price
	1/4	Compact, lightweight, easy operation, durable	15000	0.7 l/s	1/4	**PF508941077110**	Price
	1/4	Progressive tease throttle, Small ratchet (only 6.5"/165mm long) - convenient forward and reverse button - one-finger directional changes - compact and lightweight Ideal for tight access applications	200	2.75 CFM	1/4 NPT	**PF50CP825**	Price
	3/8	Small lightweight with soft grip handle, quick release button, under 6" in length, torque up to 35 Nm (27 ft lb), speed 275 RPM	275	12.5 CFM	1/4 NPT	**PF50CP9427**	Price
	3/8	Compact, lightweight, easy operation, durable	15000	0.7 l/s	1/4	**PF508941077210**	Price
	3/8	High durability, compact, powerful, easy operation	8510	1.9 l/s	1/4	**PF508941077270**	Price
	3/8	Features CP's new TriSpring anti-slip head design which virtually eliminates slippage while reducing the potential for heat build-up, even in long run downs - compact, yet packed with power and speed - ultimate torque: 68Nm (50ft/lbs)	150	3.75 CFM	1/4 NPT	**PF50CP828**	Price
	3/8	Best power to weight ration: 346 ft-lbs / 470 Nm, ultra compact, easy to use, durable	9000	2 l/s	1/4	**PF508941077311**	Price
	1/2	Ultra lightweight, easy operation,c ompact, durable	1400	2.6 l/s	1/4	**PF508941077321**	Price
	1/2	Extreme torque, compact, lighweight, easy to handle, durable	7000	3 l/s	1/4	**PF508941077491**	Price
	1/2	Lightweight due to composite housing, suited for all maintenance applications	8200	3 l/s	1/4	**PF508941077480**	Price
	1/2	Superior durability - designed for intensive use, Comfortable and light weight	8400	14.2 lbs	1/2	**PF506151590570**	Price
	1/2	Compact head design, hardened gears, 50 ft/lbs max torque	160	4.25 CFM	1/4 NPT	**PF50CP886H**	Price
	1/2	Features CP's new TriSpring anti-slip head design which virtually eliminates slippage while reducing the potential for heat build-up, even in long run downs - compact, yet packed with power and speed - ultimate torque: 68Nm (50ft/lbs)	150	3.75 CFM	1/4 NPT	**PF50CP828H**	Price
	1/2	High durability, compact, powerful, easy operation	9000	1.9 l/s	1/4	**PF508941077370**	Price
	3/4	Superior durability - designed for intensive use, Comfortable and light weight	5100	18 l/s	3/8	**PF506151590580**	Price
	1	Superior durability - designed for intensive use, Comfortable and light weight	1050	18 l/s	3/8	**PF506151590590**	Price
JET	1/2	Heavy-duty ball and needle bearing construction, ergonomic grip, built-in air regulator, rear exhaust, swivel air inlet	280	4 CFM	1/4 NPT	**PJ80505313**	Price
	1/4	Full reversing capacity, Lever throttle type, compact head design, rear exhaust, working torque range of 18 ft/lbs @ 90 PSI	150	3 CFM	1/4 NPT	**PF52UT2000**	Price
	3/8	High torque, Triple idler gear and twin pawl drive for smooth operation, Triple heat treated alloy steel ratchet and head, Precision engineered, Ergonomic “Softouch”coating, Best for heavy duty MRO and vehicle service	200	4.5 CFM	1/4 NPT	**PF52UT8006**	Price
	3/8	Triple idler gear for smooth operation, Steel ratchet head, Best for: Intermittent MRO and vehicle service	160	8 CFM	1/4 NPT	**PF52UT20051**	Price
	1/2	Extended length and powerful motor provide 90 ft/lb torque, Triple heat treated alloy steel ratchet and head, Precision engineered, Ergonomic "softouch" coating, Best for heavy duty MRO and vehicle service	200	5.5 CFM	1/4 NPT	**PF52UT80101**	Price

Air Powered Angle Impact Wrenches - 1/2" Drive

PF50CP6500RS

PJ707225

Item	Features	Average Air Consumption	Air Inlet Size	Order No.	Price
Air Supreme	Easy access reversing switch, urethane nose cover to protect housing, up to 5/8" bolt capacity, 279 ft/lbs of torque @ 90 PSI	23 CFM	1/4 NPT	**PJ707250**	Price
	Fully reversible, complete torque control, vinyl cover for protection of housing, rocking dog clutch, 229 ft/lbs of torque @ 90 PSI	15 CFM	1/4 NPT	**PJ707225**	Price
	Fully reversible, complete torque control, vinyl cover for protection of housing, rocking dog clutch, 9-piece impact socket set, 1/2" U-joint, 5" extension, 228 ft/lbs of torque @ 90 PSI	15 CFM	1/4 NPT	**PJ60I8500S2**	Price
AIRCAT	Hard hitting twin hammer mechanism, 725 ft-lb max. torque, Designed for tire shops to operate up to 125 psi air pressure, Improved design ergonomic grip provides maximum operating comfort, Cross bolt style forward/reverse with built-in regulator, Triple heat treated alloy steel hammers, hammer cage & anvil, Reliable throttle design with tease trigger	8 CFM	1/4 NPT	**PF541460XL2**	Price
	Hard hitting twin hammer mechanism, 725 ft-lb max. Torque, Designed for tire shops to operate up to 125 PSI air pressure, Improved design ergonomic grip provides maximum operating comfort, Cross bolt style forward/reverse with built-in regulator, Triple heat treated alloy steel hammers, hammer cage & anvil, Reliable throttle design with tease trigger	8 CFM	1/4 NPT	**PF541460XL**	Price
	Low weight composite housing, jumbo hammer mechanism, silencing technolgy, ergonomically designed grip, trigger mounted combined revers & power switch, provides 500 ft/lbs maximum torque	8 CFM	1/4 NPT	**PF541250K**	Price
	Pistol Grip Handle, Impact Twin Clutch, Reversible	8 CFM	1/4 NPT	**PF541150**	Price
	Pistol Grip Handle, Reversible	8 CFM	1/4 NPT	**PF541056XL**	Price
	Refined design twin hammer increases blow frequency and blow efficiency, 800 ft-lb max. torque, Very fast torque development, 9,000 RPM free speed provides fast rundown, Six position power management switch in back cap provide great balance & handling comfort, Brushed aluminum housing finish	8 CFM	1/4 NPT	**PF541450**	Price
	Refined design twin hammer increases blow frequency and blow efficiency, 800 ft-lb max. torque, Very fast torque development, 9,000 RPM free speed provides fast rundown, Six position power management switch in back cap provides great balance & handling comfort, Brushed aluminum housing finish	8 CFM	1/4 NPT	**PF5414502**	Price
Chicago Pneumatic	CP patented clutch, one hand reverse button with 4 power settings, ring socket retainer, working torque range of 50-450 ft/lbs	5.5 CFM	1/4 NPT	**PF50CP749**	Price
	Dyna-Pact oil bath clutch, one hand push button forward/reverse, 4 power settings in forward and ultimate power in reverse, handle exhaust with 360° air inlet, comfort contoured handle grip	3.75 CFM	1/4 NPT	**PF50CP734H**	Price
	Pin clutch in oil batch, steel clutch housing, pin type socket retainer rugged 3 piece construction, working torque range of 25-320 ft/lbs	13 CFM	1/4 NPT	**PF50CP9542**	Price
	Steel clutch housing, ring type of socket retainer, rugged 3 piece construction, working torque range of 25-320 ft/lbs	13 CFM	1/4 NPT	**PF50CP9541**	Price
	Steel clutch housing, twin dog clutch, 4 forward power settings plus max reverse power, ergonomic grip, 625 max torque ft/lbs	25.4 CFM	1/4 NPT	**PF50CP8252**	Price
	CP pioneered rocking dog clutch, friction type of socket retainer, working torque range of 360-525 ft/lbs	6.25 CFM	1/4 NPT	**PF50CP6500RSR**	Price
	CP rocking dog clutch, rugged 3-pc. construction, pin type socket retainer, working torque range of 360-525 ft/lbs	6.25 CFM	1/4 NPT	**PF50CP6500RS**	Price
JET	Pinless hammer impace mechanism convyes power to the anvil, lightweight aluminum construction, one-hand forward/reverse button	4 CFM	1/4 NPT	**PJ80505102**	Price
	Twin Hammer impact mechanism, compact design, ergonomically designed grip, lightweight aluminum construction, 960 ft/lbs maximum break away torque	5 CFM	1/4 NPT	**PJ80505107**	Price
	Twin Hammer impact mechanism, composite housing, one-hand forward/reverse switch design, four position speed selection and full reverse power, 1200 ft/lbs maximum break away torque	6.7 CFM	1/4 NPT	**PJ80505121**	Price
	Twin hammer, 800 ft/lb max torque, built in power management and reverse/forward switch, triple heat treaded alloy steel hammer, anvil and cage	7.3 CFM	1/4 NPTF	**PF52UT8160R**	Price

Air Powered Impact Wrenches - 3/4" Drive

Item	Features	Style	Average Air Consumption	Air Inlet Size	Order No.	Price
AIRCAT	Refined design twin hammer increases blow efficiency and doubles hammer mechanism life, 1400 ft-lb max. Torque and 1600 ft-lb loosening torque, Hammer parts are made from triple heat treated Ni-cr-mo alloy steel for ultimate reliability, Improved design ergonomic grip for maximum operating comfort, Combined six position power management and reverse knob for ultimate control	Angle	8 CFM	3/8 NPT	**PF541777**	Price
	Refined design twin hammer increases blow frequency and efficiency, 1400 ft-lb maximum torque, Power management switch with three power settings, Molded-in buffers protect tool from side impact, Titanium finish hammer case, Designed for heavy duty fleet maintenance and industrial MRO work	Angle	8 CFM	3/8 NPT	**PF541770XL**	Price
	Super Clutch twin hammer mechanism, ergonomically designed handle, quiet tuned exhaust, flip lever forward and reverse, provides 1600 ft/lbs loosening torque	Angle	10 CFM	3/8 NPT	**PF541600THA**	Price
	Twin Hammer, power switch with 3 power settings, molded-in buffers, ergonomically designed grip and trigger, titanium finish hammer case, Kit includes: (1) 3/4" Impact Wrench, (1) Aircat Tool Bag, (1) 3/4" Deep Impact Socket Set; 1, 1-1/16, 1-1/8, 1-1/4, 1-5/16, 1-3/8, 1-7/16 & 1-1/2"	Angle	8 CFM	3/8 NPT	**PF541770XLK**	Price
Chicago Pneumatic	Durable twin hammer clutch. High power: 1200 ft-lbs. Combined power regulator with forward/reverse.	Impact Wrench	7.5 CFM	3/8 NPT	**PF50CP7763**	Price
	Internal speed regulator, pin clutch in oil bath, built-in power regulator, pin type socket retainer, rugged 3-pc. construction, working torque range of 75-500 ft/lbs	Angle	30 CFM	3/8 NPT	**PF50CP9561**	Price
	One hand push button forward/reverse, 4 power settings in forward and ultimate power in reverse, handle exhaust with 360° air inlet, comfort contoured handle grip	Angle	6 CFM	3/8 NPT	**PF50CP772H**	Price
FLORIDA PNEUMATIC	Patented roller cam clutch, built-in regulator, ring socket retainer for quick socket retainer, pin type clutch, working torque generates up to 700 ft/lbs of torque @ 90 PSI	Angle	8 CFM	1/4 NPT	**PF52FP772**	Price
JET	Ergonomic grip, multiple torque settings, heavy duty ball bearing construction, rotating air inlet, low noise volume, twin hammer mechanism, 250 ft/lbs max torque	Angle	7.3 CFM	3/8 NPT	**PJ80505123**	Price
	Smooth-fast DynaPact® clutch- 900 ft/lb max, single hand forward/reverse operation, built in multi position regulator	Angle	8.8 CFM	1/4 NPTF	**PF52UT2310R1**	Price
	Twin hammer-1200 ft/lb max torque, combined reverse and power management switch, ergonomic composite housing and grip for lower weight, weighs 6.2 lbs	Angle	10 CFM	1/4 NPTF	**PF52UT8360C**	Price

3/8 NPT	Multi-Jet Tip	**LT51TYP3800MJ**	Price

Ultimate Blow Gun Kit

- Includes a variable flow, pistol grip blow gun (Model 771-NT)
- Compact and durable
- Includes a tip for virtually every application

Order No.	Price
LT51BGKITCST	Price

CoBlo™ Coupler Blow Gun

- Combination quick coupling and blow gun
- For metalworking or woodworking operations
- Easy push button trigger
- Works with tool connected or disconnected
- Max working pressure: 120 psi
- 1/4” industrial with 1/4” female NPT

Order No.	Price
LT5115CBG4FDPB	Price

Cyclone® Blow Guns - Modular System

- Ergonomically superior gun body for maximum comfort and control
- Variable flow trigger regulates air flow precisely
- Durable gun body is ideal for extreme use.
- Unique modular accessory system - customize the gun extension length & tips for a given application
- Meets or exceeds OSHA standards
- 1/4” NPT intlet

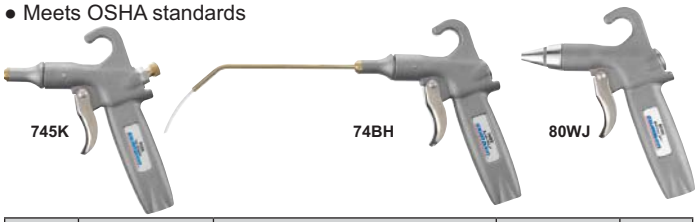
Blow Guns

1/4” NPT Inlet Unless Otherwise Noted

Item	Description	Order No.	Price
	360(deg) Rotating Extended Reach Nozzle with Rubber Tip	**LX55AG2**	Price
	Booster tip for greatly increased air flow.	**LX55AG218**	Price
	Built-in quick industrial coupler plug, standard safety bypass.	**LX55AG503**	Price
	Designed to clean molds and delicate surfaces where metal tips might harm critical areas.	**LX55AG7**	Price
	For blowing out otherwise inaccessible holes. Hard stainless steel tubing soldered to brass 1/8” npt base. 5 tips in plastic case (.134, .095, .065, .050, .042)	**LX55AG901**	Price
	Replacement tip for LX55-AG7 above	**LX55AG904**	Price
	Tip swivels freely to discourage tampering. Tip pressure will not exceed 30 psi. Good blast of air for cleaning.	**LX55AG206**	Price

Safety and Blind Hole Air Guns

- Ergonomic pistol grip and trigger eliminates hand fatigue
- 1/4" NPT inlet
- Maximum operating pressure 120 PSI
- Meets OSHA standards



Model	Type	Features	Order No.	Price
74BH	Blind Hole Air Blow Gun	Delivers a high velocity jet of air into deep crevices & blind holes (down to 1/8" dia.) to flush out chips and dirt	**LW5574BH**	Price
74SK	Air Blow Gun	Safety air shield protects workers from hazardous chip fly-back	**LW5574SK**	Price
80WJ	Whisper Air Blow Gun	Unique nozzle design reduces noise levels 6-20 dB less than conventional air guns	**LW5580WJ**	Price

Lazer Series Air Guns

- Unique design offers comfort for any size hand
- Ergonomic grip reduces hand fatigue
- Ready for use with any 1/8″ NPT inlet connector
- Features 1/4″ NPSM outlet for optional safety nozzles
- Meets OSHA 1910.242(b) regarding output pressure
- All metal construction

Magnetic Base Gunslinger®

Extension Air Gun Holder

- Sturdy, high density polyethylene tube; 12" length; 1-3/4" ID
- Magnets have a combined holding force of 190 lbs; 3-1/4" OD base
- Convenient and easy storage
- Keeps tools ready for instant use
- Works with all extension air guns
- Patent pending

Order No.	Price
LW55200A30	Price

Force 5™ Air Gun

Advanced Venturi Nozzle Serves Two Purposes

- Delivers 100% of the power as supplied by the air compressor
- Air speed increases as it passes through the side ports
- The increased volume of air greatly intensifies power at the tip
- Meets OSHA standards - should the nozzle become blocked, all of the air flow exits through the side ports, the dead-end pressure at the tip is held to less than 30 PSI
- Lightweight, heavy duty air gun with aluminum extension for cleaning hard-to-get-at areas
- Adjustable auxiliary handle
- Dead-man trigger assures safe operation
- 3/4" FNPT inlet optimizes flow and power

Self Storing Nylon 11 Air Hose

- Made of tough abrasion-resistant nylon complete with fittings swivel one end except 100' bulk hose
- For use with pneumatic tool blow guns, sprayer, etc
- Available in 1/4", 3/8", 1/2", or 3/4" ID
- 100' Lengths – no fittings
- Self retracting: when not in use, automatically recoils
- Economical: provides a low cost replacement for reels or other expensive recoil mechanisms

Nylon Recoil Hose

- 1/4" NPT fitting both ends with swivel
- 8' Long

Order No.	Price
LT510408	Price

Nylon Recoil & Blow Gun Set

- Hose is manufactured from lightweight non-absorbent material, allows maximum airflow while reducing user fatigue
- Comes with a swivel fitting on the supply end of the assembly
- Combines an OSHA compliant safety air gun (600-S) with the advantages of the original coilhose 25' nylon 11 recoil air hose (N14-12A) in one package

Order No.	Price
LT51600N25A	Price

FlexCoil® Recoil Air Hose

- Flexeel® combines the durability of bulkier hoses with kink resistance and elasticity of polyurethane to make a tough, long-lasting air hose
- Up to 200 PSI working pressure
- Extremely flexible with excellent coil memory
- Will retain its flexibility even in extreme cold environments (down to -40° F)
- Factory applied thread sealant supplied on male swivel fittings
- 8" Supply end and 16" working end pigtails eliminate the need for whip hoses
- All of the above assemblies have two swivel MPT fittings
- Hose color is transparent blue

FlexCoil® Polyurethane Self-Storage Hose

- Polyurethane can be stretched under extreme conditions and will still return to its original shape
- All sizes and lengths come complete with two swivel male fittings
- The fittings have factory applied thread sealant on them
- 8" Supply end and 16" Working end pigtails eliminate the need for whip hoses
- 25% Lighter than rubber
- Good chemical and abrasion resistance
- Maximum working pressure is 125 PSI at 75° F

Flexeel® Air Hose

- Flexeel® is extremely lightweight and tough, making it an excellent alternative to much bulkier rubber and plastic hoses
- Reinforced construction eliminates the possibility of having the various layers separate due to constant expansion and contraction during pulsating operations, such as with staple or nail guns
- Flexeel® will remain flexible even in extremely cold environments (down to –45°F)

Hose Cutter

- Accurately & easily cut hose or tubing up to 1-1/4" diameter
- Ergonomically designed handle provides the user with a sure, comfortable grip and minimizes fatigue
- Stainless steel blade allows even braided hose to be cut clean and straight with minimum effort
- Cuts without burring, allowing a leak-free fitting connection
- Blade can be reversed to extend its cutting life
- Steel clip keeps closed jaws locked in the closed position
- Hose cutter length is 9-3/8"

Hose Cutter Replacement Blade	**LT51PXC099M**	Price

Polyethylene Tubing

- Resistant to many chemicals and solvents
- Produced from high-quality resins and extruded to close tolerances
- Economical and popular for low pressure applications

Multi Color Ribbon (MCR) Polyurethane Tubing

- MCR provides an efficient alternative to applications requiring multiple tubing runs
- Economical: less time consuming than spiral wrapping, jacketing, cable tying, or gluing
- Color coded: easier to trace lines for testing or trouble shooting
- MCR is made from 95 durometer polyurethane tubing

Lock On Rubber Hose

- Made of tough neoprene tube and cover
- Resists abrasion and oil
- High tensile rayon cord provides extra strength
- Lock-on hose eliminates the need for ferrules or clamps, facilitates quick and permanent in-the-field installations and repair
- Temperature range is 40°F to 175°F. When pressurized, lock-on hose contracts to grip the fitting and slightly elongates, providing a positive grip

Air Supreme air hoses and reels are offered in a variety of materials designed for today's tough shop environment. Weather it's the traditional tough and economical red rubber, the light weight and durable Bluebird® or the super strong, oil resistant Oil Shield®, Air Supreme has the hose to get the job done!

Air Supreme® Red Rubber Air Hose

- 80% the weight of traditional red rubber hoses
- Ozone resistant cover provides protection from extreme weather, abrasions & kinks
- Resists mild grease, oil & diesel
- Constructed with high strength polyester braided reinforcement
- Flexibility in extreme conditions from -40°F to 190°F
- 4 finger grip bend restrictor for better ergonomics
- 300 PSI

REELCRAFT Hose Reel

MADE IN THE USA

- All steel construction
- Compact design
- Automatic spring retractable
- Extends hose life
- Durable baked-on powder coat finish
- Suitable for air and water applications
- Full flow shaft and swivel
- Multi-position guide arm allows for mounting on either floor, wall, ceiling, bench or in pit
- Improves safety, convenience and productivity
- Pos-I-Latch mechanism automatically maintains desired workin glength of hose
- All reels are permanently factory lubricated
- Heavy duty brackets to eliminate bending due to angular hose pull
- 300 PSI Maximum
- Hose included

COXREELS Hand Crank Reels

- All welded steel "A" frame construction for superior reel structure
- Exclusive low profile outlet riser and open drum slot design for flat smooth hose wrap
- Permanently lubricated self-aligning pillow block bearings for trouble-free and smooth rotation
- Adjustable tension brake to prevent "free-wheeling" during operation
- Long-handled locking pin to secure reel from rotation during transport or storage

COXREELS Side Mount Workstation Reels

- 360° Payout designed for use from any direction
- Heavy gauge steel arm mounts flat to any surface such as tool boxes, benches, vehicle lifts, beams, etc
- 2-Bolt mounting pattern easily mounts and detaches for multiple work station applications
- Hose control bar is full drum width preventing derailment
- Multi-position locking ratchet secures hose at desired length
- 300 PSI hose, 3/8 ID
- Professional grade heavy duty steel construction
- Also available with EZ-Coil® controlled retraction, patented EZ-Coil® reduces retraction speed by up to 80%
- Rolled edges & ribbed discs provide strength & safety
- Brass NPT swivel, machined from solid with stainless steel stud

ColorConnex™

Color Code System for Standard Interchanges

Introducing ColorConnex™, Legacy's EXCLUSIVE Color Code System for standard pneumatic coupler and plug inter-changes. This unique, patent pending system allows for easy color-matching of plugs to couplers; eliminating confusion.

† Kits

3 Piece - Includes one female plug, one male plug and one female coupler
5 Piece - Includes one female plug, three male plugs and one female coupler
7 Piece - Includes two female plugs, three male plugs, one female coupler and one male coupler
14 Piece. - Includes four female plugs, six male plugs, two female coupler and two male couplers

ColorConnex™ High Flow and X-Flo Push Type Couplers

- Fully automatic, quick coupling action, no sleeve to pull back
- Push-connect easy connect system
- 35% lighter than standard steel coupler
- 8 ball push connect coupler
- Hi-flow - provide 40% more SCFM air than standard couplers.
- Max airflow: 105 SCFM
- X-Flo couplers 25% more flow for improved air tool performance, ideal for extreme flow applications

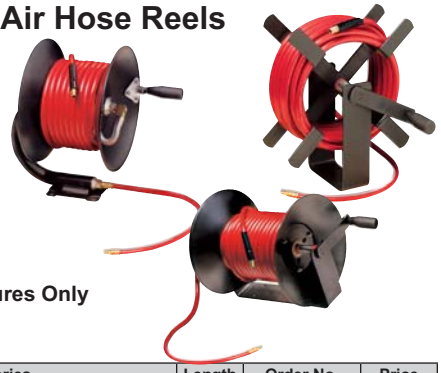
Manual Air Hose Reels

Common Features

- 3/8" Airhose
- Bend restrictor
- Brake
- Swivel handle
- Baked enamel finish
- 3' Lead-in hose
- Mounting bracket (wall, workbench, vehicle)



Contractors Series Features Only

- HD steel drum
- Inlet swivel

Model No.	Series	Length	Order No.	Price
L8550	Workforce Series Manual Air Hose Reel	50'	LX55L8550	Price
L8650	Contractor Series Manual Air Hose Reel	50'	LX55L8650	Price
L8652	Contractor Series Manual Air Hose Reel	100'	LX55L8652	Price

Auto Rewind, Auto Leveling Hose Reels

Featuring a unique winding system that automatically layers the hose back forth across the reel. This ensures that the hose is coiled smoothly easily... every time.

- Auto-rewind
- 3/4" Hose swivel
- Free standing base
- Latching & free-run mode
- Adjustable hose stopper

FLEXZILLA

Extreme FLexibility

- Temperature range: (-40°F to 150°F)
- 300 PSI working pressure
- Reinforced bend restrictor
- Excellent abrasion resistance
- Superior bend radius
- Lightweight and easy to handle

Heavy Duty Mechanical Hose Balancers

- Specifically designed for the use of lightweight assembly tools where delicate balancing and uncluttered installation is a must
- The compressed air enters the balancer via a rotating airtight joint pressurizing the hose and the air tool
- Features a permanently lubricated precision mechanism housed in a steel case

Working Range	Order No.	Price
1 to 3.5 lbs	**NV50BH02**	Price
2 to 4.5 lbs	**NV50BH05**	Price
4 to 5.8 lbs	**NV50BH08**	Price

Heavy Duty Mechanical Tool Balancers

- Enable all types of portable tools weighing up to 25 lbs to be suspended within easy reach of the operator
- Prevents damage to tools by eliminating accidental dropping of the suspended tool

Acme Interchange Couplers and Connectors

- Allows 15-30% more flow than other manufacturers 1/4" interchanges
- The "radius design" connector allows more surface area contact with the locking balls, making it more durable even in high vibration conditions
- Weighs 25% less than other interchanges, which reduces user fatigue and maximizes users range of motion
- Six locking balls provide a more secure and balanced connection
- Available in four different body configurations

Non-Marring Safety Industrial Composite Couplers

- Manufactured out of a heavy duty, high impact fiberglass composite, which protects finished surfaces from scratching and marring that can occur with brass or steel couplers
- Can be used with any standard industrial interchange connector
- Offers additional protection against "hose whip" upon disconnection by safely bleeding off air line pressure through a two-step release mechanism

Body Size (in.)	Thread Size	Order No.	Price
1/4	3/8 FPT	**LX50151SE**	Price

Coilhose Miniature Series Filters Regulators and Lubricators

- Designed for applications where space is limited or when high flow requirements are not necessary
- These units feature a tough die cast zinc body construction with either 1/8" or 1/4" in/out ports

Miniature Series Filters

- 20 Micron filter element
- Manual drain allows easy removal of fluids
- Bowl volume 1.5 oz

Port Size (in.)	Order No.	Price
1/4 NPT	**NV50MF2**	Price

Miniature Series Regulators

- Self-relieving feature protects downstream system components from over-pressurization
- Patented snap-lock non-rising adjusting knob locks in place and maintains pressure setting
- Order pressure gauge separately

Port Size (in.)	Order No.	Price
1/8 NPT	**NV50MR1**	Price
1/4 NPT	**NV50MR2**	Price

Integral Miniature Filter/Regulator

- Combines filter and regulator features into a compact single unit
- Order gauge separately

Port Size (in.)	Order No.	Price
1/4 NPT	**NV50MFC2**	Price

Miniature Trio Assemblies

- Includes filter, regulator & lubricator in one assembly with a 0-160 PSI pressure gauge

Port Size (in.)	Order No.	Price
1/8 NPT	**NV50MFRL1G**	Price
1/4 NPT	**NV50MFRL2G**	Price

Miniature Series Coalescing Filters

- Removes 99.97% of oil and water aerosols as well as solids larger than 0.3 microns
- A coalescing filter must be used with a pre-filter in order to filter out the larger particles that would clog the coalescing filter

Port Size (in.)	Order No.	Price
1/4 NPT	**NV50MC2**	Price

Miniature Series Lubricators

- Provides constant oil delivery at both steady and pulsing air flows
- See-through drip tube gives visual indication of lubricant flow rate
- Bowl volume 1.5 oz

Port Size (in.)	Order No.	Price
1/4 NPT	**NV50ML2**	Price

In Line Series Filters Regulators and Lubricators

- An economical way to operate, protect and maintain your air tools
- Supplied with female inlet and male outlet threads for easy installation into the tool
- Designed for applications where standard controls can't be used

In Line Adjustable Pressure Regulators

- Adjustable pressure setting allows use with various tools
- Operates from 50-145 PSI
- 1/4" FPT inlet 1/4" MPT outlet
- Provides a mobile alternative to bulkier pressure regulators
- User can select desired pressure and lock the setting in place

Order No.	Price
NV504214ADJ	Price

In Line Filter

- 60 Micron sintered bronze filter element
- Aluminum body

1/4 FPT Thread with Chuck Clip	**LX55AL3010**	Price

Economy In Line Lubricator

- Protects expensive air tools
- Eliminates any guesswork by automatically administering oil to the tool
- Lightweight and compact
- Clear casing allows users to easily monitor oil levels

Port Size (in.)	Order No.	Price
1/4 NPT	**NV5040024**	Price

plews Tire Pressure Gages

All gages feature bright chrome plating, recessed deflator pin machined in chuck head and a handy pocket clip

Description	Order No.	Price
Standard Tire Gauge for general purpose use on passenger cars, vans and light trucks. Calibrated 10-50 PSI in 1 lb. units, 70-350 kPa in 10 kPa units, and .7-3.5 bar in .1 bar units	**LX5017509**	Price
High Pressure Tire Gauge ideal for all higher pressure applications on lightweight trucks (1/2 to 2-1/2 tons), step vans, pickups and air shocks. Calibrated 20-120 PSI in 2 lb. units, 140-820 kPa in 20 kPa units, and 1.4-8.2 bar in .2 bar units.	**LX5017519**	Price

26 Series Filters Regulators & Lubricators

- Offers a balance of compact size and optimum flow
- Once delivery rate is set, proportional oil-to-air delivery rate assures even lubrication at all times
- The 26 Series features either 1/4" or 3/8" in/out ports

26 Series Filters

- Excellent water removal efficiency
- Bowl guard is standard and mounts independent of the bowl
- Bowl volume: 3.8 oz

Port Size (in.)	Order No.	Price
1/4 NPT	**NV5026F2**	Price
3/8 NPT	**NV5026F3**	Price

26 Series Coalescing Filters

- Bowl guard is standard and mounts independent of the bowl
- Removes 99.97% of oil and water aerosols as well as solids larger than 0.3 microns
- A coalescing filter must be used with a pre-filter in order to filter out the larger particles that would clog the coalescing filter

Port Size (in.)	Order No.	Price
1/4 NPT	**NV5026C2**	Price
3/8 NPT	**NV5026C3**	Price

Integral 26 Series Filter/ Regulators

- Space saving design offers both filter and regulator features in one unit
- Requires only two pipe connections, reducing the possibility of leakage
- Order pressure gauge separately

Port Size (in.)	Order No.	Price
1/4 NPT	**NV5026FC2**	Price
3/8 NPT	**NV5026FC3**	Price

26 Series Regulators

- Balanced poppet design assures superior performance
- Non-rising regulation adjustment knob locks in place and maintains desired pressure setting
- Order pressure gauge separately

Port Size (in.)	Order No.	Price
1/4 NPT	**NV5026R2**	Price
3/8 NPT	**NV5026R3**	Price

26 Series Lubricators

- Once delivery rate is set, proportional oil-to-air delivery rate assures even lubrication at all times
- Lubricant can be added through a fill port without shutting down the air line
- Bowl guard is standard and mounts independent of the bowl
- Bowl volume: 3.8 oz

Port Size (in.)	Order No.	Price
1/4 NPT	**NV5026L2**	Price
3/8 NPT	**NV5026L3**	Price

26 Series Trio Assemblies

- Includes filter, regulator & lubricator in one assembly with a 0-160 PSI pressure gauge

Port Size (in.)	Order No.	Price
1/4 NPT	**NV5026FRL2G**	Price
3/8 NPT	**NV5026FRL3G**	Price

26 Series Accessories

- 26 Series Accessories
- This series offers a balance of compact size and optimum flow. Once delivery rate is set, proportional oil-to-air delivery rate assures even lubrication at all times. The 26 Series features either 1/4 or 3/8 in/out ports.

Order No.	Price
NV5026G160	Price
NV50MR140MB	Price

27 Modular Series Filters Regulators and Lubricators

- Constructed of aluminum and offers a compact design
- Modular construction allows the unit to be connected together either with clamps, which connect without disturbing existing piping or with standard nipples

27 Modular Series Lubricators

- Lubricant can be added through fill port without shutting down airline
- Once delivery rate is set lubricant is proportionately delivered at all other air flows
- Bowl guard is supplied as standard
- Bowl volume 8.5 oz

Port Size (in.)	Order No.	Price
3/8 NPT	**NV5027L3**	Price
1/2 NPT	**NV5027L4**	Price
3/4 NPT	**NV5027L6**	Price

27 Modular Series Regulators

- Balanced poppet valve design assures superior performance
- Diaphragm type regulator has low initial pressure drop while maintaining high sensitivity
- Regulator adjustment knob locks into place to maintain the desired pressure setting
- Order pressure gauge separately

Port Size (in.)	Order No.	Price
3/8 NPT	**NV5027R3**	Price
1/2 NPT	**NV5027R4**	Price
3/4 NPT	**NV5027R6**	Price

27 Modular Series Coalescing Filters

- Removes 99.97% of oil and water aerosols as well as solids larger than 0.3 Microns
- A coalescing filter must be used with a pre-filter in order to filter out the larger particles that would clog the coalescing filter
- Bowl volume 8.5 oz

Port Size (in.)	Order No.	Price
3/8 NPT	**NV5027C3**	Price

Heavy Duty Series Filters Regulators and Lubricators

- An excellent solution for applications where higher air flow is the primary concern.
- Top level performance and long lasting durability is assured by such features as an extra large bronze filter element, critically close air regulation, mist-type lubricant atomization, and a rugged die cast aluminum body

Heavy Duty Series Filters

- 40 Micron sintered bronze filter element
- Polycarbonate bowl with guard
- Manual drain

Port Size (in.)	Order No.	Price
1/4 NPT	**NV508822R**	Price
3/8 NPT	**NV508823R**	Price
1/2 NPT	**NV508824R**	Price
1 NPT	**NV508828**	Price

Heavy Duty Series Regulators

- Provides high flow rates with accurate control and a fast response
- Built-in diaphragm prevents rupture
- Order gauge separately

Port Size (in.)	Order No.	Price
1/4 NPT	**NV508802**	Price

3/4" -1" Mounting Bracket for Heavy Duty	**NV50880016RB**	Price

Heavy Duty Desiccant Air Dryers

- Moist pressurized air enters the inlet port of the desiccant dryer into a bed of silica gel. The silica gel absorbs the water vapor in the air allowing the now dry air to pass through to downstream equipment
- Use of a desiccant dryer requires the placement of a pre-filter and a coalescing filter before the desiccant air dryer and a filter after the dryer
- The desiccant gel can be regenerated for reuse

Port Size (in.)	Order No.	Price
1/4 NPT	**NV508422**	Price
3/8 NPT	**NV508423**	Price
1/2 NPT	**NV508424**	Price

Mechanical Condensate Drains

- Collect moisture accumulated from compressor tanks, filters, drop legs, after coolers, dryers and other devices and discharges it
- Contains a manual override feature, through use of a petcock, to permit draining between automatic drain times

Bowl Type	Order No.	Price
Metal	**NV508514M**	Price
Polycarbonate with Plastic Guard	**NV508514**	Price

Relief Valves - ASME Approved

- Help ensure safe operation of your compressor system by guarding against tank over pressure by quickly releasing excess pressure
- Machined from brass bar stock
- Silicon rubber soft seal to ensure a tight, leak-free seal
- Manual pull ring allows for testing and system pressure relief
- ASME/National Board Approval & Canadian Registration

PSI	Relief Rate	Order No.	Price
70	60 SCFM	**NV50SV070**	Price
100	75 SCFM	**NV50SV100**	Price

Solid State Automatic Drain Valve

- Cycle time can be set from 1 to 45 minutes
- Drain time can be adjusted from 1 to 15 seconds
- Bronze filter built right into the body protects the drain valve from foreign particles in the line
- Operates on 120V 60Hz/110V 50 Hz voltage (supplied with 6 foot heavy duty grounded power cord)
- Manual override permits valve to be opened between set cycles
- Includes an electronic timer for automatic operation at the application from a remote location

Order No.	Price

Starrett Unified Shank® Jig Saw Assortment Pack

- Includes 1 pc. each of all Unified Shank® jig saw blades plus BU56 6T blade for wood

Order No.	Price
FV6311974	Price

BOSCH T-Shank Jig Saw Blades

Fit Bosch Jig Saw Models 1584AVS & 1587AVS plus DeWalt, Hitachi, Makita, Milwaukee, Metabo, Porter Cable and Craftsman

Use:
High Carbon Steel: For softer materials: wood, laminated particle board and plastics
High Speed Steel: For cutting metal, aluminum and non-ferrous metal
Bi-Metal: Highly flexible, suitable for demanding applications where there is a risk of breakeage or where extreme versatility is required

LENOX MAX CT™

EXCEPTIONAL BLADE LIFE

Multi-chip tooth pattern balances the chip load and redues cutting forces

- Next generation welding technology prevents premature tooth loss

FASTER, STRAIGHTER CUTS

- Aggressive rake angles aid in tooth penetraion in difficult to cut metals
- Optimized gullet geom-etry increases beam strenth for straighter cuts

SUPERIOR PART FINISH

- Precision ground carbides create razor sharp teeth for a mirror-like finish on cut parts

LENOX Versa Pro™

LONG BLADE LIFE IN A VARIETY OF METALS

- Proprietary grade of tungsten carbide tips with increased toughness retain a sharp cutting edge
- Multi-chip tooth design balances the chip load and reduces the cutting forces

EASY TO RUN WITH NO BREAK IN

- Pre-honed cutting edge minimizes tooth chipping and eliminates the need to break-in the blade

OUTSTANDING PART FINISH

- Precision ground carbide tips have clean, sharp edges that deliver smoother parts

LENOX HRX

Engineered to cut structurals, tubing and bundles

LONG BLADE LIFE WHEN CUTTING LARGE STRUCTURAL BEAMS

- Designed to resist stripping teeth
- Power Blast Technology® strengthens the blade to minimize breaks

STRAIGHT CUTS THROUGH WIDE CROSS SECTIONS

- Designed to improve chip flow and reduce blade deflection for cutting efficiency
- Tooth geometry designed to minimize edge chipping and crooked cuts

WIDE KERF LIMITS PINCHING IN LARGER BEAMS

- Alternating set teeth widen the cutting channel to limit blade pinching

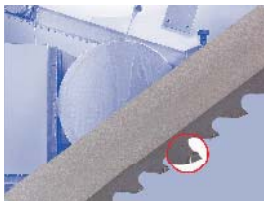
LENOX Armor CT Black

For Extreme Cutting Rates

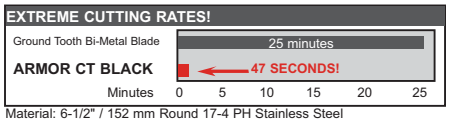
High quality Micrograined carbide
- Tailored to cut a wide range of materials

New high performance backing steel
- Exceptionally long fatigue life

AlTin ARMOR for productivity and blade life
- Aluminum, Titanium and Nitrogen combine to form a coating that is hard and tough, protecting each tooth from heat and wear with an armor-like barrier



Applications
- Carbon steels
- Alloy steels
- Aluminum
- Bearing steels
- Stainless steels
- Mold steels
- Tool steels
- Titanium alloys
- Bundled, mild steel tubing



Material: 6-1/2" / 152 mm Round 17-4 PH Stainless Steel

LENOX Tri-Tech CT

Set Style Carbide Blade For Difficult To Cut Metals

STRAIGHT CUTS. NO PINCHING.

Set style tooth pattern eliminates pinching in high stress metals
Wide kerf clearance enables plunge cutting

PROLONGED BLADE LIFE

High grade carbide tips are precision ground for efficient cutting
High performance backing steel minimizes body breakage

EXTREME VERSATILITY

Cuts a range of materials from high strength steels to Nickel-based alloys
Positive rake angle provides strength and durability at the cutting edge

LENOX Classic Pro™

The Ultimate Multi-Purpose Blade

Exceptional Blade Life

Proprietary backing steel preparation increases fatigue life and minimizes band breaks. Robust M42 high speed steel edge provides superior heat and wear resistance.

Extremely Versatile

Cuts a wide range of metals from low carbon steels to higher strength alloys. Advanced design enables production cutting of solids and structurals. Positive rake angle improves tooth penetration on saws with limited feed force.

Consistent Performance Cut After Cut

Unique tooth geometry and set minimizes noise and vibration from the very first cut. Smooth, straight cuts when cutting multiple pieces or wide cross sections

LENOX Classic™

The Ultimate Multi-Purpose Blade

Designed For Long Life In General Purpose Cutting Applications

Patented TUFF TOOTH[a] design reduces tooth strippage. M-42 high speed steel edge for excellent heat and wear resistance on:

- Aluminum/Non Ferrous Metals
- Carbon Steel
- Structural Steel
- Alloy and Tool Steel
- Stainless Steel
- Wood

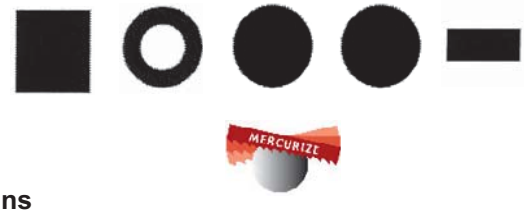
LENOX QXP™

For Extreme Production Rates

Large capacity gullet
- Improved chip carrying capacity
- For production cutting of alloy and carbon steels

Extreme positive rake tooth profile
- Easy penetration with reduced feed force



Applications
- Precision cutting
- Aluminum
- Carbon steels
- Bearing steels
- Alloy steels
- Tool steels
- Stainless steels
- Solids, heavy-walled tubing

LENOX Contestor GT®

High Bi-metal Blade

GT: Ground Tooth

- Cuts with less feed pressure

High speed steel edge

- M-42 standard
- M-51 available as listed below

Unique gullet design

- Increased beam strength

Applications

- Aerospace alloys
- Tool steels
- Stainless steels
- Nickel-based alloys
- Titanium alloys

Use when tool life and cutting accuracy is most important.

LENOX Rx®+

Engineered to Cut Structurals, Tubing & Bundles

Reinforced tooth design
- For long life and extreme durability

Unique, patented tooth profile
- Powers through interrupted cuts
- Eliminates tooth strippage
- Minimizes harmonics for reduced noise levels

M-42 high speed steel tooth edge
- For durability

Applications
- Large cross section profiles
- Bundled structural steel and tubing

Band-Ade® Sawing Fluid and Machine Cleaner

Features:
- Synthetic
- Contains no Phenols, Nitrites or Halogens
- Formulated specifically for sawing
- Contains no oil

Advantages:
- Mixes easily
- Does not contain any ingredients on the EPA priority pollutants list
- Good lubricity
- Retards bacterial growth

Benefits
- Can be welded over and painted over
- Clean to use
- Used to cut all metals
- Improves blade performance
- No “Monday morning stink”
- Long sump life

Size	Type	Hazard Code	Order No.	Price
1 Gallon	Machine Cleaner	HAZ57	**FX9068006**	Price
2-1/2 Gallon	Sawing Fluid	HAZ57	**FX9068005**	Price

55 Gallon	Sawing Fluid	HAZ06	**FX9068001**	Price

LENOX Diemaster 2®

Engineered for Contour Cutting

M-42 high speed steel tooth edge
- For durability

Designed to run at high speed
- Run at twice the speed of carbon

Increased blade life
- Lasts 10 times longer than carbon blades

General purpose hand-fed applications
- Tool and die shops
- Machine shops
- Maintenance facilities

Applications
- Carbon steels
- Light alloy steels
- Mold steels
- Tool steels
- Stainless steels
- Sheet metal

Starrett Verstix™ Bandsaw Blades

- Developed and tested by Starrett, with a patent application pending, Versatix™ MP band saw blades set new standards in cutting structural steels, sections, tubes and small solids
- New tooth design resulting in a significant increase in tooth strength and consequent reduction in tooth strippage
- The perfect choice for cutting sections, structurals, tubes and small solids
- Ideal for use on manual “pull down” band saw machines where uncontrolled feed rates can easily overload the teeth with a standard blade

Starrett Intenss Pro™ M42 Cobalt HSS Bandsaw Blades - Welded to Length

Applications: High production cutting on a full range of steels from mild to stainless up 42HRC and nickel based and non-ferrous alloys

- Beam welded bi-metal construction, fatigue resistant alloy steel back
- Unique design, triple-tempered M42 Cobalt HSS teeth
- Higher wear/heat resistance. Faster, straighter cuts
- Excellent penetration, chip clearance, finish

MADE IN THE USA

Starrett Intenss Pro-VTH™ M42 Cobalt HSS Bandsaw Blades - Welde

Features:

- Beam welded bi-metal construction, fatigue resistant alloy steel back
- Unique design, triple-tempered M42 Cobalt HSS teeth
- Pulsator's uniquely aggressive "surging" cutting action

Benefits:

- Greater wear and heat resistance
- Less down time due to longer blade life, increased efficiency

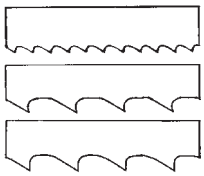
Starrett Duratec FB Carbon Steel Bandsaw Blade Coils

MADE IN THE USA

Blade Selection Guide
Rake: Choose the rake based on the material/shape to be cut
Shape:
Regular: Conventional tooth for general purpose sawing, zero or positive rake
Hook: 10° Positive rake for fast cutting of non-ferrous metals and non-metallics
Skip: Zero rake, widely spaced teeth and shallow gullets for cutting large sections
Pitch
Constant: Usually for general purpose cutting



Applications
- Light to medium, vertical and horizontal machines
- Low alloy, non-ferrous metal
- Furniture, composition board
- Plastic of numerous types
- Non-ferrous foundry materials

Bahco's bandsaw blades are the perfect choice for a variety of applications. Designed for production and general purpose application sawing.

3857 EASY-CUT BIMETAL

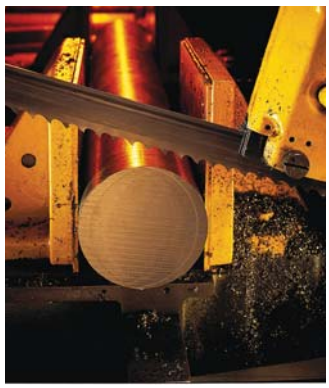
Easy Cut blades cut almost anything without changing blades!

Features

- General purpose sawing in tool rooms, machine shops, maintenance rooms, fabricating and welding shops
- Perfect for tool steel, mild steel, stainless steel, aluminum, copper, brass, wood, plastic, tubing, solids, bundles.
- Easy to order: Simply specify blade width and length
- Save time and money by reducing blade inventory, operator labor, and machine down time.

M42 SANDFLEX BIMETAL

Perfect for solids, bundles, pipes profiles and castings



Features

- Multi-purpose tooth shapes for a variety of applications.
- Designed for production and general purpose application sawing.
- Guaranteed to lower your cost per cut.
- Bahco's bimetal bandsaw blades' high speed steel tooth tips and flexible alloy steel backing material deliver the most cost effective bandsaw blade for metal sawing applications.

3851 COBRA BIMETAL

For high productivity cutting of large of small work pieces.

Features

- Specially designed tooth shapes for maximum cutting performance.
- M42 tooth tips offer heat and wear resistance for long blade life.
- Excellent choice for production cutting of the toughest materials.

3853 TOP FABRICATOR BIMETAL

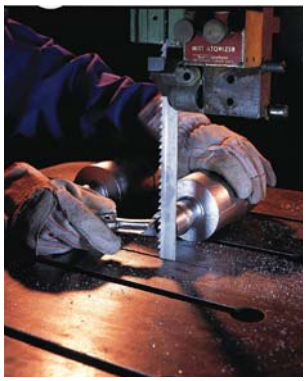
For Cutting Tubes or Profiles for the structural and fabrication industry.

Features

- Tooth design makes the teeth stronger, more resistant to tooth-stripping and longer lasting.
- M42 tooth material gives longer blade life.
- Unique, patented set gives a better surface finish.
- The unique combination of tooth design and rake angle provides very low cutting forces and longer tool life.

3869 CARBIDE TRIPLE SET

A foundry bandsaw blade for non-ferrous and abrasive materials.



Features

- Special design for foundry use.
- Carbide teeth and triple set configuration for fast cutting, easy feeding, straight and radial cutting of gates and risers.
- Perfect for aluminum, copper, brass, magnesium, zirconium, plastics, and other abrasive materials.

3868 CARBIDE TRIPLE SET " XTRA"

A superior to bimetal blades with faster cutting rates, lower costs per cut and extended tool life.

Features

- Carbide will save you money by cutting faster and lasting longer than any bimetal bandsaw blades.
- Patented ground tooth design features a triple chip blade with set teeth.
- Perfect for cutting titanium, high nickel alloys, stainless steel, abrasive tool steel, graphite, aluminum with high silicon or matrix alloys, aerospace alloys.

In addition to the saw products in this catalog, Bahco offers a complete line of production cutting and general purpose bandsaw blades. For more information please contact our customer service department.

Easy Cut M42 Bi Metal Bandsaw Blades - Welded to Length

- Unique, innovative tooth design allows the same blade to cut a wide range of shapes and material
- Cut mild steel, stainless steel, and non-ferrous materials including aluminum, copper, brass even plastic without changing blades
- M42 teeth for good heat resistance, new tooth design resists stripping
- More cuts with less down time for blade changes due to material or shape
- Medium tooth configuration for general use

Snap-on INDUSTRIAL BRANDS | BAHCO

3851 Cobra M42

High Productiivity Blades

For high productivity cutting of large or small workpieces and contour cutting

- Specially designed tooth shapes for maximum cutting performance
- M42 tooth tips offer heat and wear resisitance for long blade life
- Excellent choice for production cutting of the toughest materials

COMBO tooth shape is similar to Regular. It is suitable for multi-purpose cutting of thin-walled tubes and profiles in most materials

3853 M42 Top Fabricator Blades

The unique combination of tooth design and rake angle provides very low cutting forces and longer tool life

- Cuts: I-beam, H-beam, angle iron, channel, any structual steel, bundles, square and round tables
- Reduce: out of square cutting, stripped teeth, broken blades, cutting noise
- Increase: blade life

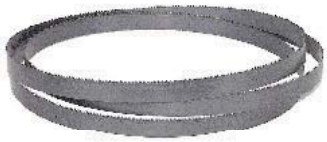
M-42 Bi Metal Bandsaw Blades - Welded to Length



MADE IN THE USA

- Lasts up to 10 times longer, cuts 50% faster than standard carbon blades
- 8% cobalt alloy steel backer resists fatigue, positive rake teeth for increased penetration
- Cuts alloy steels (annealed and heat treated), tool and stainless steel, air hardened die steel
- Ideal for bundled or stacked pieces. Use on solids, shapes, tubing and structural materials

To Order:
Specify — Series FY91 +
Blade Length, Width, Tooth, and Set

Advantages & Benefits:
- M42 high speed steel cutting edge provides highest heat & wear resistance
- Tooth hardness Rc67-69 prevents tooth damage
- 8% cobalt alloy steel backer for fatigue resistance
- Positive rake increases tooth penetration

Applications:
- For the toughest production cutting jobs in controlled cutting conditions
- Efficient cutting in solids with very low machinability
- NOT RECOMMENDED FOR structural materials, stacked or bundled materials or for machines with varied applications and operators
- Cuts “super⌧ alloys, tool steels, inconel, waspalloy, hastelloy, “D⌧

Carbon Hardback - Welded to Length

MADE IN THE USA

- Light to medium band saws used in toolrooms and maintenance
- Increased tensile strength for both contour and straight cutting, improves rate of cut and accuracy
- Economical cutting of low alloy, non-ferrous metals

Starrett® Hole Saws

- **FASTCUT™ Bi-Metal:** Ideal for stainless and mild steel sheet and tubes with wall thickness up to 1/8", Hole saw depth 1-5/8", New tooth material for enhanced heat and wear resistance
- **Carbide Tipped:** High-hardness, carbide tipped teeth with a triple chip tooth grind, for use on materials that are too hard and abrasive for regular steel hole saws. Cutting depth is 1-5/8". Saws have constant 3-pitch teeth
- **Carbide Grit:** Will cut ceramics, glass resins, asbestos and other abrasive materials that would wear out conventional saws. Tough steel body with multiple carbide grits permanently bonded to the teeth. Cuts smooth holes. Cutting depth is 1-5/8"
- **Diamond Edge:** Synthetic diamond grit bonded to steel saw provides exceptional performance on non-metallic material

Hougen HMD505/HMD508

A Rugged, High Powered Drill for Fabrication and High Production Environments

- Two speed gear box - 250 & 450 RPM (HMD505) or higher speed 450 & 750 RPM (HMD508)
- Positive slug ejection
- Patented quill feed arbor for smooth cuts and minimal maintenance
- Two stage magnet engages full power when motor is turned on
- Feed handles quickly change from side to side
- Lift detector safety system
- Rear mounted controls
- Coolant bottle included
- Optional pressurized coolant system available
- With coolant bottle and carrying handle removed, drill becomes only 15" (381mm) high
- Carrying case included
- 1 Year warranty

MARXMAN MAINTENANCE TOOLS Bogdan™ Mag Drills

Free Ejector Pin With Every Cutter!

Because they remove metal only at the periphery of the hole being cut, Bogdan Mag-Drills require less power and thrust than conventional twist drills, effectively increasing the capacity of your existing machines. Multiple cutting edges produce higher feed rates, lower cutting resistance and better quality holes for increased productivity and longer tool life

- 3/4" Diameter shank with 2 flats at 90°
- Made from the finest Sheffield steel
- M2 High Speed Steel for most applications
- M35 Cobalt Steel for tougher applications, better finish, higher speeds and feeds and longer tool life
- CNC ground finish

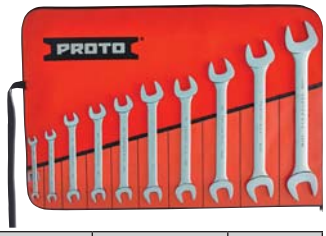
PROTO 10 Pc. Satin Open-End Wrench Set

MADE IN THE USA



- Satin finish provides corrosion resistance and a slip-resistant grip
- 15° Angle heads
- Special heat-treated alloy steel permits slim shanks for strength and durability
- Standard open-end configuration

Set Includes	Model No.	Order No.	Price
1/4x5/16, 5/16x3/8, 7/16x1/2, 1/2x9/16, 9/16x5/8, 5/8x3/4, 11/16x3/4, 13/16x7/8, 15/16x1, 1-1/16x1-1/8	J3000H	**KP4212685**	Price

PROTO 9 Pc. Short Angle Open-End Wrench Set

MADE IN THE USA

Satin Finish

- 15° and 75° angle heads
- Compact shank design and short length for access in confined spaces
- Standard open end configuration

Set Includes	Model No.	Order No.	Price
7/32, 15/64, 1/4, 9/32, 5/16, 11/32, 3/8, 7/16, 1/2	J3300A	**KP4212705**	Price

PROTO Extra Thin Open-End Wrenches

MADE IN THE USA

Satin Finish

- Satin finish provides corrosion resistance and a slip resistant grip
- Ultra-thin profile and long handle produce improved access to hard-to-reach fasteners
- Use when high leverage or distance from a hot assembly is required
- Opening is designed to cover tappets, screws and lock nuts without excessive overhang which improves access

PROTO 1/2" & 3/8" Drive Crowfoot Wrench Sets

MADE IN THE USA

- Crowfoot wrenches are used in hard-to-reach, restricted access situations where a standard wrench or ratchet cannot reach.
- Anti-Slip Design open end (ASD).
- The arched surfaces are designed to spread the contact forces over a greater area and they keep the loads off the corners of the fastener which helps prevent fastener rounding.
- Broad size range ensures the right tool for the application will be available.
- Typically used in lower torque applications.
- Full polish finish provides corrosion resistance and easy-to-clean surfaces

PROTO 3/8" & 1/2" Drive Open-End Crowfoot Wrenches

MADE IN THE USA

- Crowfoot wrenches are used in hard to reach, restricted access situations where a standard wrench or ratchet cannot reach
- Anti-slip design open end (ASD)
- The arched surfaces are designed to spread the contact forces over a greater area and they keep the loads off the corners of the fastener which helps prevent fastener rounding
- Broad size range ensures the right tool for the application will be available.
- Typically used in lower torque applications
- Full polish finish provides corrosion resistance and easy to clean surfaces
- Locking hole feature helps keep the crowfoot wrench engaged on the extension during use reducing downtime due to detachment of crowfoot in awkward spaces
- Use with locking extensions to reach into spaces too small for a mechanic's arm or where the fastener is out of site

PROTO 3/8" Drive Crowfoot Wrenches

Flare Nut

MADE IN THE USA

- Designed for speed and safety
- Special heat-treated alloy steel helps increase strength and durability
- 12 point box end allows for fine indexing, helping to improve speed and access
- Fits 4, 6 and 12 point fasteners
- Full polish finish provides corrosion resistance and easy to clean surfaces
- Locking hole helps hold crowfoot in place during use
- Use with a locking extension to help prevent tool loss in awkward locations

Combination Wrenches – Fractional 12 Point

Snap-On Williams Features:

- Satin finish provides corrosion resistance and a slip resistant grip
- 12 point box end allows for fine indexing, helping to improve speed and access
- Anti-slip design (ASD) open end
- Fractional sizes 11/32” and smaller and sizes 1-5/16” and larger do not have the ASD feature
- Box ends incorporate the TorquePlus™ system

Snap-On Williams Features:

- SUPERCOMBO® open end has specially designed grooves that direct wrench force away from fastener corners
- SUPERTORQUE® box opening design allows application of higher torque without rounding or deforming hex fastener points. No contact is made at the corners. Instead, wrenching forces are placed on the flat surfaces behind the points
- Meets or exceeds aerospace specification AS 954 for 12 point fasteners.
- May be used on all common hex (6 point) fasteners with considerable advantage over conventional boxend wrenches to increase both hand tool flexibility and economy

- **Snap-On Williams Globally** Snap-on Williams Global products meet or exceed ANSI specifications, and are sourced globally

PROTO Combination Wrenches Fractional - 6 Point

MADE IN THE USA

Satin Finish

- Satin finish provides corrosion resistance and a slip resistant grip
- 6 Point box end allows for large wrench to fastener contact area which helps prevent rounding of the fastener
- Fractional sizes 11/32" and smaller and sizes 1-5/16" and larger do not have the ASD feature
- Box ends incorporate the TorquePlus™ system

Combination Wrenches-Metric 12 Point

Snap-On Williams Features:

- **SUPERTORQUE®** box opening design allows application of higher torque without rounding or deforming hex fastener points. No contact is made at the corners. Instead, wrenching forces are placed on the flat surfaces behind the points
- Chrome satin finish

Wright Tool Features:

- Wright wrenches feel as good as they look. And they have a reserve of strength for tough jobs
- They feature the patented Wright Drive™, which provides more torque with less fastener damage, distributing stress evenly over a larger contact area and away from the fastener corners
- Chrome satin finish

Ratcheting Wrenches

- Allows ratcheting of nuts and bolts without removing wrench from fastener, making jobs faster and easier
- Ratcheting box end needs as little as 5° to move fasteners versus 30° for standard box end wrenches
- Up to 25% longer to access hard-to-reach fasteners
- 13 Locking positions allow access to hard-to-get places
- Up to 25% more torque with less fastener rounding

PROTO Non-Reversible Combo Ratcheting Wrenches - Spline* - Fractional

Black Chrome Finish

New!

- Spline design enables the wrench to contact conventional fasteners away from the corners, which applies force over a larger area, reducing risk of fastener scoring.
- The high contact surface area which is away from fastener points enables turning of highly rounded fasteners
- Anti-slip design (ASD) open end
- Black chrome finish is corrosion resistant and visually distinctive

PROTO 1/4" Drive Deep Sockets Metric

6 Point

MADE IN THE USA

New!

- Proto® 6 Point Sockets are ideal for use on stubborn or damaged fasteners, and also on fasteners made from soft materials
- The TorquePlus™ configuration employs a radius-corner design, shifting contact area and stress away from the fastener corners and distributing contact stresses over a large area of the socket, minimizing slippage
- Chrome full polish

PROTO 7 Pc 3/8" Drive Universal Socket Set - 12 Point

New!

MADE IN THE USA

- The TorquePlus™ design is a high performance drive configuration which allows for quick and easy socket engagement to the fastener flats, not the corners
- The TorquePlus™ configuration employs a radius-corner design, shifting contact area and stress away from the fastener corners and distributing contact stresses over a large area of the socket, minimizing slippage

Set Includes	Model No.	Order No.	Price
12 Point Universal 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4". Accessories: 6-1/4" Socket Bar with 7 Socket Clips.	J52102	**KP4280635**	Price

PROTO 1/2" Drive Spline Sockets

New! MADE IN THE USA

- Proto® Spline tools are designed to service high tensile strength fasteners used widely on military and commercial aircraft and in heavy machinery applications where vibration is prevalent. They are also used in automotive and industrial areas where high performance torque needs to be achieved
- Spline helps reduce foreign object debris (FOD) by having a precise fit between the fastening tool and its fastener
- Chrome full polish

PROTO 1/2" Drive Sockets Black Oxide Fractional-12 Point

MADE IN THE USA

New!

- Proto® 12 Point Sockets are ideal for use on stubborn or damaged fasteners, and also on fasteners made from soft materials
- The TorquePlus™ configuration employs a radius-corner design, shifting contact area and stress away from the fastener corners and distributing contact stresses over a large area of the socket, minimizing slippage

STANLEY

1/4" Drive Metric Deep Impact Socket Set - 6 Pt.

- Features Max-Drive™ design, a unique radius corner design that provides 15% more torque, making it easy to tighten fasteners and simplifying the turning of rounded corners
- Helps reduce fastener wear without contact with the outer 5% of the fastener
- Helps reduce slipping on frozen or rusted fasteners Impact sockets are made of alloy steel for strength and durability, then heat-treated to balance strength and hardness
- Socket wall thickness is optimized to provide strength while retaining ample access to restricted fasteners
- All sockets meet or exceed ANSI specifications

TEKTON 4 Pc. 1/2" Drive Impact Flip Socket Set

- Covers six of the most common lugnut sizes
- Flank-drive socket design contacts only flat surfaces of fastener head, eliminating rounding off corners
- Drop forged, heat treated chrome molybdenum steel
- Color coded sockets for quick size selection
- Designed for use with impact tools

Set Includes (in.)		Order No.	Price
1- 3" Long 17mm by 19mm Red;1- 3" Long 13/16" by 3/4" Blue;1- 3" Long 21mm by 7/8" Yellow; 1- 3" Long 1/2" Dr Extension Bar	Storage Case	**KP854950**	Price

TEKTON 38 Pc. 3/8" & 1/2" Drive, Impact Socket Set

Contents:

- 13 Pc. 3/8" Dr. Shallow impact socket sizes:
  SAE: 3/8, 7/16, 1/2, 9/16, 11/16, 3/4"
  MM: 8, 9, 12, 13, 14, 16, 17mm
  Dual sizes: 5/16" (8mm), 7/16" (11mm), 5/8" (16mm), 3/4" (19mm)
- 11 Pc. 1/2" Dr. Shallow impact socket sizes:
  MM: 10, 11, 12, 13, 14, 15, 16, 17, 18, 21, 24mm
  Dual sizes: 11mm (7/16"), 16mm (5/8"), 24mm (15/16")
- 10 Pc. 1/2" Dr. Deep impact sockets sizes:
  SAE: 1/2, 9/16, 11/16, 3/4, 13/16, 7/8, 1, 1-1/16, 1-1/8, 1-1/4"
  Dual sizes: 3/4" (19mm), 7/8" (22mm), 1-1/16" (27mm), 1-1/4" (32mm)
- 1 Pc. 1/2" (F) x 3/8" (M) Adapter
- 1 Pc. 3/8" Dr. x 3" Extension bar
- 1 Pc. 1/2" Dr. x 3" Extension bar
- 1 Pc. Storage case
- Chrome vanadium steel
- Always guaranteed

MADE IN THE USA

Impact Individual Sockets-Fractional & Metric

- The TorquePlus™ design is a high-performance drive configuration which allows for quick and easy socket engagement to the fastener flats, and not the corners.
- Available in 6 & 12Pt.
- Size stamped on each socket for easy ID
- Side locking holes
- Made from high Strength Steel

MADE IN THE USA

Impact Individual Sockets-Fractional & Metric

- The TorquePlus™ design is a high-performance drive configuration which allows for quick and easy socket engagement to the fastener flats, and not the corners.
- Available in 6, 8 & 12Pt.
- Size stamped on each socket for easy ID
- Side locking holes
- Made from high Strength Steel

1/2" Drive Impact Sockets - Metric 6 & 12 Point

Impact Extensions

MADE IN THE USA

- Use extensions to gain access to fasteners in locations that would otherwise be difficult to reach
- Male square is oriented in-line with female squares for use with fixed head torque wrenches
- Full chamfer at drive opening (when applicable) for easy engagement with drive tools
- Drive end chamfer and four detents help provide quick positive engagement with drive tool on any of the socket drive walls
- Features two thru holes and a groove to accept a Proto retaining ring or pin or o-ring to help secure extension to the drive tool anvil

PROTO Retaining Rings

MADE IN THE USA

Standard Rings:
- Used to help secure sockets onto drive tools
- Not intended to bear any load
- The rotational forces are between the drive tool and the socket

Crush Gauge Rings:
- 3/4", 1" and 1-1/2" drive retaining rings are designed with a resin crush gauge to help identify when to replace worn sockets
- The resin crush gauge on the pin helps indicate when a socket is excessively worn and should be replaced
- Drive tool and socket should line up when in use and should not pinch the crush gauge
- One piece construction, no loose parts. Pin made of resin which allows the material to compress without breaking

Style - Crush

TEKTON 21 Pc. 3/4" Drive Impact Socket Set

Specifications:
- Professional-grade, forged and hardened chrome vanadium steel construction
- Corrosion-resistant black phosphate finish
- 6 Point high torque socket design grips flat sides
- 18" 24-tooth oval head ratchet with quick release drive tang locks onto sockets
- Meets or exceeds ANSI specifications
- Opti-Drive™ Socket design contacts only flat surfaces of fastener head to eliminate rounding off corners

Contents:
- 1 Pc. 3/4" Drive 18" Ratchet handle
- 1 Pc. 3/4" Drive 18" Sliding T-head breaker bar
- 2 Pc. 3/4" Drive Extensions: 4" and 8"

Since 1882, Williams has met the harshest challenges of the most demanding and critical industries with high quality hand tools. Williams was among the first manufacturers in the world to offer mass produced drop-forged tools, a 15° angle wrench, and heavy-duty slugging wrenches.

Bahco, inventor of the original adjustable wrenches and a leader in ergonomic hand tools and cutting tools, has delivered innovative products and solutions since 1886. Bahco products are designed for professionals of various industries, such as aviation, oil & gas, metal cutting, building and construction, automotive, landscaping and vineyards. The vast majority of Bahco products are manufactured in our own factories located throughout Europe.

CDI manufactures and sells more professional grade torque products than anyone in the world. CDI's mechanical torque product lines include click type torque wrenches, dial indicating torque wrenches, torque limiting screwdrivers, calibration equipment and a number of special application torque products. CDI has long been a major innovator and a leader in electronic torque measurement and torque calibration equipment.

Snap-on Industrial Brands | CDI Torque Products Dual Scale Torque Wrenches with Micro-Adjustable Metal Handle

MADE IN THE USA

- Dual scale, calibrated dual direction
- Positive lock with spring loaded pull down lock ring
- Fast, accurate and easy to set
- Easy-to-read laser marked scales
- Most feature quick release buttons which provide good socket retention as well as easy socket removal
- Accuracy +/- 3% clockwise direction, from 20-100% full scale
- Meets or exceeds ASME B107.14M-1994, ISO 6789 standards
- Individually serialized with matching certificate of calibration traceable to NIST

TEKTON Torque Wrenches, 3/8" & 1/2"

Tekton Specifications:

- Hear and feel wrench click when torque value is reached
- High contrast dual range scale is easy to read in low light
- Durable all steel construction wiht corrosion resistant finish
- Reversible drive chrome vanadium steel rachet head
- Knurled handle provide a sure, non-slip grip
- Complete with conversion table chart
- Storage case included

Proto Ratcheting Head Micrometer Torque Wrenches - Ft. - Lbs.

MADE IN THE USA

- Calibrated to +/- 4% in clockwise direction and +/- 6% in counter clockwise direction
- Calibration is accomplished by mechanical loading of each wrench in a horizontal position, and performing a three click test at 20%, 60% and 100% of maximum instrument capacity
- Certification documents traceable to NIST. (National Institute of Standards and Technology). **CERT models only**

Snap-on Industrial Brands | CDI Torque Products — Electronic Dial Torque Wrenches

MADE IN THE USA

The new Electronic Dial (ED) Torque Wrench features solid state electronics for accurate torque application and measurement. ED's design provides easy set-up and usage. Wrench features 3 indication lights and an audible buzzer

- 4 Units of measure - Ft. Lb., In. Lb., Nm, Kg. Cm.
- Accuracy: +/- 1% CW & CCW from 20% to 100% of full scale
- 3 Color LED visual signal system
  - Yellow light = Approaching Torque Target
  - Green light = Target Torque Reached
  - Red light = Over Torque Indicator
- Audible tone when desired torque reached
- Alarm tone sounds if wrench is overtorqued
- Display can be turned 180° to allow left hand usage
- Holds "Peak" torque reading for 10 seconds
- Constructed of special Capron® material for long life and durability
- Resistant to the majority used in industrial environments
- Battery saving auto-shutoff after two minutes
- Remembers last unit and torque setting selected
- NIST traceable certificate of calibration included
- Meets or exceeds ASME B107.28 - 2005

Snap-on Industrial Brands | CDI Torque Products — Torque Multipliers with Handles

- Provides the operator with nut-turning power that requires only a fraction of the force required when using conventional tools
- Input and output rotation is in the same direction
- Reaction bar rotation is opposite to imput direction and must rest securely against a rigid object to withstand the generated reaction force
- By removing 4 screws, heads may be easily disassembled for inspection, cleaning, and lubrication

Snap-on Industrial Brands | CDI Torque Products — Multipliers with Planetary-Gear Mechansim

- Designed where high torques are necessary for fastening or breaking out stubborn fasteners
- Allows operator safe and easy means of producing torque for job requirements
- Precision planetary gear multiplies the operator's input from standard torque wrenches
- Can also multiply the torque from air-driven (non-impact) wrenches

Torque & Angle Electronic Torque Wrench

Specifically designed to meet the needs of the torque professional where torque and angle is required. Features three units of torque, Ft. Lbs., In. Lbs., and Newton meters as well as the angle mode. The Torque and Angle wrench allows the technician to apply a specific torque load, followed by the angle specification, and all in one convenient wrench

- Very accurate, +/- 2%, CW of indicated value
- Gyro chip senses 360° of movement, and is accurate to within +/-1°
- No maintenance, just change the battery at 80 hours
- Very easy to set up and use quickly
- 15° Flex ratchet head
- Ergonomic non-slip cushion grip
- 3 Step LED visual single system:
  Yellow light = Approaching torque target
  Green light = Torque target reached
  Red light = Over Torque Indicator
- Audible buzzer and tactile feel vibrating handle when torque value achieved
- NIST traceable certificate of calibration included
- Meets of exceeds ASME B107.28 - 2005

Dial Torque Wrenches, In / Lbs

MADE IN THE USA

- Accurate to ± 4% of torque reading in both directions at 20% to 100% of full scale
- Industrial all steel or aluminum torque transfer components
- High alloy torsion drive design — accuracy not effected by hand position
- Dual scale (English/Metric) with clockwise and counterclockwise operation — fewer wrenches needed to complete job
- Memory needles are standard on all wrenches except electric light models
- Easy-to-read, high contrast scale
- Laser marked serial number for traceability
- NIST (National Institute of Standards and Technology) traceable CW certification supplied with each wrench

Advanced Electronic Torque Wrench

MADE IN THE USA

- Durable all steel construction
- Programmable to torque fastener in desired sequence with up to 50 memory presets
- Electronic indicators include LED, audible beep and handle vibration when desired torque is achieved
- Calibration due indicator
- Reliable data trail time stamped for QC, Job Auditing and Torque Verification
- Stores up to 1,500 readings
- Qutput in Foot Pounds, Inch Pounds, Newton Meters and Kilogram Centimeters
- Accuracy +/- 2% CW and +/- 3% CCW

Classic Series Dial Torque Wrenches-Single Scale

Designed for the automotive, nuclear and industrial markets in addition to military installations throughout the world. This series features sturdy torsion beam design of dependable long life and accuracy. The small frame model offers working ranges from 3 in. lbs. to 50 ft. lbs, in 1/4" and 3/8" drives. The large frame model continues from 100 ft. lbs. through 2,000 ft. lbs. with 1/2", 3/4", and 1" drives. Accuracy of both service of +/- 4% meets or exceeds ASME B107.14-1994, ISO 6789 bi-directionally from 20% to 100% of scale.

- Sturdy body construction insures maximum durability
- Easy to read laser marked single scale
- Large easy to read dial is shock resistant and protected by a tough metal guard
- Memory needle retains highest torque reading applied
- Accuracy: +/- 4% of indicated value, cw & ccw, from 20% to 100% of full scale
- Individually serialized with matching certificate of calibration traceable to NIST

Snap-on Industrial Brands | CDI Torque Products Single Setting Torque Wrenches

MADE IN THE USA

- Featuring a durable, non-slip cushion grip
- Uses universal round shank heads
- Audible click and feel impulse torque control mechanism
- Tamper proof torque setting for production line use
- Torque values can be calibrated in english and metric setting
- Accuracy: +/- 3% of indicated value, in direction of torque indicator, from 20% to 100% of full scale
- Meets or exceeds ASME B107.14-2004, ISO 6789

Snap-on Industrial Brands | CDI Torque Products Dial Torque Wrenches - Dual Scale

Dual Dial • Inch Pound / Newton Meter

MADE IN THE USA

- Sturdy body construction insures durability
- Easy to read laser marked dual scale
- Large easy to read dial is shock resistant and protected by a tough metal guard
- Cam-over torque limiting clutch
- Memory needle retains highest torque reading applied
- Calibrated in both clockwise and counter clockwise direction
- Accuracy +/– 3% of indicated value, CW & CCW, from 20-100% of full scale
- Individually serialized with matching certificate of calibration traceable to NIST

PROTO 1/4" Drive Torque Screwdrivers

MADE IN THE USA

- Calibrated to ± 4% of torque reading, clockwise at 20% to 100% of full scale
- 1/4” Square to 1/4” hex adapter included for use with insert bits
- Industrial heavy duty design
- Aircraft grade aluminum
- Aircraft quality spring
- Positive self locking lock ring
- Floating three point reaction for repeatability
- Laser marked easy-to-read scale
- NIST (National Institute of Standards and Technology) traceable certification supplied with J6106ACERT (ONLY)
- Meets or exceeds ASME B10714M

Snap-on Industrial Brands | CDI Torque Products Multitorq Torque & Data System

MADE IN THE USA

Multitorq portable electronic torque meter displays torque readings from sensors that attach between sockets and driver. Accuracy +/- 1% of reading, 10-100% of sensor range. Sensors are sold separately, available in eight ranges from 2-20 in ozs to 150-1500 ft lbs

Features:

- Soft touch keys: hi/lo alarm, zero tare, set-up, units, store/recall/clear, send, statistics, enter
- Units of measurement: ft. lb., in. lb., in. oz., Nm, dNm, mkg, and cmkg
- Data storage/recall: 3500 measurements
- Certificate of accuracy traceable to NIST supplied with each transducer

SLOKY® 13 Pc. TorxPlus® LT Combo Set

- LT Combo Set contains (1) blue LT handle, (6) torque adapters, and (6) 1" Torx Plus bits
- The sizes included are, 6IP, 7IP, 8IP, 9IP, 10IP, and 15IP, and the corresponding preset torques are 5.3, 8.0, 10.6, 12.4, 17.7, and 26.6 In-lb, which equal to 0.6, 0.9, 1.2, 1.4, 2.0, and 3.0 Nm
- The dimension of the T-type handle (LT) is 2 3/4" X 3/4" X 1 1/2" (L X W X H)
- The torque adapters which have the manufacturer defined torques are magnetized and color coded
- The high alloy steel bits are also magnetized and color coded with the hardness of 58-60 HRC

IRWIN Phillips Impact Power Bits

- Built for maximum durability and long life with impact drivers.
- Forged bit (vs. milled) for superior fitment, which reduces stripping and increases life of bit 3X
- Manufactured with heavy-duty, cold-forged, high-grade steel to withstand high torque output
- Black oxide finish resists corrosion and increases life of bit

Point Size	Shank Dia. (in.)	Length (in.)	Order No.	Price

APEX

Apex Bits meet the most stringent government and military specifications. The tolerances are up to 48% tighter than DIN standards and 35% tighter than ANSI requirements. Apex bits consistently and regularly out performs the competition; up to ten times longer lasting. The precision fit design eliminates “cam-outs” and premature bit failure.

- Proprietary steel and heat treat process yields greater strength and longer bit life
- Cutting-edge machining process results in tighter tolerances and superior product consistency
- Better and more consistent fit to fasteners resulting to better torque transfer

Available selections:

- Standard insert bits
- Power insert bits
- Adapters
- Bit Holders
- Chucks
- Nut Drivers
- Extensions

Terminator Impact Square Bits

- Special energy absorbing dual material design
- Impact rated bits for longer life in impact applications
- Up to 30 times impact performance over standard bits
- Standard 1/4" drive
- Wiha enhanced bi-material torsion zone
- Precision heated treated & premium CVM tool steel
- Other styles and package qty available - call for info

APEX Hex Drive Bit Holders

- Tools bit holders are made with high quality steel
- Magnetic bit holders keep the bit in driving position, even when working straight down.
- Time-wasting motions are eliminated when starting or working in hard-to-reach areas
- These bit holders are identified with a M- prefix
- Made from select raw materials and only high grade tool steel
- Tightest tolerances in the industry, closer tolerances mean a better fit and less cam-out or stripping.

Point Size	Drive Size	OAL (in.)	Apex #	Order No.	Price

APEX Hex Drive Bit Holder with Quick Release

- Proprietary steel and heat treat process yields greater strength and longer bit life
- Cutting-edge machining process results in tighter tolerances and supe-rior Product consistency
- Better and more consistent fit to fasteners resulting to better torque transfer
- Power bits are best used with quick-release (QR series) chucks

TITAN 26 Pc. Ratcheting Screwdriver Set

- For use with a wide range of projects including automotive, engineering, & electronic applications
- Aluminum construction
- Comfort grip handle

Set Includes:
- (1) 5" Ratcheting driver,
- (1) 4-1/2" Extension bar
- (7) Phillips: PH000, (2) PH00, (2) PH0, PH1 & PH2
- (5) Slotted: 1/16", 5/64", 3/32", 1/8" & 5/32"
- (5) SAE hex: 1/16", 5/64", 3/32", 1/8" & 5/32"
- (5) Star: T5, T6, T7, T8 & T9
- (2) Tri-wing: 2mm & 3mm

Snap-on Industrial Brands | WILLIAMS 72 Pc. Tools Bits Set

Features:

- S2 material for higher torque, optimum durability and performance
- All parts are engineered and produced according to ANSI standard
- The set also includes a magnetic bit holder allowing for quick change of driving bits
- Folding case design is compact and robust with pivoting dual bit holders that allow for easy and quick access to the accessories
- Industrial case is made from a highly durable, plastic material

Set Includes	Order No.	Price
Bits included: Hex, Phillips, Square, Slotted, Pozi-Drive, Torx®, Nut Drivers, Magnetic Holder, Cones in 1 & 2" lengths	**KP3024900**	Price

PRM PRO Screwdriver Bit Sets

- S2 modified steel with a Rockwell hardness between 58-62 HRC
- 1/4" Drive with exact fit machined tips
- Lifetime warrenty against mfg defects

Snap-on Industrial Brands | WILLIAMS 1/2" Dr. Turbosocket Salvage Socket

MADE IN THE USA

- Quickly and easily remove damaged or rounded nuts and bolts
- Grip on fastener tightens as more torque is applied
- No hammering is required to install socket over fastener
- Use on all types of standard nuts and bolts as well as studs, pipe nipples, and corroded auto and marine fasteners
- May be used for “best fit” on metric and fractional fasteners
- May be used with air or electric impact wrench for extra speed and turning power

PROTO 3 Pc. Nut Setter Set - 1/4" Hex Shank

MADE IN THE USA

- Proto® TorquePlus™ design is a high performance drive configuration which allows for quick and easy engagement to the fastener flats, not the corners
- The TorquePlus™ configuration employs a radius-corner design, shifting contact area and stress away from the fastener corners and distributing contact stresses over a large area of the socket, minimizing slippage
- The TorquePlus™ internal design minimizes fastener rounding, helps to extend fastener life, and allows the user to more easily turn worn, rounded, or rusted fasteners
- Magnets feature enhanced holding power to help improve fastener retention, helping to increase productivity
- Distinctive gold finish

Hard Cap Punches

- Impact disc efficiently transfers blow
- Reinforced polymer by DuPont reduces noise by up to 80%
- Cap-and-cushion grip reduces the amount of shock by up to 90%
- Striking surface enlarged by 2-1/2 times
- Eliminates flying metal fragments
- Reduces glancing blows
- Reduces hammer kickback and trauma to wrist and elbow

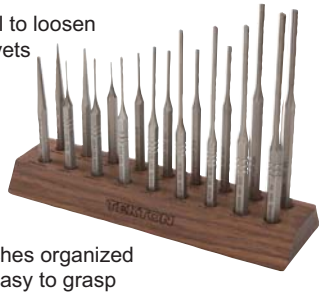
TEKTON 18 Pc. Gunsmith Punch Set

- Pin and Roll Pin Punches smoothly drive out or insert solid pins, hollow pins, and springs and are reverse tapered so they won't stick in workpieces
- Solid Punches are stout and powerful to loosen rusted or frozen pins and drive out rivets
- Center Punch has a sharp point that marks cast iron, mild steel, brass, aluminum, and wood with a dimpled starting spot for drilling
- All punches have a classic natural finish with a dry-touch, rust-preventative coating
- Solid walnut bench block keeps punches organized and generously spaced so they are easy to grasp



Set Contains	Order No.	Price
(7pc) Pin punches: 1/16, 3/32, 1/8, 5/32, 3/16, 7/32, 1/4" (8pc) Roll pin punches: 1/16, 5/64, 3/32, 1/8, 5/32, 3/16, 7/32, 1/4 (2pc) Solid punches: 1/16, 3/32" (1pc) Center punch: 5/16", Walnut Bench Block	**KP8566564**	Price

Center Punches

- Ideal for marking metal or making indentations for starting drill holes
- One-piece construction forged for strength
- Hardened, quenched and tempered for long life and durability
- Powder-coated finish for easy visibility

Nielsen Case-Hardened Transfer Screw Sets

Self-aligning to eliminate guess work and wasted time. Easy to use. Insert transfer screws in holes to be transferred and tighten with wrench. Apply new material and strike a sharp blow. True center and drill circle penetrate new steel to a depth of .010" to .015", duplicating original holes. Transfer screws are case hardened for a long life. Made with uniform shoulder height .200"

Each set contains a total of twelve (12) screws; four (4) screws in each size listed, mounted on index plate

Young Bros. Round Face Full Character

The cutting edge of the characater is 1/32" radius, with a 40° bevel. Rounded character stamp makes low stress impressions suitable for use anywhere metal strength is crtitcal. The aircraft, missile, oil supply and nuclear power industries depend on these stamps to avoid risk of fracture from too sharp an imprint. Characater indentification and size, three thumb grooves

- Letter set-27 characters
- Figure set-9 characters
- Combo set-36 characters

When ordering individual stamps, use size plus figure or letter
Example: KF50RF181 for #1 1/8 size; KF50RF18A for A 1/8 size

3 Pc. 8" Second Cut Engineering File Set

Set contains three 8” Engineering files with Ergo® handles:

- Hand second
- Half round second
- Round second
- Roll-up Pouch

Order No.	Price
KL3014730622	Price

5 Pc. 8" Bastard Engineering File Set

Set contains five 8” Engineering files with Ergo® handles:

- Hand bastard
- Hand second
- Square bastard
- Half round bastard
- Round bastard
- Roll-up pouch

Order No.	Price
KL3014780812	Price

6 Pc. 4" Smooth Engineering File Set

Set contains six 4” Engineering files with plastic handles:

- Hand smooth
- Warding smooth
- Square smooth
- Three square smooth
- Half round smooth
- Round smooth
- Plastic pouch

Order No.	Price
KL3014760432	Price

3 Pc. 6" File Set

Consists of 1 each:

- 6” Slim taper file
- 6” Round file
- 6” Mill bastard file
- Fitted plastic pouch

Type	Order No.	Price
File Set-Ergo Handles	FR5022015H	Price
File Set-No Handles	FR5022015	Price

5 Pc. General Purpose File Set

Consists of 1 each:

- 10” Half-round bastard file
- 10” Mill bastard file
- 8” Mill bastard file
- 8” Mill smooth file
- 6” Slim taper file
- Fitted plastic pouch

Type	Order No.	Price
Ergo Handle	FR5022040H	Price

Three Square Files

Excellent for cleaning out corners or for use on cutters, taps and flat surfaces. Three Square Files are double cut and taper toward the point in width and thickness

- Bastard file, a coarse file designed for fast removal of stock material
- 2nd cut file, a medium file designed for moderate stock removal
- Smooth file, a fine file designed for making an almost smooth surface
