Hard Hat Lanyards - Red

- The Proto® hard hat lanyard is a great way to prevent your hard hat from becoming a dropped object. It can be used with almost any hard hat, and is a comfortable alternative to the traditional "chin strap"
- While keeping your helmet secure, the patented lanyard, attaches to an outer garment never impeding on the comfort or use of the hard hat
- All Proto® Hard Hat lanyards feature an "easy release" where you may disengage the side release buckle, leaving one piece secured to the hard hat, and the other still attached to an outer garment. When ready to use the hard hat again, simply reengage the side release buckle
- * Hard hat not included

Hazardous Materials Service

Shipments of hazardous material must comply with Department of Transportation Hazardous Materials Regulations, Title 49 of the Code of Federal Regulations, and UPS Hazardous Materials Service guidelines. Therefore, all shipments of chemicals and fluids are subject to special packaging, labeling, controls, or restrictions depending on the chemical content and quantities. The Hazardous Code Key identifies the shipping methods allowed and the additional handling charges that apply. These charges are in addition to the UPS freight charge and are subject to change . Multiple boxes may be required based on size, weight, and chemical content restrictions. All small package shipments containing Chemicals and Fluids with a Hazardous Code will be shipped via UPS prepaid and add. No collect or 3rd Party billing.

Monroe Fluid Technology Cool-Tool II® Cutting Tapping Fluid

- Excellent performance on: Aluminum, Inconel, Titanium, Stainless Steel, Certain Plastics
- Not to be mixed with water

LPS Tapmatic® TriCut

- Excellent for stainless steel, not recommended for aluminum
- Provides smooth, accurate cutting action
- Flows directly to cutting edge
- Extends tool life
- Improves surface finish, reduces friction, suitable for high & low speed applications
- Non-corrosive to steel
- Allows increased removal rates
- Synthetic oil-based

ASHBURN CHEMICAL TECHNOLOGIES Mike-O-Cut No. 87 Extreme Duty Tapping Fluid

MIKE-O-CUT 87 is an extreme duty drilling and tapping fluid. It does not contain 1,1,1 Tri-chloro-ethane and is considered environmentally safe. It is thick like honey and will stick to your taps

Advantages:

- Direct equivalent to Morse Cutting & Tapping Fluid
- Does not contain 1,1,1 Trichloroethane
- Extended tool life
- Improves finish and size
- Will not evaporate
- Non-toxic

HANGSTERFER'S CC-22 Cutting Oil

New!

- CC 22 designed for light and medium duty metal cutting and metal forming operations
- Economically formulated oil is manufactured under the same quality control standards set for all Hangsterfer's products
- Superior lubrication for the machine tool as well as the cutting and forming operations
- CC 22 provides benefits in productivity, equipment life and environmental compliance

HANGSTERFER'S Hard-Cut 5618 Straight Cutting Oil

New!

- Highly recommended for use on stainless steels, hardened steels, high nickel alloys, titanium and aircraft aluminums
- Formulated in various viscosities and with various levels of Extreme Pressure (EP) additives
- Reduced smoke, cleaner machines, low odor and non-irritating are just some of the benefits
- Ultra-light viscosity oil that is best used on the machining of small parts
- Useful in grinding applications where other light oils have been used, especially applications using a CBN or diamond wheel

Size	Hazard Code	Order No.	Price

Master Fluid Solutions TRIM® MicroSol® 685

High Lubricity Semi-Synthetic Metalworking Fluid

- Excellent alternative to chlorinated soluble oils
- Reduces oil mist and residues often associated with high-lubricity alternatives
- Contains no nitrites, triazines, phenols, or sulfurized EP additives
- Provides superior corrosion inhibition on all ferrous and nonferrous metals
- Forms stable micro-emulsion in hard water environments
- Used with aluminum, magnesium and copper alloys, cast iron, steels, stainless steels, and many plastics and composites
- Keeps machines very clean for reduced maintenance
- Has exceptional sump life without the use of tank side additives
- Requires no special disposal or recycling techniques

New!

Master Fluid Solutions TRIM® E206

New!

Long Life Emulsion

- Versatile product works in heavy-duty broaching, gear hobbing, surface and centerless grinding, and replacing straight oil on some types of screw machineS
- Contains highly effective extreme-pressure additives to control built-up edge
- Compatible with all ferrous and nonferrous materials
- Extremely stable emulsion to reduce carry-off and to facilitate getting the fluid to the point of cut
- Rejects tramp oil to help extend sump life and increase recycling options
- Leaves a soft fluid film to prevent sticky ways, chucks, tool holders, and fixtures
- Coolant residue is easily removed with water, working solution, or aqueous cleaners
- Easy recycling or disposal with conventional techniques and equipment

Master Fluid Solutions TRIM® MicroSol® 585XT

Extended Life Non-Chlorinated Semi-Synthetic

- Extends useful life without the need for tank-side biocides or fungicides
- Low foaming ideal for high-pressure, high-volume applications
- Compatible with cast iron, steels, copper, titanium, and aluminum alloys, plastics and composites
- Cooling and lubricity for titanium machining applications
- Corrosion inhibition on cast iron and eliminates "hot chip" and clinkering problems
- Excellent alternative to chlorinated soluble oils on high-silica aluminum alloys
- Contains no nitrites, triazines, phenols, chlorinated, or sulfurized EP additives
- Provides superior corrosion inhibition on all ferrous and nonferrous metals
- Keeps machines very clean for reduced maintenance
- Requires no special disposal or recycling techniques

RIDGID Thread Cutting Oil-Dark

MADE IN THE USA

- Finest quality, special purpose sulphurlard cutting oil that cools, speeds metal removal, produces smooth, clean threads, prevents chips from welding to dies
- An exactly formulated combination of petroleum oils and special additives, including an odorless germicide that is antiseptic, reducing the risk of infection
- Will not congeal at 20°F
- Comparative tests prove the superiority of RIDGID Thread Cutting Oil
- Excellent for drilling, turning and other metal cutting operations but should not be used for lubricating

Ashburn Chemical Technologies Mike-O-Thread Dark and Light

Premium quality thread cutting oils which provide smooth, clean and accurate thread cutting on all metals

Advantages:

- Superb cutting ability
- Fats and sulphur remain high
- Penetrates quickly
- Rapidly cools dies
- Provides an excellent finish on threads

Ashburn Aerosol Tapping Fluid

TD FOAMY

An extreme duty tapping and drilling fluid desgined for ease of application. Can be applied before or during the cutting operation. It's excellent foaming action penetrates deep into the cut to extend tap life and promote a superior finish

- Superior finish and threads
- Extends tool life
- Excellent foaming action
- Use on all metals
- Does not contain 1,1,1 Trichloroethane

Size	Hazard Code	Order No.	Price
20 oz	HAZ03	**LK70D150220**	Price

Master Fluid Solutions TRIM® MicroSol® 690XT

High Lubricity Low Foam Premium Semi-Synthetic Coolant

- Extends useful life without the need for tank-side biocides or fungicides
- Low foaming ideal for high-pressure, high-volume applications
- No nitrites, triazines, phenols, chlorinated, sulfurized EP additives; boron, halogen free
- Compatible with titanium, high nickel alloys, steels, copper, and aluminum alloys
- Excellent alternative to chlorinated soluble oils on high-silica aluminum alloys
- Provides superior corrosion inhibition on all ferrous and nonferrous metals
- Keeps machines very clean for reduced maintenance
- Requires no special disposal or recycling techniques

New!

General Purpose Emulsion Coolant

- Proven to be highly effective in controlling built-up edge (BUE)
- Soluble oil (emulsion) coolant concentrate
- Used for production surface and centerless grinding, heavy-duty broaching, gear hobbing, and replacing straight oil on some types of screw machines
- Leaves a fluid, non-gumming film to prevent sticky ways, chucks, tool holders, and fixtures
- Coolant residue is easily removed with either water, working solution, or aqueous cleaners
- Easy recycling or disposal with conventional techniques and equipment

Master Fluid Solutions TRIM® C270CG

New!

High Performance Synthetic Coolant

- Compatible with a very wide range of materials including: cast iron, steels, and copper alloys, as well as plastics and composites
- Provides excellent corrosion inhibition on all common ferrous alloys
- Used when form grinding, drilling, tapping, and reaming operations without chlorine or sulfur-based EP additives
- Extremely low carry-off for very low total operation costs
- Very low foam and mist & very low initial ordor
- Leaves machines clean while leaving a soft, fluid film that protects the bare metal parts
- Residual film is easily resoluble in coolant working solution to facilitate easy machine cleaning
- Exceptional sump life and very good tramp oil rejection

Rustlick™ EDM 30, 250 & 500

RUSTLICK™ EDM-30–Dielectric Oil
- High quality oil offers low viscosity for fast settling
- Use with paper cartridge filters

RUSTLICK™ EDM-250–Dielectric Oil
- Low viscosity for excellent flushing and finishing
- Resists thermal degradation from high amperage application up to 400 Amps
- Good for all types of filters

RUSTLICK™ EDM-500–Synthetic Dielectric Oil
- Cosmetic-grade formulation virtually eliminates skin irritation
- Formulated from base chemicals so highly refined and purified that additional additives are not necessary. The result is faster cutting, higher quality finishes and long fluid life
- Resists thermal degradation from high amperage application up to 400 Amps
- High dielectric strength
- Good for all types of filters

Rustlick Ultracut®Pro Heavy-Duty Bio-Resistant Water-Soluble Oil

Includes Chlorine

- EP additive includes chlorine
- Recommended for ferrous and most non-ferrous metals (excluding titanium and nickel alloys)
- Low foaming; rejects tramp oil, provides excellent residual corrosion protection
- Easy to maintain, superior-sump life and bio-stability

Hangsterfer's R-100 Grinding Synthetic Coolant

New!

- Excellent grinding synthetic, especially useful in Blanchard grinders and deburring tumblers
- R-100 is a full synthetic machining and grinding coolant
- Transparent biostable formula offers extended sump life, reduced coolant consumption and minimal waste
- Free of oil and grease while remaining transparent in both hard and soft water
- Unique cleaning action to help reduce wheel loading and leaves behind a thin corrosion inhibiting film

Size	Hazard Code	Order No.	Price
5 Gallon	HAZ58	**NH101328**	Price
55 Gallon	HAZ06	**NH101327**	Price

CIMCOOL CIMSTAR® 60LF Metal Cutting Fluid

- Clean, completely water soluble, silicone free, semi-synthetic product that contains an extreme pressure lubricant for superior machining and grinding capability
- Recommended for aluminum, iron and steel
- Moderate to heavy duty operations

Size	Haz Code	Order No.	Price
5 Gallon	HAZ58	**LL5100026P**	Price
55 Gallon	HAZ06	**LL5100026D†**	Price

†All 55 Gallon Drums FOB Factory

CIMCOOL CIMSTAR® 540 Metal Cutting Fluid

- Moderate duty, semi-synthetic product with good rust control and excellent rancidity control
- Biostable metalworking fluid that controls biological growth without bactericides. It uniquely blends the newest technological advances to deliver superior performance
- Can be used on a variety of metals and operations

Size	Hazard Code	Order No.	Price
5 Gallon	HAZ57	**LL5100045P**	Price
55 Gallon	HAZ06	**LL5100045D†**	Price

Mobil Mobilmet 426 Series Multi-Purpose Cutting Oils

- Mobilmet 426 is recommended for critical machining of non-ferrous metals and automatic operations on materials having a Brinell hardness up to about 300
- Excellent machining performance
- Promotes longer tool life and reduced downtime for tool changes and wheel dressing
- Improved surface finish and dimensional accuracy resulting in fewer rejects and better quality finished products
- Light transparent color provides clear view of work area at all times

Size	Hazard Code	Order No.	Price
1 Gallon	HAZ57	**LK45CUT426**	Price

ASHBURN Honing Oil MIKE-O-HONE

- Excellent penetration
- Promotes flow of fines
- High sulfur content
- Provides excellent surface finish
- A superior fluid for use in industrial and automotive operations

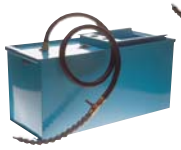
LittleGIANT Machine Tool Coolant Units – "Flood Type"

MADE IN THE USA



- Coolant units for any machine tool operation
- The flow of coolant liquids can be regulated to any desired amount or completely shut off without harmful effects to the motor
- Centrifugal pumps are used in all machine tool coolant units
- Five gallon tanks are poly-ethylene, ten gallon tanks are heavy gauge steel. Screen and chip collector are easily removable for fast cleaning

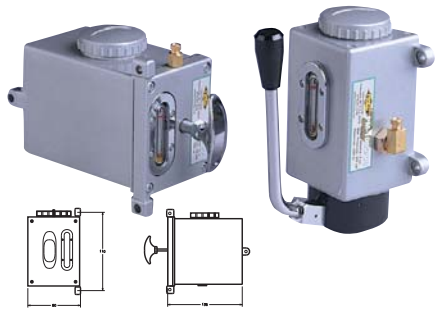
TRICO Manual Cyclic Pumps

Applications:
- PM Series pumps are used in applications where a fixed output of lubricant is desired
- With the PM-10 series, the leverage of the pump handle enables the unit to deliver a higher pressure than most models, providing the ability to lubricate points having some back pressure
- With the PM-20 series, lubricant output takes place upon release of the handle using spring discharge to assure the correct amount of lubricant is applied
- These pumps are commonly used with meter units in single or multiple point applications

Features:
- Aluminum die cast reservoir provides long life
- Outputs to 8 cc/stroke
- Sight gauge provides liquid level observation
- Large fill port for easy adding of lubricant
- Drop-in fill port keeps oil clean



Model No.	Type of Operation	CC Output Per Stroke	Discharge Pressure P.S.I.	Reservoir Capacity	Mount Position	Order No.	Price
PM-1000-08	Manual Piston Pump	8	200	450 cc	Vertical	**NW50PM100008**	Price
PM-2000-L	Spring Discharge Piston Pump	8	50	550 cc	Left Horizontal	**NW50PM2000L**	Price
PM-2000-R	Spring Discharge Piston Pump	8	50	550 cc	Right Horizontal	**NW50PM2000R**	Price

TRICO Automatic Cyclic Pumps

Applications:
- The PE-20 series pumps are designed for automatic cyclic systems with fewer than 50 points

PE-20 Series Features:
- Adjustable interval time between lubrications cycles of 0-60 minutes
- Heavy duty plastic reservoir simplifies oil level viewing
- Choice of 6cc or 15cc output per cycle

PE-22 and PE-24 Series Features:
- Adjustable interval time between lubrication cycles of 0-60 minutes
- Heavy duty plastic reservoir simplifies oil level viewing
- Low level switch with alarm
- Pressure gauge

Specifications:
- Reservoir Capacity: 2 Liters
- Motor Voltage: 110-1-50/60 Standard • 220-1-50/60 Optional
- Maximum Pressure: PE-20, 22 Series: 100 PSI; PE-24 Series: 70 PSI
- Output Connection: 5/16-24 (f)

Output	Interval Time Between Cycles	Min. Output (cc/hour)	Low Level Switch	Low Level Alarm and Press. Gauge	Model No.	Order No.	Price

***Variable delivery time of 0-180 seconds**

TRICO Automatic Cyclic Pumps

Applications:
- For use in heavy duty applications requiring a timed delivery of lubricant
- These durable pumps provide long life and trouble-free service
- These pumps are used with meter units in multiple point applications

Features:
- Transparent 2 liter reservoir simplifies viewing oil level
- PE 12 series has low level switch to signal when lubricant level is low
- Adjustable output range of 3 to 6 cc/cycle, or 3 to 120 cc/hour
- Convenient drop-in filter in fill port keeps oil clean

Specifications:
- Reservoir Capacity: 2 Liters
- Motor Voltage: 110-1-50/60 Standard; 220-1-50/60 Optional
- Maximum Pressure: 40 PSI
- Output Connection: 5/16-24 (f)

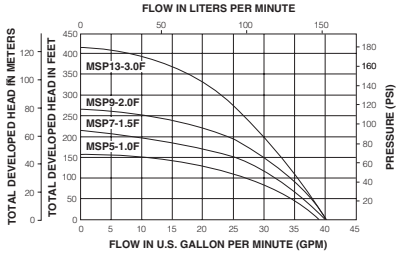
Graymills Multi-Stage Centrifugal Pump

Pumps for through-the-tool coolant drilling, boring, grinding and other machining operations requiring high pressure coolant delivery. These pumps are designed to meet the requirements where high pressure and flow are required to accomplish chip removal in addition to dissipate heat and lubrication

MADE IN THE USA



- Steady, pulsation-free coolant delivery
- Prevents thermal shock to cutting tool
- Permits greatly increased feed rates
- Substantially lengthens tool life
- Variable capacity: centrifugal pump design allows flow adjustment by installing valve in pump discharge line
- Abrasion resistant impellers and diffusers: high strength glass filled thermoplastic
- Mounts vertically or horizontally without loss of performance

Graymills Industrial Grade Coolant Pumping Systems for Machine Tools

MADE IN THE USA

6 Gallon Pump & Tank Systems
- 18 Gauge metal construction with durable powder coated finish
- Screen bowl chip collector
- Removable recessed lid design contains spills and allows easy access
- Includes 4' flexible hose, metal flush nozzle, and flow control valve

10 Gallon Pump & Tank Systems
- 18 Gauge metal construction with durable powder coated finish
- Built-in baffle in tank to help settle out debris
- Screen bowl chip collector
- Removable recessed lid design contains spills and allows easy access
- Includes 4' flexible hose, metal flush nozzle, and flow control valve

17 Gallon Pump & Tank Systems
- 16 Gauge metal construction with durable powder coated finish
- Dual built-in tank baffles to help settle out debris
- Chip collection basket tTo catch debris
- Recessed lid design contains spills and allows easy access

21 Gallon Pump & Tank Systems
- 16 Gauge metal construction with durable powder coated finish
- Dual built-in tank baffles to help settle out debris
- Chip collection basket to catch debris
- Recessed lid design contains spills and allows easy access

Graymills 10 Gallon Pump and Tank System

MADE IN THE USA

- 1/8 HP cast iron pump
- 10 Gallon per minute flow rate
- 16 Gauge steel tank with removable lid
- Screen bowl, chip collector
- 115/230V, 60Hz, 1PH
- 500 SSU Maximum viscosity
- Tank: 24"L x 10"W x 11"H

Includes	Order No.	Price
Pump	**LC5510IMV**	Price
Pump & Kit	**LC5510IMVS**	Price

Graymills 21 Gallon Portable Pump and Tank Systems

MADE IN THE USA

- OEM Equipment on early Haas Machine Tools
- 1/8HP Pump delivers up to 10GPM
- Chip collection basket to catch debris
- Casters allow ease of movement and positioning
- Removable recessed, multi-lid design contains spills and allows easy access
- 16 Gauge metal construction with durable powder coated finish
- Tank: 44"L x 16"W x 10"H
- 115/230V, 60Hz, 1PH

Order No.	Price
LC55X21IMVO9E	Price

ASHBURN Premixer/Proportioner

- Simple and accurate premixing method
- Easily changeable metering tips (for selection ratio)
- No moving parts = no maintenance
- Designed to premix your Ashburn coolant concentrate with water at the correct proportion

Description	Order No.	Price
Premixer #6	**LK70C105006**	Price

Graymills Coolant Pump and Tank Package

- Ideal for Drill Presses, Small Grinders, Lathes, Bench Mills and Cut-Off Saws
- Heavy duty pump delivers up to 10GPM
- 5 Gallon metal container
- Abrasion resistant impeller
- Chip basket to collect debris
- Includes flexible metal hose with flow control valve
- 115V Continuous duty motor w/ on-off switch

MADE IN THE USA

Order No.	Price
LC555HR35A	Price

ASHBURN Coolant Coalescer

- One step coolant maintenance
- Keeps coolant clean
- Removes tramp oil 24/7
- Keeps coolant aerated
- Provides continuous cleaning and circulation of coolant in a machine tool sump
- A skimmer head pulls dirty coolant from the sump
- It then passes through a coalescer cartridge which separates the tramp oil from the coolant and returns clean coolant to the sump

Order No.	Price
LK70C300015†	Price

ASHBURN Coolant Rejuvenator

- Ashburn Coolant Rejuvenator is a sump-side additive designed to prevent rancidity and prolong the life of your coolant
- It is a concentrated additive and is normally added at 12 oz per 50 gallons of coolant

Size	Hazard Code	Order No.	Price
16 oz	HAZ57	**LK70B415216**	Price
1 Gallon	HAZ57	**LK70B415311**	Price
5 Gallon	HAZ58	**LK70B415405**	Price

WESCO Coolant Pumps and Units

Wesco Coolant Pumping Units

MADE IN THE USA

- 1/20th HP pumping units recommended for I50 SSU soluble oil and lightweight cutting oil only
- Order No. NY501025 Shown

ASHBURN Mist Coolant

- A heavy duty synthetic mist coolant designed for use in all mist applicators
- It keeps the cutting tool cool and provides excellent lubricity during machining operations on ferrous or non-ferrous materials
- Excellent lubricity and EP properties
- Extends tool life
- Non-irritating
- Excellent corrosion protection

TRICO Li'L Mister® Spray System

- Compact size and 1 quart reservoir is ideal for tool room or other light duty machining applications
- Easy to mount on equipment, only needs shop air to become operational
- Nozzle mounting hardware and bracket are included for complete installation

MADE IN THE USA

Tank Capacity	Line Length	Line Material	Order No.	Price
1 Quart	1-5'	Plastic	**NW5030540**	Price

TRICO SprayMaster®

MADE IN THE USA

- Siphon-type spray coolant system for medium to heavy-duty machining operations
- One gallon capacity unit is equipped with a new large orifice nozzle built around a tough crosslinked, polyethylene housing
- Easy to read liquid level indicator, and is easy to refill

Tank Capacity	Line Length	Line Material	Order No.	Price
1 Gallon	1-5'	Armored	**NW5030542**	Price
1 Gallon	2-5'	Armored	**NW5030543**	Price

TRICO SprayMaster® Unit With Stainless Steel Tank

MADE IN THE USA

- All-welded heavy duty, 20 gauge stainless steel coolant tank with visual coolant level indicator
- Flexible, non-kinking brass armored sheeting protects the inner lines from hot chips and the nozzle can be positioned exactly where you want it
- Easy access air and liquid valves
- Molded cover has a removable cap for easy filling
- 5' Line Length

Tank Capacity	No. of Outlets	Order No.	Price
1 Gallon	1 Line	**NW5030548**	Price
1 Gallon	2 Line	**NW5030549**	Price

TRICO SprayMaster II® For NC/CNC Applications

MADE IN THE USA

- The premiere siphon system today
- Modern tooling techniques require that coolant be delivered to the cutting tool before it enters the workpiece
- Fast acting solenoids responds instantly to the command, and can easily be interfaced with NC/CNC controls for automatic operation
- Foot, remote or limit switch accessories are also available for ease of operation

Tank Capacity	Line Length	Line Material	Order No.	Price
1 Gallon	1-5'	Armored	**NW5030458**	Price
1 Gallon	2-5'	Armored	**NW5030459**	Price

TRICO MistMatic® Coolant System

MADE IN THE USA

- Allows for a wide range of coolant delivery
- Air only needed to operate pump
- HV-3100 control valve with 7" segmented plastic nozzle
- One or two outlet, brass armored lines
- Independently adjusted air and coolant allows for balancing coolant delivery
- Easy reading sight gauge
- Reservoir bracket for easy mounting directly to machining application

Tank Capacity	No. of Outlets	Line Length	Order No.	Price
1 Gallon	1 Line	5'	**NW5030600**	Price
1 Gallon	2 Line	5'	**NW5030601**	Price

LOC-LINE®

Modular Coolant Hose & Components 1/4" ID System

Designed to Mate with LOC-LINE Hoses & Accessories Only

- Loc-LINE® will stay in position without any spring back
- Since LOC-LINE® has a ball and socket design, bending doesn't decrease the inside diameter and won't kink like copper tubing. Also, there is no internal positioning rod that can break or restrict fluid flow
- Loc-LINE® is electrically non-conductive. It's ideal for use as an EDM flushing hose
- Loc-LINE® is designed for low pressure applications. The following maximum flow rates are recommended to avoid hose jetting 1/4" LOC-LINE® – 250 gallons/hour
- Hose Kit includes hose (approx. 13"), 1/8, 1/4" NPT connectors, 1/16, 1/8, 1/4" nozzles

LOC-LINE® Extended Elements & Clamps

Clamps Tighten over Socket to Reduce Mobility of Joints

Extended elements and clamps can be used together to run longer lengths of Loc-Line and resist dynamic motion at higher pressures

- Extended elements 3-1/2" Long
- Ball and sockets are interchangeable with standard Loc-Line parts
- Clamps tighten with Torx T-15 screwdriver

LOC-LINE® Circle Flow Nozzles

Adjustable Coolant Hose Systems- 1/4" & 1/2" ID

Circle Flow Nozzle Kit are assembled with (15) Side flow nozzles and (1) End cap allowing the user to completely encircle the cutter.

- Side flow nozzles can be added or subtracted to accommodate different diameter cutters
- Can be precisely aimed to help remove chips
- Can be shaped into a variety of configurations to accommodate specific applications

LOC-LINE Magnetic Base Manifolds

Create Custom Coolant Solutions

Magnetic manifolds allow distribution of coolant through 4 seperate opening from one source. Can be mounted on the spindle or work table for convienient access

Magnetic Base Manifold Super Kit

- 8 - 1/4" Segments
- 5 - 1/4" MNPT valves
- 2 - 1" Flare nozzle
- 2 - 1/4" Round nozzle
- 2 - 1/8" Round nozzle
- 2 - 1/16" Round nozzle
- 2 -1/4" Plug
- 1 - 1/4" Barb fitting
- 1 - Mag. base manifold

40463 Magnetic Manifold Kit

- 1 - Mag. base manifold
- 2 - 1/4" Segments
- 3 - 1/4" NPT plug
- 1 - 1/4" MNPT valve
- 1 - 1" Flare nozzle
- 1 - 1/4" Round nozzle
- 1 - 1/8" Round nozzle
- 1 - 1/16" Round nozzle
- 1 - 1/4" Barb fitting

40400 Magnetic Base Manifold

- 1 - Mag. base manifold
- 3 - 1/4" Plugs
- 1 - 1/4" Barb fitting

CEDARBERG Magna-Flow

Efficient Air/Liquid Flow Control that Delivers Air/Liquid Where it's Needed

Features:

- Two models available
- Fully assembled with 9″ hose lengths and 1/8″ nozzles
- Magnetic base (38 lb/pull) holds unit firmly in position
- Flow control valve allows convenient air/coolant adjustment near work
- Barbed connection easily adapts to regulated shop air or machine coolant pump
- Made of high quality non-corrosive materials

Benefits:

- Eliminates awkward hose support and adjustment
- Quick set-up, tear-down, and transfer to other machines
- Flexible hose can be easily directed
- Delivers air/coolant to those hard-to-reach places
- Extends tool life with precise coolant delivery
- Clears chips from work place for easier visual inspection
- Stays in position

Size	Order No.	Price
9" Double	**LV508525263**	Price
9" Single	**LV508525262**	Price

wiha MaxiFlex Coolant Hose System

- Non-conductive
- For low pressure coolant flow applications
- Won't kink, maintains even flow rates
- Now in single unit packs, buy only what you need!

Kool Mist Mist or Flood Coolants

- Safe for your people
- Safe for your materials
- Safe for the environment
- Safe for your machines
- **Formula 78:** For light duty. Is a chemical base mist coolant that dissolves in water to a clear solution. Can be used on any metal or alloy.
- **Formula 77:** For tougher service. Is highly recommended for mist cooling any metal or alloy where tougher machining condition requires greater lubricity.

UNIST Coolube® Lubricants

Coolube® 2210:
- USDA Certified Biobased Product
- Cutting fluid improves performance and increases life of cutting tools, taps, and saw blades
- Machining oil is good for metals, wood, rubber, and most plastics
- Especially effective on aluminum and other non-ferrous metals
- Great for wearpoint lubrication
- Extreme temperature environments (-20°F to 400°F)

Coolube® 2210AL:
- Provides specific benefits when machining aluminum
- Derived from natural vegetable oils, environmentally friendly and there are no VOC's
- Mild odor
- Clear appearance
- Insoluble water solubility
- >199°F (93°C) flash point

Coolube® 2210EP:
- Special formulation ideal for ferrous metals
- Works with all non-ferrous metals except copper
- Does not contain any ingredients currently recognized as hazardous by OSHA, IARC or NIP
- Formulated from cosmetic grade raw materials and is entirely worker and environmentally safe
- Improves performance and increases life of cutting tools, taps and saw blades
- Extreme temperature environments (-20°F to 400°F)

Description - Metal cutting oil and lubricant for metals, wood, rubber, and most plastics. 100% Natural vegetable based. Worker and environmentally safe.

Accu-Lube Applicators

- Eliminate Food Coolant with the Accu-Lube® Minimum Quantity Lubrication (MQL) System for Near Dry Machining
- The Accu-Lube® True MQL System utilizes a precision positive-displacement pump to apply micro amounts of organic-based lubricants directly to the cutting tool edge (completely eliminating mist or fog created by common spray mist systems)
- Provides superior tool life vs. flood coolants and mist systems
- Specialty nozzles are available for various machining/cutting applications.
- After market-service and replacement parts available

TRICO MD-1200 Micro-Drop® Dispensers

Features:
- Offers higher material removal rates, improved part finish, longer tool life and tighter dimensional tolerances
- Positive pressure design gives instant fluid delivery
- Nozzle design eliminates fogging for greater chip clearing, faster feeds & speeds
- Independent line adjustment allows for two operations at the same time
- Individual, high resolution, air and liquid controls offer flexibility
- Solenoid versions offer interface capability for CNC and other automated applications
- Relative liquid scale allows repeatable setups and saves time in adjusting flow rate

MQL Applicators

Minimum Quantity Lubrication(MQL) Systems for near dry machining. Systems use a precision positive displacement pump to apply minute amounts of vegetable/organic-based lubricants directly to the cutting tool or saw blade edge. Eliminate mist or fog from common spray mist systems while providing the best possible tool life. All applicators should use Unist Coolube lubricants only.

Coolubricator JR Single Point Portable Lubricator

- Continuous precision output
- Reduces fluid use and increases tool life
- Separate air and fluid control
- Includes 15' coaxial polyurethane hose and 16 oz. reservoir
- Lifetime pump warranty*

Zebra Skimmers Machinist's Mixer for Drums, Totes and Pails

MADE IN THE USA

- Perfectly mixed coolant ends emulsion guesswork
- Dispenses coolant at rate of 3 gallons per minute
- Check valve insures proper mixture, eliminating waste
- Separate water shut-off valve
- Machined from solid bronze casting
- Tamper resistant lockout available
- Maximum viscosity of 500 SUS
- 40" discharge tube included (max length for delivery)
- Recommended Installation: Water regulator for precise results every use
- No parts to lose
- **Comes with iron-clad Zebra Lifetime Guarantee**

Sidewinder™ Tube Skimmer – Skims Anywhere

MADE IN THE USA

- Installs in seconds
- Skims underneath conveyors, enclosed sumps, and hard-to-access areas
- Only requires 1/2” by 3” opening
- Industrial-grade skim tube uses ceramic scraper
- Large oil discharge port
- Fan-cooled continuous-duty motor
- Rated at 1 quart per hour
- **Two year warranty**

Type	Reach (in.)	Max. Temp.	Order No.	Price

Diverter™ Static Oil Separator

- Separates coolant clinging to disk, tube or belt, returning coolant to sump
- Saves up to $300 yearly in lost coolant costs
- Can be installed on most skimmers
- Rugged, heavy-duty, steel construction
- Discharge pipes and mounting hardware included

MADE IN THE USA

Order No.	Price
NY40BGST4	Price

Coolescer™ Coolant Refresher

- Removes floating surface oils
- Aerates and refreshes coolant
- Works while machine is running
- Coalescing media never needs to be replaced
- Floating pickup head handles fluctuating fluid levels effortlessly
- 1 Year warranty

MADE IN THE USA

Order No.	Price
NY45CLRB	Price

Economy Mixer

MADE IN THE USA

- 14 Metering tips included for concentrations of 1% to 20% (ratios 4:1 to 99:1)
- Maximum viscosity of 500 SUS
- 48” Discharge tube included
- Check valve for precise mixing
- Works on barrels or totes
- Capacity: 4.8 gallons per minute
- Weight 5 lbs
- 30 Day warranty

Order No.	Price
NY40MIX05120	Price

Aerators

MADE IN THE USA

- Quick set up
- Prevents anaerobic bacteria from building up and spreading
- Extends coolant life
- Puts an end to stagnant coolant
- Includes air diffuser to disperse air evenly

Sprayon Dry Moly Lube

New!

- EZ TOUCH® standard nozzle
- Penetrates pores of substrate and bonds to surface for long-lasting lubrication
- High-pressure, high-solids molybdenum disulfide coating
- Withstands pressures up to 50,000 PSI
- Non-conductive
- Air dries in 5-10 minutes; cures in 2 hours at room temperature
- Maintains effectiveness under high temperatures (650°F constant and 750°F intermittent)
- Works as a boundary lube as cold as -200°F

Order No.	Hazard Code	Price
LP4000200	9.55	Price

Stay & Spray Gel

New!

- 12x longer lasting lubrication
- Prevents rust for up to 1 year
- No drip, no mess
- Ideal for vertical surfaces
- HAZ08

Container Size	Hazard Code	Order No.	Price
10 oz	HAZ08	**LS50300103**	Price

White Lithium Multi-Purpose White Grease

- Rapidly forms into a pure white grease that will not melt or wash away
- PTFE additives for superior lubrication
- NGLI grade: number 2
- Provides maximum lubrication
- Rust and oxidation inhibitors protect metal
- Pure white color allows easy visual inspection
- Heat and water resistant

Size	Hazard Code	Order No.	Price
10 oz	HAZ03	**LJ6003816**	Price

White Lithium Grease

- Multi-purpose heavy duty lubricant that will not wash off, melt or freeze
- Grade 2 white lithium grease
- Excellent EP characteristics
- Provides tough, high viscosity film

MADE IN THE USA

Size	Hazard Code	Order No.	Price
10 oz	HAZ03	**LR5003080**	Price

Protective White Lithium Grease

- Long lasting, lubricating coating
- Won't freeze, melt or run off
- Rust inhibiting barrier
- Smart Straw for precise application
- 50 State VOC compliant

Size	Hazard Code	Order No.	Price
10 oz	HAZ08	**LS50300040**	Price

LUBRIPLATE

'The Original White Lubricant'

- General purpose white grease
- Used on milling machine heads

Size	Hazard Code	Order No.	Price
1.75 oz	HAZ57	**RL351183147**	Price

CIMCOOL CENTER SAVER

- Waterproof grease
- Designed as a lubricant for centers on lathes, grinders, hobbing machines, etc
- Also lubricates and waterproofs bearings, pumps, and tools

Size	Hazard Code	Order No.	Price
2 oz	HAZ08	**LL5100400**	Price

Moly-Graph® Extreme Pressure Multi-Purpose Lithium Grease

- Handles heavy loads, water attack and shock loads
- Contains rust and oxidation inhibitors and extreme pressure additives
- NLGI #2 Grease

MADE IN THE USA

Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LR50SL3330**	Price

Cut-Ease® Metal Cutting Lubricant

- For high speed sawing and cutting where circulating lubricants are not used
- Outstanding on band saws
- Provides smooth, cool-cutting for non-ferrous metals and plastics
- Won't stain aluminum
- Extends tool life, cleaner/faster cut
- Stops binding and prevents burring
- **Typical Applications:** Use Cut-Ease on metals, plastics and other materials involving sawing, grinding, spinning, tapping, drilling and milling

MADE IN THE USA

Size	Hazard Code	Order No.	Price
1 lb	HAZ57	**LK40CE16**	Price

Ashburn Wax Stick

- Effectively lubricates and removes heat
- Environmentally safe

Size	Order No.	Price
1 lb	**LK70E600111**	Price

High Temperature Grease

- High temperature lubrication (drop point 625°F)
- Outstanding performance under heavy mechanical loads
- Excellent corrosion protection

New!

Container Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LS50300394**	Price

Heavy-Duty Extreme Pressure Grease

- Extreme pressure lubrication
- Outstanding surface protection against heavy load and wear
- Excellent corrosion protection

New!

Container Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LS50300400**	Price

202 Moly-Lith

- Lithium based grease
- Contains micro-fine molybdenumdi sulfide (MoS2) particles to enhance carrying and low friction characteristics
- Highly adhesive, pumpable and stable
- Service rating: 0°F to 300°F

MADE IN THE USA

Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LM6533050**	Price

ThermaPlex® Multi-Purpose Bearing Grease

- Long life
- Excellent load carrying properties
- Extends re-lubrication periods
- Prolongs bearing life, good corrosion resistance
- Ideal for lubricating all types of bearings
- Reduces grease consumption

Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LJ6070614**	Price

Temp Guard Synthetic Grease

- Extreme high temperature grease
- Contains molybdenum disulfide and graphite for low friction and extreme pressure capabilities
- No petroleum based oils or additives
- Highly resistant to oxidation
- Service rating: 0°F to 600°F

MADE IN THE USA

Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LM6531850**	Price

Marine Grade Grease

New!

- Excellent water wash-out performance
- Outstanding rust and corrosion protection
- Maximum lubrication for extreme marine applications

Container Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LS50300417**	Price

Edge Lube

- White, solid, waxy bar, biodegradable
- Excellent for belt, wheel or disc grinding, and sawing applications
- Eliminates heat build-up and belt loading
- Does not contain any hazardous chemicals
- Extends grinding wheel life
- Low toxicity, safe on all metals

Size	Hazard Code	Order No.	Price
13 oz	HAZ57	**LJ6043200**	Price

Belt-Magic™ for Coated Abrasive Belts

- Special high-temperature formulation clings to abrasive belts, discs, and grinders with minimal throw-off
- Won't build up behind the wheel
- Provides smoother finish to workpiece and can increase belt life by 30%
- Apply 1 lb stick directly to abrasive surface
- Excellent for ferrous and non-ferrous applications
- Size: 1/2"D x 4-3/8"L

MADE IN THE USA

Size	Hazard Code	Order No.	Price
1 lb Stick	HAZ57	**LK40BT16**	Price

Stick-Kut™ Lubrication Stick Wax

- Safe and effective lubricant for grinding wheels, sanding belts and saw blades
- Eliminates heat build up and belt loading
- Extends wheel life
- Provides smooth, cool cutting
- Reduces loading, stop binding, and prevents burring

Size	Hazard Code	Order No.	Price
15 oz	HAZ57	**LJ5515SK**	Price

Stick Form Tap-Ease®

MADE IN THE USA

- Use like a crayon on taps and dies for smoother, faster cut while extending tool life
- Replaces liquid tapping fluids with undesirable chlorinated solvents and other VOC's
- Works on aluminum, brass, magnesium, ferrous and non-ferrous materials
- Won't stain the workpiece

Size	Order No.	Price
.43 oz	**LK40TA2**	Price

ISOFLEX NBU/NCA 15 Lubricating Greases

- The thickener system offers excellent resistance to coolants and high load carrying capabilities
- Isoflex NCA 15 is very similar to the Isoflex NBU 15 with the exception that it is formulated with a calcium complex thickener which may provide reduced run-in time
- Synthetic ester/mineral blend
- Service temp. range (°C): -40 to 130
- NLGI class: 2

Size	Thickener Type	Speed Factor nDm (mm/min)	Hazard Code	Order No.	Price

Mobilgrease Lubricating Grease XHP 222

NLGI Grade - 2

Thickener Type Li-Complex

An exteded service lithium complex grease intended for a wide variety of applications and severe operating conditions

- Superb resistance to water washout and spray-off
- Highly adhesive and cohesive structure
- Excellent rust and corrosion resistance
- Extended grease life and enhanced bearing protection in high temperature applications
- Very good anti-wear

Size	Hazard Code	Order No.	Price
13.7 oz	HAZ57	**LK45121929**	Price
35 lb	HAZ58	**LK45XHP22235**	Price

Superior Performance True Multi-Purpose Grease

- Long-lasting corrosion protection extends the life of your equipment
- Outperforms in all 3 features: temperature, pressure & water wash-out
- Compatible with WD-40 Specialist Lithium Complex greases
- Always refer to OEM when switching grease types

Container Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LS50300424**	Price

AP-5 Hi-Temp Multi-Purpose Grease

- Formulated from bentone clays
- Chemically and mechanically stable, water resistant, highly adhesive, and superior storage life
- Contains molybdenum disulfide and has a high film strength
- Service rating: 0°F to 550°F

MADE IN THE USA

Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LM6525050**	Price

CB-2 Super-Lith Multi-Purpose Grease

- Lithium based grease
- Offers resistance to the effects of heat, water, oxidation, and heavy loads
- Highly adhesive to metal
- Excellent as a chassis grease
- Service rating: 0°F to 300°F

MADE IN THE USA

Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LM6531050**	Price

Marine MP Multi-Purpose Grease

- Lithium soap grease for economy and performance
- Water resistant and highly tenacious
- Excellent resistance to salt spray, heat, water, and oxidation
- Service rating: 0°F to 325°F

MADE IN THE USA

Size	Hazard Code	Order No.	Price
14 oz	HAZ57	**LM6563050**	Price

CROWN All 4 Moisture Displacing Lubricant

- Displaces moisture
- Cleans and penetrates

Starrett All Purpose Lubricant

MADE IN THE USA

- **Penetrates —** Deep-down penetration works quickly to free frozen nuts, bolts and metal parts
- **Lubricates —** This product is free of any silicone, making it an excellent year-round lubricant
- **Prevents rust —** Protects metal against rust and corrosion damage by providing a molecular shield that locks to the metal
- **Cleans —** Removes grease and grime from metal parts.
- **Displaces moisture —** M1 is "wetter than water"; is not soluble in water so it can get under moisture to lift it away from the surface to be protected
- **Non-conductive —** Prevents short circuits in high moisture environments, halts electrical leakage from wet ignition wires

Legacy Workforce™ Mini Grease Gun

- Rigid and flexible extension
- 3 oz cartridge loading
- Die-cast head
- Chrome finish

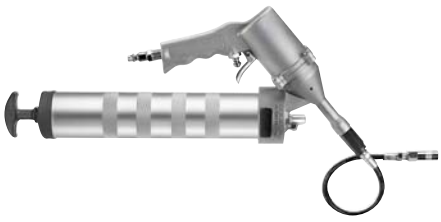
New!

Order No.	Price
LX55L1305	Price

Legacy Workforce Air Operated Grease Gun

- 12” Flexible extension and 6” rigid extension included
- Heavy duty die cast head construction
- 3-way loading: bulk, filler pump and cartridge
- Bleeder valve for purging unwanted air
- Durable follower rod and spring for consistant priming
- Positive-grip follower handle
- 4-jaw coupler for better grip and longer service life
- Non-slip knurled barrel

New!



Order No.	Price
LX55L1455	Price

Legacy Lock-n-Load™ Workforce-Pro Quick Connect Grease Gun

- Designed for heavy-duty service with high quality features that make it durable and easy to use
- **Lock-n-Load™ threadless quick connect barrel Automatic bleeder**
- **12” Flexible extension**
- **Heavy duty cast aluminum pump head**
- **Heavy gauge knurled steel barrel**
- **4-Jaw Coupler**
- **Ergonomic handle design**

Order No.	Price
LX55L1175L	Price

Legacy Lock-n-Load™ Mega Boost Quick Connect Grease Gun

Features threadless quick connect barrels that significantly reduces downtime when tightening and un-tightening conventional grease gun barrels. Never worry about crossing threads on your barrel again! Simply slide the Lock-n-Load™ switch to disengage or reconnect the barrel.

Reloading grease is TWICE as fast compared to the competition!

- **Delivers 10,000 PSI**
- **Dual mode switch**
- **Automatic bleeder**
- **Heavy duty cast aluminum pump head**
- **Heavy gauge knurled steel barrel**
- **High pressure super grip 4-jaw coupler**
  capable of bearing the high pressures that the MEGABOOST® produces

Order No.	Price
LX55L1185L	Price

Legacy 4-Jaw Grease Gun Couplers

- High pressure (10,000 PSI) grease couplers for manual and air operated equipment
- These couplers are equipped with ball check; 1/8” ends

Order No.	Price
LX55L2010	Price

Legacy Thermoplastic Grease Hoses

- High quality hose with 1/8” NPT male fittings at each end

Legacy Air Operated Grease System

Rugged reliability is built-in to every Performance™ series 55:1 ratio grease pump. Used in either mobile or stationary systems for grease distribution, these versatile high pressure grease pumps can handle all types of mineral and synthetic greases up to and including NLGI 2 directly form 35 lb. and 400 lb. grease containers. Performance™ series grease pumps are constructed using corrosion resistant parts including aluminum, alloy steel and nitride seals for longer life and trouble-free operation. Backed by outstanding service and a 5-year extended warranty, you can't buy more reliable efficient pumps!

Grease System for 35 lb Pail Includes:
L6005: Pump
DC5: Drum cover
DD5: Drum dolly
LCG1-01: Booster gun
GFP1: Follower plate
LH1414414: Grease hose

Grease System for 120 lb Pail Includes:
L6105: Pump
DC16: Drum cover
DD16: Drum dolly
LCG1-01: Booster gun
GFP2: Follower plate
LH1414414: Grease hose

Legacy Grease Products

LubeLink™ grease accessories are designed for general purpose, automotive and for heavy duty contractor lubricating jobs. Housed in a durable space-saving carrying case, LubeLink™ kits can be stored in the drawer of a tool chest. Each accessory has a dedicated compartment so the kit can be easily sight checked for missing accessories

General Purpose Grease Accessory Kit Includes:
L2206SP: 12" Steel braid rubber grease hose with spring guard and 4-jaw coupler
L2105: Hypodermic type grease injector needle with quick-connect coupler
L2140: 3" Straight needlepoint coupler
L2144: 90° 3" Straight needlepoint coupler
L2160: Right angle needlepoint coupler
L2162: Low profile right angle coupler
L2165: 8" Push-on type coupler

Automotive Grease Accessory Kit Includes:
L2206SP: 12" Steel braid rubber grease hose with spring guard and 4-jaw coupler
L2105: Hypodermic type grease injector needle with quick-connect coupler
L2140: 3" Straight needlepoint coupler
L2144: 90° 3" Straight needlepoint coupler
L2160: Right angle needlepoint coupler
L2162: Low profile right angle coupler
L2163: Tight tolerance right angle coupler
L2165: 8" Push-on type coupler

Lisle Offset Funnel

New!

With Cap and Lid

- 10" tall translucent funnel with a 6-3/4" offset from center of mouth to center of spout for hard-to-reach applications
- Useful for adding brake fluid to master cylinders, gear lube to differentials, fluid to DEF reservoirs and more
- Includes lid and spout cap to keep contaminant free
- Adapter for transmission and other dipstick tubes

Order No.	Price
KN6518232	Price

Lisle Right Angle Funnel

New!

- 10" tall translucent funnel with a 6-3/4" offset from center of mouth to center of spout for hard-to-reach applications
- Useful for adding brake fluid to master cylinders, adding gear lube to differentials, filling the DEF reservoir on GM Duramax diesels as well as other applications
- The funnel mouth is 3-1/2" OD and the spout is .7" OD

Order No.	Price
KN6517223	Price

Lisle 8 Qt. Dispenser with Lid and Cap

- 8 Quart dispenser with a spout cap and lid to keep out dirt, dust and other contaminants
- Many large trucks, cars and machines now require more oil
- Works great to transport bulk oil
- Translucent polyethylene material enables the user to read the oil level on the container up to 8 quarts and is marked in both quarts and liters
- Flexible, removable 8” pouring spout enables easy transfer of liquid

Order No.	Price
KN6519702	Price

TITAN Fluid Syringe

- For use with all types of fluids
- Transparent design allows viewing volume & fluid condition
- Detachable tube with cap disassembles for easy cleaning
- Corrosion resistant seals
- Units of measure: QT/CC
- Max capacity .21 QT/200 CC

Order No.	Price
KP8251884	Price

TITAN Vacuum Brake Fluid Bleeder

- 3/8” NPT
- Maximum capacity 1L (33oz)
- Working pressure 71-113 PSI
- Uses standard workshop air supply
- Universal rubber fitting holds securely on brake bleed screw
- Convenient hanging hook & locking trigger

Order No.	Price
KP8251885	Price

Red Devil Caulking Gun

- 1/10 Gallon, half barrel
- Holds most standard cartridges
- Use for simple application of glazing, sealants and caulks

Order No.	Price

TRICO "KG" Glass Gravity Feed Oilers

Designed for heavy-duty, high temperature lubricating applications. The oil feed rate is adjustable. A lock ring maintains the setting

- Three position toggle switch provides easy to use on-off control, and a flushing option to avoid dry start-ups
- Vented sight chamber ensures proper operation when used with tight or high speed bearings
- Copper brazing of all steel connections provides long life and leak-proof design
- Nickel plating offers superior corrosion resistance
- Oil sight for visual indication of oil flow

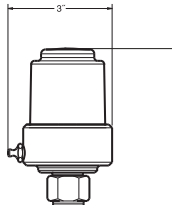
TRICO Grease Lubricators

Applications:
These spring type lubricators control and dispense grease automatically, to take the guesswork out of manual lubrication, and extend bearing life

GL-P Features:
- Anodized aluminum base resists corrosion and works well in high vibration applications
- Clear, polycarbonate reservoir for easy viewing of grease level
- Supplied with 3 different spring sizes for maximum versatility



Style - GL-P Grease Lubricators

CROWN Dry Moly Lubricant

- Use for most demanding conditions
- Performs at pressures up to 100,000 PSI and temperatures up to 700°F
- Forms a dry thin black film imparting anti-friction and anti-seize properties

Size		Order No.	Price
11.6 oz	HAZ03	**LP506080**	Price

JET-LUBE Moly Mist™ Dry Film Lubricant

- Instantly bonds dry form Molybdenum DiSulfide (MoS2) to ferrous and non-ferrous metals, plastics, glass, rubber, wood, etc. without heating or baking
- Lowers friction, prevents galling and metal to metal contact
- Excellent "running-in" lubricant on new equipment
- Color: black

LPS 2® Heavy Duty Lubricant

- Strong, multi-purpose lubricant and penetrant with added corrosion protection
- Provides a nondrying, light, oily film for use on indoor/outdoor equipment
- Reduces wear caused by friction and corrosion
- Displaces moisture
- Loosens rusted or frozen parts
- Provides up to one year of protection
- Non-conductive
- Safe on paint and most plastics
- Inverta spray valve lets you spray in an upright or inverted position
- NSF® H2 registered

WD-40

Will Not Harm Paint, Plastics, Rubber or Fabrics. Does Not Contain Silicones or Chlorofluorocarbons

MADE IN THE USA

Lubricates—WD-40 will not oxidize and cause delicate mechanisms to gum as will normal lubricants. **Penetrates**—WD-40 is used to free binding and corrosion frozen parts. **Displaces moisture** —WD-40 displaces moisture and has a "drying out" effect. **Prevents rust/corrosion** —WD-40 stops rust and corrosion. It deposits its inhibitors within the metal. Light rust and corrosion can be wiped off within minutes after application

HANGSTERFER'S Way Oil #2

New!

- Superior slideway adherence, stick-slip friction characteristics and complete water-soluble coolant separation
- Formulated with high quality additives, resulting in products that meet or exceed international specifications established for slideway oils
- Meets the International Standards Organization (ISO) viscosity requirements for machine lubricants

Size	Hazard Code	Order No.	Price
1 Gallon	HAZ57	**NH101436**	Price
5 Gallon	HAZ58	**NH101435**	Price
55 Gallon	HAZ06	**NH101434**	Price

ASHBURN CHEMICAL TECHNOLOGIES Premium Way Oils ASHBURN WAY OILS 68/220

- Way Oil 68 is designed for use when a medium viscosity slideway lubricant is required
- Way Oil 220 is designed for slideways that specify a heavy viscosity slideway lubricant

MADE IN THE USA

Type - Way Oil 220

Mobil Vactra Numbered Series 2 & 4 Way Oil

- Helps eliminate chatter and stick-slip of slides and ways
- Improves finish and quality of parts
- Helps reduce wear and keeps sliding surfaces smooth, lubricated and clean
- Mobil Vactra Oil No. 2 is recommended for horizontal slideways on small to medium size machine tools. It is also suitable for flood application in large machines
- Mobil Vactra Oil No. 4 is the normal recommendation for large machines where way pressures are high or good precision is required. It is also recommended for vertical and inclined slideways where drain-down cohesion can be a problem

Type - Vactra No. 2 Way Oil

HARIG Way Lubricant

- Assures free & smooth table operation of any surface grinder. Recommended for Harig grinders and other fine surface grinders

MADE IN THE USA

Size	Hazard Code	Order No.	Price
1 Gallon	HAZ57	**RB4016211245**	Price

CROWN Rust Inhibitor

- Contains fortified lanolin for moisture absorption
- Penetrates deep, absorbs moisture and neutralizes corrosive acids
- Waxy, elastic film removes easily with any paint solvent

Size	Hazard Code	Order No.	Price
11 oz	HAZ03	**LP506007**	Price

3-IN-ONE® 3-IN-ONE®

- Five-inch extendable spout,
- Gets at hard-to-reach places
- Small mechanisms
- Hinges
- Any hard-to-reach area

Size	Hazard Code	Order No.	Price
4 oz	HAZ57	**LS5010034**	Price

WD-40 SPECIALIST Rust Release Penetrant

- Advanced formula penetrates quickly to free rusted bolts and loosen stuck parts
- Fast acting, low-odor formula
- Also great for removing grease and grime
- Directed aerosol stream helps penetrate quickly and break up rust
- Professional high-performance formula

Size	Hazard Code	Order No.	Price
11 oz	HAZ57	**LS50300004**	Price

WD-40 SPECIALIST Rust Remover Soak

- Highly effective and non-hazardous formula
- No fumes, biodegradable, non-corrosive, non-flammable
- WD-40 Specialist technology uses no acids
- Only attacks the rust - Surrounding surface areas are left intact
- Won't remove paint or damage plastic or rubber

Size	Hazard Code	Order No.	Price
1 Gallon	HAZ57	**LS50300042**	Price

ASHBURN CHEMICAL TECHNOLOGIES Metal Protective Coating TACKY FINISH

MADE IN THE USA

- Prevents rust & corrosion
- For all metallic surfaces
- Self-healing tacky finish
- Fast drying solvent based coating and rust preventative
- May be easily removed with solvents
- Ready to use product for use on pipes, metal parts, equipment and machinery
- Excellent for short or long term storage and for general protection of metallic surfaces

Size	Hazard Code	Order No.	Price
5 Gallon	HAZ05	**LK70M27115**	Price

CROWN Formula 101 Corrosion Suppressant

- Petroleum based with excellent chemical resistance
- Penetrates surface and forms transparent film that lasts until you want it removed

Size	Hazard Code	Order No.	Price
10.5 oz	HAZ03	**LP506013**	Price

JET-LUBE RUST GUARD™ Corrosion Inhibitor

- Dry, waxy film seals out moisture for long term protection from rust and corrosion on metal and alloy surfaces
- Excellent on tubing, machined parts and a multitude of industrial, marine, and aviation applications
- Color: blue/green

MADE IN THE USA

Size	Hazard Code	Order No.	Price
11 oz	HAZ03	**LM6513241**	Price
1 Gallon	HAZ57	**LM6513233**	Price

CROWN Tool and Die Saver

- Protects stored tools and dies from moisture during storage
- Heavy, non-oily film is easy to remove when equipment is returned to service
- Ideal for long term storage or long distance shipments

Size	Hazard Code	Order No.	Price
11 oz	HAZ03	**LP503090**	Price

CROWN Kleer Kote

- Crystal clear acrylic protects and waterproofs
- Provides lasting protection against wear, handling, and oxidation
- Prevents bleaching or fading from sunlight as well as tarnishing

Size	Hazard Code	Order No.	Price
15 oz	HAZ03	**LP506004**	Price

Starrett Tool & Instrument Oil

- Maximum protection and lubrication of measuring tools, precision instruments and light machinery
- Guard highly finished tools, parts, machine surfaces against rust

Size	Hazard Code	Order No.	Price
4 oz	HAZ57	**MV7053216**	Price

ASHBURN CHEMICAL TECHNOLOGIES RPL #2 Dry Film Rust Preventative

- Dry film residue
- Superior rust prevention
- Water displacing
- Evaporative, water displacing and non-staining rust preventative that leaves behind a relatively dry film
- Will provide short-term outdoor rust protection and intermediate-term salt spray rust protection

MADE IN THE USA

Size	Hazard Code	Order No.	Price

CIMCOOL FLUID TECHNOLOGY CIMGUARD® 10

- General purpose solvent based corrosion preventive
- Can be applied to wet or dry parts
- Neutralizes fingerprint residues and protects ferrous and non-ferrous materials from corrosion

MADE IN THE USA

Size	Haz Code	Order No.	Price
9 oz	HAZ03	**LL5100302**	Price
5 Gallon	HAZ58	**LL5100400P**	Price

PB B'laster

- Breaks free rusted joints and frozen parts by removing surface tension
- Powerful penetrating catalyst
- Non-evaporating lubricant
- Protects against further rust and corrosion

Size	Hazard Code	Order No.	Price
12 oz	HAZ03	**LR71IPB16**	Price
1 Gallon	HAZ05	**LR71128PB**	Price
16 oz Empty Spray Bottle	HAZ03	**LR7116PB**	Price

KB-88 The Ultimate Penetrant

- The world's best penetrant
- Formulated to attack and quickly release rusted and corroded nuts, bolts, hinges and other frozen components
- High KB solvency value of 151 and low surface tension
- Penetrates faster and deeper than most other similar products in the market place
- Meets many local, state and federal VOC regulations such as CARB keeping the cusomter within VOC regulatory guidelines

Size	Hazard Code	Order No.	Price
13 oz	HAZ03	**LJ6002316**	Price
1 Gallon	HAZ57	**LJ6002301**	Price

Extreme Duty Silicone

- High temperature, high pressure lubricant
- Effective on all metallic and non-metallic surfaces
- High grade release and parting agent
- Clear, non-staining odorless film

MADE IN THE USA

Size	Hazard Code	Order No.	Price
10 oz	HAZ03	**LR5003030**	Price

606® Rust Inhibitor Fluid

- Penetrates into hard to reach nooks and crannies aborbing water and moisture
- Easy application by dipping or brushing
- Non-conductive and non-flammable
- Can be used on wet-parts with blind holes
- Clear-transparent film provides long-term indoor rust

Size	Temperature Range	Hazard Code	Order No.	Price
12 oz	Neg 156°F (FlashPoint)	HAZ03	**LK6071102**	Price

Brite Galvanize Coating

- A restorative coating fortified with zinc for preventing rust and corrosion on ferrous metal surfaces with one coat application
- A glistening coating with 65% pure zinc in dry film
- Stops rust and corrosion on any iron or steel surface for protection equal to or better than hot dipped galvanizing
- Restores galvanized surfaces to the bright look of hot dipped galvanizing
- Meets performance requirements of ASTM A-780
- Good film integrity after 336 hours salt spray (ASTM B-117)
- **Applications:** repair of welds, handrails, rims, guardrails, metal chain fences, pipes, corrugated metal building, or anywhere the bright look of hot-dipped surfaces is desired

Size	Hazard Code	Order No.	Price
13 oz	HAZ03	**LP507707**	Price

LST Penetrant

- Attacks rust and corrosion to free frozen parts
- Powerful foaming action provides complete surface coverage
- Displaces moisture
- Lubricates and protects metal surfaces
- Flash point of 175°F (79°C)
- No chlorinated solvents

Size	Hazard Code	Order No.	Price
11 oz	HAZ03	**LJ6001916**	Price

Knock'er Loose® Penetrating Solvent

- NSF® H2 registered for use in meat and poultry plants
- Specially formulated to dissolve rust, varnish, gum and corrosion
- Loosens rusted and corroded nuts, bolts and frozen components
- Lubricating residue prevents corrosion
- VOC compliant

MADE IN THE USA

JET-LUBE WHITE KNIGHT™ Anti-Seize

- Metal free, USDA H-1 authorize food grade anti-seize

MADE IN THE USA

Size	Hazard Code	Order No.	Price
1 lb Brush Top	HAZ57	**LM6516404**	Price

LOCTITE Heavy Duty Anti-Seize

- Excellent lubricity
- Metal-free formulation provides outstanding lubrication to all metals including stainless steel, aluminum and soft metals up to 2400°F

Size	Hazard Code	Order No.	Price
1 lb 2 oz Brush Top	HAZ57	**LM5051606**	Price

LOCTITE Food Grade Anti-Seize

- Metal-free formulation to protect assemblies exposed directly or indirectly to fresh and salt water
- Works especially well in high humidity conditions
- Excellent lubricity, superior water wash-out and water resistance
- Prevents seizure, galling, and friction in stainless steel and other metal parts up to 750°F (400°C)
- NSF H1 approved for incidental food contact

Size	Hazard Code	Order No.	Price
8 oz Brush Top	HAZ57	**LM5051168**	Price

LOCTITE Nickel Anti-Seize Thread Compound

- Nickel content stays intact up to 2400°F
- Recommended for use on stainless steel

Size	Hazard Code	Order No.	Price
1 lb Brush Top	HAZ57	**LM5077164**	Price

LOCTITE Silver Grade Anti-Seize

- Heavy-duty, temperature-resistant, petroleum-based compound fortified with graphite, metallic flake
- Will not evaporate or harden – even under extreme heat or cold conditions – for use in assemblies up to 1600°F
- 767 Loc-Tite equivalent

Size	Hazard Code	Order No.	Price
4 oz Brush Top	HAZ57	**LM5080209**	Price
1 lb Brush Top	HAZ57	**LM5076764**	Price

LPS All-Purpose Anti-Seize

- Prevents seizure up to 1800°F (982°C)
- Moly fortified and lead free
- Protects against seizure, heat-freeze, galling, rust and corrosion
- Lowers friction; reduces wrench torque
- Reduces maintenance costs
- Not affected by contraction, expansion or vibration
- Will not run, drip or settle out, steel blue color

Size	Hazard Code	Order No.	Price
8 oz	HAZ57	**LJ6004108**	Price

CRC Nickel Anti-Seize

- Sta-Lube Nickel Anti-Seize is a nickel based formula that is free of copper, lead, sulfides and chlorides
- This premium quality lubricant has extremely high temperature resistivity and excellent chemical resistance
- Applications: catalyst beds, reaction chambers, special alloy fittings
- May be used on fittings, bushings, flanges, headers, nuts, screws, studs, threaded surfaces, pipes, plugs, and manifolds to prevent seizing and galling of surfaces

Size	Hazard Code	Order No.	Price
8 oz Brush Top	HAZ57	**LR50SL35911**	Price
16 oz Brush Top	HAZ57	**LR50SL35913**	Price

HDX Heavy Duty Degreaser

- Removes oil, grease, wax, dirt, moisture, tar, brake fluid, and other contaminants
- Nonflammable
- Fast evaporating
- Low odor
- Quick penetration
- No residue, non-conductive
- NSF® K1 registered

Size		Order No.	Price
19 oz	HAZ08	**LJ6001020**	Price

Instant Super Degreaser

- Heavy-duty performance
- Power blast spray
- Nonflammable
- Removes oil, greases, dirt and tar
- Non-chlorinated, non-conductive
- Fast evaporating
- No residue, no rinsing
- Safe on all metals
- NSF® C1 registered
- Canadian Food Inspection Agency (CFIA) approved

Size		Order No.	Price
20 oz	HAZ03	**LJ6000720**	Price

PreSolve® Orange Degreaser

- High performance industrial cleaner that cleans on contact
- Ideal for removing grease, tar, oil and adhesives
- Fast acting , deep penetration
- Natural based
- Does not contain chlorinated solvents
- Flash point above 100°F (38°C)
- Non-conductive
- Low residue
- Safe on all metals and most plastics
- Inverta spray valve lets you spray in an upright or inverted position (15 oz)
- NSF® C1 registered

Size		Order No.	Price

1 Gallon	HAZ05	**LJ6001428**	Price

Zero Tri® Heavy Duty Degreaser

- Fast evaporating
- Instant degreasing action
- Safe to use on most surfaces
- Ideal for degreasing metals
- Does not contain chlorinated solvents
- No residue
- Inverta spray valve lets you spray at any angle

Size		Order No.	Price
15 oz	HAZ03	**LJ6003520**	Price

Precision Clean Multi-Purpose Cleaner/Degreaser

- Water-based and biodegradable
- Removes tough, stubborn stains and soils such as grease and oil
- Nonflammable, rinses clean
- pH Concentrate = 13
- pH Ready-to-Use = 12.5
- Does not contain chlorinated or petroleum solvents, bleach, ammonia, abrasives or butyl
- Alkaline formula inhibits flash rusting
- Safe on all surfaces except magnesium
- NSF® C1 registered

Size		Order No.	Price
28 oz	HAZ57	**LJ6002728**	Price
1 Gallon	HAZ57	**LJ6002701**	Price

CRC T-Force® Degreaser

- Non-conductive, non-corrosive, non-staining and has no flash point
- Revolutionary formula –does not contain TCE, Perc, or nPB
- Reduced VOC formula
- Fast evaporating, leaves no residue
- High dielectric strength of 39,000 volts
- Contains No Class I or Class II ozone depleting chemicals
- NSF® K1 registered
- Not for use in California, Delaware, New Hampshire or parts of Utah

Size	Order No.	Price
20 oz	**LR5003115**	Price

CRC Hydro Force® 20 oz. Super Citrus™ Degreaser

MADE IN THE USA

- NSF® C1 registered
- For solvent strength cleaning and degreasing
- Wipes off easily and leaves no residue
- Pleasant citrus scent

Size	Order No.	Price
20 oz	**LR5014440**	Price

CRC Heavy Duty Degreaser II

MADE IN THE USA

- Non-chlorinated degreaser
- High flash point and non-ozone depleting
- Controlled evaporation for enhanced cleaning
- Use caution on plastics

Size	Order No.	Price
20 oz	**LR5003120**	Price

Ashburn Enviro-Green EXTREME Degreaser Concentrated

MADE IN THE USA

- Heavy duty cleaner and degreaser
- Good replacement for petroleum solvents
- Excellent for use in automatic parts washers, pressure washing, and immersion cleaning operations
- Contains corrosion inhibitors to provide in-process rust protection

Size		Order No.	Price

CRC Citrus Degreaser

MADE IN THE USA

- New low VOC formula
- Removes grease, oil and lubricants with no water wash-off
- Controlled evaporation and leaves no residue
- Pleasant citrus scent
- NSF C1 registered
- For use on air tools, mechanical brakes, clutches, chains, wire ropes, motors, dies, molds, parts, bearings, generators & compressors

Size	Hazard Code	Order No.	Price
20 oz	HAZ03	**LR5014170**	Price

CRC Food Grade Silicone

MADE IN THE USA

- Multi-purpose silicone spray for food processing and handling applications
- Forms a colorless, odorless, non-staining film
- Eliminates binding and sticking in most metal to non-metal applications
- Meets FDA Regulation CFR 21-178.3570. NSF H1 Registered

Size	Hazard Code	Order No.	Price
16 oz	HAZ03	**LR5003040**	Price

CRC Super-Soy™ Degreaser

- A non-flammable, low odor, biodegradable precision cleaner for use in electrical and industrial applications
- Effectively removes dirt, light oils and other contaminants from electrical and electronic equipment
- Formulated with soybean and corn based solvents, which are renewable resources

MADE IN THE USA

Size	Hazard Code	Order No.	Price
15 oz	**HAZ03**	**LR5003135**	Price

LOCTITE® ODC-Free Cleaner & Degreaser

- Excellent cleaning performance
- No ozone depleting compounds
- Pleasant citrus scent
- Nonflammable, no residue
- 1-2 minutes evaporation rate (when wiped)
- Compatible with most plastics and metals

Size	Hazard Code	Order No.	Price
15 oz	HAZ03	**LM5022355**	Price

CROWN Safety Solvent Degreaser

- Dissolves grease fast, leaves surfaces clean and dry
- Contains no CFC's or Class I or II O.D.C.'s
- Eliminates lubrication build up
- Evaporates quickly and leaves no powdery or oily residues

AEROVOE

Size	Hazard Code	Order No.	Price

CROWN Dry Film Lubricant

- Industrial strength dry PTFE lubricant that is ideal whenever silicone products are not accessible, and higher temperatures or pressure performance is required
- Durable up to 500°F (260°C) for extended periods
- Will not interfere with post-finishing operations
- Reduces clean-up labor time
- Unique, dry lubricating qualities; will not collect dust
- For use in manufacturing facilities
- **Applications:** rubber, wood, metals, glass; any situation where reduced friction and drag is desired. Do not use on electrical equipment or machinery while in operation

Ashburn Electronic Contact & Equipment Cleaner Aerosol

- A highly effective blend of solvents that is fast drying, non-conductive, and safe to use on plastics, rubber and metal
- Does not contain CFC's or HCFC's and is ozone safe
- Use to remove dirt, grease, oil and grime from electric motors, electrical equipment, circuit boards, computers, magnetic tapes, printed circuits, gauges, switches and relays

MADE IN THE USA

Size	Hazard Code	Order No.	Price
14 oz	HAZ03	**LK70M05140**	Price

Ashburn Cleaner and Degreaser Non-Flammable Aerosol

- A highly concentrated solvent desgined to remove grease, oil, dirt and grime form metallic and non-metallic surfaces
- Non-flammable and non-conductive
- For use on machinery and equipment of all types, including electric motors even while running, electronic equipment, ignition systems, generators, power tools etc

Size	Hazard Code	Order No.	Price
16 oz	HAZ08	**LK70M05120**	Price

CRC Contact Cleaner 2000®

- Effective alternative to 141b-based cleaners when sensitive plastics are not a concern
- Evaporates quickly, leaves no residue
- Has no flash or fire point and contains no Class I or Class II ozone depleting chemicals
- Can be used on contacts, metal switches, motors, relays, generators, edge connectors, buss bars, circuit breakers, scales & sensors
- Not recommended for use on LEXAN®, Noryl®, or polycarbonate-type plastics

MADE IN THE USA

Size	Order No.	Price
16 oz	**LR5003150**	Price

CRC Graffiti Remover

- Removes spray paints, marking inks, crayons, scuff marks, lipstick, lacquers, and varnish
- Contains no methylene chloride
- For use on brick and concrete walls, road signs, trucks, trains, buses, bus stops, seats, desks, lockers, counters, light posts, bathroom partitions, etc

MADE IN THE USA

Size	Hazard Code	Order No.	Price
16 oz	HAZ03	**LR5003194**	Price

Crown Anti Vandal Spray

AEROVOE

- Clear spray blend of solvents that removes lipstick, pencil, ink, crayon, and spray paint from a variety of hard surfaces
- Safe for use on most hard, unpainted surfaces, including concrete, brick, wood, fiberglass, ceramic tile, Formica, and some plastics
- Eliminates the need to sandblast and grind marks off concrete and brick surfaces

Size		Order No.	Price
14 oz	HAZ03	**LP505062**	Price

Crown All Purpose Cleaner

- Water and ammonia based cleaner
- Provides a low foaming action cleaner for breaking up grime
- Cuts through grease
- Cleans and polishes
- Excellent on granite surfaces
- **Applications**: for hard to clean spots on wood, metal, tile, procelain, plastic and chrome

Size	Hazard Code	Order No.	Price
15 oz	HAZ03	**LP505055**	Price

CROWN Glass and Surface Cleaner

- Fast working - cuts through dirt, grease and grime
- Cleans all glass and baked enamel objects
- Non-streaking
- Retards fog, contains no ammonia

AEROVOE

Master Fluid Solutions STAGES™ Whamex ™

Machine Tool Sump and System Cleaner

- Quickly breaks down and lifts off insoluble scum deposits hidden in lines and difficult to reach
- Very hard water tolerant allowing it to be effective in raw water or used coolant
- Compatible with most waste treatment (including ultrafiltration) and will not degrade when used as directed
- Will remove heavy soils from machines without affecting paints, coatings, seals, hoses, or skirting, and it won't leave a slippery residue
- Short-term corrosion inhibitors prevent flash rusting of machine surfaces and ways

New!

LOCTITE® Threadlockers

- Prevents loosening from shock and vibration
- Seals threads
- Stops rust and corrosion
- **222™** Low strength, for small fasteners and components requiring occasional adjustments.
- **242™** Medium strength, for fasteners 1/4" to 3/4". Has controlled lubricity for accurate clamp loads. parts can be removed using a hand tool.
- **243™** Medium strength that is primerless, no need to pre-clean or prime before use. 1/4" thru 3/4"
- **248™** Medium strength same as 242™ but comes in Stick form.
- **262™** Med to high strength a permanent applied threadlocker for fasteners up to 3/4". Excellent where fasteners are exposed to chemicals. Heat and hand tool needed to separate parts.
- **263™** High strength that is primerless, no need to pre-clean or prime most fasteners before use. For fasteners up to 1"
- **277™** High strength for permanent locking and sealing of fasteners.
- **290™** High strength a low viscosity threadlocker for pre-assembled bolts up to 1/2" to secure them in place. Penetrates threads by capillary action. Seals welds and porous metal parts.
- **640™** High strength to secure slip and press fit assemblies.
- **680™** High viscosity retaining compound for joining fitted cylindrical pa rts.
- **2760™** High strength fast cure threadlocker that sets up quick, eliminating the need for primers; develops usual strength within 1 hour. Used for heavy-duty projects.

LOCTITE® Thread Sealants

- Prevents leaks, corrosion and galling in threads
- Seals and secures metal pipes and fittings.
- **540™** Thixotropic sealant
- **545™** Hydraulic/pneumatic fitting sealant that contains no fillers or particles that could contaminate systems. Suitable for fittings up to 2”
- **561™** Low pressure sealing in a semisolid stick formula, perfect for overhead applications.
- **565™** Controlled strength sealer that cures rapidly so as to provide immediate low pressure sealing.

LOCTITE® Retaining Compound

- Increases the shear strength of cylindrical non-threaded assemblies.
- An industry standard for assembling press and slip-fitted parts.
- **609™** Press fit general purpose compound that is designed to bond gap distance Up to .005”
- **660™** Quick Metal® retaining creamy non-running gel that is used onto cylindrical parts to fill surface imperfections and repair worn areas
- **668™** QuickStix® high temperature compound in a semisolid formula. No mess application, ideal for gaps up to .005”. Withstands temperatures up to 400°F.

4 oz Stick	**LM5098853**	Price

The World's Finest Cold Weld Compound

- J-B Weld contains a specific mixture of fine steel in a liquid base
- Super strength chemical used for a carrier and activator that causes the super hard finish after the curing process
- J-B Weld etches other materials that helps the metalizing process to bond tighter and adhere forever
- This etching allows J-B Weld to co-mingle with other materials causing a near perfect weld
- Many machine shops use J-B Weld for repairing cracked motor blocks and other castings, because of its tougher qualities and it will not shrink and is not affected by gasoline, oil, water and most other chemicals
- Now available in shop size

Size	Order No.	Price
Two (2) 1 oz Tube	**LM508265S**	Price
Two (2) 5 oz Tube	**LM508280**	Price

ClearWeld™ Syringe

- Quick setting multi-purpose two part epoxy
- Provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood and metals
- Designed to cure with a clear, transparent bond when used in thicknesses of less than 15 mil
- 1:1 Mixing ratio, sets in 5 minutes and cures in 1 hour
- Tensile strength of 4400 PSI

New!

Order No.	Price
LM5050112	Price

PlasticBonder™ Syringes

- Quick-setting two-part urethane adhesive system that provides strong and lasting repairs and works on thermoset carbon fiber composites, thermoplastics, coated metals, concrete & more
- 1:1 Mixing ratio, sets in 15 minutes and can be sanded after 30 minutes
- Tensile strength of 3770 PSI
- Choice of tan or black

New!

MarineWeld™ Twin Tube

- Specially formulated two-part Cold-Weld™ system that provides strong lasting repairs for bonding different or similar surfaces such as aluminum, metal, composites, fiberglass and others
- Sets in 4-6 hours at room temperature
- At full cure (15-24 hours), color is dark grey, it may be then shaped, tapped, filed, sanded and drilled retaining full strength above or below the water's surface
- 1:1 Mixing ratio
- Tensile strength of 3960 PSI

New!

Order No.	Price
LM508272	Price

PlasticWeld™ Syringe

- Specially formulated two-part adhesive and epoxy filler system thae provides for strong, long-lasting repairs
- Will bond a variety of surfaces, such as metal, composites, fiberglass and others
- Sets in 5 minutes at room temperature and is fully cured in one hour
- Using a 1:1 mixing ratio, PlasticWeld combines tp a tensile strength of 3200 PSI and cures to an off-white color

New!

Order No.	Price
LM5050132	Price

WaterWeld™ Epoxy Putty

- Will plug or seal leaks and patch holes and cracks in almost anything
- Ideal for repairing plumbing, fuel tanks, pools, spas and potable water tanks, setup occurs even under water
- After curing, it can be drilled tapped, filed, sanded and painted
- Set time of 15 to 25 minutes and sets hard in 1 hour
- Cures to off-white color
- Tensile strength of 900 PSI and will withstand temperatures up to 300°F

New!

Order No.	Price
LM508277	Price

KwikWeld™ Syringe

- Fast setting version of the Original J-B Weld two-part epoxy Cold-Weld™ system that provides strong lasting repairs to metal and multiple other surface tyoes
- Sets in 6 minutes, fully cured in 4-6 hours
- Cures to a dark grey color
- Tensile strength of 2424 PSI
- Can withstand temperatures up to 300°F

Lens Color Chart

Lens Color	Used for these applications	Lens Color	Used for these applications
3.0 IR Filter	For welding sites, light brazing or cutting.	Green Filter	Torch Soldering
5.0 IR Filter	For welding sites, medium to heavy cutting or gas welding.	Indoor/Outdoor Mirror	Back and forth inside and outside use, frequently used by forklift drivers.
Amber	Indoor, low light applications. Enhances contrast.	Mirror	Commonly used in construction or outdoors where sunlight and glare cause eyestrain and fatigue.
Blue	Indoor where there is an excessive amount of yellow or sodium vapor light. Offers a high level of contrast.	Mirror Blue	Gray polycarbonate lens with blue mirror coating. Reduces glare used in outdoor applications.
Blue Infinity	Indoor where there is an excessive amount of yellow or sodium vapor light. Offers a high level of contrast.	Mirror Ice blue	Gray polycarbonate lens with a double layer of silver and blue mirror coatings. Commonly used in outdoor applications.
Blue Light	Reduces glare from artificial light such as halogen and fluorescent.	Mirror Silver	Commonly used in construction or outdoors where sunlight and glare cause eyestrain and fatigue.
Bronze Sandstone	Definition and contrast increased, enhanced ground level contours in most settings.	Polarized Espresso	Reduction of reflected light, enhances contrast and depth perception, minimizes eye fatigue.
Clear	General purpose for indoor applications that require impact protection.	Polarized Mirror Blue	Reduction of reflected light, enhances contrast and depth perception, minimizes eye fatigue.
Clear Anti-Fog	Anti-fogging lens allows a majority of light to pass through the lens while not distorting the visible color spectrum.	Polarized Mirror Fire	Gray polycarbonate lens with a double layer of silver and red mirror coatings. Commonly used in outdoor applications.
CSP	Indoor/Outdoor with platinum® coating for fog protection	Polarized Grey	Commonly used in outdoor applications. Contains a special filter that blocks intense reflected light, reducing glare and eye fatigue.
Espresso	Commonly used in construction or outdoors where sunlight and glare cause eyestrain and fatigue.	Polarized Smoke	Commonly used in outdoor applications. Contains a special filter that blocks intense reflected light, reducing glare and eye fatigue.
ESP	Indoor/Outdoor mirror	Smoke	Commonly used in construction or outdoors where sunlight and glare cause eyestrain and fatigue.
Gray	Commonly used in outdoor applications. Offers protection from excessive glare.	Yellow	Excellent for maximum contrast enhancement, particularly in low light situations.

- Valve: 1/2" IPS plug-type valve with PTFE coated O-ring seals. Swinging head assembly from storage to operational position opens orifice and activates water flow. Unit remains in operation until head assembly is returned to storage position.
- Strainer: Unit is furnished with in-line strainer to protect valve and spray heads from debris in water line.
- Mounting: Unit is mounted on right side of sink. Furnished with mounting shank, positioning lugs, locknut and washer for securing unit to counter.
- Construction: Polished chrome plated brass.

New!

- Supply: 1/2" NPT female inlet.
- Quality Assurance: Furnished with ANSI-compliant identification sign. Unit is completely assembled and water tested prior to shipment.

Guardian Faucet Mounted Unit

- **Application:** Eye Safe™ faucet-mount eye washes convert any faucet into an emergency eye wash station without interfering with normal faucet operation
- **Outlet Heads:** Angle of heads is adjustable to permit full coverage & avoid splashing
- **Valve:** Forged brass diverter valve. Pull knob to activate eye wash; water pressure holds eye wash operation, leaving user's hands free
- **Outlet:** Furnished with removable aerator on bottom

Guardian Wall Mounted Eyewash

With Drench Hose

New!

- Spray Head Assembly: Two GS-Plus™ spray heads mounted side-by-side. Each head has a "flip top" dust cover, internal flow control and filter to remove impurities from the water flow.
- Valve: Forged brass squeeze valve activated by stainless steel lever handle. Valve has replaceable stainless steel seat for exceptional durability. Locking clip engages when handle is depressed, providing "hands free" operation. Valve stays open until locking clip is released.
- Hose: 8' reinforced PVC hose. 275 PSI maximum working pressure.
- Mounting: Bracket with spring clips to hold unit on wall. Clips position spray heads and handle to face forward at all times.
- Supply: 3/8" NPT male swivel-type inlet.
- Quality Assurance: Furnished with ANSI-compliant identification sign. Unit is completely assembled and water tested prior to shipment.

Honeywell MILLER

T-BAK™ Tie-Back Personal Fall Limiter

- 7.5' (2.3m) Working capacity
- User-Rated to 400-lbs. (181kg) capacity
- Cost-effective alternative to tie-back shock-absorbing lanyards
- All-in-one, self-retracting lifeline/anchorage connector design reduces equipment required on the job site
- Designed for anchoring below a user's harness back D-ring for greater safety
- Integrated shock absorber especially designed for tie-back applications with load indicator device
- Meets all applicable OSHA, ANSI, CSA and CE standards, including the ANSI Z359.1 requirement that states only 24-inches (.62m) or less of lifeline extends out of the housing when the unit is fully retracted
- The new patented pending Miller Twin Turbo™ D-Ring Connector easily adapts two Miller Turbo T-BAK PFLs for continuous 100% tie-off fall protection

Order No.	Price
LF50MFLT275FT	Price

Honeywell MILLER

TwinTurbo™ Fall Protection System

- Patented pending Twin Turbo D-Ring Connector easily adapts two (2) lightweight Miller TurboLite Personal Fall Limiters (PFLs) for continuous 100% tie-off fall protection
- Replacement for double-legged shock-absorbing lanyards
- Innovative design that easily connects to the back D-ring of many fall protection harnesses with non-coated metallic back D-rings increases worker productivity and versatility with freedom of movement – less restrictive than other units on the market
- Permits TurboLite PFLs to swivel in multiple directions for greater mobility; the swivel action prevents webbing from twisting and binding inside of the unit
- Webbing payout smoothly extends/retracts without interruption
- Easy-to-use and assemble/disassemble
- Adapts to most Miller TurboLite PFL models

Cut-Resistant Rating Standards (prior 2016)

Buying and wearing the correct glove is the most critical factor in proper hand protection. It's even more important to understand cut resistant gloves and the features they hold. Cut-resistant gloves come in various fabrics offering different level of cut resistance. It's important to consider the requirements of a particular work environment when choosing a glove material. The ASTM ANSI standard measures the amount of pressure one can apply to a razor blade while moving the blade across a fabric without cutting through the fabric for at least 0.8 inch. Not all gloves are tested and have ratings as of this print. We have indicated over the next few glove pages those gloves that have been tested and have a ratings; they have a rating symbol such as this ANSI 5. For the exact definition of the ASTM standards for gloves please research ASTM F 1790 '05, ASTM F 1790 '97 and ISO 13997. If you're not sure of what type of glove you need for an application, please contact our customer service department for assistance to assure you purchase gloves that will best protect you in the environment you're working in.

ANSI 5 Extreme cut exposure: heavy metal stamping, plate glass handling, meat and poultry, some pulp and paper applications

ANSI 4 High cut exposure: metal stamping, sheet metal handling, glass handling, food service

ANSI 3 Moderate cut exposure: light metal stamping, light-duty glass handling applications

ANSI 2 Low cut exposure: construction, automotive assembly, packaging, some masonry applications

ANSI 1 Nuisance cut exposure: paper cuts, automotive maintenance, parts assembly, material handling

These recommendations are of a general nature and are not specific to everyone's needs. Always ensure your selected glove complies with the mandated safety standard recommended for your application.

Updated ANSI/ISEA cut rating standards* (as of 3/2016)

ANSI/ISEA cut resistance standards are based on a more specific range of testing system; ASTM F2992-15, only implemented on one type of machine the TDM 100. Testing samples are cut along a straight path using a straight-edged blade under applied force. The European ISO 13997 test method will also only use the TDM 100; known as the EN388 standard. This new F2992 standard utilizes a measured cut ranking from ANSI A1 thru ANSI A9 (ANSI/ISEA 2016) which utilizes almost twice the scale measurements from the **1-5** (ISEA 105-2011) scale ranking which has been used since 2011. The European EN 388 guidelines will continue to use newtons.

*This is a shorten construed version of cut rating standards, please contact your glove supplier for an exacting definition of the above-mentioned standards prior to choosing gloves for your application; this to assure the best safety environment for your working application, and for the unabridged description of glove cut ratings standards.

SHOWA 406

- Protects hands down to -30°C for short or intermittent contact
- Water repellent surface combined with thermal liner keeps hands warm and dry
- Aerated material reduces heat loss via conduction and eliminates convection by trapping warm air inside the glove
- Engineered liner and foam latex dissipates sweat and moisture to prevent hands getting cold
- Coating technology enhances high level of flexibility and reduces fatigue
- Seamless liner prevents irritation
- Rough textured finish to palm coating
- **Coating:** latex
- **Liner:** acrylic/nylon/polyester
- **Color:** orange/black

Energizer INDUSTRIAL Alkaline & Lithium Batteries RAYOVAC

- **Alkaline:** Designed to provide long-lasting, dependable power for the everyday devices you use most. Energizer and Rayovac Alkaline are Mercury Free.
- **Extra Strength Batteries:** Provides more power for your critical devices when you need it most. Rayovac Fusion alkaline is the industry's longest lasting battery, up to 35% longer then it's competition. Energizer Lithium has up to 8x's the power of an alkaline when used in a digital camera.
- **Alkaline Bulk Batteries:** Rayovac delivers outstanding performance and reliability, even after 10 years of storage. Rayovac bulk batteries are individually date coded to ensure freshness. Energizer and Rayovac offer economical bulk packaging.
- **Lantern Batteries:** Rayovac Alkaline lantern batteries last up to 2x as long as zinc-carbon batteries and provide an extra measure of leakage resistance for critical applications. Rayovac is date coded to ensure freshness, bulk packaging, and long shelf life.
- **Specialty – Button/Coin/Photo Batteries:** Designed for applications with a high current pulse and continuous drain. Very high power, energy density, and excellent rate capability. Up to 4x the power of alkaline batteries. Wide operating temperatures, excellent shelf life.
- **Rayovac Rechargeable Batteries:** Provides a reusable power source for frequent-use and high-drain devices. Get 500 uses out of each battery. NiMH chemistry has no memory effect.

LEVITON Black & White Industrial Grade Plugs and Connectors

Features:

- Super Tough Nylon construction resists damage from severe impact, abrasion and chemical attack
- Ergonomically designed fluted body with radial gripping ridge - provides an ideal surface for gripping and pulling
- Dead-front solid contaminant barrier - prevents accidental contact with internal parts
- Internal wiring chambers that isolate individual conductors - prevents flashover, arcing and excessive heat build-up
- Positive contact plates in wiring chamber maximize surface contact with stranded wire resulting in improved termination
- NEMA configuration (where applicable) and device ratings molded into face for easy identification
- Catalog number permanently marked on cord clamp
- Speed drive screws on device face for faster assembly

LEVITON Duplex Receptacle

USB Duplex Receptacle

- Smart chip recognizes and optimizes the charging requirements of individual devices
- Fits in a standard wallbox, is compatible with standard wallplates and can be multi-ganged with other devices
- Easy to install. Can replace existing outlets

Straight Blade Wiring Devices

- Impact-resistant thermoplastic nylon cover and body
- Four corner latches securely fasten face
- Backed by a limited 10-year warranty

LEVITON SmartlockPro® Self-Test GFCI Receptacle

- Provides continuous ground fault protection – detects and trips on actual ground fault even when self-test is being conducted
- Status Indicator Light provides simple, intuitive feedback on power and protection status as well as indication of line/load reversal
- Reduced depth makes it easier to install in any electrical box, even shallow ones
- Terminals allow for easy wiring options – back and side wire capable
- UL Fed Spec WC-596 rated.

LEVITON Decora® Digital Control with Bluetooth® Technology

The next generation of lighting control technology is here. Decora Digital Controls with Bluetooth® technology provide local control within a 30 foot* range.

Exciting features for today's lifestyle Decora Digital Dimmer & Timer App delivers smart dimming and timing functionality.

- Compatible with Apple and Android smartphones or tablets
- Uses simple, intuitive on-screen menu options
- Individually control and program dimmers and switches within the home
- Each device can be uniquely named for easy identification
- Flexibility to program timed events weekdays, weekends or any combination of days at set or random times
- Astronomical clock automatically adjusts to local sunrise/sunset times
- Automatic daylight saving time adjustment
- Countdown sleep timer can be set for up to 12 hours
- LED locator light can be turned off via app
- Dimmer brightness display can be turned off via app
- Single pole or 3-way/multi-location control with Decora Digital remote (sold separately)
- Comes packaged in White, Ivory and Light Almond to match any decor
- Limited 5-year warranty

LEVITON Industrial Grade Manual Motor Disconnects

Features:
- All molded parts are thermoplastic
- Cam-driven mechanism enhances fast-make / slow-break
- Silver-Alloy contacts for maximum conductivity and service live
- External clamps accept back and side wiring
- Insulating barrier between terminals provide isolation between phases
- Nickel-plated brass mounting yoke for superior strength and corrosion resistance
- Oversized toggle provides positive actuation, even with gloved hand
- NEMA Configuration: WD-1, WD-6
- Backed by a Limited 10 Year Warranty

CCI Polar/Solar® Outdoor Cold Weather Extension Cords

T*Prene® Insulated All-Purpose Cord with Power Indicator Light

Features:

- America's premier extension cord
- Lightweight and stays flexible to -67°F
- Rugged T*Prene insulation provides superior resistance to abrasion, ozone, oil, grease and chemicals
- Reinforced blades help prevent accidental bending or breaking
- Heavy-duty strain relief protects electrical connections resulting in longer cord life
- Outer jacket is flame retardant and water resistant
- Power indicator light in the female receptacle to show that the power is on UL Listed & CSA Certified outdoor use cord set
- Meets OSHA requirements for outdoor use

O.C.White Co Green-Lite® LED Magnifier 43" Reach with Table Edge C-Clamp

MADE IN THE USA

American Made Since 1883

Features:

- Highest lumen output LED magnifier with standard 4 diopter (2X) lens
- Reduced glare, heat and energy consumption
- Low voltage (15v) power
- Energy efficient by design, using only 8 watts on high
- Built in optional auto shut off at 4 hour intervals
- High quality die cast aluminum shades
- Heavy duty extruded aluminum arms and stamped steel plates for extreme abuse

Warranty:

- 5 Years or 50,000 hours pro-rated LED warranty
- 5 Year mechanical warranty...best in the business

PANELGUARD™ Basic 4-Panel Set

- Provides complete flexibility and can be used for a variety of applications
- Creating machine safety areas
- Perimeter guarding
- Temporary guarding
- Machines having large parts or cutting tools
- Reducing machine noise
- Blocking off out of service machines or areas undergoing maintenance
- Create a custom machine guarding system or safety area by adding modular expansion panels
- Sliding together optional panels and accessories creates a complete machine enclosure with access doors and interlocks
- Folds to 18”W x 71”L x 4”H and weighs under 50 lbs.
- Has four modular panels 16”W x 71”H and opens 66” across
- The upper half of each panel has crystal clear high impact resistant Lexan®, which gives operator protection and a full view of guarded machines or areas

42-4E Medium Duty Cutting Torch

For use iwth all fuel gases

- Medium duty straight cutting torch designed to use all fuel gases
- Lightweight, has a solid forged head, brazed triangular tubes and a solid forged brass cutting lever
- UL® listed
- One Year Warranty

New!

Capacity	Length	Weight	Head Angle	Mfg. No.	Order No.	Price
6"/152.4mm	17"	2.4 lbs.	90°	1001218	**HR7010000**	Price

72-3 Cutting Attachment

New!

For use with all fuel gases

- Stainless steel tubes, make it light in weight while still providing exceptional strength and rigidity
- Features a fold forward cutting lever allowing easier connection, even with gloves on
- Ease-on cutting valve provides smoother controlled starts
- UL® listed
- One Year Warranty

Capacity	Length	Head Angle	Mfg. No.	Order No.	Price
5"/127.0mm	9-1/2"	90°	1300380	**HR7010010**	Price

85 Medium Duty Combination Handle

New!

- Designed for welding, brazing, cutting or heating with acetylene or alternate fuels
- Features twin-tube silver-brazed connections for safety and durability
- UL® listed

ER70S-6 (GMAW) Mig

- General purpose welding wire for fabrication of mild steel
- Contains more deoxidizers than ER70S-3
- Additional deoxidizers also provide better wetting, giving a flatter bead shape and the capability of faster travel speeds
- Usually used with 75/25 (argon/CO2) shielding gas or with higher contents of argon, such as 90/10

6013 Mild Steel Electrodes

- General purpose electrode for mild steel which produces a smooth, quiet, medium penetrating arc that is readily maintained with minimal spatter loss
- This quick freezing slag gives optimum performance in vertical-down welding
- Ideally suited for general purpose welding, even with small AC power sources having low open-circuit voltage

New!

7014 Mild Steel Electrodes

- All position electrode for mild and low alloy steels with an iron powder covering
- The iron powder yields a high deposition rate
- The welds reflect smooth beads with fine ripples

New!

7018 Mild Steel Electrodes

- High deposition electrode for low and medium carbon steels
- It is an efficient, iron powder, low hydrogen electrode with excellent mechanical properties; crack resistance; and X-ray quality welds
- This electrode offers a quiet, stable, low penetration, spatter-free arc

Flame Retardant Cotton Jackets

- Cotton fabric is processed and treated to be permanently flame retardant, and maintaining it for as many as 50 home washings or 25 commercial washings
- Cooler, lighter, economical solution for light exposure to sparks and spatter
- Weldmite™ 9 oz. FR cotton
- Snap front and wrist closure
- Relaxed full cut fit
- Large inside pocket
- Black anodized non-reflective snaps
- Leather reinforced snaps

Tigerhood Welding Helmets

Tigerhood Futura®:

- Innovative, streamlined design combined with high-performance materials
- Lightweight helmet and free floating headgear for added comfort

Tigerhood™ Classic:

- Unique welding helmet design provides extended throat protection while blocking fumes and smoke from the face
- Molded-in colors eliminate chipping, peeling, and fading
- Smooth, seamless shell deflects sparks and spatter reducing the risk of burn through

SOLDER•IT INCORPORATED Cordless Pro-150 Automatic Ignition Soldering Kit

- Soldering iron is equivalent to a power range of 30-125 Watts
- Torch function produces 2400° F blue flame
- Cordelss and portable, simple operation anywhere
- Ready to use 15 seconds after ignition
- Works in cold weather
- LEC Patented filter system eliminates clogging
- Safest multi-function tool on the market
- Makes for a more trouble-free tool & containers fuel for up to 120 minutes of use

Includes:

- Safety cap
- (2) LEC-8 Fuel cells
- PS-1 1.6mm Conical tip
- PS-4 3.2mm Chisel tip
- PS-10 Heat Blower
- S-30 Heat Reflector
- PS-14 Spare orifice
- Tip cleaning sponge
- Tube of solder
- **All Solder•It products ship empty with no fuel.**

The Little Giant Ladder System® Type 1A is more durable than ordinary ladders. The Little Giant is available in heavy-wall aluminum (6005-T5), or non-conductive fiberglass (see selection below).

Little Giant Type 1A:
- Tip & Glide™ Wheel System for easy moving
- 24 Ladders in One™ triple-locking hinge
- 300 Duty Rated – exceeds OSHA & ANSI standards
- Industrial – extra duty (has been tested to withstand 4x's as much weight)

Safety Step:
- 300 Duty rated Wide, slip-resistant treads
- 2, 3, or 4 Step available
- Lightweight and portable

Pro Series:
- Finished with black anodized armor
- OSHA & ANSI Certified
- Tool tracking serial number 300 Duty rated

Skyscrapers:
- Designed to reach high places
- Replaces platforms and lifts
- Safe to use on uneven surfaces, like staircases, curbs or docks
- OSHA & ANSI Certified
- 300 Duty rated

breg Pillow and Snake Style Absorbents

Sponge Suck it up! Styles:

- **Basic Products:** Features a tough, needle-punched polypropylene skin for immediate wicking action. The casing is engineered to continually draw fluid to the center to maximize absorption. Filled with recycled, pre-consumer cellulose. Eco-friendly, economical and highly absorbent. Cellulose filler can absorb twice as much fluid than polypropylene. Absorbs water, oils, inks and other non-aggressive fluids.
- **Hazmat Products:** Features recycled, 100% polypropylene fill which has been treated with surfactant to ensure it will not react to corrosive fluids. Flexible spunbond polypropylene cover provides a larger surface area for faster wicking action. The skin and filler combination is extremely durable. Pillows and sock feature hand-sewn loops that make them easy to retrieve. Absorbs both aggressive and non-aggressive fluids.
- **Oil-Only Products:** Features tough, durable absorbents that repel water and float indefinitely even when fully saturated. Absorbs hydrocarbons, petroleum's and other oil-based fluids while repelling water based fluids. Durable spunbond skins are filled with recycled polypropylene for maximum absorbency. Will not rot or mildew. Pillows and sock feature hand-sewn loops that make them easy to retrieve.

Sponge Pillows Features:

- Sewn seams for increased durability
- Divided into three sections to maintain even distrbution of the filler
- Unique channel design aids in retention of absorbed fluids

Sponge Snakes Features:

- Sewn seams for increased durability
- Firm, yet pliable can be easily molded to fit around machinery
- Fluid is drawn into the center of snake for maximum absorption and retention

Express Stretch Wrap with Handles

- Lightweight rolls reduce the stress in applying the film
- Handles in every carton meaning never having to search for the dispenser
- Excellent puncture and tear resistance handle the most severe protrusions, sharp edges and shipping hazards
- Aggressive cling ensures that layers of film stick together but won't damage the product
- Unmatched optics allow for easy product recognition and a clean appearance

Size	Color	Case Qty	Order No.	Price
3" x 1000'	Clear	18 Rolls	**LF5230300**	Price
20" x 1000'	Clear	4 Rolls	**LF5232000**	Price

3M™ Glass Cloth Tape 361

- Withstands 450°F and intermittent temperatures up to 550°F or higher, depending on heat source
- Very strong abrasion resistant backing for use as masking protection in thermal spray operations
- Silicone adhesive provides long aging, good holding power for a wide range of temperatures
- Used for permanent sealing of high temperature ducts or chambers
- Color: white

Size	Order No.	Price

Master Lock Lockout Kits

All Master Lock Lockout Kits use 410 Xenoy padlocks designed by Safety Directors specifically for Safety Lockout. Kits available with Electrical focus (E), Valve focus (V), or both (VE)

- 1457 Tool box kit is ideal for individuals who need to carry a greater selection of lockout devices and padlocks. All padlocks are Keyed Alike in this kit.
- 1458 Group Organizer Kit is for groups of workers who need to lock out equipment. Includes 6 keyed different padlocks and a wide assortment of electrical and valve lockout devices. Organizer Case keeps locks and devices organized and in their place. Includes free key charting service from Master Lock.

1457E410KA – Electrical Focus. Includes tool box, 3 Keyed alike padlocks for a single worker's convenience, 1 compact circuit breaker padlock, 1 labeled snap-on hasp, 1 hasp, 1 wall switch lockout, 12 tags, 2 single pole, 1 double pole, and one 480/600 volt lockout device. Room for adding additional padlocks and lockout devices.

1457V410KA – Valve Focus. Includes tool box, 3 Keyed alike padlocks for a single worker's convenience, 1 labeled snap-on hasp, 1 hasp, includes 1 adjustable cable lockout, 3 gate valve covers to fit 1" to 6.5" valve handles, 1 small and 1 large ball valve lockout device, and 12 tags. Room for adding additional padlocks and lockout devices.

1457VE410KA – For Valve and Electrical Lockout. Includes tool box, 3 Keyed Alike padlocks for a single worker's convenience, 1 compact circuit breaker padlock, 1 hasp, 1 labeled snap-on hasp, 3 single pole, 1 double pole, 1 480/600 volt lockout devices and 1 wall switch lockout. For valve lockout includes 1 adjustable cable lockout, 3 gate valve covers to fit 1" to 6.5" valve handles, 1 small and 1 large ball valve lockout device, and 12 tags.

1458VE410 – Comprehensive Kit for use by groups to lockout Valves and Electrical. Includes Organizer Case, 6 Keyed different padlocks, 2 compact circuit breaker padlocks, 1 hasp, 1 labeled snap-on hasp, 6 single pole, 2 double pole, 1 480/600 volt lockout devices and 2 wall switch lockouts. Also includes 1 small and 1 large plug lockouts. For valve lockout includes 1 adjustable cable lockout, 3 gate valve covers to fit 1" to 6.5" valve handles, 1 small and 1 large ball valve lockout device, and 12 tags.

ACCUFORM

Accident Prevention Signs

Sign standards, OSHA 29 CFR§ 1910.145 and ANSI Z535, provide guidance for specifications, design and application of accident prevention signs. Signs indicate potential, type, and degree of hazards that may lead to accidental injury or property damage and convey a rapidly understood message on how to avoid hazards.

- **Adhesive Vinyl (V):** Flexible 4-mil thick vinyl with permanent acrylic adhesive back. Moisture resistant with scored backing for easy peel-off and apply. Ideal for light duty use.
- **Plastic (P):** Moderate-duty .055" thick plastic ideal for indoors and sheltered outdoor environments. Impact resistant with 3/16" corner mounting holes.
- **Aluminum (A):** Rigid .040" aluminum printed and protected with UV overlaminate. Durable for indoor and outdoor harsh environments. 3/16" corner mounting holes.

760
GENERAL DUTY

Economical single ball race construction. Heavy gauge steel. Used on dollies, platform trucks, racks, laundry baskets, and other equipment.

050
LIGHT MEDIUM

Two separate ball bearing swivel raceways. Embossed for strength and heat treated for long wear. Industrial and office applications. Well suited for furniture, appliances, electronic cabinets, etc.

190
MEDIUM HEAVY

Cold-forged steel design. Two separate large diameter ball bearing raceways. Industrial and plant floor applications. Economical version of #200 series casters.

200
MEDIUM HEAVY

Precision-built. Hardened steel with exacting tolerances. Zerk fittings for swivel and wheel. Industrial and institutional equipment. Used on warehouse trucks, refuse containers, linen carts, etc. Rated for severe service and long wear.

300
HEAVY DUTY

Cold-forged steel design. Precise double ball bearings. Hardened swivel raceways. For heavy industrial and warehousing applications where high shock loads and severe operating conditions prevail.

500
HEAVY DUTY

Cold-forged steel. 1/2" top plate.1" king bolt and axle. Rugged, dependable. For continuous and punishing service on heavy duty equipment. Well suited for the heaviest possible manually operated loads, severe shock conditions, and power-driven equipment.

Stem casters are available on the 050 and 200 series casters. Casters with brakes are available on all of the above casters.

Wheel Types and Applications:

H = Hard Rubber
Molded of a special hard fibrous rubber compound. High capacities. Good floor protection. Oil and chemical resistant. Recommended for concrete, wood block, and steel floor surfaces.

M = Phenolic
Molded of a phenolic resin compound backed with macerated or chopped canvas. Resists shock without chipping. Non-marking. Non-sparking. Can be operated continuously -50° to 260°, intermittently to 300°F. Unaffected by grease, oil or most other chemicals. Excellent for floor protection. Recommended for concrete and ceramic tile. Not recommended for softer tile.

S = Semi-Steel
Constructed of top grade cast iron, with steel added for extra strength. High capacities. Recommended for extreme heat and cold, around chemicals, wood block and steel floors. Not suggested for concrete, as floor protection is minimal.

V = Mold-On Rubber
Charcoal gray rubber. Will not mark like black rubber. Easier rolling. Lightweight, yet is designed to withstand shock loads. Recommended for hand trucks or load wheels. May be used in any application in which floor protection is the prime consideration. Exception: Around animal fats and blood, a chemical reaction could cause bond separation.

L = Polyurethane Mold-On
Polyurethane elastomer treads bonded to cast iron centers. High capacities of steel with the non-marking qualities of rubber wheels. Complete floor protection. Outwears rubber five-to-one. Resistant to most oils and chemicals. Recommended for virtually all floor surfaces. Exception: Around animal fats and blood, a chemical reaction could cause bond separation.

X = Cushion Tread
Molded with a cushion outer tread and a hard fibrous innner core. Non-marking, noiseless. Affords complete floor protection. Recommended for hardwood, linoleum, ceramict tile, concrete or smooth steel floors.

T = Red Polyurethane
A bright red polyurethane bonded around and through a tough polyolefin core. For use on virtually any floor surface under almost all operationg conditions. High capacities. Lightweight, but resistant to impact, shock and abrasion.

P = Mold-On Rubber
Vulcanized mold-on rubber. Standard with steel centers. A soft rubber tread protects the floor and affords quiet operations.

R = Gray Polyurethane
Gray polyurethane tread, mechanically bonded to a durable polyolefin core. For lighter loads. Ideal for wet conditions. Non-marking. Complete floor protection.

PRM PRO Foreman's Desks

MADE IN THE USA

Open Style:

- Fully progressive, ball-bearing suspensions allows the drawer to glide easily and quietly
- Drawer comes with lock and keys
- In situations where you don't need a lockable storage cabinet, the added leg room permits the use of a stool for seated comfort
- Shelf can be used for storage of bulky items or as a footrest
- Ideal for the industrial workplace, businesses, schools and institutions

Closed Style:

- 14 Gauge corner posts and heavy steel construction assures long life
- Large storage area with 3-point locking system boasts two shelves for storing tools and other supplies
- Compartmentalized riser is perfect for storing writing utensils, forms and papers
- Drawer and cabinet come with individual locks and keys
- Large sloping surface leaves plenty of room for paperwork and supplies

Heavy Duty UltraCap Industrial Shelving

- Easy to assemble shelving is perfect when configuring runs of multiple shelving sections
- Select a Starter unit and then use as many Add-On units as needed to complete a section - Each Add-On unit connects easily to adjacent shelving using a common 14-gauge box shaped post that creates a very strong unified structure
- No disassembly required
- Gray powder coat finish provides added protection from rust and chipping. Optional Steel Panel Kits available to enclose back and sides of open units
- All units are 85" high
- 20-gauge shelves with tubular welded box beam construction have lapped and welded corners to provide maximum strength
- 14-gauge common box formed front posts provide full shelf access and reduce assembly time when connecting two or more units
- Posts are punched on 1" centers for easy shelf adjustment

Adjustable, heavy duty steel shelf clips install easily, no special tools needed.

† Shelf capacity based on evenly distributed loads.

Assembles in minutes no tools needed

Double-wide end frame allows easy expansion

Welded Frame In-Line Shelving

- Designed for faster and efficient production
- Parts slide forward for fast and easy first in, first out inventory control and stock picking operations
- Double units provide back-to-back storage for maximum linear floor space
- Available in Starter and Add-On units
- Add-On units easily attach to Starter unit on either side to create a row of units and can be mixed or matched using same depth size
- Heavy-duty welded steel frame construction for maximum strength and durability
- Includes five steel shelves with capacities up to 550 lbs. each on evenly distributed loads
- Shelves assemble quickly without the use of tools, nuts, or bolts and adjust easily in 2" increments
- Tough powder coat finish in gray

Economy, Welded Steel Frame & Plastic Frame Storage Cabinets

- Economy Cabinets feature transparent styrene drawers
- They are compact specially priced storage units that allow you to consolidate, store, and organize small-to-medium sized parts
- Drawers are molded of transparent clarified polypropylene for easy visibility of contents
- Drawers can be partitioned with dividers
- Cabinets are available with welded steel frames or plastic

Welded Steel Frame:

- A welded steel frame with an attractive gray baked enamel finish gives years of service
- A full-width steel shelf supports each drawer with steel centerposts for extra reinforcement
- Frames also feature keyhole slots for wall mounting

Plastic Frame Storage Cabinets:

- Organize and protect components
- A variety of drawer configurations provide versatile storage solutions
- Cabinets stack securely and are wall mountable
- Dividers won't get lost because they are molded into the back of the cabinet

Stak-N-Store Bins

- The perfect way to organize heavy, bulky items
- Bins stack to form tall, stable storage arrangements on floors or standard industrial shelving
- Capacity: 75 lb.
- Color: gray, red, blue
- Large comfort grip handles
- Large radius corners and a curved upper lip add strength
- Wide hopper front allows easy access to bulky items
- Side ribs insure stability when stacked

Louvered Panels & Racks

- Versatile structures for supporting AkroBins of all sizes
- Louvered units equipped with AkroBins give you maximal storage space per square foot at minimal cost
- They also allow for extensive classification of stored items
- Louvered equipment is made of 16-gauge cold rolled steel with a gray baked enamel finish
- **Bins Must Be Purchased Separately**

Racks:

- Freestanding louvered racks are available in a bench model or floor model
- Bench Rack: Accommodates three sizes of bins, supports up to 24 AkroBins, 120 lb. capacity
- Louvered Rack: Two sided floor model accommodates all AkroBins, supports up to 228 Akro Bins, 2000 lb. capacity

Panels:

- Louvered panels can be wall-mounted, attached to the back of shelving, mounted on benches, carts, inside cabinets, fastened to slotted angle components, or used for service truck interiors
- Installation note: panels must be securely fastened at the center and both ends to materials of adequate load bearing strength

Super Size AkroBin

- Control inventories, shorten assembly times and minimize parts handling
- Heavy-duty bins securely stack atop each other or sit on shelving
- Molded of high-density industrial grade polymers
- AkroBins are unaffected by weak acids and alkalis
- Sturdy one-piece construction is water, rust and corrosion-proof
- Guaranteed not to crack or break under normal load conditions as stated in our 1 year limited warranty
- Autoclavable up to 250° F
- Extra stacking ledge saves space and prevents spilling
- Akrobins can be used alone or stacked together for high-density storage
- Anti-slide stop prevents stacked bins from shifting forward
- Large label area on front of bin
- Curved-bottom hopper front makes it easy to retrieve small parts
- Reinforced side ribs add strength and prevent spreading when stacked

edsal Heavy Duty Industrial Work Benches

- **Butcher Block Maple:** Made from quality kiln-dried maple strips. Solid laminated maple top resists damage by sharp tools and solid blows, yet harmless to precision machined parts and dies. Recommendable for tool and die work, electrical wiring, fabric cutting, industrial arts, or office. Maximum shock absorption where sensitive instruments are used. 1-3/4" thick. Stringer not included with this top.
- **Steel Top:** 12 Gauge steel top is the number one choice for heavy-duty use. Will not become oil soaked or crack. Gray enamel finish. 1-3/4" thick.
- **ShopTop:** The preferred work surface for industry. Features a hard, gloss smooth surface of phenolic bonded particle board with a core of northern hardwoods; 30% harder than maple. Light color matte finish. Resists acids, oil, and grease. 1-3/4" thick.

JET J Series Pallet Trucks

JET® J Series Pallet Trucks are available in 6 different configurations.
High quality welded steel construction to handle heavy lifting.

Features:

- 6" Fork Width
- 5,000 lbs Capacity
- 180 degree turning radius
- 2-1/2" low profile allows for easy engagement of pallets
- Easy-to-use fingertip controls permit single-handed operation
- Chrome-plated pump piston and ram provide corrosion resistance in any industrial environment
- Poly over steel 6-1/4 x 2-3/4 inch steer wheels ensure contact with uneven floors
- Steer wheels feature double-sealed lubricated bearings
- 2 Year Warranty

- All models work in upright, angle or horizontal position
- Pump handle included
- Carrying handles on 12-1/2 to 60-ton models
- Complies with ANSI/ASME B30.1 and PALD-1 standards

NOTE: When used at an angle or in the horizontal position, pump must be in upright position and piston movement is reduced.
JET BRAND PRODUCTS NOT AVAILABLE IN CANADA.

Vestil Trailer Stabilizing Jacks

MADE IN THE USA

Standard Features:

- Powder coated safety yellow finish
- Welded steel construction
- Reflective collar for visibility at night
- Operator instruction sticker

Winding	Lift Range	Rated Capacity	Order No.	Price
Hand Crank	41 to 55 inches	100,000 lb. Static capacity / 50,000 lb. Lifting capacity	**RV54CJBEAMSN**	Price
Ratchet	39 to 51 inches	100,000 lb. Static capacity / 40,000 lb. Lifting capacity	**RV54LOJ**	Price
Spin Top	39.5 to 51 inches	100,000 lb. Static capacity / 40,000 lb. Lifting capacity	**RV54SPTOP**	Price
Spin Top	44 to 51 inches	50,000 Static / 5,000 lifting	**RV54SJ35**	Price

OSHA specification 1910.178(k) (3) reads: "Fixed jacks may be necessary to support a semitrailer and prevent upending during the loading or unloading when the trailer is not coupled to the tractor."

STEELMAN Ratchet Type Jack Stands

- Sturdy, welded steel construction for superior safety and strength
- Multi-position ductile ratchet bar provides super strength and durability
- Quick adjustment mechanism that securely locks into desired location
- Counter weighted pawl serves as a safe, secure locking device to prevent the load from accidentally disengaging
- 1-year warranty
- Meets ANSI/ASME/PALD safety standard

Capacity	Approx. Support Height	Base	Order No.	Price
4 Ton	14" - 21"	7" x 8-3/4"	**KE53647529**	Price
12 Ton	19-3/4" - 30"	12-3/4" x 14-3/4"	**KE53647512**	Price

ENERPAC P-Series Hydraulic Lightweight Hand Pump

New!

- Compact design
- Durable glass-filled nylon reservoir and nylon encapsulated aluminum pump base for maximum corrosion resistance
- Two-speed operation reduces handle strokes
- Lower handle effort to minimize operator fatigue
- Integral 4-way valve for opration of double-acting cylinders
- Handle lock and lightweight construction for easy carrying
- Large oil capacities to power a wide range of cylinders or tools
- Non-conductive fiberglass handle for operator safety
- Internal pressure relief valve for overload protection

MFG Model #	Oil Displacement (Stage 1)	Oil Displacement (Stage 2)	Pressure Rating (Stage 1)	Pressure Rating (Stage 2)	Usable Oil Cap.	Stroke	Weight	Order No.	Price

ENERPAC Cordless Hydraulic Pumps

New!

- Lighweight design with integrated handle and carrying strap for portability
- Bladder reservoir prevents contamination and allows pump usage in any position
- Powerful 1/2 HP motor and 28 Volt Lithium-Ion battery deliver exceptional speed and run time
- High-strength fiberglass reinforced composite shroud for superior durability in demanding job site environments
- Cordless technology eliminates tripping hazards found in other eletric or air powered pumps

MFG Model #	Flow	Usable Oil Cap.	Weight	Order No.	Price

ENERPAC P Series ULTIMA Hydraulic Steel Hand Pumps

New!

- Reduced handle effort and ergonomic grip for less operator fatigue
- Two-speed operation for fast and easy operations (except P-39)
- Vent free reservoir eliminates spills
- Quick grip handle allows for easy transport
- Integral reservoir over-pressurization protection
- All steel construction, chrome plated plunger and wiper system for durable, long lasting performance

ENERPAC Hydraulic Economy Electric Pump

New!

- Best suited to power small to medium size cylinders or hydraulic tools
- Lightweight and compact design
- Large easy-carry handle for maximum portability
- Two-speed economy pump operation reduces cycle times for improved productivity
- 115 VAC 50/60 cycle universal motor will operate on voltages as low as 60 volts
- 24 VAC remote motor control, 10-ft length for operator safety
- Starts under full load
- High strength molded shroud with integral handle, protects electric pump motor from contamination and damage
- Designed for intermittent duty cycle

MFG Model #	Oil Displacement Stage 1	Oil Displacement Stage 2	Pressure Rating Stage 2	Usable Oil Cap.	Volt	Weight	Description	Order No.	Price

SIMPLEX Steel Hydraulic Hand Pumps

New!

- Heavy duty, metal construction for durability
- High displacements of oil per stroke
- Adjustable handle effort / dual pivot points
- Low, back saving handle effort
- External adjustable relief valves

MFG Model No.	Oil Displacement Stage 1	Oil Displacement Stage 2	Usable Oil Cap.	Weight	Order No.	Price

Single Acting Hydraulic Cylinders

- Snap in grooved saddles
- Rod wiper seals out dirt and contamination
- Collar fixture thread, collar thread protector
- Two base mounting holes on most models
- High strength steel construction from gun drilled solid bar, solid steel cylinder body
- High flow 3/8" NPTF couplers, Internal plunger threads
- One piece high grade alloy bearing for side load protectionIndustrial hard chrome plated ram helps prevent rust and corrosion
- Heavy duty return spring provides quicker retraction
- Maximum working pressure: 10,000 psi / 700 bar

Hand Pumps

- 5HS2S35, 5HS2S100 and 5HS2S200 feature 2 speed operation
- Pressure relief valve for overload protection
- Load release valve for single acting cylinder usage
- Large oil capacities to power a wide range of cylinders and tools
- 5HS2S35 and 5HS2S100 are constructed of high strength lightweight aluminum alloy for easy handling and corrosion resistance
- All hand pumps function in horizontal positions and will also function in some vertical positions
- Maximum working pressure: 10,000 PSI / 700 bar
- Oil output port: 3/8-18NPTF except for (5HS2S35 which is 1/4-18NPTF)

Electric Pumps

- Quiet operation meets OSHA regulations (80dBA)
- 2 speed operation allows for faster cylinder advance
- Full load starting capacities
- Internal filter keeps contamination from damaging pump
- Precision components to minimize wear and improve overall dependability
- Designed to minimize the number of moving parts and maximize overall pump efficiency deal
- Motor voltage 115
- Valve type: 4-Way; 3-Position
- Max Output Pressure (PSI) 10,000

Hydraulic Maintenance Kit

- Sets are portable for easy use in the plant or on the job site
- Custom fitted, rugged blow molded storage case
- 10 Ton set has wheels for easy movement
- Designed for applications of pushing, spreading, pressing and more
- Pumps are rated from 8,000 to 10,000 psi
- Hand Pump

Contents of Kit

- Ram, Hose Assembly, Hose Coupler, Ram Coupler, Case, Hydraulic Spreader, Combination Head (900), Rubber Head, Ram Toe, Plunger Toe, Flat Base, Serrated Saddle, Wedge Head, Male Connector
- **4M04T** Extension Tubes Included: 3", 6 1/8", 8 1/2", 16-1/2", 19-1/2"
- **4M10T** Extension Tubes Included: 4", 10", 18", 27"

Capacity (Tons)	Ram Collapsed Ht.	Ram Extended Ht.	Order No.	Price
4	11	15-3/4	**KP304M04T**	Price
10	13.63	19-3/4	**KP304M10T**	Price

ENERPAC Cylinders

- Equipped with hardened removable grooved saddles
- Unique GR2 Bearing Design
- Collar threads, plunger threads and base mounting holes
- Designed for use in all positions
- High strength allow steel
- Redesigned cylinder thread protector
- NV Model Nickel Viton
- Heavy-duty, pretensioned spring improves retracttion speed
- Baked enamel finish for increased corrosion resistance
- CR-400 coupler and dust cap included on all models
- Plunger wiper reduces contami-

ENERPAC Air Driven Hydraulic Pump

- Used with a 13 ton hollow cylinder to compress and position diesel engine valve springs
- Higher oil flow for increased productivity
- Variable oil flow and fine metering for precise control
- Ergonomic design for less operator fatigue
- Closed hydraulic system prevents contamination and allows pump usage in any position
- Pedal lock function for retract position
- External adjustable pressure setting valve
- ATEX Certified; includes ground screw for expolosion protection
- Air Consumption: 10-35 scfm
- Reservoir Capacity: 61-122”

New!

MFG Model No.	Flow at Rated Pressure	Max. Operating Pressure	Usable Oil Cap.	Weight	Order No.	Price
XA-11	15"/min.	10,000 PSI	61	19 lbs	**KL70139200**	Price

ENERPAC Turbo II Air Hydraulic Pump

- Easily operated by hand or by foot
- High efficiency cast aluminum air motor for increased life and reduce air consumption
- Fully serviceable air motor assembly
- Reinforce heavy-duty reservoir for applications in tough environments
- New generation air saver piston with rugged one-piece design reduces air consumption and operating costs
- Return-to-tank port for use in remote valve applications
- Quiet-only 76 dBA with low air consumption of 12 scfm
- Operating air pressure: 40-125psi, enables pump to start at extremely low pressure
- Internal pressure relief valve provides overload protection

New!

ENERPAC LW-Seires Hydraulic Vertical Lifting Wedge

- Lifting force of 16 tons at 700 bar hydraulic pressure
- Requires very small access gap of only 10mm
- Each step can spread under full load
- Straight vertical lifting
- Unique interlocking wedge design; no first step bending and risk of slipping out
- Single-acting, spring return cylinder
- Includes safety block SB-2
- Includes RC-Series Cylinder with CR-400 coupler
- Maximum Lifting Force: 16 tons
- Lifting Stroke: 21mm
- Tip Clearance/ Max. Spread: 10 / 81,5
- Maximum Oeprating Pressure: 700 bar
- Oil Capacity: 78
- Weight 20.90 lbas

New!

Order No.	Price

ENERPAC RSM Series Flat-Jac® Cylinders

- Compact, flat design
- Single-acting, spring return
- RSM-750, 1000 and 1500 have handles for easy carrying
- Mounting holes permit easy fixturing
- Baked enamel finish for increased corrosion resistance
- CR-400 coupler and dust cap included on all models
- Hard chrome plated high quality steel plungers
- Grooved plunger ends require no saddle

New!

HARRINGTON Premium Industrial/Contractor Quality Lever Puller

- Lightweight – Durable all-steel construction weighs less than comparable aluminum models
- Weston-Style Load Brake – Utilizes two moisture-resistant brake pads and four braking surfaces for positive braking action. Two brake pawls.
- Easy Load Chain Adjustment – Spring loaded free-wheel knob makes the LB the easiest puller to adjust in the market
- Single Load Chain Fall – Through 3 ton capacity
- Load Tested – Each LB is tested to 125% of capacity and supplied with a test certificate
- Load chain qty. one
- Optional Load Limit Warning Handle
- 1 Year Warranty

HARRINGTON Portable Hand Chain Hoists

Best in the Industry/Premium Quality

- Exceptional Strength – Thick cross sectional die-cast aluminum body. High strength, heat-treated main shaft, pinions and load gears.
- Weston-Style Load Brake – Utilizes four friction surfaces for positive braking action and easy maintenance
- Minimal Manual Effort – Smooth-running, sealed ball bearings minimize manual effort
- Load Tested – Each CF is tested to 125% of capacity and supplied with a test certificate
- Capacities – Up to 5 tons
- 1 Year Warranty

Hoist Rings

- For heavy lifting and are designed to replace conventional lifting hardware and devices that have been outmoded by new safety regulations

Features:

- 360° Swivel, 180° Pivot
- 5:1 Safety factor
- ISO 9001; 2008 Certified
- Precision machined lifting bail
- Accepted on many Government, Aerospace, and Automotive specifications
- Heat treated alloy steel. Black oxide corrosion resistant finish
- Hoist rings individually numbered

JET S90 Series Chain Hoists

- Weston style double ratchet pawl brake design
- Grade 80 black oxide coated load chain
- Designed with reliability and durability to perform in light-duty industrial applications
- ½ ton to 10 ton Capacities and standard lifts of 10, 15, 20, and 30 feet
- Ideal contractor grade hoist
- Complies with ANSI/ASME B30.16 and HST-2 Standards
- Lifetime Warranty

JET L-Series Chain Hoists

- JET® L-100 Series hand chain hoist integrates safety, durability and innovation enabling it to operate in the most demanding industrial environments
- Safety features such as optional overload protection prevents the hoist from lifting damaging loads beyond its rated capacity
- The JET® exclusive innovation showcased in the patented fused brake system reduces maintenance costs and limits downtime
- JET® is so confident in the durability of the fused brake design we back it with an industry leading lifetime replacement warranty

STREAM MORSE POWER HSM Green Jet Spindle

- Robust, compact high-speed spindle powered by coolant or cutting fluid
- For finishing/semi-finishing operations using small diameter cutting tools
- Plug & Play – no external feed or pre-installation, ATC / turret mountable
- Fitted with wireless speed monitor and display system

Operating Parameters	HSM Jet Spindle
Operating range of coolant pressure*	20bar (290psi) to 40bar (580psi)
Operating range of coolant flow rate	Min 12 L/min / 3.17 Gal/min
Rotational spindle speed	35,000 – 55,000 RPM
Optimum cutting tool sizes: Drilling	Ø 0.5 – 2.0 mm
Optimum cutting tool sizes: Milling	Ø 1.5 – 3.5 mm
Max shank size	7.0 mm
Compatible adaptor models	ER32, HSK-A63, BT30, BT40, ST20, C5, C6, CAT40. Contact factory for other models

* Coolant pressure is measured from the spindle inlet

DISPLAY UNIT	MT0610784	Price

STREAM MORSE POWER HSM Jet Spindle – Tools & Accessories

All HSM Jet Spindle models are supported by specially designed tools and accessories to ensure high accuracy at high speeds.

Standard clamping accessories may not always be sufficient for best performance at higher RPMs. It is recommended to use:
- ER11 AA High precision collets
- ER11 (Shrink) Ø3.0, 4.0mm

Thomas&Betts Winged Wire Connectors

MADE IN THE USA

- Color coded for easy identification
- UL Listed - 6C66
- Streamlined wing uses less space in crowded electrical boxes
- Three sizes for combinations from #6 through #22
- Rated 600 or 1000 Volts as noted
- Temperature rated at 105° maximum

Wire Range (AWG)	UL Rating (Volts)	Color	Pkg. Qty.	Order No.	Price

Mounting Hole Cable Ties

- Effective for use in a wide variety of cable and wire bundling applications that require that a wire or cable bundle be attached to another surface such as a control panel, wall or ceiling
- One piece construction with a mounting hole feature outside the head of the tie allows for consistent performance and reliability
- The design allows for use of a screw or rivet for clamping
- #10 Mount Head Screw

Cable Ties

Thomas&Betts

- Strict tolerances assure locking strength
- Reinforced head and strap transition for added strength
- Bent tip design for easier assembly
- Generous radii on all angles to reduce friction
- Highly engineered tooth and pawl design for max. engagement
- Many other sizes available upon request

Cable Ties Cutter

Thomas&Betts

KL54L200

- Economy tool for use with 18 - 50 pound ties
- Automatic cut-off removes excess strap flush against cable tie head
- Equipped with adjustable tensioning

KL54L400

- Heavy duty tool for use with 18 - 50 pound ties
- Automatic cut-off and adjustable tensioning for dependable use in assembly applications

Socket Head Cap Screws

UNRC Coarse Thread

Ideal for precision assembly work with close tolerances, and applications needing a well tooled appearance. Socket cap screws are internally wrenched, and are black finished in appearance. Heat treated alloy steel.

- Complete traceability
- Quality controlled products machined to ANSI/ASTM Standards
- Heat treated alloy, unified 3A thread fit

Standard Low Head Socket Cap Screws

- Low head socket cap screws are similar to socket cap screws except the head is 50% smaller than a regular socket cap screw
- Excellent in applications where there is limited clearance to accept a socket cap screw
- Pre-loads strengths are less than a standard socket cap screw

Metric Socket Cap Screws

- Ideal for precision assembly work with close tolerances, and applications needing a well tooled appearance
- Supplies greater tensile strength than equivalent sizes of grade 8.8 and 10.9 socket cap screws
- Metric socket cap screws are internally wrenched, and are black finished in appearance
- Grade 12.9 heat treated alloy steel

Button Head Socket Cap Screws

Coarse Thread

Prices Per 100

- The button socket cap screw is close in design to a socket cap screw
- The dome shaped head is wider, and has a lower style head than a socket cap screw
- Button socket cap screws are not recommended for critical, high strength applications
- Heat treated alloy steel class 3A thread fit standard

Pressure Pipe Plugs

Diameter Range:

- NPTF 1/16 through 1-1/4"
- PTF 1/16 through 3/4"
- Both 3/4 and 7/8" taper plugs used in pneumatic or hydraulic pressure applications
- Alloy steel products have a minimum hardness of 38HRC

Metric Socket Set Cup Point Screws

Grade 14.9 Threads – ISO Metric

- Most common set screw style used
- Designed for fast, permanent/semi-permanent location of parts on shafts, where cutting in of a cup edge is acceptable
- Heat Treated Alloy Steel

Metric Socket Shoulder Screws

WORLD CLASS QUALITY

- A hex socket screw with an enlarged, unthreaded shoulder under the socket driven head
- The threaded portion of the shoulder screw is usually one standard size below the shoulder diameter
- Shoulder screws are often referred to as “stripper bolts”
- Most used for rotation or sliding applications, such as pulley shafts, in punch work, or for use as a bearing pin
- Shoulder bolts are black in appearance
- Grade 12.9

Shoulder Screws/Bolts

Prices Per 100

SOLD IN BOX QUANTITY ONLY

- Precision ground
- Heat treated alloy steel
- NC thread series
- Class 3A thread
- Used for rotation or sliding applications such as pulley shafts, in punch work, or for use as a bearing pin
- Shoulder screws are also referred to as “stripper bolts”
- The shoulder screw has an enlarged unthreaded, cylindrical shoulder under the head, the diameter of which serves as basis for the begining of the nominal size

PRECISION BRAND 15 Pc. Shoulder Screw Shim Assortment

Shortening Shims

- Shortening Shims are precision die cut to fit with the close tolerances around the shoulder screw shank to fit under the screw head

Contains:

- **(**15) each .005", .015" and .032" for 1/4", 5/16", 3/8", 1/2", 5/8" & 3/4" bolts – a total of 270 pieces
- Individual sizes available

Order No.	Price
MA5326010	Price

PRECISION BRAND 15 Pc. Stripper Bolt Shim Assortment

Lengthening Shims

- Lengthening Shims fit perfectly over the stripper screw threads and under the shoulder which, in effect, lengthens the stripper screw length

Contains:

- (15) each .005", .015" and .032" for 1/4", 5/16", 3/8", 1/2", 5/8" & 3/4" bolts – a total of 270 pieces
- Individual sizes available

Metric Dowel Pins

- A solid headless straight pin with a closely controlled diameter
- One end is chamfered with the other end radiused to form a crown
- Precise tolerances of dowel pins make them excellent for achieving proper alignment of parts in high-speed assemblies
- DiN 6325
- Heat treated to RC 60 min. — surface
- RC 47-58 - core

MADE IN THE USA Metric Pull Dowels

- Tapped hole for easy pull-out
- Heat treated alloy steel
- Pull dowel pins are easier, more accurate and more economical than modifying standard dowel pins
- Pull dowel pins are easy to install in blind holes, and are reusable
- DiN 7979
- Case hardened RC 58-62

Hex Cap Screws

Hex Cap Grade 5 - Zinc:

- Grade 5 hex head cap screws are heat treated
- Ideal fastener for use in routine fastening applications
- Grade 5 hex cap screws offers the versatility of dual usage in most applications, either as a stronger substitute for a grade 2 application, or its designed purpose as grade 5 hex head cap screw
- Grade 5 hex cap screws are finished with a bright zinc plate

Hex Cap Grade 8 - Zinc/Yellow:

- Grade 8 hex head cap screws are designed for use in areas where there is high stress, and need for extra strength
- Used with grade 8 nuts to give you the reliability and assurance that you need
- The zinc and yellow plating offers a greater degree resistance than standard zinc, and its bright yellow plating will differentiate itself from our grade 5 hex cap screws

Metric Hex Head Screws 10.9

Prices Per 100

- Conforms to DIN-931 standards
- Heat treated and are comparable in strength to a grade 8 hex cap screw
- Metric hex cap screws are designed for use in high stress applications
- Available in a black oil

Spherical Washer Assemblies

- Compensates for slight misalignment between work piece and strap clamp
- Reduces stress on threads
- Case hardened
- Black oxide finish
- Sold together top and bottom
- For 3/16 bolt size, use 1/4; 5/16 use 3/8; 7/16 use 1/2

Lock Washers

- Hardened, split circular washer with a slightly trapezoidal wire selection
- Provides greater bolt tension per unit of applied torque, resist loosening caused by vibration and corrosion, and provide more uniform load distribution
- Zinc coated with a bright finish

Lock Nuts

Stover Lock Nut Grade C Plated

- An all-metal, one-piece hex nut that derives its prevailing torque feature from a controlled distortion of its top threads from their normal circle form to a more oval shape
- The grade C feature gives it a high quality strength consistent with grade 8
- Zinc plated

Nylon Insert (Elastic) Stop Nut

- A Hex nut with a nylon-filled collar on one end
- The locking feature engages when a screw reaches the collar and forms a tight fit
- Excellent for areas exposed to vibration
- Zinc plated

Thread - Coarse

Finished Hex Nuts

Finished Hex Nuts Grade 2
- Low carbon nut used with a grade 2 fastener
- Used in light duty work
- Zinc plating offers a bright finished look with a good corrosion resistance in many environments not exposed to excessive moisture

Finished Hex Nuts - Grade 5
- Medium grade hex nut used with grade 5, or low carbon fastener
- Common usage is medium duty work to fasten items together that has a higher need for strength than grade 2 fasteners
- Plating same as grade 2 hex nut

Thread - Coarse Grade - Grade 2

Finished Hex Nuts Grade 8
- High grade hex nut used with grade 8 fasteners
- This grade is very strong, and is used with bolts that have a minimum tensile strength equal to or less than 150,000 PSI
- The zinc & yellow plating offers a greater degree of corrosion resistance than standard zinc, and its bright yellow plating will differentiate itself from our grade 2 and grade 5 hex nuts

Metric Nuts

Hex Nuts Zinc:
- Conforms to **DIN-934** standards
- Available in material grade 8.8 non-heat treated, and grade 10.9 heat treated
- Metric hex nuts should be used with equivalent grade bolts and screws
- Zinc plated, with a bright finish

Nylon Insert Lock Nuts:
- Conforms to **DIN–985** standards
- Available in class 8, and class 10
- Nylon insert lock nuts have a nylon-filled collar at its back end
- When the screw reaches the collar, the threads and nylon form a tight fit, restricting movement of the screw when it's subjected to vibration
- Available in zinc bright finish

Hex Jam Nuts

- A six-sided internally threaded fastener which is only 2/3 thickness of a full form nut
- Jam nuts are tightened against the work surface and a finished, or heavy hex nut is tightened against the jam nut to keep it from loosening
- Zinc coated with a bright finish

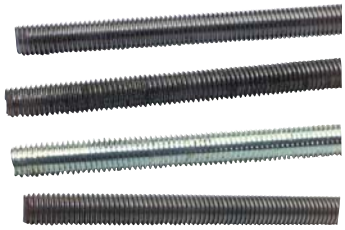
MADE IN THE USA Threaded Rod



Steel-Oil Plain:
- Low carbon AISI C-1010 to C-1020 type steel
- Coarse or Fine thread
- Zinc Plated coated

B7 Alloy Steel:
- Made from alloy steel 4140B-7
- Manufactured with chromium molybdenum for high strength and through hardness

304 Stainless:
- Corrosion resistance (18-8 stainless steel)
- Designed for use in chemical, marine, and other environments where corrosion protection is needed
- Non-magnetic
- **Sold in 3 Foot Lengths**

Material - B-7 Alloy

Wedge Anchors

- Used for heavy duty fastening applications where high pullout values are required
- The advanced design of the collar reduces the likelihood of the anchor "spinning"
- Used in a wide variety of structural applications
- Pipe-hanging tilt-ups, bridges, elevator equipment, conveyors and highway construction frequently require the wedge type anchor
- Ideal for installing machinery, hand rails, dock bumpers and storage racks, etc.
- Wedge anchors are sold unassembled with the appropriate nuts and washers

Sleeve Anchors

- Dependable for use in brick, cinder block, thin wall, marble and concrete
- One benefit is that the base material doesn't have to be solid
- Like the wedge anchor, the sleeve anchors diameter and the hole size are the same, simplifying installation
- The variety of head styles offers extra versatility, and this preassembled anchor is extremely fast and easy to use
- Ability to remove this anchor after installation
- Used for anchoring window and door frames, thresholds, cabinets, theater seats, duct straps, dock bumpers, aluminum and steel angles, steel columns, etc.

MADE IN THE USA Drill Rods

- (A-2) Air-hardening ground and polished drill rod
- (S-7) Shock Resistant Tool Steel Super-7
- (O-1) A non-shrinking general purpose tool steel
- (W-1) Water hardened drill rod is the most popular, versatile, and least expensive grade of drill rod
- High carbon contents allows it to be used often without heat treatment, for maintenance applications
- Oil hardened drill rod, has excellent abrasion resistance, toughness and machinability characteristics
- 3 Feet lengths

Material - A-2

Woodruff Keys

- Used to lock pulleys and gears tightly to transmission shafts
- Keys reach deep into key shaft and become firmly embedded, but also rock in their seat and adjust to an angular spine

PRECISION BRAND Color Coded Shim

Plastic Material

- Color Coded Shim is made from a high quality plastic material
- Great for all your plastic shim requirements
- Used for gaskets, special parts and various manufacturing applications
- Easy to cut
- Resists oil
- Minimal compression during use
- Thickness tolerances to industry standards
- Consistent performance
- Non-conductive to electricty
- Thickness indicated by shim color
- Eliminates need for micrometer, saves time and reduces error

How to use the PRECISION BRAND Sets:

- Punch the I.D. hole first
- Attach the appropriate I.D. pilot to the O.D. punch
- Insert the O.D. punch so that the I.D. pilot moves into the I.D. hole which should automatically center the material. Make sure the O.D. punch has been pushed completely through the top plate and is touching the material
- Strike the punch squarely with enough force to penetrate the material with one blow

PRECISION BRAND Punch & Die Set

- Traditional style punch & die set
- Economical way to make washers, shims and gaskets
- Cut steel, brass, copper, aluminum, rubber and plastic up to .025" thick
- Cut stainless and blue tempered shim up to .010" thick
- Packaged in durable plastic case
- The base and punches are made of a hardened and ground A-2 tool steel
- Clear plastic top plate is marked with accurate center lines
- Mark center lines, align with center lines and hit with hammer
- Nine punch sizes: 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2, 5/8 and 3/4"

Order No.	Price

PRECISION BRAND Punch & Die Stand

- Provides solid support for consistent shim and washer fabricating
- Custom fit, sturdy steel die stand holds dies from any of the sets: 40105, 40110, 40200 & 40300
- Stand allows for easy access to cut shims and washers
- Elevated die allows punches to fall clean, reduces shim burrs and decreases possible damage to punches
- The last hammer hit to push the punch completely through the die is eliminated, thus reducing risk of injury to the hand holding the die during this process

The First Self-Centering Punch & Die

- PRECISION BRAND TruPunch® sets make perfect, custom washers, shims, and gaskets in seconds
- Eliminates time and material wasted with conventional punch & dies
- No guess work need to center the I.D.
- No need to scribe center lines
- Exclusive, patented punch, pilot and pin system
- Packaged in a durable plastic case

PRECISION BRAND TruPunch® Punch & Die Set

- TruPunch® can accommodate O.D. sizes up to 3/4"
- Nine punch sizes: 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2, 5/8 and 3/4"
- Eight I.D. pilot sizes: 1/8, 3/16, 1/4, 5/16, 3/8, 7/16, 1/2 and 5/8"
- Cut steel, brass, copper, aluminum, rubber, and plastic effortlessly up to .025" thick
- Cut stainless and blue tempered shim up to .010" thick

Precision Ground O-1 Gage Stock - 36" Length

- O-1 Oil Hardening Ground Flat Stock
- Electric furnace melt oil-hardening tool steel supplied with a fully spheroidized structure
- Non-shrinking general purpose tool steel
- **HEAT TREATMENT:** For sections smaller than 1/4" heat to 1450° – 1475°F & hold until heated through. For larger sections, preheat to 1200°F, then raise to 1450° – 1500°F hardening temperature, hold half an hour per inch of cross section. Quench in oil at 125° –1 50°F & **Temper Immediately.**
- **Tolerance Thickness ±.001" Width +.000 / .005"**

Tempering Data	
Temper °F	Rockwell C Hardness
As Quenched	63-65

A-2 Air Hardening Ground Flat Stock - 18" Length

- Made from fine grain, electric furnace air-hardening, 5 chrome tool steel
- Has excellent wear and abrasion resistance properties
- Furnished with a fully spheroidized structure and is 100 free of decarb and other surface imperfections.
- **Low sulphur content makes it non-freemachining.**
- **HEAT TREATMENT:** Preheat thoroughly at 1450°F, then raise to hardening temperature 1725° – 1800°F and soak uniformly. For larger sections, use high side; for thin or smaller sections, use low side. Quench in still air or dry air blast at 125° – 175°F, then **Temper Immediately**.
- **Tolerance Thickness ±.001" Width +.000/.005"**
- Larger Sizes A-2 available thru 1" thickness
- Oversize tolerances available thru 2" thickness
- Many other types of gage stock available
- Modified Nutec 42
- A-6 Diecrat
- D-2 Aristocrat
- S-7
- C-1018 Marshallcrat low carbon

PRECISION BRAND Tool Wraps

- Made of soft annealed, stainless steel
- Helps protect from scale and oxide buildup during heat treating in atmospheric furnaces
- Resistant to chromium carbide precipitation during exposure to high temperatures
- Eliminates decarburization buildup
- Protects the surface of air hardening tool steels
- Cut-to-fit stainless steel tool wrap creates an airtight envelope around your part
- Type 321 can be used in furnaces up to 2000˚F (1093˚C)
- Type 309 can be used in furnaces up to 2240°F (1227°C)
- You realize the benefits of a vacuum furnace at a fraction of the cost
- Thickness: 0.002"

A-2 Air Hardening Ground Flat Stock - 36" Length

- Made from fine grain, electric furnace air-hardening, 5 chrome tool steel
- Has excellent wear and abrasion resistance properties
- Furnished with a fully spheroidized structure and is 100 free of decarb and other surface imperfections.
- **Low sulphur content makes it non-freemachining.**
- **HEAT TREATMENT:** Preheat thoroughly at 1450°F, then raise to hardening temperature 1725° – 1800°F and soak uniformly. For larger sections, use high side; for thin or smaller sections, use low side. Quench in still air or dry air blast at 125° – 175°F, then **Temper Immediately**.
- **Tolerance Thickness ±.001" Width +.000/.005"**
- Larger Sizes A-2 available thru 1" thickness
- Oversize tolerances available thru 2" thickness
- Many other types of gage stock available
- Modified Nutec 42
- A-6 Diecrat
- D-2 Aristocrat
- S-7
- C-1018 Marshallcrat low carbon

Oversize O-1 Oil Hardening Ground Flat Stock 18 & 36" OAL

- Flat Ground Stock is manufactured from fine grain tool steel, electrically melted from high grade materials to close limits of analysis
- Ideal for the manufacture of dies, gages, punches, templates, jigs and precision tools
- Width: +.010/.015
- Thickness: +10.010/.015
- Squareness edge to surface .003 per inch of thickness
- Finish 10-25 micro inches

Low-Carbon 24" Length Ground Flat Stock

- A fine-grained, vacuum-degassed carbon steel
- Easily machined, has excellent weldability and responds uniformly to case hardening
- Manganese content provides greater strength and hardness compared to many other carbon steels
- Often used in its natural state for such applications as backup plate, stripper plates, punch pads and machine parts
- Used for jigs, fixtures, cams and patterns
- **Hardening:** CARBURIZING: For maximum depth of hardening, 1/21", hold in carburizing salt at 1700°F for 3 hours. CASE HARDENING: Hold in sodium cyanide salt bath at 1500°F for 30 minutes. Maximum case is .006"

Drill Bushings

- To Size – ANSI and BMP Standard
- CONCENTRICITY - (Total indicator reading)
- Bushings 1/8" to 1/2" I.D.- Concentricity 0" to .0003" (Max.)
- Other Sizes - Concentricity 0" to .0005" (Max.)
- Above tolerances will be met at the drill exit end
- HARDNESS - Rockwell C 62-65 in the hole
- RADIUS COUNTERSINK - All bushings feature a radius countersink on the drill entrance end.

Auto-Adjust Toggle Clamps

- Auto-Adjust Toggle Clamp automatically adjusts to variations in work piece dimensions while maintaining constant clamping force
- Removable non-marring plastic cap is included on the 7/8" diameter pads.
- **Adjustable Clamping Force:** The integrated clamping force adjustment screw can be used to create an actually applied clamping force from 25 to 550 lbs. (max holding capacity 700 lbs.) One BESSEY® Auto-Adjust Toggle Clamp can replace a range of competitive clamps.
- **Adaptable Base Plate:** The large (2 1/4" x 2 1/2") flanged base is designed for use with 1/4" or M6 fasteners. Mounting holes are sized & spaced for easy mounting and versatility.
- **Extra large handle:** The large 1" x 2-1/8" handle offers greater user comfort and ease of operation

DESTACO Vertical Hold Down Action Clamps

- Ideal for all sectors in which work is performed with holding capacities of up to 1200 lbs.
- Applications include assembly, drilling, testing, gluing, and other processing operations
- Oil-resistant ergo-handle for easy operations
- 4-Bar styles include spindle flanged-washer and nuts
- Solid-bar includes bolt retainer that can be welded to bar

(T) Flanged washer not included
† U-bar style comes with spindle, nuts and flanged-washer, solid bar comes with bolt retainer clip

DESTACO Vertical Hold Down Toggle Locking Clamps

2000 Series

- Designed with 2-3x's higher holding capacity
- Compact design
- Great hand clearance for pinch point protection
- More flexibility
- Ideal for fixtures and applications with restricted space where high holding capacity is required

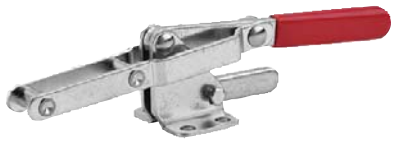
RAPIDHOLD Horizontal Pull Action Latch Clamps

New!

- Operate with a pulling action
- Ideally suited for stationary latching applications such as a door, lid, and mold closures



Model No.	Overall Height (in.)	OAL (in.)	Mounting Length (in.)	Mounting Width (in.)	Mount Dia. (in.)	Hook Dia. (in.)	Min Distance (in.)	Holding Capacity	Order No.	Price
R121	1.87	8.31	.74	1.24	.28	.26	2.24	375 lbs	**RH10R121**	Price

RAPIDHOLD™ Push / Pull Toggle Clamps

- Provides straight line clamping/positioning action
- Most models can be locked over-center in either extended or retracted position
- Useful in a wide range of applications beyond workholding
- Handle must be allowed to rotate > 180° for over-center locking in retracted position - Handle will fall below mounting surface

New!

DESTACO Latch Plates

Description	Order No.	Price
Fits Clamp No. 331	**MA50331005**	Price
Fits Clamp No. 341	**MA50341005**	Price
Fits Clamp No. 375 & 385	**MA50385102**	Price

DESTACO Plunger-matic Assemblies

- Use with straight line action clamps
- Internal compression spring compensates for variations in material
- Zinc plated
- Includes jaw nuts

RAPIDHOLD Stainless Steel Push / Pull Toggle Clamps

- Provides straight line clamping/positioning action
- Most models can be locked over-center in either extended or retracted position
- Useful in a wide range of applications beyond workholding
- Handle must be allowed to rotate > 180° for over-center locking in retracted position - Handle will fall below mounting surface

New!

DESTACO Pneumatic Swing Cylinder Clamps

- 90° Swing of clamping arm
- 3/8" Clamping stroke (vertical arm) adjust automatically on every cycle
- Clamping force is adjustable across a wide range: 20 lbs to 160 lbs
- Intended for quick clamping in secondary manufacturing operations on metallic or non-metallic products

DESTACO Pneumatic Power Clamp Sensors

- Sensors are activated by a magnetic ring installed on the cylinder piston
- All sensors feature an LED for easy set-up
- IP67 rated
- Temperature Range: -10°C to 60°C (14°F to 140°F)

MADE IN THE USA

Black Delrin® Heavy End Force Standard Spring Plungers with Locking Element

- Ideal for aluminum, brass or any soft, easily marred material

Steel Body Plungers:

- 12L14 Steel body
- Black oxide finish
- Black Delrin® nose

Stainless Steel Body Plungers:

- 303 Stainless steel body
- Black Delrin® nose

MADE IN THE USA

Kwik-Turn T-Slot Nuts

- Material: Low Carbon Steel
- Finish: Black Oxide
- Threads: 2B-UNC (Inch)
- Heat Treat: Case Hardened
- 1/4 turn design allows the Kwik-Turn to be installed from the top of the T-Slot, in order to avoid uninstallation of set-ups when additional nuts and studs are required

Adjustable Step Blocks

- Step blocks are made of aluminum to prevent damage to the machine table surfaces
- Tooth design has no sharp edges which helps to prevent burrs and chip build-up in the steps
- Blocks are completely interchangeable with each other
- Step elevation 11/64”

Heavy Duty Double Action Edge Clamps

MADE IN THE USA

- Double action, adjustable nose exerts clamping forces both in and down
- Low profile provides greater machining clearance
- "V" groove in nose allows positive grip on round parts and corners
- Removable aluminum nose cap prevents damage to work piece
- Black oxide finish
- Case hardened
- Tapered slot prevents clamp from sliding off workpiece during tightening
- Standard grip (with removable aluminum nose cap)

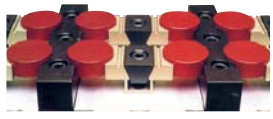
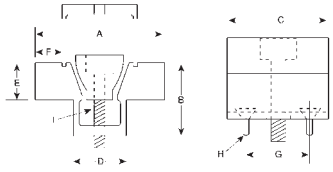
Machinable Uniforce Clamps





- The compact Uniforce® clamp is available with extra material on the clamping jaws so it can be machined to conform to the shape of your workpiece - enabling you to fixture unusual applications easily
- The specially designed steel wedge spreads the clamping force uniformly on both sides of the 7075-T6 aluminum channel
- *A: The distance needed between workpieces for clamp clearance, drill and tap mounting holes on the center of “A” dimension
- †F: The amount of machinable stock on jaws
- **H: Mounting screws included
- NOTE: Locking plate properly expands the clamp, while making it rigid for machining - Machine to a slip fit on workpiece - Remove locking plate before clamping workpiece

MiTee-Bite Products Company Fixture Clamps

- Made up of two simple components: a hardened steel socket cap screw with an offset head & a hexagonal washer
- Low profile for quick and easy installation of linear motion gide rails
- Cam action provides fast, strong clamping
- Small size allows more parts per load

MiTee-Bite Products Company ID Xpansion Clamps

- Ideal way to hold parts on an inside diameter for multiple machining on vertical or horizontal machining centers
- Can also be used as an expanding mandrel on a lathe
- Produced in 12L14 steel with black oxide coating
- Can hold interanl diameters from under 3/16 to amlomst 10” (4.0 to 254mm)
- No. 10 manufactured using 7076-T6 aluminum
- Flange diameter of the clamp is held to a close tolerance for precision locating in a machined pocket on work cubes and fixture plates
- Wuickly tightened with a hex key, torque driver or can be mated to hydraulic pull cylinders for automation
- G†- Minimum diameter the “F” dimension be machined or turned down to
- H*-(3) Mounting screws included

Pitbull® Clamps

- Revolutionary Pitbull® clamp remains the lowest profile, highest holding force clampe
- High vertical and horizontal clamping forces are generated, considering the size of the Pitbull® Clamps
- Uses a standard cap screw and an oil resistant O-ring
- Low bite
- Positive down force
- High strength A2 Tool Steel
- D*- Clamp height

Deep Throat C-Clamps

- Built from state-of-the-art research, computer aided design, and all new steel spring tempered frame geometry - coupled with an advanced heat treating process creates c-clamps that provide a secure and accurate hold
- Black-oxide spindles that resist wear and tear while impeding rust
- Innovative spring tempered steel frames with extra throat depth and high strength
- Through hardened steel spindles provide greater loading capabilites and longer service life
- Bodies have nickel and chrome plated finish, replaceable swivel pads
- Lifetime Warranty

Steel Clamps

MightyMini STEEL

- Sliding arm moves to position itself right next to your workpiece to support the Acme threaded screw
- By comparison, when a 3" C-clamp is used to do the job of a 1" C-clamp, the point of support for the screw does NOT move… leaving the extended screw to do all the work

Nominal Size (in.)	Throat Depth (in.)	Nominal Clamping Cap.	Order No.	Price
4	2-1/4	660 lbs	**SG75MMS4**	Price
8	2-1/2	660 lbs	**SG75MMS8**	Price

SQ Series Regular Duty L-Clamps

- The fast action sliding arm mechanism can save up to 90% in labor cost.
- The tough, dependable Bessey quality makes the SQ the clamp of choice for the North American welding and Industrial workplace!

Nominal Opening (in.)	Throat Depth (in.)	Clamping Pressure	Order No.	Price

20	4-3/4	2660 lbs	**SG75SQ20**	Price

All Steel L-Clamps

With Patented 35° Tilt Morpad Assembly

- Nine times faster than a C-Clamp
- Easy to use, just slide moveable arm into position and tighten screw spindle
- Instant clamping at any opening
- No wasted set-up time
- Save 90% of clamping time versus the ordinary "C" Clamp

Pipe Clamps

PC Style:

- Acme threaded spindle and multiple clutch plates
- Easty to assemble and a staple item for many workshops
- Plated spindles to prevent rust and corrosion
- Large clamping surface - positive grip
- Large handle - positive pressure
- Shown with pipe not included

PC-2 Style:

- Large clamping surface
- Acme threaded screw
- Hex head on spindle
- Virtually limitless clamping capacity determined by the length of pipe used

MAG-MATE® Rare Earth Ring Magnets

- Extremely powerful
- Ideal for small applications
- Maximum temperature 180°F (82°C)
- High resistance to demagnetization
- Nickel plated finish

Dia. (in.)	Length	Holding Capacity (lbs)	Order No.	Price

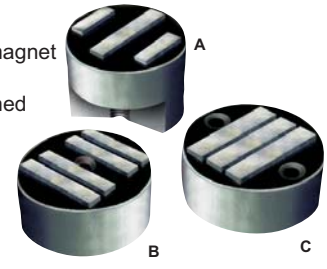
MAG-MATE® Rare Earth Exposed Pole Magnets

- Rare Earth Neodymium 3 & 4-Pole magnet in an aluminum insulated cup
- Extended poles can be lightly machined
- Can be press fit or use hole for mounting. +/- .008" diameter & +/- .015" length
- Maximum temperature 180°F (82°C)



Dia. (in.)	Length (in.)	Thread Size	Depth (in.)	Pull (lbs.)	Style	Order No.	Price

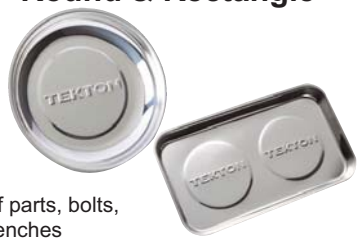
Magnetic Parts Trays - Round & Rectangle

- Polished stainless steel tray
- Round diameter: 6", deep: 1-1/2" or rectangle 9-1/2" x 5-1/2"
- Strong magnet with rubber protective cover won't scratch painted surfaces
- Magnet attaches to car hoods or fenders for convenient storage of parts, bolts, nuts, screws, and even small wrenches



Item	Size (in.)	Order No.	Price
PRM PRO	5-1/2 x 1-1/8	KP8345020	Price

	6 x 1-1/2	KP8567440	Price

TITAN Rectangular Magnetic Parts Tray

- 6-1/2" x 14" Stainless steel dish - 1" deep
- Perfect for holding pars, hardware and fasteners in place
- Sticks to any ferrous metal surfaces - it even works upside down
- Non marring vinyl magnetic base

New!

Order No.	Price
KP8221263	Price

TITAN Square Magnetic Parts Tray

New!

- Size: 10-1/2" x 11-1/2" - 1" deep
- Stainless steel dish
- Perfect for holding parts, hardware and fasteners in place
- Sticks to any ferrous metal surfaces
- Non-marring rubber covered magnetic base prevents scratching

Order No.	Price
KP8221262	Price

Magnetic Retrievers

- Designed with a rare earth magnet 6 times the power of a regular magnet
- 16" & 36" sizes available with a 26 oz. dump shipped out
- Both sizes 1" diameter with a magnetic field of 7-1/2"

Item	Length (in.)	Order No.	Price
BESSEY	16	SG75MW1	Price
MAG-MATE	16	NE7020125	Price

TITAN Magnetic Strainer

New!

- 10-1/2" diameter x 3-1/2" deep
- Great for collecting small metal items such as tools, bolts, nails, screws, and fasteners
- Anti-rust, durable, stainless steel strainer is perfect for washing dirty tools
- Tools can be attracted firmly during flushing
- Rubber coated magnet prevents scuffing and scratching surfaces

Order No.	Price
KP8211180	Price

STEELMAN PRO Magnetic Lug Bucket

New!

- SECURE MOUNTING - Bucket mounts securely on tool boxes, lifts, tire machines, and almost any metal surface
- RUGGED POLYPROPYLENE - Rugged polypropylene construction helps absorb impacts
- POWERFUL MAGNETS - Three high-strength neodymium magnets hold up to 10 pounds of parts and components
- 6 MAGNET POSITIONS - 6 total top and side magnet positions allow for multiple mounting configurations
- GROOVED DIVIDERS - Grooved dividers help separate parts while working

Order No.	Price
KE5379011	Price

TITAN Collapsible Magnetic Parts Tray

- Size: 2 to 5"
- Perfect for holding small parts, hardware and fasteners in place
- Sticks to any ferrous metal surface
- Rubber covered prevents scratching

New!

Order No.	Price
KP8221270	Price

Long Reach Magnetic Retrievers

- Tekton has Telescoping Shaft that compact to 21" for storage
- Mag-Mate is made in USA
- World Class is manually operated, Head: 1" diameter; Attracts items up to 11 lbs in weight
- PRM PRO: Powerful Rare Earth magnet material. Rare Earth tools have a maximum temperature of 180°F (82°C)

MAG-MATE® Polymagnet Rare Earth Discs

- Max-Attach Polymagnets
- Unique possibilites compared to conventionally magnetized magnets
- Particular magnetic function is encoded into the magnet, focusing the magnetic field for better magnet on metal performance
- Delivers much greater shear strength and holding power than conventionaly magnets of the same size and grade for outstanding performance in standard applications such as magnetic hooks and hangers, magnetic whiteboards, and magnetic paint or primer

MAG-MATE® Magnetic Squaring Arm for Press Brakes

- Powerful Rare Earth Magnets hold tight to die
- Arm swings from 90° to 20° in two directions allowing for 140° swing in total
- Arm is magnetic to hold small steel pieces, keep fingers away
- Adjustable handle secures arm at proper angle and moves out of the way
- Locator rule on leading edge helps locate squaring arm
- Stainless Steel/Aluminum construction
- Safety strap prevents squaring arm from falling off if accidentally knocked off die

MAG-MATE® BasicLift™ Ceramic Lift Magnets

For Lifting Thick, Non-Flexing, Flat Steel Items

Permanent lift magnet for a broad range of lifting applications. The Basic Lift magnet has a full width cam release and a tall lift lug for easy use with crane hooks and sling.

- Full width cam release
- Large lift lug
- Light weight Design
- Durable Stainless Steel casing
- Heat resistant up to 300°F (148°C)
- 2:1 Design Factor

MADE IN THE USA

MAG-MATE® Creative Lift® Ceramic Lift Magnets

For Lifting Thick, Non-Flexing, Flat Steel Items

Permanent lift magnets are ideal for handling steel plates, die castings, forgings, etc. They eliminate the need for clamping devices, slings or chains. The patented Non-Marring Roller Cam Release will easily release parts without gouging your valuable materials (U.S. Patent: 6,471,273 B1). F.O.B MI

- Spring return handle
- Less torque required to release load
- "Jack Screw", Secondary Release
- Durable Stainless Steel Casing
- Heat Resistant up to 300°F (148°C)
- 3:1 Design Factor
- Conforms to ASME B30.20 Standards
- † Maximum sheet length for specified material thicknesses are selected due to the sag characteristics of the specified length

MAG-MATE® PowerLift® Rare Earth Lift Magnets

For Lifting Thick Non-Flexing Steel Items

- Lightweight On/Off Rare Earth Design
- Easy release, no moving parts contact the load
- Heat resistant up to 180°F (82°C)
- 3:1 Design Factor
- Conforms to ASME B30.20 Standards
- Lifts flat or round loads
- RFID Enabled
- Handle locks in both "On" or "Off" position
- †Maximum sheet length for specified material thicknesses are selected due to the sag characteristics of the specified length
- Hazard Code: 05

MAG-MATE® VersaLift™ Magnets

- Rare earth magnet with a locking on/off handle & test load feature
- Supports custom pole shoes
- Lifts flat or round loads
- Heat resistant up to 180°F (82°C)
- Stationary lift lug(s)
- Vertical left capable using the optional lift lug attachment
- Embedded RFID chip
- 3:1 Design factor
- Conforms to ASME B30.20 Standards
- †Maximum sheet length for specified material thicknesses are selected due to the sag characteristics of the specified length

MADE IN THE USA

Compact and powerful rare earth permanent lift magnet for use on flat or round surfaces. Contains an internal on/off release device that does not contact or damage the surface of the part. Permanent magnetic lifts eliminate the fear of dropping the load being lifted due to power failures. Use two or more lifts on a spreader bar to prevent sheet flexing, sagging or peel-off. To operate Test Feature, pull spring loaded handle out and rotate it to the "Test" position. Lift load approximately 2-3" to verify the magnet has the capacity to lift your load. Once verified, place load back down and turn the handle to the "ON" position. Never complete entire lift operation in "Test" position.

Lisle Rubber Faced Vise Jaw Pads

- For protecting delicate parts
- Rubber jaw pads protect delicate parts from damage
- Also works great for holding irregular shapes
- Strong nitrile magnets attach to any steel vise jaw
- Pad length is 4”

Order No.	Price
KN6548100	Price

Bessey Multi Purpose Vise Jaws

- Designed to fit any 3-6” ferrous vise jaw
- Magnetic backing
- Great for holding wood, metal & tubing without marring

BV-NVJ	3 - 6	.50 lbs	SG75BVNVJ	Price

Wilton Multi Grip Vise Jaws

- Soft polyurethane jaws designed to avoid marring the surface of softer metals and to protect jaw face
- Designed to fit any 3” – 6” vise jaws, including all WILTON® and Columbian® vises
- Magnetic back mounts securely to jaw
- Great for holding wood, metal and tubing

Order No.	Price
HZ4021111	Price

Wilton Copper Jaw Caps

MADE IN THE USA

- Designed to avoid marring the surface of softer metal and to protect jaw faces
- Jaw caps have polished faces and pliable copper extensions for a sure-grip fit on any make vise
- **Priced per pair**

Wilton Magnefix Vise Jaw Caps

Magnetic Protective Jaw Caps

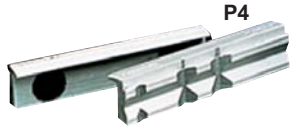
Designed to protect both the vise jaws and the workpiece from marring or deforming during clamping.

- Aluminum alloy with two built-in circular magnets
- Caps are magnetic only towards the vise – clamped parts will not become magnetized
- Right angled and surface parallel to fit any type vise

Model P - Prism Magnefix Jaw Caps

- Jaw construction includes a 120° horizontal Vee-Groove, 3 vertical Vee-Grooves and a 90° groove for marking out and center punching
- Ideal for light tapping

P4



Model R - Rubber Face Magnefix Jaw Caps

- Aluminum alloy with synthetic rubber cover
- Conforms to workpiece and grip without slipping
- Mar-free

R4

Model F- Fiber Face Magneflex Jaw Caps

- Aluminum alloy with laminated fiber cover to prevent the absorption of outside materials
- Heat parts rapidly by concentrating heat into part
- Use on workpieces to avoid distortion and clamping marks

F4

Model A- Aluminum Magneflex Jaw Caps

- Aluminum alloy design includes six grooves to compensate for the unevenness of the workpiece
- Deeper V-groove ensures more secure clamping of circular workpieces
- Use together with rubber magnefix jaw caps

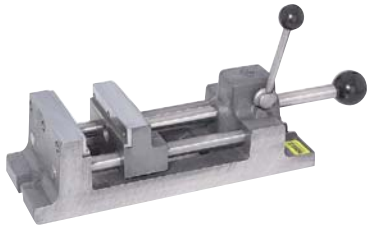
heinrich Cam Action Drill Press Vises

5 Styles to Choose From!

MADE IN THE USA



- Designed for fast loading and unloading
- SV- Standard series locking mechanism, when actuated sets the jaw in place
- PA - Pumping action series is able to advance the jaw forward by “pumping the locking lever”
- GM - Series is similar to the (SV), except it has one side ground perpendicular to the base, which allows for the vise to be rotated 90°, thus eliminating the refixturing of the workpart
- TS - Series is similar to the (SV) except it has two ground sides perpendicular to the base. This allows the base to be rotated ±90°
- PA - Series is ideal for warped castings, wood, or metal laminations and plastics
- Holding power is adjustable from 400 to 1100 lbs. for (SA, GA, TS) series, 200-350 lbs. for (PA)
- Vise base is designed for clear through drilling

F.O.B. Warren, MI

WILTON Low Profile Drill Press Vises

- Low profile clearance for increased working room on machine table
- Hardened V Grooved Jaws hold round shaped objects both vertically and horizontally
- Fine grain cast iron casting and hardened steel vise jaws
- Highly accurate with beds and bases parallel to ±.001”
- Base has four 1/2” shoulder slots for quick, easy positioning on the machine table
- 1 Year Warranty

Cross Slide Drill Press Vises

- Accurately moves your workpiece in horizontal and longitudinal for precise positioning
- Cast side knobs accurately dial in .1mm increments
- Hardened V Grooved Jaws hold round shaped objects both vertically and horizontally
- Durable construction with fine grain cast iron castings
- Black oxide coated screw provides consistent clamping pressure
- Durable base has 5 bolt lugs for easy mounting on a machine table

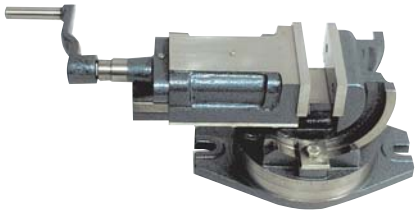
Universal 2-Way Angle Vises

- Positive locking to withstand heavy loads
- Horizontal swivel movement 360°
- Vertical swivel movement 90°
- Totally enclosed Acme thread screw
- Vises supplied with plain jaws
- Designed for milling, grinding, shaping, drilling, and jig boring
- Vise body made of high grade casting



Jaw Width (in.)	Jaw Opening (in.)	Jaw Depth (in.)	Vise Height (in.)	Vise Length (in.)	Weight	Order No.	Price

Universal 3-Way Angle Vises

- Angle can be set in 3 dimensions
- Swivels 360° around base
- Vise can be elevated through 90° from horizontal to vertical
- Can be tilted on its lower angle base up to 45° in both right and left
- Workpiece is steady and smooth, in all permissible angle settings
- Ideal for milling, grinding, tapping, chamfering, and inspection
- Precision quality

Super Precision 3-Way Tilting Machine Vises

- Perfect for 3 axis jobs in milling, drilling, grinding, shaping and jig boring
- Manufactured from close grain high tensile cast iron
- Jaw plates, hardened and ground
- Hardness of jaws – 55 ±3 HRC
- No jaw tilt
- 360° Swivel bases
- Accuracy indexed for 3 way angular work
- All ground surfaces are made to close accuracies
- 90° Vertical indexing
- 45° Tilting range on either side
- Lifetime warranty

2 Pc. Milling Machine Vises

- Utilize full length of machine bed
- Work locates directly on bed for rigidity
- Soft jaws locate on bed and can be keyed to table slots for accuracy
- Quarter turn of detachable handle clamps work firm enough for heaviest cuts
- Hardened & ground jaws
- Precision machined
- Highest quality casting

Angle Swive Vises

New!

- Handy robust angle vises are indispensable for work that requires frequent angle setups, including drilling, tapping, reaming, milling, and grinding
- Base and bed are parallel to 0.004 in with the jaw surface square to 0.002
- Angle hinge is graduated in 1 degree increments from 0 to 90 degrees
- Hinge pin hole is precision drilled and reamed for smooth accurate angle settings, with no lateral end play
- Can be mounted with or with out the swivel base
- Both the swivel base and angle vise feature two 5/8 in bolt slots for mounting
- Lifetime Warranty

Angle & Angle Swivel Vises

- Designed for precision work at angles from 0° to 90° vertical
- Locks with four bolts and two side plates
- Vise body calibrated for vertical angle reading
- Hinge pin hole of body vise precision drilled and reamed to avoid lateral play
- Mounting holes included with vise
- Cast iron construction
- HZ51P250AS & HZ51350AS - Swivel Base Models

Cradle Style Angle Drill Press Vises

- Designed for applications including drilling, tapping and reaming requiring angle setup
- Cradle design with 90° vertical indexing, scaled in 1° increments
- Side tommy bar allows secure locking at any increment from 0° - 90°
- Pin hard stops at 0°, 15°, 30°, 45°, 60°, 75° and 90°
- Durable construction with fine grain cast iron castings and hardened smooth vise jaws
- Lifetime warranty

2-Way Cross Slide Vises

- Secures work piece firmly and accurately on drill press table
- Positive positioning in two coordinates
- Graduated controls for precise adjustment
- Quality construction with Acme threads, adjustable gibs, cast iron body, mounting lugs, independent cross feed and transverse
- Easy to operate - heavy duty construction

Cross Slide Vise

- This unit accurately moves the work in two directions along the X and Y axis
- Ideal for positioning form one machine location to another without losing squareness or alignment
- The cross slide vise gets its strength from the 30,000 PSI tensile strength fine grain cast iron it's made from
- Feed screws are precision cut acme threads
- Built on the cross-slide base
- Dials are graduated in 0.001 in increments
- Counter-balance steel ball crank handles that clear the machine table
- Easily convert from a cross slide vise to a traditional vise by simply removing the screws and the base
- Lifetime Warranty

Cross Slide Vises

- For quick and precise X and Y axis positioning
- Locking levers on both the X and Y axis for securing the vise into position
- Ball-crank handles aid in rapid movement
- Three bolt lugs on each side of the base to match most table configurations
- CV30 and 60 have knurled jaw faces
- CV80 has smooth jaw faces
- Lifetime warranty

PALMGREN® Low Profile Machine Vises

- A rugged vise designed for low clearance applications
- Model 9618422 comes witha 360 degree swivel base
- Base is graduated in 1 degree increments
- This USA made vise has a lifetime guarantee
- Made from 30,000 PSI tensile strength, fine grain cast iron
- Used on drill presses, mill/drills, milling machines, and grinders
- Base and bed are parallel to 0.001 in
- Center of base is open for holding work through the body of the vise
- For locating and mounting on machine table, the base has 7/16 in keyway and two bolt slots

PALMGREN® Dual Force Precision Standard Machine Vises

Recommended for milling, drilling, boring, tapping and finishing operations. Can be used on your machining centers as well as basic manual machine tools.

Features:

- Equipped with Dual Force anti-lift mechanism
- Friction reducing needle bearings help to increae clamping pressure
- Thrust bearing
- Hardened vise bed & jaw plates
- Semi-Hard steel screw
- Extra large opening
- 70,000 PSI ductile iron castings
- Model 9626604 includes swivel base
- Lifetime Guarantee

PALMGREN® Angle Milling Vise

New!

- For milling or other demanding machine applications
- Solid iron construction with stress relieved design
- Removable swivel base graduated in 1 degree increments a full 360 degrees
- Replaceable smooth jaw plates constructed of hardened and ground tool steel
- An 11/16” key for the angle and swivel base
- Trapezoidal-thread lead screw with large cast-iron crank handle
- Made from FC25 fine-grain, cast iron
- Oversize angle hinge eliminates horizontal play
- Base and bed parallel to 0.004 in with jaw surface square to 0.002 in
- Less than 0.004 in (0.1mm) jaw deflection at 4,000 lbs. clamping pressure
- Lifetime Warranty

Jaw Opening (in.)	Jaw Width (in.)	Weight	Order No.	Price
6	5	110 lbs	**JB509622604**	Price

PALMGREN® Swivel Machine Vises

- Intended for demanding vertical and horizontal machining tasks, such as milling and shaping, where strong clamping and secure mounting are all requirements
- The fixed jaw is grooved horizontally and vertically for holding round stock
- This vise has a replaceable steel jaw plate option
- This USA made vise has a lifetime guarantee
- Models 9618402 and 9618602 have a 360 degree swivel base indicated in 1 degree increments
- Can be used on drill presses, mills/drills, milling machines and grinders
- Made from 30,000 PSI tensile strength, fine grade cast iron
- Base and bed are parallel to 0.001 in
- Center of base is open for holding work through the body of vise

PALMGREN® Dual Force Precision CNC Machine Vise

- Built for use on all types of CNC machines
- Ideal for applications that require multiple vises to be mounted parallel to each other
- Can be mounted on its base/bottom, on either side or positioned on its end in the vertical position
- Both sides are precision ground square to the bottom of the vise within 0.0004 in
- Parallelism of keyways on bottom of vise bed to the jaw face +/- 0.0008˝
- 80,000 PSI ductile iron castings
- Hardened jaw plates
- Lifeteime Warranty

Precision Machine Vises

- Flame hardened bed for wear resistance
- Hardened and ground jaw plates
- Ground surface top and bottom of vise bed, tops of both jaws in pairs, all jaw plate mounting surfaces
- Needle bearing thrust collar. Cuts friction and adds clamping power.
- Spherical segment eliminates jaw lifting and work piece tilting
- Hardened lead screw with ground threads
- Swivel handle
- Coolant trough on vise body and swivel base
- **Model HT71-ATW60MC is NC/CNC vise**

ROHM RB-K Vises

- Operated mechanically with power intensification
- Stepwise clamping force presetting
- Clamping without power intensification for deformation-sensitive work-pieces possible
- High precision due to precise jaw guides
- Rapid clamping range adjustment via locking pin
- Better coolant and chip flow
- High wear resistance due to hardenend jaw guides
- Can be used on a rotation plate with angular spacing
- Ground area with longitudinal groove for accurate fixing on machine table
- Clamping option with clamps
- Enclosed spindle

PALMGREN INC Dual Force Mechanical Booster Vises

New!

- Equipped with a patented mechanical booster and adjustable clamping force system that delivers secure, accurate and efficient clamping without the need to over tighten the vise spindle
- The adjustable clamping pressure provides consistent, continuous force of up to 11,200 pounds (50KN) maximum making part holding simple and easy
- Precise clamping force regulation (patented) is achieved by turning the force ring to one of three graduation settings and a simple turn on the handle provides precise clamping pressure every time
- Adjustable clamping pressure provides consistent, continuous force of up to 11,200 pounds (50KN) maximum making part holding easy
- Mechanical booster (patented) is equipped with an internal disc spring design that guards against shocks and vibrations maintaining consistent pressure during the machining operation
- Incorporates the Dual-Force design of all directional alignment with a 1/2 pound of downward force for every pound of horizontal force
- Precision ground and hardened jaw plates and hardened vise body
- Lifetime Warranty

PALMGREN INC Dual Force Double Station Vise

New!

- Allows for multiple part workholding for better spindle utilization, reduced tool change time, and reduced machine travel from part to part
- 80,000 PSI ductile iron casting deliver the strength, rigidity and long term accuracy required while absorbing machine vibration
- 1/2 pound of downward force for every pound of horizontal force on both moveable jaws
- Can be mounted horizontally or vertically
- One handle operates the two moveable jaws
- Unit can clamp two of the same size parts or different size parts
- Lifetime Warranty

Jaw Opening (in.)	Jaw Width (in.)	Throat Depth (in.)	Weight	Order No.	Price

PALMGREN INC Dual Force Self Centering Vise

New!

- Can be used on both vertical as well as horizontal machining centers
- Centering accuracy from minimum to maxiumum opening is .0006” with .0002” repeatablility
- Both moveable jaws incorporate the Dual Force design with zero deflection and lift while providing quick, accurate centering of the workpiece
- Precision ground on all sides
- Equipped with Dual Force anti-lift mechanism in both jaws
- Height tolerance is within ±0.0004” so several vises can be lined up parallel to each other
- 80,000 PSI ductile iron castings deliver the strength, rigidity and long term accuracy required while absorbing machine vibration
- Hardened bed ways
- Lifetime Warranty

ROHM MSR Machine Vises with Draw-Down Jaws

- For universal use on milling machines and machining centers
- Fast clamping range adjustment via bolt system
- Complete with clamping wrench, workpiece stop and four clamping claws
- Draw-down jaws
- Hardened steel body (60 HRC)
- Clamping repeatability 0.02mm

PALMGREN Self Centering Vise

- Ideal to use with drilling and milling machines where quick, accurate centering of the work piece below the spindle is required
- Moveable jaws are mounted on precision ground and hardened guide rails
- Constructed of close grained, high tensile strength fine cast iron
- Each vise comes with three sets of 4 in jaws, 1 pair of steel hardened, 1 pair of steel soft, and 1 pair of steel step jaws
- Lifetime Warranty

RAPTOR 100mm Self Center Vise

- Tolerance +/-0.013 (0.0005)
- Repeatability 0.001
- Jaw adjust from either end of vise
- Jaws opening capability from 2.50”/63.4mm to 5.62”/142.8mm
- Segment screw for added rigidity
- Loc-Down screws to secure vise in place and allows for quick change capability
- Utilizes two dowel pins: one for centering and one for locating
- Clamping rails

KURT Self-Centering Vises

- Designed for 5-axis machining
- Repeatability within ±0.0002”
- Reversible, machinable jaws
- Users can machine in a step for higher accuracy, eliminating the need for parallels
- Clamp parts on I.D. or O.D.
- 2-1/2” maximum jaw width
- Tall jaws provide better spindle clearance
- Flexible mounting options

HD690 & HD691 Series Vises

- Stationary jaw bolts down from top
- No need to remove from table to disassemble vise
- Bolting the stationary from the top reduces the stress in the body and will stay flatter after assembly
- Bolts and locates directly on standard grid plates: 40mm, 50mm or 2”
- Pull type body design reduces stress in the body resulting in more accurate clamping
- Quick change movable jaw
- Adaptable to hydraulic (HD690)
- Uses sine keys for alignment
- GrooveLock® jaw and workstop included
- Body Height matched ±0.0005”

DX Series Crossover™ Vises

- DX CrossOver™ vises are a combination of AngLock®, Pull-Type and 4 bolt stationary jaw design.
- Hardened vise bed/jaw plates
- Semi-hard steel screw
- 80,000 psi ductile iron body, nut and movable jaw
- Bolts & locates on 40mm, 50mm and 2” grid patterns
- Accepts sine keys for alignment’s (not included)
- Chip evacuation straight through the body
- Screw support held in place with snap rings
- GrooveLock® jaw plate and workstop included
- New brush seal design makes it easier to replace
- Includes chip guard
- Powder coat paint is long lasting and durable
- Lifetime Iron Clad Warranty

AngLock® Vises

- Designed for precision part clamping on basic machine tools such as knee type mills, grinders, and machine centers
- Extremely high accuracy where datums, flatness, and parallelism is important
- Anglock® design assures the movable jaw does not lift
- Hardened vise bed and jaw plates
- 80,000 psi flame hardened ductile iron construction

HDL Anglock® Vises

Features:

- High density long vises with two clamping stations
- Provide repeatable clamping to 0.0002” and combine high density with heavy duty features
- Designed on rugged 80,000 PSI ductile iron body with steel components, provide strength, rigidity and long term accuracy while absorbing machining vibration
- Full 4” opening in each station with standard jaw system
- Maximizes number of parts in the work envelope
- Adjustable pre-load feature allows you to minimize pre-load range thus reducing the turns of the handle to open or close the vise.
- Holding block features the ability to clamp same or dissimilar sized parts and provides pre-loading ability in the front or back jaw.
- **Hydraulic models also available – please inquire.**

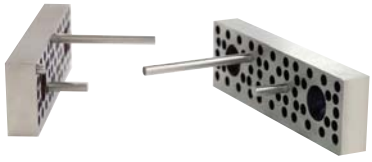
3-in-1 System Jaw Plates

MADE IN THE USA

KURT360° Advantage

- Ideal for quick setups of common angle cuts
- Preset patterns in jaws provide for these 7 popular angles: 5°, 10°, 15°, 20°, 25°, 30°, 45°
- Tolerance between holes 0.0004" (0.01mm)
- Jaw dimensions: 6" x 1.735" x 0.725" & 8" x 2.20" x 1.075" ±0.000787" (±0.02mm)
- Pins sets included are:
  - 4 ea. 6 x 22mm
  - 3 ea. 6 x 58mm
  - 3 ea. 6 x 40mm
  - 3 ea. 6 x 76mm
- Pins sets dimensional tolerance: ±0.0007" (0.018mm)
- Doubles as a convenient workstop, triples as a parallel
- Does the work of three products



For Use With	Order No.	Price
6" Vises	**HT80KSJ6**	Price

DoveLock Jaw Kits

Features:

- Quick change for fast setups in under 1 minute
- DoveLock jaws are changed from the top by loosening 3 quick-clamps
- Jaws can be removed from the front or side
- Workstop for postion repeatability to ±0.001"
- Aluminum jaws are machined not extruded
- Jaws are machinable for part profile or steps
- Jaws can be turned 180° to do 2 different setups
- Machinable jaws sold separately and available in 6, 7, 8 and 10" widths
- Master jaw set and jaw kits machine of 6061 aluminum
- Patent pending design
- Fits all industry standard Kurt 6" vises and towers

Master Jaw Set Includes:

- 2 Master jaws
- 4 Cap screws
- T-Handle hex key
- DJ6 inch
- DJ6M metric

Jaw Kits Includes:

- 2 Machinable aluminum jaws

KURT Hydraulic Cluster Towers

- This hydraulically operated eight station tower features all-new design for fast loading of parts
- All internalized hydraulic piston/nut saves valuable space
- Includes all original KURT AngLock precision clamping and iron clad rigid construction for damping vibration

Features:

- Hydraulically operated eight station CTHDHLM64 Cluster Tower
- Utilizes an all internal hydraulic piston nut to conserve space
- Pressure is maintained until released by operator or triggering device
- Easy disconnect for pallet shuttle
- Repeatable clamping to 0.0002”
- Each station delivers up to 7,100 lbs. of clam
- Each face is controlled separately for conver removal
- Jaw opening is 4” per station
- Each face has a maximum total stroke of 1/4
- Jaw options available: Hard jaws, machinabl ductile iron
- Base sizes available: 400mm, 500mm, 630n
- Lifetime Iron Clad Warranty

KURT MaxLock™ Vises

- Jaws are reversible for ID and OD clampng without losing any clamp force
- Designed with 2 sets of jaws, Serrated and Dovetail (shipped with serrated jaws)
- Each set of jaws has 3 different clamping areas, at the bed, in the middle of the jaw and at the top of the jaw
- Center line that is easily adjusted to the tables rotation
- Clamping force +/- .0005 repeatability

PALMGREN INC Dual Force 5 Axis Machine Vises

- Designed especially for multi-face machining of simple to complicated workpieceswith a single clamping operation
- These vises are small but have a large holding capacity making them ideal for 5-sided machining
- Equipped with a variety of jaw options to cover a wide range of workholding applications
- These unique vises deliver unrestricted all around access to the workpiece and are equipped with our Dual Force anti-lift mechanism to counter the lifting effect on the part while being machined
- 80,000 PSI Ductile iron castings for rigidity and dimensional stability
- Simple, robust construction, smooth surfaces, easy cleaning
- All sides are hardened and ground
- Both clamping jaws move simultaneously, self-centering to shorten the clamp and un-clamp times
- From the center of the workpiece to the bed of the vise is perpendicular to 0.0004”
- Lifetime Warranty

Stainless Steel .375" Dovetail Fixture

- .375” Dovetail fixture is utilized for milling applications
- Offers superior clamping strength while allowing access to five sides of the workpiece
- Comes with two mounting bolts and two Dowel Pins for location
- Manufactured from 17-4 Stainless Steel Heat Treated to H-1150
- Fixture clamp is made from 17-4 Stainless Steel
- Unique Raptor Dovetail spring-loaded clamps require only 1/8” of material to hold the workpiece

Stainless Steel .281"W x .0781"H Dovetail Fixtures with .075" Dovetail Bottom

- .281” Dovetail fixture for milling applications
- This is new micro design is similar to the original RWP-010SS, yet this product has a deeper dovetail, .0781”, to provide additional holding strength.
- Designed to connect directly to the following 0.75” dovetail fixtures: RWP-002, RWP-002SS, RWP-015, RWP-023, RWP-024 and RWP-030SS
- Sllows you to quickly machine smaller size parts without taking your primary fixtures off of the machine
- Manufactured from 17-4 Heat Treated Stainless Steel
- Fixture clamp is made from 17-4 Stainless Steel
- Unique Raptor Dovetail spring-loaded clamps require only .077” of material to hold the workpiece

Suburban Round Rare Earth Magnetics Chucks

MRRE13

MRRE30FP

Features:
- Made with neodymium iron boron type rare earth magnets for exceptonal holding power
- 80 N/cm2 (116 psi) nominal holding power

Standard Pole:
- Suitable for grinding & light milling
- Works best for holding medium-sized workpieces
- Has 4mm steel poles & 2mm brass spacers

Fine Pole:
- Suitable for grinding & EDM
- Works best for holding smaller & thinner workpieces
- Has 1.5mm steel poles & 0.5mm brass spacers

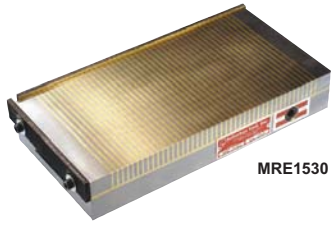
Suburban Rectangular Rare Earth Magnetics Chucks



MRE1530

MRE1325FP

Features:
- Made with neodymium iron boron tupe rare earth magnets for exceptional holding power
- Flat, square & parallel within 0.005mm/100mm
- Chucks are lubricated & sealed against dirt & liquids
- 80 N/cm2 (116 psi) nominal holding power
- Includes removeable handle, side and back rails

Standard Pole:
- Suitable for grinding & light milling
- Works best for holding larger & thicker workpieces
- Has 4mm steel poles & 2mm brass spacers

Fine Pole:
- Suitable for grinding & EDM
- Works best for holding smaller & thinner workpieces

O.S. Walker Ceramax Magnetic Chucks

MADE IN THE USA

- Industry standard for permanent magnetic chucks
- Fine pole for maximum strength on small or hardened parts
- Double stacked magnets creating the strongest holding power of any ceramic magnetic chuck
- Silver brazed top plate for maximum holding power
- Watertight for grinders, EDM and milling applications
- Lowest height of any permanent chuck
- Includes backrest, side rails, and two cast clamps

O.S. WALKER NEOMicro² Chucks

For Precision Grinding & EDM

- Super accurate
- Loaded with Rare Earth Neodymium magnet material
- Micro fine top plate with .02" brass gaps and .05" steel poles
- Maxiumum workholding surface 100% active with no weak areas
- Ideal for very thin and small components
- Low profile
- One back rest and one end stop

O.S. WALKER Electromagnetic Chuck Controls

Manual Release Variable Holding

SCV-1.5 Series Features:

- Direct current supply
- Variable holding feature
- Manual release
- Input: 115V AC
- Output: 0-110V DC
- Wattage capacity: 150
- Can be used with LBP chucks

MADE IN THE USA

SMART-B Series Features:

- Automatic release
- Full, varaible, and residual holding
- Compatible use with chucks from other manufacturers
- Touchpad control for easy selection
- Automatic release cycle assures workpiece is released cleanly without residual magnetism
- Input: 115 VAC Output: 0-110 VDC

Wattage Capacity	Weight	Order No.	Price

O.S. WALKER LBP Electro-Magnetic Fine Pole Chucks

- Fine pole longitudinal bar poles with .03" brass gaps and .12" steel poles
- Silver brazed solid top plate
- Watertight for grinders, EDM, and milling applications
- Extremely low profile
- Includes backrest, side rails, and two cast clamps
- Twist lock plug for easy assembly to a Walker Smart B or SCV chuck control
- 115 VDC

Suburban Electromagnetic Chucks

Transverse Pole Chucks – Poles Run Side To Side
Longitudinal Pole Chucks – Poles Run End To End

- Top plate has 1/8" steel poles and 1/16" stainless steel separators
- Chucks are sealed against dirt and liquids
- Longitudinal (lengthwise) or transverse (crosswise) pole models available
- Two clamps, back rail and side rail included
- Chuck controls must be used with all electromagnetic chucks!

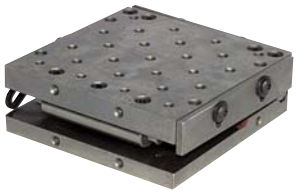
Suburban Sine Plates



- Made of steel, hardened to Rc 58-60
- Sizes up to 6" x 6" have 1/4-20 tapped holes, larger sizes have 3/8-16 tapped holes. Model NJ50-SP555 has t-slots for 1/4" T-bolts
- Gage block roll has two .200" minute steps for setting small angles with standard gage block sets
- A locking strap that always remains below the top surface and two self-storing, hardened and ground rails are standard
- Angular accuracy guaranteed within 5 seconds of arc up to 15°, within 10 seconds up to 30°, and within 15 seconds up to 45°
- Models with the suffix "S0, S1 or S2" are part of the SineSet® System. Other products with the same part number suffix will bolt directly to these sine plates
- T-Slot top - NJ50SP555

MAG-MATE® Continuous Duty Demagnetizers

- Surface Type Demagnetizers are designed for stationary or portable use, providing continuous duty operation as work pieces pass over the demagnetizer’s face plate
- The surface type design allows for installation under, over or alongside conveyors for demagnetizing applications
- 6 Foot cord with grounded plug
- Integrated side handles for hand held operation
- AC pilot light and On/Off Switch
- Portable and/or stationary
- Continuous duty
- Durable face plate
- 240V AC available on request

Slotted Angle Plates

These Slotted Angle Plates have convenient clamping slots for mounting and are widely used for machining, layout and inspection.
- Material: High quality close-grained gray iron, stress-relieved against distortion by heat-treatment
- Available in machine finish only
- Available in two qualities: American Made or Top Quality Import
- Webbed end angle plates have side webs and are machined square and parallel on outside faces and ends
- Open End Angle Plates are accurately machined square and parallel on the faces
- Giant Slotted Angle Plates are machined on outside faces

Lisle Master Chuck Keys

MADE IN THE USA

- Each master key as 4 sizes
- Strong neodymium magnets for attachment close to the worksite or toolbox
- Cast from alloy steel for strength
- Available in small or large chuck key
- The eight key sizes should cover most chucks that are available

Size	Order No.	Price
4 Sizes for Most Med/Large Chucks	**KN6512060**	Price
4 Sizes For Most Small Chucks	**KN6512050**	Price

STONE TOOLS Master Chuck Keys

Features:

MADE IN THE USA

- Carbon or Stainless Steel Models
- Two sizes open 1/4 to 3/4”
- Open over 200 different chucks
- Master Chuck I - large key fits heavy duty 3/8 to 3/4” chucks (ST12/12A)
- Master Chuck II - smaller key fits 1/4 to light duty 1/2” chucks (ST13/13A)
- Stainless steel models offer extra wear resistants - does not rust

Jacobs Super Chuck® Ball Bearing Chucks

Designed for close tolerance production drilling on precision equipment

- Specifically engineered for heavy-duty, close tolerance production drilling
- Adaptable to a wide range of production drilling equipment, jig borers, milling machines, lathes and radials
- Utilizing a ball thrust bearing to reduce friction in the chuck closing mechanism, it permits the application of more gripping force on drill shanks to maximize drilling torque
- Ball bearing construction maximizes gripping force and drilling accuracy
- Jaws center-ground for absolute straightness and alignment
- Through–hardened sleeve teeth plus hardened nose and keyholes provide outstanding wear resistance
- T.I.R. .003” Maximum at half capacity

Jacobs Heavy Duty Plain Bearing Chuck

Taper Mounted

- Jaws center ground for absolute straightness and alignment
- One piece sleeve eliminates crack between driving teeth, often found in other designs
- Through hardened sleeve teeth, plus hardened nose and keyholes provide outstanding wear resistance
- Each chuck 100% inspected for performance and precision
- T.I.R .004” maximum at half capacity
- Fluted sleeve standard except Model 34-33C, which is smooth and ground
- (2) Equipped with positive drive slot
- (3) Equipped with pin type positive drive
- (4) Equipped with locking collar - 1-1/16-20 thread, smooth sleeve

LLAMBRICHUSA Industrial Keyless Drill Chucks

- Drill chucks for medium duty industrial use, available with threaded mounts for professional hand held drilling machines and with tapered mounts for stationary drilling machines
- Automatic fittings for efficient quick change of tools
- Self-tightening mechanism automatically increases the grip in proportion to the increase in torque during the drilling and avoids the tool from slipping in clockwise rotation rotation
- Fits tools of up to 3/4" in diameter drill shank

Porta Precision Industrial Keyless Chucks

- **Applications:** Through its permanent and automatic retightening, this proven design is ideal for high drill speeds and precision work with drills, boring mills and special drilling machines.
- Self tightening, no key required
- Due to tapered sleeve, tool and workpiece can be observed clearly
- Automatic retightening
- Only suitable for right-hand rotation
- Manufactured in Europe

ALBRECHT Keyless Chucks

- Used on the finest precision drilling machinery where close tolerance drilling is essential
- All working parts are of alloy steel and expertly hardened making the Albrecht an ideal chuck for heavy duty drilling
- Designed for both toolroom and production machinery where accuracy, gripping power and the keyless features are desired
- Used today on high accuracy drill presses, jig borers, milling machines and production drilling equipment
- Model 15-J0 keyless drill chuck is especially designed for holding small diameter twist drills and has a micrometer graduation on its sleeve to facilitate the changing of the smallest drills
- Model 15-J0 has a maximum capacity of 1/16" and a minimum capacity of .008

Case Not Included

5C Horizontal / Vertical Collet Fixture

- Hardened and ground spindle
- Two position heavy casting
- Collets are held dead length
- Quick-Acting lever type
- Base Width: 4-1/2”
- Base Length: 6”
- Overall Height: 4”

Order No.	Price
JN6071103	Price

Angle Collet Fixture

Uses Standard 5C Collets

All moving parts hardened, ground and honed

- Collet does not move up or down
- Retains positive relation to the base
- Can be adjusted or changed without disturbing your set-up
- For drilling, milling, grinding, tapping assembly, etc
- A must for every machine shop
- Height: 3-3/4”

Order No.	Price
JN50MSR1	Price

5C Vertical Collet Vise

- Mounted on ground flat base for vertical use only
- Uses any standard 5C collet for a capacity up to 1-1/8”round
- Also accepts hex and square collets
- Height: 4-3/8”
- Small movement of lever opens and closes collet

Order No.	Price
JN6071105	Price

5C Horizontal / Vertical Rapid Collet Indexer

- Fast and accurate indexing
- Accepts either standard 5C collets or a 5” chuck
- 4 positions provide for either 15, 30, 45, 60° divisions
- 5C Collets Not Included

Order No.	Price
JN6071101	Price

5C Indexing Spin Jig

- A multi-purpose machine indexing fixture designed to extend work capabilities of surface grinders, drill presses and all types of milling machines
- Plate is graduated by degrees to 360°
- Vernier to 10 min. accuracy .0005 ground lapped; 2” travel for flute grinding
- Standard 5C collets
- Capacity 1-1/8”
- Simple 1° indexing
- Spindle lock
- Hardened and ground spindle
- Spindle lock hole for tightening collet
- Index plate has 36 hole circle

Order No.	Price
MW50SJ5C	Price

Collet Holding Fixture For 5C Collets

- Collets held dead length
- Hardened and ground spindle two position — heavy casting
- Weight: 18 lbs.

MADE IN THE USA

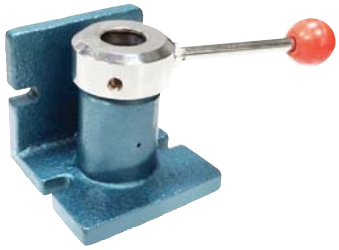
Order No.	Price
JM5010C	Price

5C Positive Lock Collet Fixture

- Uses standard 5C collets
- With cam lock and a positive release
- Collet does not move up or down
- Retains positive relation to base
- Can be adjusted or changed without disturbing setup

Order No.	Price
JN6071102	Price

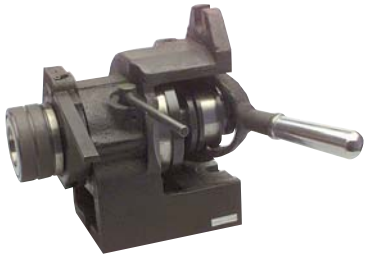
5C Horizontal / Vertical Collet Vise



- Mounted on an angle plate
- Uses any standard 5C collet, for a capacity up to 1-1/8 round
- A small movement of the lever opens and closes the collet

Order No.	Price
JN6071104	Price

5C Collet Horizontal/Vertical Indexing Fixture



- A rapid indexing fixture for use with both Collets (5C 1-1/8” capacity) and lathe chucks
- The latter may be fitted to the 2-1/4-8 threaded spindle
- Fixtures are designed to be mounted vertically or horizontally
- Indexing is accomplished by releasing the spring loaded index pin lever
- The spindle rotates freely until the next open space when the index pin engages again and locks the spindle
- Possible divisions are: 2, 3, 4, 6, 8, 12 and 24

Dimensions:

- Center Height: 4”
- Base: Horizontal 4” x 8”, Vertical 4” x 6”
- Overall Height: Horizontal 7-3/4”, Vertical 8”
- Shipping Weight: 30 lbs.

Order No.	Price
JJ55004	Price

Super Precision 5C Collet Chuck With Fine Adjustment

- For Mounting with Adapter Plates 0.0004" T.I.R.and 6000 RPM
- Used for turning, facing, boring, grinding and milling operations on center lathes and grinding machines
- The simple key operated scroll provides a uniform, distortion free clamping of the workpiece and low collet exchange time
- Four fine adjustment screws are used to set up the chuck on its mounting plate to get precision within .0004" T.I.R. on duplicate parts
- Body - made of high quality Forged Steel
- Forged Scroll – fully hardened and ground for longer life
- Pinions – hardened and ground. 5" Mounting plates (Adapters) A5, D3, D4, D5, Threaded 1" x 10 and 1-1/2" x 8 are available
- **Standard Accessories:** 1 Chuck wrench, 1 set of mounting bolts, 1 Allen Key
- **Uses Standard 5C Collets — Not Included**

Chuck Size (in.)	5C Collet Holding Cap.	Weight	Order No.	Price
5	1/16 to 1-1/8	12 lbs	**HK308620505**	Price

5C Collet Chuck

- .0008 T.I.R. & 6000 RPM
- Designed for use with 5C collets of all internal bore configurations
- Can be used for turning, facing, boring, grinding and milling operations on center lathes and grinding machines
- The simple key operated scroll makes for uniform, distortion free clamping of work-pieces as well as keeping the time required to change collets or work to a minimum
- Their simple design, rugged construction and fine workmanship assures high quality of chucks and long service life
- **Standard Accessories:** 1 Chuck wrench, 1 set of mounting bolts, 1 Allen key
- **Uses Standard 5C Collets — Not Included**

Chuck Size (in.)	5C Collet Holding Cap.	Weight	Order No.	Price
5	1/16 to 1-1/8	10 lbs	**JJ558620501**	Price

Kalamazoo 5C Collet Chuck

- For short runs using a 5C Collet
- Lock and release at the front
- Heavy-duty
- All steel — hardened and ground
- Drilled and tapped holes at rear of collet chuck for mounting to a plate

Kalamazoo Universal Indexer

The Most Versatile Accessory for Your Shop

- Takes a 4" universal chuck — 3-jaw or 6-jaw or 5C collets
- Head can be angled from minus 0° to 100° plus
- Indexes quickly, easily — spindle locks in positive position
- Numerous combinations by changing ground indexing-spacer
- Can be dismantled in seconds for easy cleaning
- For drill presses, milling machines, grinders, layout work
- With 24 space ring less chuck

Type	Weight	Order No.	Price
Draw-in Nut for 5C Collets for Universal Indexer	1/4 lbs	**JM50AD5C**	Price

Kalamazoo Index Fixture For 5C Collets

- For drilling, milling, grinding, and locating angles
- Index plate easily changed
- Precision ground spindle
- Plate can be bolted to top for drill bushing
- Use in vertical position with angle plate
- Rugged, quality built in Kalamazoo
- Model 5C complete with 24 space ring and 5C draw nut

Type	Weight	Order No.	Price

heinrich Air Collet Fixture

- Uses standard 5-C type collets up to 1-1/16" diameter to hold round, hexagonal and square workpieces
- Can also be used with step chuck collets and expanding chucks for internal gripping
- Double acting, piston type air cylinder develops holding power 18 times air line pressure
- Maximum operating pressure 150 psi
- Has 1-7/64" hole completely through unit for bar feeds or dropping finished parts
- Base of fixture is relieved for chip removal and coolant flow

Description	Order No.	Price
1-1/16" Capacity-Complete with 4-Way Foot Pedal (No. 45-12C1) & 3 Hoses (No. 34-14)	**JC501AC**	Price

Harig "World Famous" Grind-All No. 1 Fixture

- Grinds various shaped punches up to 1-1/4" diameter
- Built for high precision work within ±.0001
- Radii generated with sliding V-block
- Multi-sides produced with 24 division index
- Constructed of hardened tool steel, with critical internal parts protected from grinding dust for long-lasting, accurate performance
- Complete with carrying case, work-holding V-block and 24 division indexing plate

Specifications:

- V-Block Capacity: 1-1/4"
- Center height: 3.00"
- Index divisions: 24
- Accuracy: +/- .0001"
- Graduation: 360º
- Net weight: 12 lbs.

Suburban Master Grind™

- Twin-Dex combination 5C collet and V-block in one fixture
- Horizontal or vertical V-block mounting
- 72-Position index plate for hard index every five degrees ±15 arc seconds
- Two heavy duty 4" diameter tapered roller bearings in spindle
- Extra large 1-5/8" V-block capacity
- Built-in sine bar for setting angles between hard index locations
- Square and parallel within .0002"
- Maximum spindle runout .00005"
- Sine set compatible
- Fitted wooden case included
- Model MG5CVS1WBTS Master Grind, fitted base and tailstock complete

Suburban Accessories for Master-Grind

Motor Drive Kit:

- 1/15 HP, reversible, variable speed, 60 to 300 RPM
- Includes mounting bracket, motor pulley, drive belt and screws
- Easy one-minute installation
- Motor mounts on either side of Master-Grind

Base Plate and Tailstock:

- Tailstock has 1/2" diameter x 60° spring-loaded center with locking screw
- Includes 1/2" 5C collet and steel 60° headstock center
- Base plate and edge guide are hardened and ground
- †NOTE: Factory fitting of Order No. MV5CVS1 to base plate and tailstock is required. This is included at no charge even when the base plate and tailstock is purchased separately from the index fixture.

Sine Plate or Compound Sine Plate:

- Attaches directly to Master-Grind with 2 screws, no clamps required
- Precision ground flat, square and parallel within .0002"
- .200" Minute steps on gage roll for setting small angles
- Made of steel hardened to RC58-62
- Two self-storing rails and one locking strap included
- See NJ50SP66S1 To Order the Sine Plate for Master-Grind
- See NJ50SPC66S1 to order the Compound Sine Plate for Master-Grind

Suburban Mini-Master All Purpose Index Fixture

- 3" Height is ideal for small machine setups
- Weight only 4 pounds for easy handling
- 72-Position index plate allows an index every 5°
- 5/8" Through hole in spindle
- Uses standard ER-25 spring collets
- Spindle runs in two sealed preloaded bearings
- Maximum spindle runout .0002"
- Spindle can be secured by stop button for easy tightening of collets
- Hardened steel base plate is ground square and parallel with spindle axis within 0.0002"
- Fitted wooden case and collet wrench included

Harig Lectric-Centers Motorized Cylindrical Grinding Fixture

MADE IN THE USA

For external grinding on a surface grinder

- Quickly converts a surface grinder for cylindrical grinding applications and can also be used for critical inspection.
- The Dead Center design permits extremely close accuracies down to 50 millionths and less to be easily obtained
- Can be mounted directly on magnetic chuck or onto the optional 4" x 6" sine plate (Order No. NJ60-055100)
- Completely motorized for ease of stock removal
- Complete with diamond holder for wheel dressing, interchangeable male and female centers, adjustable headstock & tailstock and carrying case

Specifications:

- Swing: 6"
- Center distance: 7"
- Center height: 3"
- Accuracy: 0.000050 TIR
- Motor: 115Volt/1 Phase
- Speeds: 180 & 360 RPM
- Net weight: 20 lbs.

Harig Uni-Dex Ultra Precise Collet Fixture

- Hardened and ground throughout, its integral preloaded ball and race bearing, and 24 division index arrangement delivers extreme positioning accuracy and precision
- Magnetic chuck, face plate and 3-jaw chuck accessories
- Comes with carrying case

Specifications:

- Runout with 5-C collet - 0.000050
- Index accuracy: ±10 seconds
- Center height: 3"
- Thru hole: 1-1/4"
- Index divisions: 24
- Collet type: 5C & 5ST
- 3-Jaw chuck hole: 3/4"
- Weight: 10-1/2 lbs.

Harig Spin-Indexers

MADE IN THE USA

- Sturdy and dimensionally stable cast iron housing
- Large preloaded ball bearings are durable and accurate — ideal for motorization
- 5C collet holder ground in assembly to under 0.00001" runout
- 24 Division index plate with precision index pins locks in every 15° to +/- 30 seconds
- Draw sleeve for quick set-ups of collets and accessories
- Extended base for minimal deflection even with heavier parts
- 1/4" Diameter mounting hole on top of housing for diamond dresser

Specifications:

- Collet - 5C up to 1"
- Center height - 4-1/8"
- 24 division indexing - +/- 30 seconds
- Spindle runout - 0.00001"
- Spindle parallel to base - 0.0002 in 6"
- Motor - 1/15HP 110V AC
- Variable speed - 50-450 RPM
- Weight: 17 lbs.

World Class Quality End Mill Grinding Fixture

Features:

- Uses 5C Collets (no more bushings to lose) which means any shank size end mill from 1/16" to 1-1/8" can be ground
- Shell mills can be easily held with straight shank arbors
- The use of 5C Collets assures concentricity
- Solid positive ball stops with 15° spacing fast and easy set ups
- Grinds 2-3-4-6-8 and 12-fluted end mills and shellmills. Faces only!
- Clearance and relief angles are built into base
- Solid 2-1/2" x 4-1/2". Base ground on bottom for sure contact with magnet
- Black oxide finish

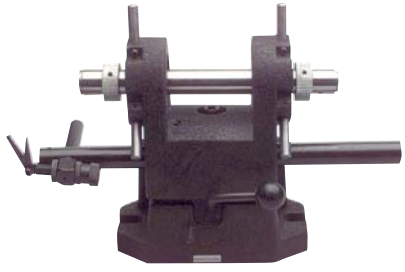
HN50RGF	Price

National End Mill Cutter Sharpener

- Sharpens saws, end mills, inserted blade cutters, etc
- Sharpens all end mills up to 2-1/2" Diameter; 1-1/4" Shank
  Rigid finger holder and bar for best precision finish
- Micrometer Dial for setting adjusting finger for cutting edge clearance
- Rocker Arm enables fast indexing and brings cutter to wheel



- Accepts cutters with diameters up to 12" and larger with use of riser blocks
- Spindle Bearings require no air, hydraulic or delicate adjustments
- Includes 2 spindles and 4 bushings to cover full range from 3/16" to 1-1/4" shank end mills
- Base size: 7-1/16" x 3-15/16"
- Weight: 35 lbs.

Horizontal/Vertical Precision Rotary Tables

- Works as an index center in the vertical position as well as a conventional rotary table for circular cutting, angle setting, boring and spot facing
- 10-Second Vernier reading
- Disengageable worm gear permits rapid rotation
- Worm gear is hardened and ground
- Optional dividing plates and crank handle can be attached to the rotary table drive mechanism
- One rotation of handle equals 4”
- Made of Meehanite
- The base of the body, table surface and rotating parts are ground finished, permitting very smooth rotation

Specifications: (Note: Max. Variation is inches per second)

Horizontal/Vertical Super Indexing Spacers

- Combines the advantages of the Simple Index with those of a worm-geared index
- Can carryout single-purpose indexing and indirect indexing using the worm-drive mechanism when mounted on a milling, boring or machine tool
- Disengaging the worm drive, the 24-notch master plate permits 2, 3, 4, 6, 8, 12 and 24 dividing in the same manner as the Simple Index
- When the chuck is removed the unit can be used as a horizontal and vertical type rotary table
- Operating handle to rotary table worm gear reduction ratio is 1:90
- Operating handle collar is graduated in one minute, and readings down to ten seconds can be set on the Vernier
- CS6 complete with 6" 3-jaw chuck; 2-pc. hardened and reversible jaw; 8" face flate and 6 masking plates
- CS8 complete with 8' 3-jaw chuck; 2-pc. hardened and reversible jaw; 10" face flate and 6 masking plates

Horizontal/Vertical Super Spacers

With 6", 8" or 12" Precision Steel Body 3-Jaw Chuck

- Catch device allows you to perform basic indexing in divisions of 2, 3, 4, 6, 8, 12 & 24 without changing masking plates
- Designed for milling, drilling, jig boring and related machining operations
- Simple and compact construction provides for 2 types of dividing
- Angular indexing can be performed through the graduation ring from 0° to 360° in increments of 1°

Specifications:

- Indexing Accuracy - 2'
- Squareness (Base to Chuck) - .0008" Max.
- Parallelism Over Face - .0008" Max.
- Concentricity of Chuck - .0015 Tir.

GTI ER Tapping Attachments ISO 9002

Application:
- Axial-float/tension/compression type for CNC milling machines and lathes with reversing motors and rigid tapping

Features:
- Compensates for machine feed and tap pitch variance
- Floating mechanism compensates for misalignment between tap and workpiece
- Right and left hand tapping
- Practical and efficient tap holding by the ER spring collet without using jaw drive
- Compact design for minimal clearance applications
- Heavy-duty design for high torque drive ensures the same accuracy as the tap itself

Type - GTI ER Integral Shank Tapping Attachment

TAPMATIC RX Series Tapping Heads

Self-Reversing Tapping Heads For Drill Presses & Milling Machines

- Pre-selective torque drive prevents tap breakage
- Heavy duty ball clutch
- Accurate depth control
- Re-entry cushion eliminates cross threading
- Higher production rates
- Longer tap life
- For right hand tapping only

Model No.	Collet Style	Mount	Capacity (in.)	Self Feed	Max. RPM	Order No.	Price

High Speed Tappers

Style E & F

- Balanced, heat-treated gear reversing mechanism minimizes strain and wear.
- Reverses at twice forward speed to increase productivity and avoid tap jamming.
- Extremely sensitive friction clutch engages conical surfaces of drive and reverse shells with smooth, "cushioned" action, allowing sensitive operator "feel"
- Assure automatic tap protection
- One-piece TRU-GRIP spindle assures true alignment
- Can be modified to be used in horizontal position
- Factory can easily alter any model for left-hand tapping
- **Collets not included—order separately below**

Round Multiple Spindle Heads

- Multiple Spindle Drilling Heads drill up to 17 holes simultaneously in work areas up to 8” diameter, or 5” x 12” rectangular
- Multiple Tapping Attachments are designed for use with style 3AL Tapper and taps up to 17 holes at once
- Multiple Spindle Drilling Heads and tapping attachments standard equipment includes: unbored TEM-PLATE, wrenches, cover clamp and shank (as required)
- Spindle assemblies and collets sold separately
- Tapping head with base assembly
- Drilling head shown with optional cover clamp

TRU-GRIP Straight Shank Tapping Chucks

- Use on CNC machining centers, screw machines, automatic lathes and chuckers, CNC lathes and milling machines
- Eliminates tap breakage caused during machine reversal by automatically providing overtravel and compensating for improper feed ranges
- Provides excellent tapped holes
- Can be used in either rigid or reversing spindles
- Easily adapts to any machine with a 3/4”, or 1”, or 1-1/2” holder
- Order style “E”/“F” collets sold separately

Rectangular Multiple Spindle Heads

Prices shown are for the multiple spindle heads only. Other prices will vary depending on your requirements. To determine the correct multiple spindle head for your application, please provide the work area, the size & number of holes and the type of material to be machined. Please also specify the make & model of the drill press to be used. Cover clamps for drilling heads are sold separately according to the style of drill press.

- Spindle assemblies and collets sold separately
- Driling head shown with optional cover clamp
- GH50-35003 shown

RAPIDHOLD® Tap Adapters

- Rigid – for through holes
- Tension/compression - provides protection against tap breakage and is the best solution for blind hole tapping

PARLEC Rigid Tapping Holders

- For use with popular Bilz style size and adapters
- Utilizes existing adapter inventory
- Rigid and tension-only shank available for use with sychronous tapping cycles
- Radial float improves thread quality and tap life
- Short projection maximizes workpiece size
- Adjustable short compression stroke ensures accurate depth control
- Free-floating tension stroke ensures thread size and quality
- Rugged alloy steel construction long trouble-free service life
- Coolant through up to 250 lbs. pressure

PARLEC Tap Adapters

- **Rigid:** Best suited for through holes and in applications where tap breakage is not a concern
- **Torque Control:** Torque Control Adapters are the best solution for protecting your taps and work pieces from tap breakage. The prime application for Torque Control Adapters is Blind Hole Tapping and where Chip Evacuation is a concern

Tapping Collets - Inch

Rapidhold:
- 0.0004" T.I.R.
- High Qaulity Spring Steel
- Works with standard ER Collet chucks for synchronous Rigid Tapping Operations
- Replaces Tap Holders
- Tapping clearance is reduced
- Collet design locks tap shank

Rego-Fix:
- Interchangeable, with standard ER collet DIN 6499/ISO 15488
- No additional toolholders and clamping nuts necessary
- Wide product range, sizes: ER11 to 40
- Square for tight grip of tap, eliminates tap slippage in collets

Techniks:
- Reduced clearance requirements
- Special design locks square in slots
- Compatible with the standard collet chucks for ER, DR, RD, ESX, BR or DIN 6499 collet pockets
- The special square design locks flat-sided tap shanks into collet, preventing the tap from spinning inside the collet

Collet Style/Fits - ER11

Tapping Collets - Metric

Rego-Fix:

- Interchangeable, with standard ER collet DIN 6499/ISO 15488
- No additional toolholders and clamping nuts necessary
- Wide product range, sizes: ER11 to 40
- Square for tight grip of tap, eliminates tap slippage in collets

Techniks:

- Reduced clearance requirements
- Special design locks square in slots
- Compatible with the stanard collet chucks for ER, DR, RDd, ESX, BR or DIN 6499 collet pockets
- The special square design locks flat-sided tap shanks into collet, preventing the tap from spinning inside the collet

Collet Style/Fits - ER11

Magic Chucks

- For quick change tooling on single spindle machines
- Tool changes can be made without slowing or stopping machine
- Completely hardened and precision ground
- For vertical spindles
- A slight touch raises the large locking ring to release the collet and tool
- Magic chucks for horizontal spindles available

National Boring Heads

- Ideal for mill or jig bore operation
- These heads readily adapt to many different machines due to interchangeable shanks
- 2” and 3” Heads have large .001” reading dial screw
- 4” Heads have .0005” reading dial for fine adjustment

Head Dia. (in.)	OAL w/o Shank (in.)	Boring Bar Hole (in.)	Cir. Distance Between Holes (in.)	Offset (in.)	Threaded Back	Order No.	Price

4	3-3/4	1	1-1/4	1-5/8	1-1/2-18	**GE65NBH204**	Price

Criterion Model CB Round Styles

- Because of the two vertical and one horizontal hole, the merit of these heads lies in their versatility
- They feature a wide bar holder base to assure maximum rigidity
- As in all Criterion heads, they too feature direct dial screws
- The threaded shanks accept a variety of shanks
- Note: Other diameters and hole size options exist-call for price and availability

Actual Round Size (in.)	OAL (in.)	Boring Bar Hole Size (in.)	Offset (in.)	Thread	Order No.	Price
2	2-13/32	3/8	5/8	7/8-20	**GE60CB202A**	Price

4	3-3/4	1	1-5/8	1-1/2-18	**GE60CB204E**	Price

Criterion Model S Square Style

- These heads have threaded backs that will accept a variety of shanks
- The micrometer adjusting screws are direct reading with 50 graduations on the dial of the GE60S112 and 100 graduations on the dial of the GE60S3 or GE60S3C
- Note: Other diameters and hole size options exist-call for price and availability

Actual Square Size (in.)	OAL (in.)	Boring Bar Hole Round Size (in.)	Offset (in.)	Thread	Order No.	Price
1-1/2 Square	2-1/4	1/2	9/16	7/8-20	**GE60S112**	Price
3 Square	2-15/16	1	1-1/2	1-1/2-18	**GE60S3**	Price

Criterion 3FHB Boring and Facing Head

- Ideal tool for performing those difficult facing, grooving, backfacing and counterboring operations on work pieces too large to turn or too bulky to handle safely
- Automatic feed is in the forward mode and is actuated by holding a knurled feed-ring
- To return to starting position a hex wrench is inserted in the end of the micrometer screw and manually reversed
- Features a gear drive that generates a continuous feed rate of .003” per revolution
- To prevent damage to the gear train, a specially designed detent clutch automatically disengages when a pre-set stop is reached or when cutting pressures become excessive
- A 1-1/2-18 threaded back permits the use of any of the 1-1/2-18 threaded shanks and adapters shown above

Threaded Back	Body Dia. (in.)	Height (in.)	Offset or Travel (in.)	Boring Bar Hole Size (in.)	Cross Hole Dia. Bar Dia.	Feed Rate	Order No.	Price

Precision Boring Heads with Integrated Shanks

- Entirely manufactured in the USA
- Available in R-8, 3/4” or 1” shanks
- Precision hardened steel
- 2”, 2-1/2” and 3” Body diameter
- Direct reading .001” micrometer dial screw
- Boring capacity up to 4”

ALLIED MACHINE & ENGINEERING CORP Criterion Bridgeport Boring Head Sets

MADE IN THE USA

Criterion Machine Works has made available a number of boring head sets specifically selected for Bridgeport Mills. These sets include a standard Criterion Boring Head with an R-8 shank and a wide range of boring tools and boring bars. The boring tools are available in either a C-2 or C-6 grade of carbide. C-6 Standard, C-2 by special order only.

GE601100A Set

This set covers a boring range of 1/8” to 8-5/8” and consists of the following items.

- 1- CB-202 boring head
- 1- R-8 shank
- 1- SBT-125B boring tool 1/8” bore diameter
- 1- SBT-187B boring tool 3/16” bore diameter
- 1- SBT-250B boring tool 1/4” bore diameter
- 1- SBT-312B boring tool 5/16” bore diameter
- 1- SBT-375B boring tool 3/8” bore diameter
- 1- SBT-500B boring tool 1/2” bore diameter

GE601100A

GE601300A Set

This set covers a boring range of 1/2” to 11” and consists of the following items.

- 1- CB-203 boring head
- 1- R-8 shank
- 1- SBT-500D boring tool 1/2” bore diameter
- 1- SBT-625D boring tool 5/8” bore diameter
- 1- SBT-750D boring tool 3/4” bore diameter
- 1- SBT-1000D boring tool 1” bore diameter
- 1- SBT-1250D boring tool 1-1/4” bore diameter
- 1- SBT-500B boring tool 1/2” bore diameter

ALLIED MACHINE & ENGINEERING CORP Criterion Micro Adjusting CNC Boring Kits

- Excellent for close tolerance bores
- Total range of micro adjustment is .006" on diameter
- Ground to AT3 Taper Tolerance
- Through the spindle coolant capable
- Boring Bars
- CBT Style uncoated micro grain carbide
- TA Style carbide insert, 4 flat design
- Comes with custom molded plastic case
- All kits includes toolholder, adapter, boring bars & carbide inserts

TG Style Collet Holders

Rapidhold:
- All collet chucks are supplied with depth set screws
- Collet seat taper T.I.R. greater than 0.0002”
- Produced according to AT3 specifications
- Tools are made of a high quality steel
- Through the spindle coolant capability
- Dynamically balanced to G6.3 @ 15,000 RPM
- All balanced tools are supplied with QA certificate

Parlec:
- Constructed of alloy steel for long, durable service life
- Hardened to RC 52-56 to avoid damaging collet chuck threads
- Collet seat taper T.I.R. greater than .0002”
- Collet face within .06 of nut face for maximum rigidity
- Through-spindle coolant capability
- Parsymmetry™ design for high-speed operation

Techniks:
- .0002” concentricity or less from shank to bore
- Black oxide prior to finish grind
- External threads are finished ground for best collet nut concentricity
- Will work with any TG75 series collet

Briney:
- .0002” concentricity or less from taper shank to bore
- Black oxide prior to finish grind
- External threads are finished ground for best collet nut concentricity

Individual TG Style Collets

Specifications:

- TG Collets are produced with silicium chrome steel 46±2
- Precision ground with CNC machines
- Tested with high precision inspection and gaging equipment
- TG Collets achieve greater grip strength than double angle collets
- Clamping range is 1/64”

RAPIDHOLD BT40 ER Style Collet Holders

- Produced according to AT3 specifications
- Tools are made of a high quality alloy steel
- Collet seat taper T.I.R. greater than 0.0002”
- Through the spindle coolant capability
- Dynamically balanced to G6.5 @ 15,000 RPM
- All collet chucks are supplied with depth set screws
- All balanced tools are supplied with QA certificate

CAT50 Shank ER Collet Holders

- Case hardened to 58-62 HRc
- Pre-balanced to G2.5 @ 22,000 RPM's
- T.I.R. from the collet cavity to the holder taper 0.0001" or better
- Lot Numbers for lot traceability
- Through the spindle coolant or through the flange version available
- BT & CAT+ have Hi-Q clamping nut included
- AT3 or beter tapers guaranteed
- Superior surface finish at 0.25Ra for better fit and accuracy
- Swiss made to ISO 90001
- Big Plus System - Licensed by Big Daishowa

F.O.B. Factory

RAPIDHOLD Straight Shank ER Collet Holders

- Produced according to AT3 specifications
- Tools are made of a high quality alloy steel
- Collet seat taper T.I.R. greater than 0.0002”
- Through the spindle coolant capability
- Dynamically balanced to G6.5 @ 15,000 RPM
- All collet chucks are supplied with depth set screws
- All balanced tools are supplied with QA certificate

Individual Inch ER Spring Collets

- ER spring collets are the only clamping collet system for combined milling, drilling, reaming, tapping and boring
- ER collets concentricity guaranteed to .0004”
- Wide holding range of each collet requires fewer collets and changes - guarantees that undersize cutting tools can be held without sacrificing accuracy or gripping power
- Unique self-releasing system eliminates sticking
- Flute holding capabilities for highest concentricity and clamping power
- ER mini-collet chucks allow for machining in tight locations with reduced outside nose diameter
- Clamping range is .039”

Individual Metric ER Spring Collets

Features:

- ER Spring Collets are the only Clamping Collet System for combined milling, drilling, reaming, tapping and boring
- ER Collets concentricity guaranteed to .0004”
- Wide holding range of each collet requires fewer collets and changes - guarantees that undersize cutting tools can be held without sacrificing accuracy or gripping power
- Uniqure self-releasing system elimiates sticking
- Flute holding capabilities for highest concentricity and clamping power
- ER Mini-Collet Chucks allow for machining in tight locations with reduced outside nose diameter
- Clamping range is .039”

Ultra Precision Collets - Inch

RAPIDHOLD ULTRA PRECISION COLLETS:

- Inch & Metric sizes
- Made with high quality bearing steel and heat treated for high flexibilty and long life
- Made in DIN6499 - 0..0002" T.I.R.
- Wide clamping range with 0.02 - 0.039" collapsibility

REGO-FIX ER ULTRA PRECISION COLLETS:

- High precision collets combine the advantages of DIN 6499/ ISO 15488 A + B
- T.I.R. ≤ 5µm over the entire clamping range
- Clamping range from diameter 0.2mm up to 36mm

PARLEC ER GRADE AA 5 MICRON COLLETS:

- Evenly distributed cutting edges for high performace machining .0002" (5 micron) gage tolerance
- Exceeds DIN requirements
- 12 slots, deburred and polished
- Increased grip force with reduced friction to collet seat

Collet Style/Fits - ER8

Ultra Precision Collets - Metric

REGO-FIX ER ULTRA PRECISION COLLETS:

- High precision collets combine the advantages of DIN 6499/ISO 15488 A + B
- T.I.R. ≤ 5µm over the entire clamping range
- Clamping range from diameter 0.2mm up to 36mm

PARLEC GRADE AA 5 MICRON COLLETS:

- Evenly distributed cutting edges for high performace machining .0002" (5 micron) gage tolerance
- Exceeds DIN requirements
- 12 slots, deburred and polished
- Increased grip force with reduced friction to collet seat

Collet Style/Fits - ER8
